Including a Special interesting and Instructive Department for Children and Youth.
The Agriculturist is a large periodical of 32 pages, well printed, and filled with plain, practical, reliable original matter, including hundreds of beautiful and instructive Engravings in every annual volume.
It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in and around the Dwelling, etc.
The thousands of hints and suggestions given in every volume are prepared by practical intelligent working men, who know what they write about.
The Household Department is valuable to every Housekeeper, affording very many useful hints and directions calculated to lighten and facilitate in door work.
The Department for Children and Youth is prepared with special care, to furnish not only amusement, but also to inculcate knowledge and sound moral principles.
CIRCULATION—TEN THOUSAND.—The circulation of the American Agriculturist (60,000 to 100,000) is so large that it can be furnished at the low price of $1.50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single numbers, 15 cents each. TRY IT A YEAR. Club Price for 1866.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen,
I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I feel bound to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUEZ,
Merchant, Curacoa, S. A.
New York, June 28th, 1865.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.
MANUFACTURED ONLY BY

Portsmouth, N. H.

SATURDAY, NOVEMBER 11, 1865.

LOUISIANA AND TEXAS.—A New Orleans dispatch says Gen. Fullerton has issued two circulars, one reminding the Freedmen that the time is approaching to make contracts for labor for another year, and the other directing all officers and agents collecting a school tax to report to him with the collections.

The planters have adopted a plan to get freedmen to pick cotton, which is meeting with success. When a day's work is done the cotton picked by each freedmen is measured and he paid according to the amount picked.

[This the proper way to treat all workmen: the laborer is worthy of his hire, and each should be rewarded for what he does, promptly.]

The cotton fields of Texas remain unpicked, the freedmen refusing to work.

[Because the system of pay there is not so good as in other places. Darkies on a strike! Is it possible!]

The total vote of New Orleans is but two thirds that before the war. County parishes, as far as heard from, give the Democratic ticket the predominance. The conservatives are nowhere. The negroes had nine polls open in New Orleans and two or three in Platte District, opposite the city.

Cotton is extremely dull: middling 54c. Gold 149 1-2. The receipts of gold this week amount to fully a million.

Gov. Humphrey of Mississippi calls upon the people of that State to organize companies to aid the civil authorities in maintaining law and order, and cautions them against oppressing the negroes in any way.

The trade between Texas and Mexico is increasing.

A LABORING MINISTER.—It was twenty-five years on Sunday, from the settlement of Rev. D. P. Pike as Pastor of the Christian Church. The church was organized six months before, and he had occasionally preached to them, but he is their first and only pastor, now closing his first quarter of a century. He was then young and is now old; was and is full of zeal; and with an iron constitution and great endurance, he has performed labors that few could endure. It has been his custom always, during more than half the year, to preach three sermons on the Sabbath; and for the other half, two sermons, and hold a prayer meeting in the evening; and he has failed in services, in the whole twenty-five years, but five Sundays. During the first fifteen years he likewise preached three sermons on week evenings, besides attending many conferences and prayer meetings; and at times of special religious interest, he has preached every day for one, two or three months together, besides holding one or two other meetings daily! One winter he preached, we think, a hundred successive days; and at the close baptised, at one tide, one hundred converts. He has averaged more than thirty marriages a year, forty funerals, and in all has baptized a thousand persons.

In the same time he has delivered a hundred temperance lectures and occasional sermons before conferences and conventions, to attend which he has travelled thousands of miles from Eastern Maine and the Canada line in Vermont to Ohio in the West and Virginia in the South. For ten years he was assistant editor, in fact as well as name, of the Herald of Gospel Liberty, and for five years has been its leading editor and proprietor. He has also written and published books and sermons. He has taken an active part in local matters and general politics, and attended many meetings for that purpose, and done a good share of speaking. For several years he filled town offices—School Committee, Overseer of the Poor, and Alderman. One year he was in the Governor's Council; and for five years almost he has been Deputy Collector of this port, a position where the work is oftentimes arduous, as much as an ordinary man would want to do, and which always confines him five hours in the day. *Newburyport Herald.*

WIRZ, when the death sentence was read to him in prison on Friday morning, is reported to have said, "I'm d—d if the Yankee eagle hasn't turned out to be what I expected, a d—d turkey buzzard." He then asked to have Father Boyle sent for, as his spiritual guide. Perley says, "Wirz has been an infidel, but of late he has professed repentance, and one of his religious advisers assures me that he believes that he truly repented just before the hour appointed for execution."

He was executed at twenty minutes before eleven o'clock. He died quietly, and made no confession of guilt. Wirz died with a great deal of pluck. Not a nerve trembled, and just before the cap was put over his face he looked steadily at the spectators, with half a smile upon his face. His body will be put in the vault of the Catholic cemetery, subject to the order of his wife.

— A Washington dispatch says Chief Justice Chase objects to having Davis tried at Richmond, and urges the postponement of the trial until after Congress meets. He wishes Congress to provide for the case especially. The President wishes for the trial immediately, and urges it upon the Chief Justice.

NEW HAMPSHIRE ITEMS.

—— Hon. Geo. G. Fogg, late American Minister to Switzerland, has arrived home.

—— Louis D'Alber, a Frenchman, has stolen clothes and money from a fellow boarder at Manchester, and is at large. He is a six footer, of sandy complexion, with moustache.

—— Rev. Mr. Osborne, of Exeter, has been ordained a pastor of the "Catholic Congregational Church" of Bristol, R. I.,—Rev. Dr. Shephard, the aged pastor, offering the Ordaining Prayer. The church organization is about 200 years old.

—— Chas. Stoart, who stole a horse, wagon and dog from Manchester, was overtaken at Cornish, Me., by a Mr. Watson of Moultonboro', with whom he had swapped horses. Stuart is in jail at Manchester; the horses are all right, and the dog was left at Cornish.

—— The Lawrence American says that Herman, the bogus post office detective, proves to be one Alvin Blake, who studied law with Hon. John S. Wells in Maine, (Exeter,?) and was afterward declared a false witness by a jury in New Hampshire. There is no United States law at present to punish a man for falsely personating an officer.

TENEMENTS.—Not an exchange do we pick up but what we see calls for more houses in the different localities in this State. We say State; we might have said States, for throughout New England and the largest cities of the West, can be heard the same demand for dwelling houses of every size, and the rents that are paid for comfortable tenements are truly fabulous. We know of no less than six families within the circle of our acquaintance who are compelled to board at an expense of double what it would cost to keep house.

It seems almost incredible that with so many vacant lots as in our city, and lumber so easily to be had, that houses should be rented at one quarter part of their original cost, which we are informed many in this city do. At this rate building cannot fail to be profitable; the constructor or owner having a return of the money invested in four years and the building as interest for the money; yet but a few of our moneyed men are willing to undertake an enterprise that will give surer and greater profits than any other in which they may embark.

But such is the case, and while rents are so high boarding house keepers feel warranted in charging high prices for board. It is to be hoped that this state of affairs will not continue, and that those who keep boarders will soon have to lower their exorbitant rates. We pray that the day may be hastened.—*Portland Advertiser.*

It *does* surprise many people, that all through New England, and throughout the most of the country, there should be such a demand for houses, when all the croakers and faint-hearts expected stagnation and depopulation after the war. But so it is, and is to continue, we think; for we believe the country is just entering on a new and glorious era.

But what nonsense is all this urging of capitalists to build houses! As if they don't know their own business and interest, better than newspaper scribblers! And those who begrudge boarding-house keepers *their* profits, had better go into the business, that's all.

There will be a great deal of suffering in Atlanta soon unless help comes. Many are without shelter and sleep where night overtakes them. The Governors of North Carolina and Tennessee offer all the aid in their power to promote the interests of education. Great destitution prevails in North Carolina.

— The venerable Mrs. Partington once asked us if we believed that everything was foreordained beforehand in advance. We were compelled to answer that sometimes we did and sometimes we didn't. She remarked that her son Isaac says he knows one thing was foreordained *sure*, and that is, that the J. Monroe Taylor Gold Medal Soap will supersede and run out every other kind of soap made. The old lady further remarked, that she believed so too, and was sure there was no other as good, for she had tried it. 8

VERMONT LEGISLATURE.—The Vermont Legislature has passed a resolution to adjourn. The militia law is likely to be kicked over. A bill has passed the House abolishing officers' drills and musters, but it awaited the action of the Senate. A majority of the Committee on Ways and Means reported *against* the bill to tax *incomes* from U. S. bonds.

CONNECTICUT. — Gov. Buckingham of Connecticut has issued a proclamation relative to the recent vote in that State on the proposed Constitutional amendment striking out the word "white." The official count gives 27,217 votes for the amendment, to 33,489 against, making a majority of 6272 opposed to the extension of suffrage.

NOTES OF FORMER DAYS.

Collected and Collated by UNCLE TOBY.

Mark Hunking Wentworth—Rev. Mr. Ogden—Paper Money—Daniel Fowle.

The Honorable Mark Hunking Wentworth, father of Sir John Wentworth, and son of Lieutenant Governor Wentworth, departed this life December 19th, 1785. He was bred a merchant, was largely concerned in trade and navigation, had the agency of procuring masts and spars for the British navy, and by these various branches of business, amassed a large and splendid fortune. He was, many years before the revolution, one of his Majesty's Council, and was one of the original purchasers of Mason's patent, and in all his transactions was influenced by the most correct and honorable motives. The Legislature of the State confiscated the estate of Governor Sir John Wentworth, and put it under the direction of trustees; by whose bad management, a great part of it was lost. Confiscated estates were afterwards settled in the Probate Courts. His father's claim was presented, and proved by authentic vouchers before the Judge, but amounting to four times as much as those of all the other creditors, he generously withdrew his claim, that every other person might be paid in full. His benevolence continually prompted him to acts of kindness and liberality. His charity was unbounded; the poor and distressed always found in him a ready friend and benefactor.

In the year 1786, His Excellency John Langdon rebuilt the bridge over the dock, commonly called Canoe Bridge, (in Washington street) and presented the same to the town.

The Church service had not been regularly performed in Queen's Chapel since the death of Mr. Brown in 1776. The church had been shut up most of the time during this long period. The parish had employed a lay reader, who officiated nearly a year. They now came to a determination to settle another minister; and in December gave an invitation to the Rev. John C. Ogden, which was accepted. He had been ordained by the Right Rev. Samuel Seabury, Bishop of Connecticut.

On the 31st day of October, the proprietors of the social library, dissolved their society, sold their books at auction, and divided the proceeds.

There was a general complaint in the country of the depressed situation of trade, which was supposed to be owing to the great scarcity of money; and the General Court proposed to remedy the evil, by emitting a paper currency. They submitted the plan upon which they proposed to issue it, to the several towns in the State. The town of Portsmouth was legally assembled on the 6th of November, and expressed an opinion that a paper medium, would increase the difficulties; that it could not answer the purpose of trade; that it would deprive this state of commerce, and drain it of its specie; that the disproportion between a paper currency and specie, would always cause the former to depreciate; that if the officers of government were obliged to receive their salaries in paper money, the highest offices would be filled by persons unworthy of the lowest; that paper money always has promoted, and ever will promote corruption, and a multitude of other concomitant evils, and considering it either in a moral or political point of view, they heartily reprobated it.

Daniel Fowle, Esq., died in June 1787, aged seventy-two years. He was born at Charlestown in Massachusetts, and served his apprenticeship with a printer in Boston, where he commenced business in 1740, and two years afterwards entered into partnership with Gamaliel Rogers. During this connection, they published an edition of the New Testament in 12mo.; the American Magazine, and a newspaper, entitled the Independent Advertiser. This partnership was dissolved in 1750, and Fowle again carried on the printing business by himself. In 1754, he was arrested by virtue of a warrant, signed by the Speaker of the House of Representatives, on suspicion of having printed a pamphlet, entitled, "The Monster of Monsters, by Tom Thumb, Esq." which contained some severe reflections on several of the members.

After an examination before the House, they ordered him to be committed to the common gaol, where he was detained two or three days, without permission to see his family or friends, and deprived of the use of pen, ink and paper. He was greatly injured by this treatment, but could obtain no redress. He soon after wrote and published a particular account of these arbitrary measures, in a pamphlet called "Total Eclipse of Liberty." He resolved to live no longer under a government, which had deprived him of his freedom, without adverting to the rules of law, and determined to embrace the first favorable opportunity to change his situation. Accordingly, having received encouragement from several respectable inhabitants, he removed to Portsmouth in July, 1756, and set up his printing business here. This was the first establishment of the kind ever made in the province. He commenced the publication of the New Hampshire Gazette the October following, which was continued, with some short interruptions, until his death. In 1764, he took his Nephew, Robert Fowle, into partnership, under the firm of Daniel and Robert Fowle. This connexion continued until 1774, when a difference in political opinions caused their separation. Mr. Fowle did but little business, except printing the newspaper, the state laws, and a few pamphlets. The Governor appointed him a Justice of the Peace, soon after his settlement here. "He was a correct printer, and industrious. In his disposition he was pacific, agreeable in his manners, liberal in his sentiments, and attached to the cause of his country."

He had a negro servant, named Primus, who was brought from Africa. This negro, although very illiterate, was a good pressman and worked at the business in his master's office, until prevented by age. He was upwards of ninety years old at the time of his death.

The late John Melcher, Esq., was an apprentice to Mr. Fowle, was liberally remembered in his will and succeeded to his business; like his master he was a correct printer and industrious; and lived to complete his 90th year.

THE REASON

Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in many a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, to exchange it for the Southwest (Saint Louis.) My Wife's health being very feeble, and being advised many times during her suffering that change of climate would be beneficial to her,—after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.

Respectfully yours,

I. HAHN.

VINELAND

FARM AND FRUIT LANDS,

In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.

The cotton lands are productive, varying from a clay to a sandy loam, suitable for Wheat, Grass, Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c, produce immense crops. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *a resort of people of taste.* It has increased five thousand people during the past three years. Churches, Stores, Schools, Academies, Societies for Art and Learning, and other elements of refinement and culture have been introduced, and hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.

Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.

Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.

For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.

Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of colonists, sent to applicants.

BOUNTY.

$100 BOUNTY.

THE OLD $100 BOUNTY.

The bounty of $100 promised to men who enlisted early in the war, but which was paid only to those who served two years, or who were discharged for wounds, will in all probability soon be paid to all men who served over one year.

This bounty was promised by placards and posters all over the country, and by nearly every recruiting officer to *all* men upon receiving honorable discharges. We therefore propose in connection with other offices, to make application for payment of bounties as follows:

1. To all soldiers the bounties promised to them, no matter for what reason, or reasons, they may have been discharged, provided such discharges were not for disability existing *prior to enlistment*, or were ordered as *punishments.*

2. To nine months' men, three-eighths of $100—$37.50.

3. To one year's men, $100 bounty, as promised.

4. To all men discharged *within two years*, by reason of disabilities contracted while in the service, *but alone because of wounds received in action.*) the *full bounty* to be given them by the Act of Congress under which they were enlisted.

5. To all men discharged by reason of promotion a *pro rata* bounty, according to the Act under which they enlisted, for the time they served as enlisted men.

6. Of $200 bounty to all deserters who rejoined their regiments and served two years, *exclusive* of the time they were absent without leave.

7. Of three months' pay proper to all officers who have been discharged by reason of disabilities contracted in the service, by reason of expiration of term of service; or by becoming supernumeraries on account of consolidation of regiments.

8. Of three months' pay proper to all enlisted men who were prisoners of war for three months or longer.

9. Also a grant of 160 acres of land to all enlisted men who only received the $100; and a similar grant to officers in proportion to their pay proper.

Inform all your friends who are interested and solicit their co-operation.

HARTFORD, CONN., Nov. 11th, 1861.
Messrs. THOS. ALLCOCK & Co.:—Please send with dispatch, twelve dozen Allcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing, a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay $5 for a single plaster, if they could not be had at a lower rate. I am surprised that surgeons do not make use of these perforated plasters, to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them render them greatly superior to all others for ordinary surgical uses. Knowing the Plasters to be so useful, I have no scruples into my sentiments should be known. J. W. JOHNSON, M. D.

Dunno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.
Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1.6r for four boxes. Address JAS. DUKNO, P. O. Box 1235, New York City.

SOOTHING SYRUP
For Children Teething,
which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is
Sure to Regulate the Bowels.
Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**
We have put up and sold this article for over 50 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *what we do know*, after 30 years' experience; and *pledge our reputation for the fulfillment of what we here declare.*
In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.
Sold by all Druggists throughout the world.
Price, Only 35 Cents per Bottle.

POLICE COURT, Nov. 9.—The readers of the Chronicle have been seldom annoyed during the past few weeks by frequent attempts at wit under the above caption, for the reason that those who are prone to do wickedly are interested in regard to the fate of their fellows,—whose cases are being considered from day to day at the Supreme Judicial Court,—and their attention naturally centres at the Court House, giving them no time to procure those inspiriting refreshments which ultimately bring them before the public.

John Norton closes a bad rumhole when he shuts his mouth, which if he would keep closed, it would save him some trouble and expense. As it is, however, he takes many long pulls at the flattened bottle, and gets uproariously intoxicated, the result of which smells strongly of rum and $6.86.

John T. Gray complains of James Broughton, Jr. for assaulting his (Gray's) cow. In the absence of the gentle quadruped the case was dismissed. Ira W. Brown, George D. Cotton, Abel T. Brown and David I. Lamprey of North Hampton, are complained of by Johnathan Philbrick of the same town for stealing a quantity of sea-weed from a certain beach, the same being above the high water mark. There being a sufficient amount of evidence necessary to hold the respondents, they were severally ordered to recognize in the sum of $100 for their appearance at the S. J. Court.

The above case should serve as a warning to all those who are addicted to the use of tobacco. If one steadfastly adheres to a resolution never to tamper with the weed, of course all other weeds, such as rag-weed, may-weed, white-weed, hog-weed, smartweed, barn-weed, rock-weed, sea-weed, &c., &c., will be included, and hence no police court arraignment will ever be the portion of him who thus resolves.

Nov. 10th.—George Hare should have had prudence and foresight enough to have lain aside the sum of $6.86 for use in case his drunken frolics should come to the knowledge of the police. He does not, however, and so this improvident Hibernian, being found guilty of the offence of drunkenness, departs for the House of Correction, there to practice hygienics.

S. J. COURT, Friday.—Hannah Cusick and John Carroll, each indicted for fornication, severally retracted their plea of not guilty and plead nolle contendere.

The case against John Soughton, indicted for rape upon Catherine Fritz, was entered a nolle pros.

Sedley A. Lowd retracted his plea of not guilty, and entered a plea of nolle contendere, and was allowed to depart on his own recognizance, a question having arisen as to his sanity.

State vs Cunningham was given to the jury on Friday noon. The jury had not agreed when the Court adjourned.

Benj. F. Walker, and Amanda his wife, retracted their plea of not guilty, and plead nolle contendere, paid costs of Court, and promised to discontinue their traffic.

Hattie Morrison changed her plea in same manner. The Atty. General stated to the Court that this was an indictment found a year ago, and that as the respondent had persisted in taking the profits by continuing business for a year, he would move for sentence. Mr. Hatch, counsel for deft., asked for time to put in affidavits on the part of the prisoner. Sentence deferred.

The Court adjourned to Monday, when the case against Sheehan for murder will be tried.

— The jury in the Sanders conspiracy case, recently on trial in Montreal, were discharged on Monday, the Judge specially remanding the prisoners to jail till the March term. Judge Mondelet addressed the jurors in very strong language. He told them in substance that either they were too ignorant to understand the evidence or they had perjured themselves, as the case was not one admitting of doubt. The Montreal papers say they suspect some tampering with jurors.

— The Richmond Inquirer of Friday asserts "on good authority" that the Cabinet is to be remodeled early in December, with Reverdy Johnson as Sec'y of State, Gen. McClellan Secretary of War, General Dix Secretary of the Navy, and a distinguished Southern gentleman, Attorney General. The man who conceived this romance had not heard of the result of Tuesday's election.

— An old man—over seventy-seven years of age—attempted to cut his throat in Hartford on Monday morning, the cause assigned by him being poverty and destitution. His condition was such from want that, although the wound was not necessarily fatal, yet he was not expected to survive.

— The Kentucky distillers of old Bourbon are being brought to grief by the Internal Revenue agents, who insist upon the payment of taxes without evasion.

BEAST WORSHIP IN ENGLAND.—The Primate of Ireland—Archbishop Cullen—treats in a curious and original manner of the cattle plague in a late pastoral. He says, substantially, that it is a judgment for a sort of Egyptian beast worship, which has grown up in Great Britain. Fortunes are given for fancy horses, who are attended, groomed and stabled like the favorites of the Roman Emperors. Cattle and sheep are also fed and cared for far more tenderly than human beings. They live in every comfort, and are fed to repletion, while the poor are crowded into wretched places or turned out to starve. A correspondent of the New York Times, in noticing this pastoral declaration of the reverend Bishop, says:—

The Primate of Ireland is right. I do not say about the judgment, but certainly about the preference here given to animals over human beings. How often have I seen in the same number of a London paper rewards of £5 for a lost poodle, and the death of some poor creature by starvation whom this £5 would have fed a year! Enough money is spent on a horse to feed twenty families. I have seen a fat coachman, two tall footmen, a female servant or companion, and two high-stepping carriage horses, looking as if they scorned the earth they trod, all employed in giving an airing to my lady's lap-dog! The horses have their groom as well as their driver, for an English coachman scorns to do anything but drive, just as an English footman will see a housemaid carry up stairs a big scuttle of coals, while he is taking up a card or a note on a silver salver. And these gorgeous flunkeys must have their five meals a day, three of which must be of meat, and of the best. And, for all this, the poor will be grumbling about the rich, and reading radical newspapers. Whether the cattle plague was sent to punish the beast-idolators or not, they doubtless feel it as a most disagreeable and disgusting infliction.

In every Township and County,
"The Secret Service,"
THE FIELD,
THE DUNGEON AND THE ESCAPE!
By ALBERT D. RICHARDSON,
N. Y. Tribune Correspondent.
[SECRET SERVICE IN TENNESSEE AND GEORGIA.]
This work embraces the entire narrative of Mr. Richardson's unparalleled experience for four years traveling through the South in the Secret Service of the Tribune at the outbreak of the war, with our armies and fleets, East and West; his thrilling capture and confinement, for twenty months, in seven different rebel prisons, his escape and almost miraculous journey of near 400 miles, added to the Rebel Mountaineers. It abounds in stirring events, and contains more of the fact, incident, and romance of the war than any other work which has yet appeared. One of the most interesting and exciting books ever published. Now ready in both English and German. Sold only by subscription. Address

A FARMER WITHOUT ARMS.—W. M. Beaucamp, Onondaga county, N. Y., sends to the Am. Agriculturalist an interesting account of a farmer he knew, who was born without arms. "Instead of appealing to the charitable for support, he commenced early to help himself. His first property was a hen, chickens, next a pet lamb, then a shaggy colt. He took care of these, and increased his stock a little at a time until he became a prosperous farmer. Having no hands, he learned to use his toes, which were longer than common. His legs were also very flexible, and by practice he was enabled to perform most operations with ease. He put on and took off his own clothing, shaved himself, milked his own cows, and took part in most of the of the labors of the farm. He was a terror to evil doers, whom he could punish with great severity. He was powerfully built and had great strength in the head and shoulders. He would butt like a ram, or seize an offending urchin by the teeth and shake him with ball dog tenacity. He died at the age of 70, leaving a large family—having been married three times.

— John Mink, of Waldoboro', a most notorious bounty jumper and thief, was arrested in Rockland a few days since, charged with the theft of a horse and wagon, and suspected of being concerned in the late store robberies in Whitefield and Jefferson.

The Mink family have been notorious poultry thieves ever since we could remember.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate. Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call

DR. DOW has long imported and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

HIGHLY IMPORTANT

—TO—

UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail, addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address DR. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1865. TThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A long consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with good nurses. Charges moderate.

THE SPECIFIC PILL Two To Six BOXES OF THE SPECIFIC PILL

is usually sufficient to effect a prompt and radical cure of SPERMATORRHŒA, or SEMINAL WEAKNESS, and is equally powerful and sovereign for every species of *Genital or Urinary Irritability*, Involuntary or *Nightly Seminal Emissions*, from whatever cause they may arise, or however severe, will be speedily relieved, and the organs restored healthy action.

PROFESSIONAL OPINIONS.—"I have used GERSPECIFIC PILL in many cases of *Spermatorrhœa* with the most *perfect success*."—J. MILTON ABBYES, M. D., LL. D.

"I have cured very severe cases with from six to ten doses of your SPECIFIC PILL."—B. KEITH M. D.

CHEROKEE PILLS,

Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness*, and all diseases that arise from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by directions*, and are easy to administer, being the *only sugar coated*. They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints full, as we treat all complaints, and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, 25 cents.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous ordinary Ills.* Restores new life and vigor to the aged, causing the hot blood of *youth to flow through the veins, restoring the Organs of Generation, removing Impotency and Debility; curing Nervous Headaches and the pains and and full vigor*, thus proving a perfect "*Elixir of Love*," removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and nervous to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

Price, one bottle $2; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make more profit. Do not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

The Chronicle.

— The Bath Times says a report having been circulated that the time of redemption for the bills of the Lewiston Falls Bank had expired, we learn that the time does not actually expire till the 30th of April next, though a despatch from the cashier says it will not expire till the bills are all in.

— In Rhode Island, the Providence Press is advised that the 30th instant—the day appointed by Gov. Smith, in his proclamation, as a day of Thanksgiving—will not be changed. The last Thursday of November has been invariably the day observed, and as the first occurrence of this great New England holiday commemorated the landing of Roger Williams, a name somewhat dear to Rhode Islanders, the Governor has followed precedent in the present appointment.

Reputation Established!
Mrs. S. A. Allen is truly a public benefactress, and her wonderful success is unprecedented. Her fame and her discoveries have gone abroad, and to-day she is in her line the largest manufacturess in the world.

Everybody Interested.
Youth and old age are alike benefited by the use of Mrs. S. A. Allen's World's Hair Restorer and Hair Dressing. They act directly upon the roots of the hair, causing luxuriant growth and beauty. Your hair, if changed to grey or white by sickness or other causes, will soon be restored to its natural color and beauty. Dandruff eradicated forever. The Hair falling stopped. The most delicate head-dress or bonnet can be worn without fear of soiling. The most delightful fragrance to the hair is imparted. If you wish to restore your hair, as in youth, and retain it through life, without delay purchase a bottle of Mrs. S. A. Allen's World's Hair Restorer and Dressing.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate to call and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Buboes, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Pimples, Blotches, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's medicines, and have been treated in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married State, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and manly. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for every body—Sent free by disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—gives Physician, Doctor Cabinle, of Venezuela, who immediately treated her with our EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen,
I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for three or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabinle, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

Morning Chronicle.

Portsmouth, N. H.

MONDAY, NOVEMBER 13, 1865.

☞ On Thursday, Wirz received a letter from his wife, dated Cadiz, Ky., in which she used the most affectionate language, and expressed the hope that they then were seeing their darkest hour. She urged him to prepare for the worst, but is satisfied that if the government knew how much *anguish* they had suffered he would not be condemned to death

All this is well for her to say;—and every humane soul must pity her. So also are to be pitied the thousand families among us, who suffered *anguish* with the thought that dear ones were starving to death in rebel prisons, where Wirz and Winder were the accessories and *tools*, and where Davis & Co. were the principal and more guilty criminals.

THE MORMONS.—A Salt Lake letter of Oct. 8, states that Brigham Young and the other leaders of the Mormons have changed their tactics and now proclaim polygamy to be their religion, which they will sustain by force of arms and ammunition, and openly defy the Federal authority.

We do not believe all of this;—but if it is all true, then the Salt Lake community is about to revolutionize itself after the manner of the defunct Confederates; viz. to fight *for* a certain "institution," and in so doing, *destroy* it!

☞ The Jamaica Standard of the 16th ult. gives the official report of the English General Nelson, at Morant Bay. He says every insurrectionist will be hanged as soon as captured. A British gunboat opened fire upon a collection of 800 women and children, dispersing them with 32-pounder shells. [This is only another edition of the same story. By-and-by we shall probably find out the origin of the rebellion, its cause, and see who are the most guilty ones. The report that the insurrection is due to "the stories of the indulgence and support afforded by the United States Government to the freedmen of the South," as contained in a letter from Kingston to the New York News, seems too absurd for belief. Yet there may be some truth in it.]

LESSONS OF THE WAR.—The revived Richmond Enquirer, like a mariner long tossed on a stormy sea, takes an observation, and thus defines its political latitude and longitude:

The question of supremacy between the State and Federal Governments has been decided by the arbitrament of war, and now we acknowledge allegiance, first, to the Union; before, we held obedience to be due first to the State.

If the above expresses the feeling of the leaders of the rebellion generally, it puts an end to the Calhoun doctrine of nullification and all its kindred heresies, out of which grew the rebellion.

NEW JERSEY.—The recent overturn in New Jersey took place opportunely for the interest of the country. In the term of Governor Ward, which commences January 17 and continues three years, there are to be appointed, four or six judges of the Court of Appeals, holding office six years, a Chancellor, presiding over the Court of Chancery, seven years; a Chief Justice and three associates out of six, and an Attorney General, each holding office seven years. Besides these, are the Clerks, Surrogates and Sheriffs of counties, 63 officers in all, who will be elected in 1867 for a term of five years. The most important offices of the State will therefore pass into the hands of the Union Republican party, and the legislative and judicial machinery be in complete accord.

SOUTH CAROLINA.—The following is a copy of a telegram addressed to His Excellency B. F. Perry, provisional Governor of South Carolina:

"Your letter of the 4th is just now received. While much has been done in South Carolina that is conducive to peace and restoration, the President still thinks it is impossible to anticipate events. He expects, therefore, you will continue to exercise the duties heretofore devolving upon you as Provisional Governor of South Carolina until you shall be relieved by his order. He observes with regret that neither the State Convention nor the Legislature has pronounced the debts and obligations contracted in the name of the State for unconstitutional and even rebellious purposes to be void. He equally regrets that the State seems to decline the Congressional amendment to the Constitution of the United States abolishing slavery. I telegraphed to you yesterday as follows:

'The President requests me to write you that an early adoption of the Congressional amendment of the Constitution of the United States abolishing slavery by the South Carolina Legislature is deemed peculiarly important, and especially desirable with reference to the general situation of the Union.'

I have now only to say that the President's opinions before expressed remain unchanged. W. H. SEWARD".

— A man named John Morrissey of Somerville, Mass., was arrested Thursday evening for assault upon his wife. While the officer was taking him out of the house he managed to escape, and in his flight fell through a railroad bridge a distance of 60 feet, causing injuries which will prove fatal to him.

THIEVES AND ROBBERS.—Chas. Spalding and a man named Heath were arrested at Canaan, and committed to Haverhill jail, Tuesday, charged with waylaying and attempting to rob Richard Sargeant, a cattle drover, residing in Canaan, the evening previous. Sargeant had just returned from Cambridge Market with a large sum of money, and was passing through a piece of woods, after dark, and was on his way home from Canaan depot, when he was met by two men, between whom he had to pass. One of them, Spalding, diverted his attention by inquiring how far it was to a tavern, while Heath aimed a blow at his head with a club. Turning at the instant, Mr. Sargeant caught the blow on his arm, knocked down both assailants, and took leg bail for home. The neighborhood was immediately alarmed, and eighteen or twenty men with lanterns started in pursuit. The ground was covered with two or three inches of snow, which enabled the party to track the robbers. They were pursued round and round for twenty miles or so, and till about 3 o'clock in the morning, when they were caught and caged.

The Herald's correspondent says Spalding is a young man about eighteen years of age, born in Sutton, and has been employed as a clerk in the shoe store of Fisk & Dow of Concord. A few weeks ago his employers arrested him on suspicion of having stolen, at different times, from them, between two and three hundred dollars' worth of boots and shoes, besides cutlery and fancy articles sold in the same store. Without bringing him to trial, he was permitted to go at large on payment of $60, and a promise to leave the city. Heath, his accomplice, had been employed in one of the livery stables.

These two fellows have been thieving in company lately,—but their career we hope is now closed.

DEATHS IN CONCORD.—The Concord correspondent of the Boston Herald states that there has been an unusual degree of mortality in the city within the past fortnight. Typhoid and congestive fevers have been most prevalent. Last week there were many mourners and sympathizing friends at the funerals of two interesting young ladies of seventeen, daughters of the late H. M. Robinson and Mr. Z. S. Packard. Thursday morning we have the melancholy duty of chronicling the death, by long fever, of Mr. David M. Dearborn, a valued citizen, well and extensively known as a manufacturer of musical instruments. He was ill but a few days. Anna, a promising daughter of Nathaniel White, Esq., also died at noon on Friday. These deaths will cast a gloom over a large circle.

SHINBORN, THE BANK ROBBER.—This criminal, who broke out of his prison at Keene, on the 2d instant, left a letter in his cell stating that he was greatly exercised in mind because of his being sentenced in advance of the hearing of exceptions raised on his trial by his counsel, and declaring that he would return to prison so soon as they were disposed of.

ALDRICH'S POEMS.—We take pleasure in welcoming Thomas Bailey Aldrich in his new costume of blue and gold, a dress which fits him most becomingly, and in which he appears charmingly at his ease. Among our poets he is entitled to a special place, for a pleasing combination of airiness of manner with delicacy and often depth of sentiment. He has a little of Leigh Hunt's jauntiness of manner, with a good deal of Leigh Hunt's marked delight in the delicious. His doubts and his miseries, which constitute no small portion of a modern rhymer's stock in trade, he keeps to himself; his happiness he partakes with his readers. The present collection is the only complete edition of his poems ever published. It contains "Judith," "Friar Jerome's beautiful book," "Legends and Lyrics," "Cloth of Gold," "Interludes," "The Ballad of Babie Bell and other Poems," "The Set of Turquoise," and "Sonnets." The volume is thoroughly readable and enjoyable. There is pathos as well as delight, rain as well as sunshine, in it; but the tears gleam with the light of an ever active fancy, and the rain drops at that time when it is most readily converted into rainbows. (Published by Ticknor and Fields.)—*Boston Transcript.*

PETERSON'S MAGAZINE, in 1866, will be greatly improved: the reading matter will be increased, and each number will contain a double-size Steel Fashion Plate, elegantly colored. The terms will remain $2 per annum. To clubs: five copies for $8; eight copies for $12; fourteen copies for $20.

IN MARYLAND, Governor Bradford has offered a reward of $500 for the arrest of the incendiaries who destroyed the colored Methodist Church at Middlington, Kent county. The motive was that the building was used as a day school for colored children.

The Governor has issued a proclamation appointing Thanksgiving on the 7th of December.

The latest returns from the 12th Judicial District indicate the election of Spence, the Union candidate, provided certain illegal votes, taken in disregard of the registry law, shall be thrown out. The Union men claim that the law has been entirely disregarded in some districts.

CONGRESS.—The Senate at the opening of the next session on Monday, Dec. 4, will consist of 38 Unionists and 11 Democrats. It is not known now how many Senators will be in Washington this winter claiming seats from the seceded States, but in no event can there be enough to weigh down the Union strength.

The same also may be said of the House. The Representatives who will take seats of course are politically divided, as follows:

States.	Union.	Dem.	States.	Union.	Dem.
Maine	5	—	Kentucky	4	5
N. Hampshire	3	—	Ohio	17	2
Mass.	10	—	Indiana	8	3
R. I.	2	—	Illinois	11	3
Conn.	4	—	Michigan	6	—

Penn.	15	9	Missouri	3	1
Delaware	—	1	Nevada	1	—
Maryland	3	2	California	3	—
West Virginia	3	—	Oregon	2	2
Kansas	1	—			

Total, Unionists, 142; Democrats, 41.

The States whose "reconstruction" has not yet been recognized and ratified by Congress are entitled when fully reorganized and recognized, to send Representatives as follows:

Virginia	8	Tennessee	8
North Carolina	7	Arkansas	3
South Carolina	4	Louisiana	8
Georgia	7	Texas	4
Alabama	6	Florida	1
Mississippi	5	Total	58

CHINA.—A letter from Hong Kong, September 11, to the Boston Journal, says:

A few weeks ago five men (Europeans) were hung in this city for being direct pirates, having taken life, &c., and on Saturday last the authorities captured a piratical Junk, most thoroughly armed with all the modern improvements in warfare, together with a large crew and quite a large amount of specie and bonds. The Junk passed through the harbor from Lyeemoor passage, and rounding too off Green Island came to anchor. It was just dark, but a Chinaman who had not been fairly divided with in the spoils gave information, and in two hours the whole party were lodged in jail and a guard was in possession of the celebrated pirate. The whole party will be hung, excepting the informer.

The China Sea is filled with shipping and freights are very dull, teas far behind in season.

The great topic on the board here now is the lucky strike of the Consul of the United States for Borneo, a gentleman who resides in Saco, Maine, and a ship master by profession. His name is C. Lee Moses. He was scarcely in Borneo two months before he became the owner (for twenty years) of 2400 miles of the richest and best territory in Borneo, together with the islands of Balabac and Palawau. Both islands are occupied by the Spanish under tribute to Borneo, which is now changed to tribute to Capt. Moses, U. S. Consul. The coal mines of Amburg, (very valuable here,) also the pearl fisheries, are included in the contract. The fine rattan marsh fields, Maroodoo and Petan, are also his. Gutta percha and rubber of first class East India quality are in his forests in immensity. Several firms in this city have made propositions to lease the territory of him. The Chinese are anxious for the bird's nests, camphor and betel, and the Borneo company wish it me to extend their business farther. But the American Consul has showed a determination to keep his trade in American hands only, and nothing can alter his determination. His invariable reply to foreign houses is—I am in Borneo for the purpose of augmenting the trade between Borneo and the United States, and therefore beg to refuse. It is reported here that Messrs. Parker & Co. of this city will be his agents. The strike of our Consul has by far surpassed that of Rajah Brook. He is also a Rajah by title of popularity. His property cost him only $45,000, and his native taxation brings him, I learn nearly $70,000 in produce at half price of the markets of Borneo. He is a lucky man indeed. He has already chartered a ship for produce.

PROVISION MARKET IN CHICAGO.—Opening of the Season.—We extract the following from Milward & Co.'s Circular of Nov. 1:

"As regards the prospects for the coming season, the farmers insist that the crop of hogs is shorter than was ever before known, while many drovers and others, who have had full opportunities of investigating the resources of the country, assert that we shall find, by the end of the season, that we shall have a full supply in the increased weight of pork, and that this will become still more apparent as the spring and summer months approach. Without expressing any opinion as to the correctness of either of these assertions, it is certain that packers have but little relish for present prices, and have most unpleasant doubts of seeing their money back again in the event of their making present investments.

The farmers, having plenty of corn, will probably feed their hogs late, rather than make any material concession at present. No contracts for the future delivery of any products have yet been entered into.

The packing of pork has been carried on to a very limited extent. Only four houses have engaged in the business, and only about 4200 cattle have been packed. These have been about equally divided between tierce and barrel beef. It is probable that unless prices should advance materially in England and the East, our winter's packing will continue on the same limited scale. Our freighting facilities, though yet untried in our business, promise material improvement. Four or five fast freight lines have been established to carry produce to the various points East, without breaking bulk, and will engage to deliver it at its destination in a stated time."

— The entrance to a woman's heart is thro' her eye or ear; but a philosopher has said the way to a man's heart is down his throat. Good house-wives understand this, and use Herrick Allen's Gold Medal Saleratus. If there are any so unfortunate as not to have tried it, go immediately to your Grocer and get a paper, and our word for it, it will make a beart, as hard as adamant, soften and be joyful, and ever after praise the seller of Herrick Allen's Gold Medal Saleratus. Everybody sells it. Depôt 112 Liberty Street, New York. Try it. 8

GENERAL SHERMAN'S LETTER.—There has been some talk in New York about a letter from General Sherman to General Kilpatrick on political matters, read by the latter at a public meeting lately. The New York Times of yesterday gives the letter as follows:

"*General Judson Kilpatrick:*

Dear Sir—I have observed with interest your political conflict in New Jersey. It is really provoking, hardly worthy of a science thought, but rather of satire and ridicule, the squirming of the politicians called copperheads, who opposed the war from every conceivable motive. Some from sheer cowardice, others to oppose a political party. Some because they thought we could not whip the South, and, now that it is reduced to demonstration, have hard work to explain their conduct even to themselves. I have no patience with that class of men, and believe the people of the South have more respect for us, who belabored them soundly, than for the copperheads, who, nominally their friends, led them deeper and deeper into trouble.

W. T SHERMAN, Major-General."

THE REASON

Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in many a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, to exchange it for the Southwest (Saint Louis.) My Wife's health being very feeble, and being advised many times during her suffering that change of climate would be beneficial to her,—after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.

Respectfully yours,

I. HAHN.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either; and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for those discolorations, which is at once prompt, infallible and harmless.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions, stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (inclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

BOUNTY.

$100 BOUNTY.

THE OLD $100 BOUNTY.

The bounty of $100 promised to men who enlisted early in the war, but which was paid only to those who served two years, or who were discharged for wounds, will in all probability soon be paid to all men who served over one year.

This bounty was promised by placards and posters all over the country, and by nearly every recruiting officer to *all* men upon receiving honorable discharges. We therefore propose in connection with other offices, to make application for payment of Bounties as follows:

1. To all soldiers the bounties promised to them, matter of right, for any reasons, they may have been discharged, provided such discharges were not for disability existing *prior to enlistment*, or were ordered or procured.

2. To nine months' men, three-eighths of $100—$37.50.

3. To one year's men, $100 bounty, as promised.

4. To all men discharged *within two years*, by reason of disabilities contracted while in the service, (*all alone because of exposure in action.*) the *full bounty* to be given them by the Act of Congress under which they were enlisted.

5. To all men who were by reason of promotion a *pro rata* bounty, according to the Act under which they enlisted, for the time they served as enlisted men.

6. Of $100 bounty to all deserters who returned their regiments and served two years, *exclusive* of the time they were absent without leave.

7. Of three months' pay proper to all officers who have been discharged by reason of disabilities contracted in the service, or by reason of expiration of term of service, or by becoming supernumeraries on account of consolidation of regiments.

8. Of three months' pay proper to all enlisted men who were prisoners of war for three months or longer.

9. Also a grant of 160 acres of land to all enlisted men who only received the $100; and a similar grant to officers in proportion to their pay proper.

Inform all your friends who are interested and solicit their co-operation.

No Discharges Bought.

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of "*what we do know*," after 30 years experience; *and pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

ALLCOCK'S POROUS PLASTERS.—A Druggist said the other day, you have no need to advertise your Porous Plasters, for every one sold certainly causes a dozen to be sold, and a dozen sells a gross, and so on. But we can supply a thousand yards a day.

AFFECTION OF THE SPINE CURED.

HARTFORD, CONN., Nov. 1th, 1861.

Messrs. THOS. ALLCOCK & CO.:—Please send with dispatch, twelve dozen Allcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing, a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay $5 for a single plaster, if they could not be had at a lower rate. I am surprised that surgeons do not make more use of these perforated plasters, to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them render them greatly superior to all others for ordinary surgical uses. Knowing the Plasters to be so useful, I have no scruples that my sentiments should be known. J. W. JOHNSON, M. D.

Darno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores perfect equilibrium. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1265, New York City.

Local.

☞ Mr. Ebenezer L. Odiorne of Rye, (Little Harbor,) came to this city on Saturday last and while disposing of his produce on Pickering street, fell and expired instantly. Supposed cause, apoplexy. He was 65 years 6 months old.

☞ Mr. Charles Reuben Caswell, of Rye, was drowned between that place and the Shoals on Saturday. When found, his body was hanging over the side of the boat, with one foot caught in the boat. He was a returned N. H. soldier, about 30 years of age, and leaves a wife and two children.

☞ The steamer Resaca which is to be launched on the 18th inst., is to be towed to Washington to receive her machinery. She is a singularly-modelled craft, and will doubtless prove to be a swift boat. A large gang of sailmakers have recently been employed to get ready her sails and the other necessary equipments pertaining to this vessel.

☞ A convenient cross-walk has recently been laid from Bodge's corner on High street to the northwest corner of the North Church, completing the work on Congress street, and making it the best graded streets in the city. This labor has been performed under the immediate charge of Ebenezer Haines, Esq., Mayor Bailey having the general superintendence of it, as also all the street grading.

☞ It is *rumored* (mind that word rumored) that orders have been received to prepare the immense iron-clad Passacona way, now lying on the stocks at our Navy Yard, for sea as soon as possible. Also that the steamers Minnesota, Maratanza and Galena are to be fitted out as soon as possible.

☞ Public gossip has given rise to stories concerning the probable murder of the wife of an individual residing at the West End of this city and the discovery of her remains in the cellar of the house where she formerly resided, but we learn on good authority that there is not a shadow of truth in the statement.

☞ Capt. A. Murray, late Executive Officer at this Navy Yard, and recently sent to Havana in command of the steamer Rhode Island for the rebel ram Stonewall Jackson, is on his return to Washington with the latter notorious vessel in tow.

☞ We noticed quite a number of skaters gliding over the newly formed ice, on the small ponds in the outskirts of the city, on Saturday morning.

☞ The Lyceum lecture this evening will be preceded by instrumental music.—The lecturer is highly spoken of, and his theme is a prolific one.

☞ Wild fowl have made their appearance in Great Bay. Sportsmen, take notice.

☞ Mr. Wendell offers a fine lot of House plants at auction this morning.

☞ Dr. Dessauer arrives at the Franklin House to-day.

A MEETING will be held in Boston at noon to-day in the Merchants' Exchange (as will be seen by the following correspondence,) to listen to remarks from Gov. Curry of Oregon and ex-Gov. Fuller of Utah upon a very important matter affecting the commercial interests of New England. We have no doubt the Exchange will be crowded:

To ex-Gov. Curry of Oregon, and ex Gov. Fuller of Utah:

Gentlemen—The undersigned cordially invite you to address the citizens of Boston, at such time as may suit your convenience, upon the resources of the great Northwest and the Pacific coast, and upon the best means of cultivating intimate commercial relations between that part of the United States and New England.

F. W. Lincoln, Jr., Geo. C. Richardson, James W. Converse, Saml. H. Walley, Edw. S. Tobey, Jas. M. Beebe, J. Wiley Edmunds, D. W. Gooch, A. B. Underwood, N. P. Banks.

Boston, Nov. 8, 1865.

To His Honor Mayor Lincoln, Geo. C. Richardson, Esq., and others:

Gentlemen—We are honored by your invitation, and will meet you and your friends at noon on Monday, at such place in Boston as you may select. GEO. L. CURRY, FRANK FULLER.

APPLES.—Western New York papers say that the cry of "no apples" is intended solely to create a false alarm and stimulate the market. They say the apples are less in number, but larger in size, than last year, the bulk of the yield being about equal to that of last year.

☞ The U. S. Navy Department has a dispatch from Hilton Head, dated the 7th, stating that the gunboat Tioga had arrived with Oliver Martin and Joseph Norton, the only survivors of fourteen who endeavored to save themselves on a raft from the wrecked steamer Republic.

GOLD, Saturday, 146 1-2. Sent to Europe, $197,000.

— Maj. Gen. Blair has resigned, and his resignation has been accepted.

HAYTI.—Intelligence has been received that the commander of the British war ship Bull Dog blew her up on the 25th ult. at Cape Haytien. The rebel Salnave had taken by force some Haytiens under the protection of the British Consul. The commander of the Bull Dog asked satisfaction, and no reply being given he opened fire on Fort Packlet. The fort replied, and the ship getting aground, was abandoned and blown up. It was reported that the commander had sailed for Jamaica on one of President Jeffard's boats. The state of affairs in the country was very unsettled

KENTUCKY.—The Louisville Press says Gen. Palmer has intelligence that recently five discharged colored soldiers left High Grove, and when they had gone a short distance on the Bloomfield Pike, were confronted by a party of armed men, who immediately began to fire upon them in true guerrilla fashion. Four of the soldiers were shot down, the fifth making his escape by flight. Three of them were shot dead, and the other one was mortally wounded. The offence of these murdered men was that they had been Union soldiers. The instigation to the crime was, of course, rebel hate.

— The Detroit Free Press estimates that 410,000 barrels of apples have been shipped from Michigan the present season. The average price has been fully $3 50 per barrel, which gives the round sum of $1,435,000 as the proceeds. Nearly an equal amount has been received for peaches and grapes.

— Gov. Curtin of Pennsylvania is quite ill in New York City. After going through an active canvass in Pennsylvania, the Governor took the stump in New York for the Union party. He broke down under it, and was taken so ill at Elmira that he was unable to proceed with his speech.

— Habakuk Johnson, an old farmer, living four miles and a half from Indianapolis, having been missed six weeks, was found a corpse under the floor of his own house. He was 76 years old, and his wife, who had just turned twenty-five, reported that he had run off with another man's wife. Mrs. Habakuk Johnson and a juvenile farmer in the vicinity have been arrested on suspicion.

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, is to be improved, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

VINELAND

FARM AND FRUIT LANDS.

In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude with Washington.

The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass, Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers in Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of 60 square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village *lots for sale.*

Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.

Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.

For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.

Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.

Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.

From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—4awdm

From the Portsmouth Journal

PORTSMOUTH STEAM MILL SOLD.—We understand that the Hon. Henry J. Gardner, Ex-Governor of Massachusetts, of the firm of Gardner, Dexter & Co. Boston, has purchased the Portsmouth Steam Mill for $850,000. We hope soon to see the machinery again in operation.

CAPT. MURRAY.—By late advices from Havana, we learn that Capt. Murray (late Executive Officer at the Yard,) had arrived there in the Rhode Island, and had taken possession of the Stonewall Jackson, and would soon leave with her in tow for the U. S.

THE CITY MARSHAL. — Emery A. Dresser, Esq., who has occupied the position of City Marshal for nearly two years, was deposed by the Mayor and Board of Aldermen on Monday evening last, their action having been induced by a very unfortunate affair between Mr. Dresser and Charles W. Bailey, Captain of the night watch, in the Police office. The matter was investigated by the Board on the evening after the occurrence, and the result was as above stated. Mr. Dresser has, we believe, given perfect satisfaction to the City Government until this occasion, when we regret that his better judgment should not have taken precedence of his impulses, even under aggravating circumstances.

The affair has since been amicably adjusted between Mr. Dresser and Mr. Bailey, and the latter has asked to have the City Marshal reinstated: a petition from many citizens has also been presented to the Mayor and Aldermen to the same effect, and on Thursday evening he was restored to his old position.

THANKSGIVING DAY CHANGED.

Gov. Smyth of this State, with the consent of the Council, has appointed Dec. 7th as a day of Thanksgiving, instead of Nov. 30,—to conform with the appointment of President Johnson.

The same has been done in Massachusetts and Maine.

A a ward meeting in Boston, to nominate two Representatives, Harvey Jewell (a N. H. man) was chosen for one by acclamation. Whole number of votes for a second, 264.—132 necessary. F. J. Baxter had 109, and John J. Smith, (the well known, very gentlemanly *colored* caterer) 70! Others 41 and 22. Mr. Smith then withdrew his name, and hoped his friends would go for Mr. Baxter, who was then elected. All right; no legislator should feel demeaned in the presence of J. J. S. as a colleague.

DECEASED.—After a lingering sickness of five years, the Democratic Party died at sunset on the evening of November 6th. Funeral obsequies will be observed in New Jersey, of which appropriate notices will be given. Relatives and friends of the deceased are notified to attend. The corner stone of that "Mausoleum of hearts" will be laid, if the New-Hampshire High Priest is present.

The New York Chamber of Commerce endorses the Secretary's known determination to bring about, as fast as possible, the period so desirable, when paper shall be the representative of gold, and *prices* come down to that standard. The monthly report for Nov. 1, makes the whole debt $2,740,758. Total legal tender notes, (Green backs) $683,709,681. The money in the Treasury amounts to $34,554,987 (in coin,) and $88,860,591 (in currency,) within the month of September, the debt was reduced *four* millions, and the legal tenders reduced *forty-four millions*.

The President's letter to Gov. Holden, of North Carolina, gives, most emphatically, his sentiments in relation to individual or state debts, in support of *a rebellion* against the general Government they were bound to support and protect. "The great mass of the people should not be taxed to pay a debt, (he says) to aid in a work which they, in fact, if left to themselves, were opposed to. I repeat that the loyal people must be exonerated from the payment of every dollar of indebtedness, thus created." As in Virginia, so in most of the other States, the *few*, met in Convention, declared secession, plunged the State into rebellion, and, by form submitted the question to the people, to be decided afterwards! In most of the States, however, it was not submitted to the people in *any* shape. As the President says, let those who have freely given their money and influence in such a cause, look to that power they tried to establish in violation of law, Constitution, and the will of the people.

Lord Brougham now talks very like some of our staid politicians—opposed or doubting; but when *found* to be on the right, or most popular side, take hold lustily to help, when their aid is not needed, if desirable. A writer, from London, says, "He, (Lord B.) thinks he could have *helped Providence* to a notion or two, as it would have been much better to have allowed slavery to die a *gradual* death! especially when it was trying to throttle our existence." The same writer says, "the general opinion in England, about our struggle, has now got round to an *acceptation of facts, edifying to witness.*" Even the Foreign Secretary, congratulates Mr. Adams on the death of slavery but most unfortunately, until Grant's and Sherman's and Sheridan's decisive victories, the hope of a division of empire here, made the slave question of little or no importance.

Antioch College, in Ohio, placed by its friends high and day as to any outstanding obligations, has just been endowed with no less than six Professorships. $20,000 being secured for each. We say secured, though all the subscriptions are not quite full. California has one, the "King" Professorship—New York and Philadelphia one, the "Bellows" Professorship—then comes the "Carter," the "Channing," the "Livermore," and what is probably the "Putnam," the subscriptions so far being principally in Rev. Dr. Putnam's Society, in Roxbury. The College, (at Yellow Springs in the heart of the State,) was opened on the new foundation, in September, and has already 150 students. As Gov. Andrews declines accepting, a President is yet to be appointed.

CHEROKEE PILLS,

Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness*, and all diseases that spring from irregularity, by removing the cause and all the effects that arise therefrom. They are perfectly safe in all cases, *except when forbidden by directions*, and are easy to administer, as they are nicely *sugar coated*. They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject. Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when menstruation is full; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S

REJUVENATING ELIXIR,

Or, Essence of Life,

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restoring *Impotency and Sterility*, and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

Price, two bottle $2; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggists does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

MANUFACTURERS' PROFITS.—The editor of the New England Farmer, in his last "notes of travel," says:

"A stay of four hours at Lowell gave me opportunity to learn that most of the mills are in operation and earning large dividends for stockholders. I was told by a gentleman somewhat conversant with the manufacture of cotton, that, on all light cotton goods, a profit of one dollar is made on every pound of cotton used!"

FLORIDA.—The Savannah Republican is informed by a gentleman recently from the "Land of Flowers," who has resided there for a considerable time, that the freedmen everywhere throughout that favored State are displaying the most praiseworthy activity in promoting their individual welfare, and are seeking in every possible manner to improve their moral, social and pecuniary condition. With but few exceptions, the very best understanding exists between them and their former owners. They all seem determined to labor faithfully for their employers, and even boast that they now intend to make larger crops than ever before.

—California has 89,685,515 acres of land adapted to agricultural purposes.

— Two brothers who lately returned from war are very particular about their beverage. One drinks gunpowder tea and the other uses only shells.

THE GREAT
CONSUMPTIVE REMEDY!
DR. LAROOKAH'S
Indian Vegetable Pulmonic Syrup!
The best preparation ever made for the following complaints:
Colds, Coughs, Whooping Cough, Croup, Asthma, Catarrh, Bronchitis, Spitting Blood, Pain in the Side, Night Sweats, Humors, General Debility, Liver Complaints, and Throat and Lung Complaints tending to Consumption.
This well known remedy is offered to the public, sanctioned by the experience of many years, and when resorted to in season, seldom if ever fails to effect a speedy cure of any of the above complaints. Those who have not already made use of this never failing Remedy I have only to refer to the written testimonials of Hundreds of our most distinguished citizens: Clergymen, Doctors, Congressmen, Lawyers, Singers and Public Speakers, and last but not least, many hundreds of Private Citizens, both Male and Female, who have been restored to Health, when all expectation of being cured was a "forlorn hope." My limited space will only admit of the following extracts of Unsolicited Testimonials:
REV. J. C. INGALLS, *of Milford, Mass.*, says:—"LAROOKAH'S I. V. P. SYRUP of Pulmonary Diseases, stands unrivalled by any medicine yet discovered. It has completely cured me of Bronchitis of six years standing."
REV. B. F. BOWERS, *of Manchester, N. H.*, says: "Dr. Larookah's Pulmonic Syrup I would confidently recommend for Hoarseness and Severe Colds."
REV. G. C. SIMMONS, *Gansevoort, Sar. Co., N. Y.*, says: "I feel it my duty to say Larookah's Syrup is the best medicine we ever used in our family."
DR. POWERS, *of Northfield, Vt.*, says: "Larookah's Syrup is the best medicine for Colds, Coughs, &c., he knows of in the market."
HON. D. W. GOOCH, *Member of Congress from Massachusetts*, says: "I have used Dr. Larookah's Syrup in my family for six years, and have found it an excellent remedy for Coughs, Colds, Sore Throat, and all Consumptive Complaints. I have recommended it to several friends, who have received great benefit from its use."
W. R. BOWEN, 86 *Hanover St., Boston*, a well known druggist of 20 years experience, says: "I am prepared to say, Larookah's Syrup is superior to any medicine I have ever known, for the positive cure of Coughs, Colds, Sore Throat, and all similar complaints."
Price 50 cents and $1.00 per Bottle.
DR. LAROOKAH'S
SARSAPARILLA COMPOUND!
It is double the strength of any other Sarsaparilla Compound in the market.
For the cure of Liver Complaint, Dyspepsia, Scrofula, Dropsy, Neuralgia, Epilepsy, Erysipelas, Boils, Tumors, Salt Rheum, Ulcers and Sores, Rheumatism, Pain in the Stomach, Side, and Bowels, Debility, and all complaints arising from impurities of the BLOOD.
The trial of a single Bottle of either will gain the confidence of the sick.
PREPARED BY S. SEVERY,
Price $1.00 per Bottle.

Important to the Afflicted.
DR. DOW continues to be consulted at his Office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of nineteen years, Dr. Dow has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be accommodated with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, has long confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen,
I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned French Doctor Catalina, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacoa, S. A.
New York, June 28th, 1866.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

Portsmouth, N. H.

TUESDAY, NOVEMBER 14, 1865.

WASHINGTON ITEMS.—During the entire war the Navy lost only 1406 men killed and 1638 wounded, out of 75,000 sailors and marines on the rolls. The whole expense of the Navy since the beginning of the war was less than $220,000,000.

A private telegram to the Freedman's Bureau from a late prominent officer of the army, who is passing down the Mississippi and up the White river, states that the negro soldiers when discharged are still killed or turned back into the country. The boats on the rivers are crowded with Yankees prospecting for the purpose of introducing machinery, etc.

The rebel General Forrest says he does not expect the President to pardon any officer of his class; but will leave it with Congress, which will probably disfranchise them forever; but he will go to Washington and try the effect of money and thus accomplish his purpose. He thought that Northern radicalism was dying out with the fires of the war.

A private telegram from a prominent gentleman in Mississippi, says the arrest of Capt. Peck of the Freedmen's Bureau, was greatly regretted by Gov. Humphreys, although he refused to interfere at the request of Col. Thomas. Gen. Osterhaus furnished a guard for the Captain, but the Sheriff anticipated its arrival and set him free. The Captain is now in the discharge of his duties.

The Committee of the Legislature on Freedmen's affairs propose doing better than was anticipated.

Gen. T. L. Conway does not speak encouragingly of the spirit which animates the majority of the Louisianians.

WASHINGTON ITEMS.—The Governor of South Carolina (which?) has addressed a letter to the Secretary of the Treasury, asking that the State have the privilege of assuming the direct tax levied by Congress, and that the same may be paid in South Carolina funds. He alleges that the State is much impoverished. [No doubt it is:—but we can't take such funds.]

Governor Hahn, who has just arrived from Louisana, represents that the reconstructed rebels in that State are behaving very badly. In one parish they met in convention and re-established slavery by formal enactment and resolutions.

Three negroes have been shot by returned rebel soldiers within a month at Alexandria.

Last week one of the civil Courts sentenced a negro to be whipped under the old Virginia code. General Augur promptly commuted the sentence.

FROM MEXICO AND LOUISIANA.—The N. O. Times, Brownville correspondence of the 2d says the citizens of Matamoras are in a starving condition. The Imperial troops are little better off. Many late rebel officers are fighting with the Liberals. There are two transports at the mouth of the Rio Grande loaded with French troops to reinforce the garrison at Matamoras. They will find it rough work coming up the river, as the Liberals hold its banks below the city.

The steamer Eugenie arrived on the 30th, with subsistence supplies for the reinforcements expected. Gen. Band has arrived and succeeded Fullerton as Commissioner of freedmen's affairs of Louisana.

Gen. Howard is at Vicksburg.

☞ Perley writes from Washington, that Gen. Kilpatrick, arriving there from his victorious campaign against the left wing of Robert E. Lee's rebel force in New Jersey, received from the Government the brevet of Brigadier and of Major General in the regular army, and then the diplomatic appointment of Minister to Chili. At the same time an order was issued directing that the name of the fortification thrown up in 1861 by the Jersey Brigade should be changed from Fort Runyon to Fort Kilpatrick. The General will visit New England to keep several appointments to speak, and then visit Europe, before he goes to his post in Chili.

STEEPLE CHASING, that thoroughly English sport, was inaugurated in Massachusetts on Friday of last week, at Lincoln, a little town about as lively as Newington. There was quite a large attendance from Boston and vicinity. There were six entries, but only four of the horses came to the starting post, to go over the three miles of hunting country prepared for the course, these all being owned in Canada, and the same which have contended together at Patterson and Saratoga, both in hurdle races and steeple chases. In the ground selected there were eighteen jumps, divided between walls and water, and all of them were made without accident. The prize, a subscription purse of $1000, was awarded to an old mare, "Nannie Craddock," who won by a neck.

— Lawrence, Kansas, dispatches, speak of Indian troubles on the Plains.

Correspondence of the Chronicle.

RYE, *Nov.* 13, 1865.—Saturday was a day of casualties and misfortunes for our town. In the morning Mr. Charles R. Caswell started for the Shoals from Rye Harbor in a wherry, with a load of four barrels of apples. At 1 o'clock P. M. the boat was found near the Shoals nearly full of water, the apples gone, and the dead body of Mr. Caswell clinging to the gunwale. Nothing definite is known concerning the cause of the disaster, but it is supposed that the apples "shifted" to one side of the boat, causing the boat to keel over and fill with water—and from the position of Mr. C.'s body it is believed that he caught his foot when he fell, and was consequently drawn through the water with his head and shoulders below the surface. He was formerly a member of Co. K, 13th N. H. Regiment. He leaves a wife and family to mourn his loss.

The same morning, Mr. Eben Ordiorne, one of our most worthy and industrious farmers, went into Portsmouth with a load of produce, and while turning into Pickering street suddenly dropped dead. It is supposed that he died of the heart disease.

In the afternoon, as Mr. Edward H. Balch was coming from Portsmouth with a heavy load of lumber, the transom bolt broke while going down a steep hill near the meeting-house, and precipitated the whole load upon the two hind horses, killing one and badly injuring another, while the leader and driver escaped unharmed. The bolt was made of defective iron.

BUGGINS.

NEW HAMPSHIRE ITEMS.

—— The number of Students at Dart. College is 273.

—— Benj. Barker, of Rochester, has gathered 180 bushels of cranberries from five acres of meadow this season.

—— Two freight cars attached to the noon up train on the G. F. & C. Road, ran off the track at Great Falls on Wednesday, just as the train was passing the curve after leaving the depot, and were considerably smashed. While getting the track clear, the engine being left to itself, exploded.

—— A week since, Mr. J. P. Coombs, local agent of the Dover and Winnipissogee R. R., was struck in the head by a bridge and knocked off a train this side of Lawrence, Mass. He was in charge of a wood train, and was not missed on the train until after it reached Dover. He lay insensible an hour and a half, until another train stopped and took him up; he was conveyed to Newburyport where he has relatives, and at last accounts was improving.

—— Mr. Jacob Jenness, a farmer of Durham, came very near being shot one day last week, by some young men who were out gunning near his house. He had just entered one of his out buildings for the purpose of doing some customary chore, when a charge of buck shot came crashing suddenly upon him, tearing up things and scattering the splinters in all directions about him. Some of the shot came within two or three inches of his body.

—— The Cheshire Republican states that, in Troy on Monday, 30th ult., Mr. Charles Carpenter, while standing upon the curb of his water-wheel, attending to some repairs, was caught by his coat in the revolving shaft. Unable to free himself, he clasped the shaft, and was carried round with great velocity for some minutes before the machinery was stopped, breaking and tearing his limbs in a horrid manner, breaking ribs and injuring him internally so that he died on Thursday. Mr. Carpenter was one of the most respected business men of the place, and widely known as a manufacturer of hay-rakes.

NEW YORK AND NEW JERSEY.—A New York correspondent says besides the threat of negro suffrage if the Union ticket prevailed, a greater threat was held over the voters of New York—that they would be subject to "New England ideas and institutions." Not particularly alarmed at the consequences of success, the people elected the ticket. But it has been a noticeable fact in this campaign that the most indefatigable workers have been New England men. * * * Mr. A. W. Tenney of New Hampshire, now a young lawyer in New York city, made a most successful canvass, speaking nearly every night and with great acceptance.

The election in New Jersey promises a U. S. Senator. Commodore Stockton was elected last year by a plurality. If, as is stated, a plurality cannot elect, but a Senator must be elected by a majority, then the Commodore will be unseated and a good Union man take his place.

CANADA.—Fenian bonds are selling in Montreal and Quebec, where detectives watch the Irish. The Leader announces the discovery of a plot to rob the Canadian Banks. Two men, now in jail, at Toronto, have confessed that seven American Fenians are organizing a force of 100 men to make a raid on the banks; much uneasiness in consequence.

The Sanders kidnappers were brought before the Court on a writ of *habeas corpus*. The Judge refused bail, and they were returned to prison.

Local.

☞ The Boston Commercial Bulletin has the following notice of the shoe manufacturers in this city:

Messrs. Hill & Carr, of Portsmouth, have been established thirty years in the boot and shoe manufacture at Portsmouth. They cut many patterns of their own, and their foreman, Mr. Hartshorn, has attained considerable repute among the shoe men generally for his well adapted and neatly finished fits for all sizes.

Mr. J. C. Carr, of Portsmouth, has also a large business in the boot and shoe line, making the best of work for surrounding trade. He has been established twenty two years.

The shoe manufactory of Thos. S. Nowell, at Portsmouth, employs 100 hands on the best patterns of ladies' pegged and sewed boots, some designs of which are original with Mr. Nowell. He is about enlarging his premises by the erection of a new factory of three stories, which will give a front of 60 feet by 65 deep. Twenty-five cases per week are turned out, mostly for Maine and Western markets, the McKay machine lending its aid in accomplishing so much.

POLICE COURT, Nov. 13.—James Card loves the bottle. Some call it the cup, others term it the bowl, but we prefer to denominate it the bottle. James does not cling to this glass appendage on account of its intrinsic value, or its extrinsic appearance, but solely in deference to its contents. The fluid contained within this flask, he quaffs with an eager relish, until the fumes of the poison seize his brain, and he frantically rushes into the embrace of brass buttons, who deem it practicable to introduce him to the bar of justice, where he is required to produce $6.86 to establish his credit with the State, etc.,—and poor James, not having the required amount of rags, is sent to the House of Correction, to work it out by a process well known to those who have tried it on.

☞ The dedication of the Congregational church recently erected in Pittsburg, Pa., for Rev. Henry D. Moore, formerly of this city, took place the first of last week. Mr. Moore preached the dedicatory sermon from the text: "The glory of the latter house shall be greater than that of the former, and in this place will I give peace saith the Lord of hosts." The new church is a handsome structure, built of pressed brick, in the gothic style of architecture. It is furnished in a very neat style, every inch of the floors of the interior being carpeted and the pews handsomely cushioned with red crimson cloth. The pulpit is erected upon a platform which runs nearly the full width of the church, and a deceptive piece of fine frescoe temple painting is executed upon the wall facing the congregation. The church is one of the neatest temples of worship in the city. This is the only Congregational church or union in that city.

☞ The California Minstrels, who gave our citizens so much pleasure on their last visit, are to appear again the first of next week. They are wide awake, and always keep their audience so.

HOME PASTIMES.—Now that the long evenings are approaching so closely, it becomes a question with all how to pass them agreeably. The new game of "Squails" will fill many a home with merry laughter. Played on an ordinary table, there is no limit to the skill which may be displayed by the players, while the fun and amusement it affords renders it exceedingly popular wherever introduced.

Messrs. Whipple & Smith, of Salem, Ms., furnish this game to dealers and others. They also furnish no less than thirteen different card games, any of which would be a pleasing holiday gift for the young folks, and some of them to "children of larger growth." Another new game they introduce is the "Garrison Game," played with a board and colored balls. Many a youth will have cause to thank these gentlemen for their efforts to amuse and instruct the young.

SHERMAN'S MARCH THRO' THE SOUTH. Sheldon & Co., New York, have just published, in a vol. of 430 pages, "Sherman's March through the South, with Sketches and Incidents of the Campaign. By Capt. David P. Conyngham." The author was an army correspondent of the New York Herald; and he has made a most readable book,—full of incidents sad, comic and tragic. We observe among other things, that Gen. Slocum makes a better show in marching through the South than he has done recently in running through New York. The book is for sale in Portsmouth by S. A. Avery.

— No vocabulary can furnish language sufficiently strong in commendation of that excellent and indispensable article known as the J. Monroe Taylor Gold Medal Soap. The lady having aught to do in any household department, from the wash tub to the finest needle work, should not fail to supply herself with a year's stock. It only requires a person to use it once to use it their whole life. Most of the grocers sell it. 9

— William Johnson, only brother of President Johnson, died at Velasco, Texas, on the 4th, from the effect of an accidental gun shot wound. He was collector of that port.

TEMPERANCE IN NEW YORK.—Burleigh says the cause of temperance is attracting great attention in New York city at the present time. A national organization has been completed, embracing many of our most eminent men. The old national union is dead and buried. Dr. Marsh, who has been identified with it for nearly half a century, is to be provided for. A new and vigorous organ is to be started, and a new era it is hoped is to dawn on the cause. Temperance Societies connected with Sunday Schools are formed, and a concerted and universal effort is to be made to arrest the progress of intemperance among the young.

— At Washington, Friday, Wm. E. Dodge, informed the Clerk of the House that he was prepared to file the necessary papers to contest the seat of James Brooks. Eleven hundred pages of testimony have already been taken.

LADIES' DRESS CAPS

will be sold at cost. I offer the best assortment of

Black Silk Nets,

Plain and Ornamental, decidedly at Cost.

Hoping my friends will call and purchase freely. (as the price will be no obstacle) and thereby assist me in reducing my Stock, so as to be better able to sell the remainder on the 1st of January next to a good man, who will deal justly and serve his customers faithfully.

THE REASON

Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in many a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, to exchange it for the Southwest (Saint Louis.) My Wife's health being very feeble, and being advised many times during her suffering that change of climate would be beneficial to her,—after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.

Respectfully yours,

I. HAHN.

HARPER'S

NEW MONTHLY MAGAZINE.

Critical Notices of the Press.

It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore.)

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellences of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each Number contains fully 144 pages of reading matter, appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—GRUBNER'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading such as can not be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

BOUNTY.

$100 BOUNTY.

THE OLD $100 BOUNTY.

The bounty of $100 promised to men who enlisted early in the war, but which was paid only to those who served two years, or who were discharged for wounds, will in all probability soon be paid to all men who served over one year.

This bounty was promised by placards and posters all over the country, and by nearly every recruiting officer to *all* men upon receiving honorable discharges. We therefore propose in connection with other offices, to make application for payment of Bounties as follows:

1. To all soldiers the bounties promised to them, no matter for what reason, or reasons, they may have been discharged, provided such discharges were not for disability existing *prior to enlistment*, or were not ordered as *punishments*.

2. To all men discharged *within two years*, by reason of disabilities contracted while in the service, (*not alone because of wounds received in action*,) the full bounty provided by the Act of Congress under which they were enlisted.

3. To all men discharged by reason of promotion a *proportional* bounty, according to that under which they enlisted, for the time they served as enlisted men.

4. Of $100 bounty to all deserters who rejoined their regiments and served two years, *exclusive* of the time they were absent without leave.

5. Of three months' pay proper to all officers who have been discharged by reason of disabilities contracted in the service, by reason of expiration of term of service, or by becoming supernumeries on account of consolidation of regiments.

6. Of three months' pay proper to all enlisted men who were prisoners of war for three months or longer.

9. Also a grant of 160 acres of land to all enlisted men who only received the $100: and a similar grant to officers in proportion to their pay proper.

Inform all your friends who are interested and solicit their co-operation.

No Discharges Bought.

Apply in person or by letter (stamp enclosed.)

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup administered.

ALLCOCK'S POROUS PLASTERS.—A Druggist said the other day, you have no need to advertise your Porous Plasters, for every one sold certainly causes a dozen to be sold, and a dozen sells a gross, and so on. But we can supply a thousand yards a day.

AFFECTION OF THE SPINE CURED.
HARTFORD, CONN., Nov. 11th, 1861.
Messrs. THOS. ALLCOCK & CO.:—Please send with dispatch, twelve dozen Allcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing, a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay $5 for a single Plaster, if they could not be had for lower rate. I am surprised that surgeons do not make use of these perforated plasters, to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them render them greatly superior to all others for ordinary surgical uses. Knowing the Plasters to be so useful, I have no scruples that my sentiments should be known. J. W. JOHNSON, M. D.

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper circulation. Its effect is pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1235, New York City.

MECHANICS ASSOCIATION.—At the annual meeting of the Associated Mechanics and Manufacturers of the State of New Hampshire, holden on Thursday evening at the Court House, the following officers were elected for the ensuing year:

President—John F. Dame.
Vice President—Oliver Hanscom.
Treasurer—Alfred T. Joy.
Trustees—Wm. C. Hatch, Frank N. Paul, Jas. Moses, Frank W. Miller, Wm. A. Vaughan, Jr., John M. Davis.
Secretary—Benj. M. Parker.
Deputy Secretary—Wm. G. Nowell.
Marshal—Edmund M. Brown.
Deputy Marshal—Elisha Tripp.
Standard Bearer—Benjamin Norton.
Auditors—Charles W. Brewster, Edmund M. Brown, Samuel W. Moses.

The Secretary read his Annual Report. He reports that the Association at present numbers 132 members; 9 have joined and three died the past year. There are at present two of the old members living, who assisted in the Society's organization in November, 1802—besides eleven others who joined between that time and Nov. 1815—making thirteen members that have belonged to the Association over fifty years.

The Treasurer also read his Annual Report, giving an account of the funds and investments of the Association. The funds amount to $7196.55, invested in various railroad and bank stocks in our immediate vicinity, and U. S. 7 3 10 bonds. Also, that the Association has paid the past year $105 to families of deceased brothers, as a regular funeral benefit; to sick and needy brothers $70; to needy widows of deceased brothers $81. There has been purchased for the use of the Association a new Banner, a very splendid piece of workmanship, at a cost of $100, which will repay any one well by calling at the Reading Room and seeing it.

There is under the direction of this Association a spacious and comfortable Reading Room, for the members of the Association and their apprentices free; and to any other citizen $3 per year. Fifteen Daily and eleven Weekly papers are taken there.

S. J. COURT.—In the case State vs Patrick Sheehan, prisoner was arraigned on charge of the murder of John W. Carleton, in Sept.: he pleads not guilty. 72 Jurors were called; 14 had conscientious scruples against taking human life, 1 was challenged by the State, 16 were challenged by the prisoner, 2 had formed an opinion, 1 was excused for ill health. Messrs. Hatch and Frink have been assigned as Counsel for Sheehan.

In the case State v. Cunningham the jury were unable to agree and were discharged on Saturday.

VINELAND
FARM AND FRUIT LANDS.

In a mild and healthful climate. *Thirty miles south of Philadelphia*, and within half a day's ride, on the same line of latitude as Baltimore, Md.

The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for the cultivation of Grass, Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have already been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most productive towns in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.

Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.

Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like, are sadly needed in this growing town.

For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.

Letter-press containing Land in Vineland Rural paper giving full information, and containing Reports of Solon Robinson, sent to applicants.

Address CHAS. K. BARDIS, Vineland P. O. Landis Township, New Jersey.

From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most compact tracts, on an almost level position and available condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawóm

Morning Chronicle.

IN NORTH CAROLINA, it is probable that a Mr. Worth has been elected Governor, over Holden.—But there is an obstacle in Worth's way. A committee from the N. C. Convention has asked President Johnson to have several foolish things done, among them to have Congress repeal the test oath. But the President gives this answer:

"I received from you with pleasure a copy of the proceedings of the Convention of North Carolina. I reciprocate cordially the conciliatory spirit in which you have addressed me. The Convention of North Carolina has done much and well toward restoring that State to her proper national relations, but something yet remains to be done to render that restoration immediately practicable. An acceptation of the Congressional amendment abolishing slavery throughout the United States by the Legislature of North Carolina is, in my judgment, practically important to the successful restoration which is so much desired by all. Without answering specifically the question you have proposed to me, it will be sufficient to say that my action must depend upon events, and that Mr. Holden will be again instructed to continue the exercise of his functions as Provisional Governor until he shall have been expressly relieved by orders to that effect."

BAD ADVICE.—The Washington correspondent of the Philadelphia Ledger says:

"In certain influential quarters I hear that all the Southern States have been advised not to repudiate their debts, or pass the Constitutional Amendment; but send on their Senators and Representatives and let them take their chances. If allowed to take their seats, well and good: but if not, the parties alluded to as advising the South, assure it that nothing will be lost. On the contrary they assert that the non-representation of the States in Congress would be a small loss compared to the consequences that would flow from a consent to all that the President requires as the price of their restoration."

[Poor Fools.] U. T.

FASHIONABLE CANADIAN BURGLARS. The Hamilton Times says that among the prisoners now in custody at London, on a charge of burglary, are a son of a late Mayor of Hamilton, a son of a late Sheriff of Middlesex, a son of a present Superior Court Judge, and a son of a Postmaster. We may add that a fifth is the son of a manager of a bank, that the remaining prisoner is respectably connected, and that all of them are young men whose habits for several years past have been such as to bring them under the watchful attention of the police.—*Toronto Leader.*

— A Washoe reporter, describing a slight gale that occurred there recently, complains that he was struck by a cold stove, among other things flying about.

CHEROKEE CURE,

THE GREAT

INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal Weakness, Lost Manhood, Night-Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Diffidence, Dyspepsia, Nervous Prostration, Insanity, Consumption,* and all diseases that follow as a sequence of self-indulgence.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Dark Brick Dust Deposits,* and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days,* and is especially recommended in those cases of *Fluor Albus or Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have failed will without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $2, " " $5.

"The Cherokee "*Cure,*" "*Remedy,*" and "*Injection*" can be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us in *perfect confidence.* We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

THE BRIGANDS OF THE STOCK EXCHANGE.—The "corner" in the Milwaukee and Prarie Du Chien Railroad stock is a specimen of that combination of gambling, conspiracy and theft, which, at the New York Stock Exchange, passes under the name of business. A road that has never paid a dividend rises 124 per cent. in one day, from the simple fact that a conspiracy of the bears to plunder the bulls was checkmated by a conspiracy of the bulls to plunder the bears. Had the money been lost in a gambling saloon, and had the losers failed in consequence, they would have been discredited as men of business, but as they have merely become bankrupt in an attempt to swindle, they will simply be considered "unfortunate." In regard to stock "operations," all the ordinary principles of business morality are suspended by common consent, and utter profligacy of intention and deed is considered compatible with personal honor. We have sometimes wondered why the gamblers and burglars of New York do not attempt, like the brokers, to make their profession respectable. They might select a Wall street of their own, and so conduct their affairs that their "operations" would be quoted in the business and not the police departments of the New York Journals. Certainly it would be hard for them to exceed, in contempt of all moral obligations, the professional operations in Erie and Prarie Du Chien.—*Transcript.*

— We are told by the San Jose Mercury that a miner while drifting a tunnel from the bottom of a shaft, near Lexington, a few days since, was suddenly amazed by a jet of blue flame emanating from a cleft in the rocks. He threw down his pick and made somewhat lively tracks for the bottom of the shaft, where he signalled his desire to leave that section of the country. The man who was determined to strike oil or h—ll would have a chance there.

HIGHLY IMPORTANT
TO
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 32 Endicott street.
Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicine securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients are none but the Doctor himself.
Address Dr. Briscoe, at No. 32 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secresy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1865. 7thsly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No 32 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

The Old Established Hospital.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other Impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been cured in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Marriedd Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, free of postage, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. Teller still remains the only Agency in America, for the sale of Dr. Nichols's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached by any, far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
Caution.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen,
I am a resident of Curacoa, and have often been disposed to write to you concerning the use of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabiale, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUEZ,
Merchant, Curacoa, S. A.
New York, June 28th, 1865.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rhematic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, NOVEMBER 15, 1865.

UNCLE TONY has been amused, perhaps instructed, by reading the resolutions and speeches about the eight hour system, and the many items about high prices, paper money, and great desirableness of a speedy return to specie payments. But there are some difficult problems in finance, as well as in mechanics. Every good machinist has to learn that what we gain in power we lose in time, and *vice versa*. So, if we shorten the day's work from ten hours to eight, and get the same price per day, then our papers, or houses, or stores, or coats, or whatever we make, must *cost more*. And if we mechanics get higher prices, then the farmers must raise the wages of *their* help, and shorten their days, or else they will quit and learn trades! And this will not make cheap bread nor butter! In other words, no one craft or occupation can reasonably expect to keep its own prices *high*, and have others come down.

In regard to paper and gold: it is not true that our present high prices are *wholly* the product of paper money, or even of that and speculation together,—tho' both these causes help to produce the effect: For the expenses of living are greatly enhanced in London, Paris, Liverpool and Havre, where gold is the standard, as well as in our own cities where it is not. It is well understood, that whereas gold was rare and scanty a few years ago, now it is common and plentiful. Its abundance enhances prices, and makes a basis for banking and credit: and all these things together present a new state of affairs, to which our industry must adjust itself as best it can.

It would be all in vain now, to wish that Australian and Californian gold veins had never been found,—that the rebellion had never occurred,—or that we had never issued paper money. But we must accept all these facts:—and shape our course accordingly, with the best economy, energy and skill we can command. There is room for all our talent, scope for all our enterprise, and no doubt a due reward for all our industry. But the most of us are not to make fortunes by a jump; and probably not make great piles at all. A living ought to be in store for all who labor; and the real wants and proper comforts of life are to be supplied and enjoyed as readily now, we believe as at any former period. But idlers, are like drones in the hive, and some of them may possibly be starved out. Solomon said, long ago, "In all labor there is profit:—but the talk of the lips tendeth only to penury."

☞ The Manchester Union suggested, a day or two since, that it had *disapproved* of almost every thing that had been done for the last four years. We believe it to be *true* of both that paper and the Saco Democrat, that they have disapproved of the whole course of our Government and People during the rebellion, but very rarely found much fault with the rebels. They have also disapproved of the hypocrisy in their own party which made milk-and-water platforms of pretended loyalty, and put upon them army officers of shaky politics. In all this they have been consistent. But it is remarkable that for all this, their party has been steadily "advancing backward." Nobody seems to regard what they say.

— Baltimore secessionists have bought a piano for presentation to Gen. Lee.

— David Almon, 105 years old, a native the county Kerry, Ireland, died recently at Waterbury, Conn.

— Chief Justice Chase is expected in Washington, and something definite respecting the trial of Jeff. Davis may be announced.

— George Arnold, one of our most pleasing young poets, a versatile writer, and author of the McArone papers, died at Strawberry Farms, N. J., on the 9th inst.

— On Monday the Constitutional amendment abolishing slavery passed both Houses of the South Carolina Legislature, with but little opposition. The Legislature has adjourned to the 25th inst.

— A Washington dispatch says the President informed an ex-rebel General on Monday that it was his intention to pardon no more of the civil or military leaders of the rebellion.

— The first ascent of Mont Blanc was made in 1786, since when there have been two hundred and ninety-three. There have been thirty-five ascents during the summer.

— A Fortress Monroe letter of the 11th inst., says the Merrimac is being raised; portions of her machinery have already been taken out. The hull has been raised clear of the bottom. It is now suspended by chains.

— The reward of $100,000 for the arrest of Jeff. Davis has been paid. The rewards for the arrest of Booth, offered by the General Government, the State of California and the cities of Baltimore and Washington, amounting in all to $250,000, will be distributed in a few days.

NEW HAMPSHIRE ITEMS.

—— Rev. T. H. Miller is to preach at South Hampton, Sunday, Nov. 26.

—— Miss Frances Kimball of Manchester was badly burned by kerosene last Friday evening. She held a small glass lamp lighted, but the handle came off, the lamp fell and broke, the kerosene blazed and set fire to her clothes. Her brother put out the fire and got badly burned.

—— Patrick Foley robbed Mr. Sheafe of a watch worth $40 in Manchester last Friday evening, sold it to a second man for $8, and pawned it to a third for $20. But Mr. Sheafe knew the No. of his watch, and has got it back. Foley is in jail.

☞ The work of providing employment for returned soldiers, which has been inaugurated in this State, is a good move. The office of the Grand Veteran League is at Newport, and Ira McL. Barton, the Secretary, issues the following notice:—

To all Veteran Soldiers of New Hampshire wanting employment:—Any of you, especially the disabled, or any soldier's widow, possessing qualifications for an agent for the sale of books, &c., will be directed, free of expense, to a lucrative situation, provided the territory you select is not occupied before the receipt of your application—upon making application to the undersigned. Soldiers unknown to the Secretary must send with their application either the endorsement of some member of the League, or other competent officer or person, as to their character or identity.

Any worthy comrade desiring a situation in any work or business can make his application, file his certificates and endorsements in this office, and he will be provided for as soon as possible. You must be qualified for the position you seek.

Any manufacturer, merchant, mechanic, farmer, or other business man, desiring help, and willing to employ returned soldiers, is cordially invited to make application at this office. He will be provided with only *worthy* and *competent* returned soldiers.

SOUTH CAROLINA.—Columbia (S. C.) correspondence says some members of the Legislature express strong apprehensions of negro insurrections, and bills have been reported for the purpose of empowering State officers to seize all fire-arms found in the possession of freedmen, to prevent them from hereafter being possessed of arms, and to punish with severity any white person who proposes to sell the same to them. Measures have also been proposed to shut up the shops kept by freedmen and prohibit any white person employing a negro servant without the consent of his or her former master or owner having been obtained. The South Carolinians are very anxious for the removal from their midst of all National troops and the reorganization of their State.

The more these Carolinians do in this direction, the further they get from prosperity, and the longer they will have to remain under the "Apprenticship."

GEN. KILPATRICK.—What will the Copperheads say to the flattering military promotion and the diplomatic honor conferred upon Gen. Kilpatrick, on the heel of his brilliant stumping campaign in New Jersey? Do these things coincide with the Copperhead bonk about the disastrous effect which the elections in New Jersey and New York will have upon President Johnson's administration? On the contrary, (says the Boston Journal) they significantly certify the President's delight over those results, and his gratitude to one of the most effective promoters of these administration triumphs. Gen. Kilpatrick is, indeed, a gallant soul. He can discern the enemies of his country as keenly in the disguises of politics as in the rebel gray of the battlefield, and he dashes upon and overpowers both alike. *He* has richly deserved these honors of the Government, and we have no doubt he will prove a trustworthy, efficient officer in whatever sphere he may be placed.

CHOLERA IN SYRIA AND PARIS.—The present year has thus far proved disastrous to Syria, agriculturally, for nearly every green thing was devoured by the locusts. In many parts, during the Spring, this evil was followed by a murrain which carried off five per cent. of the cattle. Then came the cholera, which is still at work at Damascus, Hama and Aleppo. The mortality at Samaria has been estimated at 2000, and at Joppa 1000.

The Consul at Paris says there is no doubt the cholera has commenced its ravages in that city.

The cholera has greatly diminished in the southern and eastern portions of the Italian Kingdom. It is on the decline at Jerusalem, and it is also abating at Barcelona.

— All persons who sell Herrick Allen's Gold Medal Saleratus are authorized to give their customers the privilege of using one half the paper, and if not perfectly satisfactory, to return the balance and get the amount paid for the whole. It is the best in the world. It is a great deal better than soda to use with cream tartar. Try it. Most of the Grocers and Druggists keep it. 6

— A bold confidence rascal, who for two years has been operating in New York and the Western States, as a Southern refugee, banker, politician, &c., under the names of Allen, Hon. John W. Harris, and Miller, marrying two accomplished ladies, robbing them of jewelry, swindling parties out of large sums of money, &c., &c., was arrested in Washington, after swindling the banks of $2000 or $3000.

Local.

☞ In the eight generations who have witnessed life's dawning and passed away, through its twilight shadows, into the darkness of the grave, since Portsmouth was first settled, many changes have been made here; but in all those changes the hand of innovation has touched us lightly. We have torn down and we have rebuilt, and we have builded anew, but there has always been a great respect for the ideas of our forefathers; and thus it is that to a stranger there is hardly a place in the country, from one end to the other, which so plainly asserts it antiquity.

But this appearance of age, so pleasing to the eye in an artistic point of view, is far from being shown by an appearance of dilapidation or decay. The buildings out of repair are scarce, but the architecture of a multitude is of the stereotyped toyhouse order. Within a few years this time-honored manner of building has been broken in upon—French roofs, swell and granite fronts, brown stone and pressed brick, have usurped the places of the wooden walls forming a parallelogram and surmounted by a simple, pitch roof. One by one, the old stores are remodelled, their small windows and narrow doors replaced by those more suited to our times, until now they grow few in number. The most recent of these changes has been made in the brick block commencing at No. 82 Market street, which has just been finely fitted up for the corn and flour business, and will be occupied by Messrs. Simpson & Tompson.

☞ Really we are becoming quite metropolitan in our quiet little city by the sea. We have heard of no less than three residences that received visits from "sneak thieves" on Saturday evening last. In one, on Middle street, the thieves appropriated the overcoats left in the entry, thus depriving the gentlemen of their cherished privilege of attending church on the Sabbath; in another, on Islington street, they are said to have obtained two overcoats, and finding a store key in one of them, to have made use of it to ransack the store; while in the third, on Court street, the borrower of plumage, meeting some one in the hall, inquired if "Mr. Jones lived there," and took himself off upon being answered in the negative. A good lock is the best safeguard against persons so oblivious of the difference 'twixt *meum* and *tuum*.

POLICE COURT, Nov. 14.—Amos A. Curtis, for being drunk, was fined $3, and costs $3.86, in default of which he was committed to the House of Correction.

—— ——, charged with being a common drunkard, was sent to the House of Correction for three months, and sentenced to pay costs of prosecution, $4.80, which will give him an opportunity to get rid of all the poisonous beverages he has imbibed of late, and materially lengthen his extended sphere of usefulness among us.

S. J. COURT.—In the indictment State vs. Sheehan, the evidence on the part of the State was concluded on Tuesday afternoon, and the case on the part of the prisoner was opened by J. S. H. Frink, Esq. Hon. John M. Weare of Seabrook is the foreman of the jury. Ex-Sheriff Nathan H. Leavitt of New Market is one of the jury.

☞ Among the late votaries at the altar of Hymen in this city was a young man, by occupation a carpenter, rejoicing in the same name as his father, and therefore compelled to use the affix Jr. to prevent confusion from similarity of names. It being one of the three occasions which come to nearly all in this world for their names to appear in print, his marriage was duly chronicled. His little brother perused the paper and read the marriage over and over, but the Jr. was an insurmountable obstacle to his understanding. After long study, light dawned upon him. "I know now," said he, "John Smith, Jr.—that's John Smith, *Joiner*."

☞ On Tuesday of last week, in Franklin county, Mo., a Mormon by the name of William Stroup had a difficulty with a negro about gathering some corn grown upon his place. The negro got three or four of his colored friends and insisted upon gathering the corn. Stroup took his son, with guns, and ordered the negroes off. Young Stroup shot the negro who claimed the corn, mangling him seriously. The negro then shot and killed young Stroup. The elder Stroup then shot and killed the negro.

WASHINGTON ITEMS.—Mr. McPherson will not enter the names of those elected to Congress by the late rebel States in the roll of the next House.

Judge Underwood has condemned Gov. Wise's personal property for confiscation. His real estate is not worth the formality.

The total sick and wounded in Government hospitals throughout the country, is less than 5000. Eight months since there were 100,000.

Gen. Auger has issued an order forbidding the whipping of colored men under any law of Virginia, within the limits of his department.

NORTH CAROLINA.—Turner, a member of the rebel Congress, is elected to Congress in the Raleigh district. Clark, who cannot take the oath, is elected to Congress in the Newbern district, over Lehman, who can take it.

Governor Holden has received a telegram from Secretary Seward telling him to exercise the functions of Provisional Governor until otherwise ordered by the President.

WISCONSIN ELECTION. — The Union majority in Wisconsin is from five to seven thousand. Both branches of the Legislature are strongly Republican. Universal suffrage (authorizing colored men to vote) is probably defeated by ten thousand majority.

THE REASON

Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in many a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, to exchange it for the Southwest (Saint Louis.) My Wife's health being very feeble, and being advised many times during her suffering that change of climate would be beneficial to her,—after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.

Respectfully yours,

I. HAHN.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either; and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a safe, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world. for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of Dr. Lyon, without which none are genuine. **Price $1.50.**

Prepared by DR. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 a bottle.**

BOUNTY.

$100 BOUNTY.

THE OLD $100 BOUNTY.

The bounty of $100 promised to men who enlisted early in the war, but which was paid only to those who served two years, or who were discharged for wounds, will in all probability soon be paid to all men who served over one year.

This bounty was promised by placards and posters all over the country, and by nearly every recruiting officer to *all* men upon receiving honorable discharges. We therefore propose in connection with other offices, to make application for payment of bounties as follows:

1. To all soldiers the bounties promised to them, no matter for what reason, or reasons, they may have been discharged, provided such discharges were not issued to *existing prior to enlistment*, or were not ordered *as punishments*.

2. To nine months' men, three-eighths of $100=$37.50.

3. To one year's men, $100 bounty, as promised.

4. To all men discharged *within two years*, by reason of disabilities contracted while in the service, (*not those because of wounds received in action.*) the *full bounty* to be given them by the Act of Congress under which they were enlisted.

5. To all men discharged by reason of promotion *pro rata* bounty, according to the Act under which they enlisted, for the time they served as enlisted men.

6. Of $100 bounty to all deserters who rejoined their regiments and served two years, *exclusive* of the time they were absent without leave.

7. Of three months' pay proper to all officers who have been discharged by reason of disabilities contracted in the service, by reason of expiration of term of service, or by becoming supernumeries on account of consolidation of regiments.

8. Of three months' pay proper to all enlisted men who were prisoners of war for three months or longer.

9. Also a grant of 100 acres of land to all enlisted men who only received the $100; and a similar grant to officers in proportion to their pay proper.

Inform all your friends who are interested and solicit their co-operation.

ALLCOCK'S POROUS PLASTERS.—A Druggist said the other day, you have no need to advertise your Porous Plasters, for every one sold certainly causes a dozen to be sold, and a dozen sells a gross, and so on. But we can supply a thousand yards a day.

AFFECTION OF THE SPINE CURED.
HARTFORD, CONN., Nov. 11th, 1861.
Messrs. THOS. ALLCOCK & Co.:—Please send with dispatch, twelve dozen Allcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing, a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, and was severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay $5 for a single Plaster, if they could not be had at a lower rate. I am surprised that surgeons do not make use of these perforated plasters, to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them render them greatly superior to all others for ordinary surgical uses. Knowing the Plasters to be so useful, I have no scruples that my sentiments should be known. J. W. JOHNSON, M. D.

Duval's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wholesome, it contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists, 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURAND, P. O. Box 1235, New York City.

Local.

MUSIC.—A great addition to Mrs. Cary's charming singing, at the Lyceum recently, was the piano-forte accompaniment—Mr. Day presiding at the splendid instrument with good taste, skill and care, as is usual with him. And, it is rare to meet so pleasant and genial a pair of public performers as these two—they always seem to enjoy the music more than anybody else. And why shouldn't they? is it not more pleasant and satisfactory to eat a good dinner, than to see others do it; and to sing, rather than hear—"*provided*, always," that you can do it as well yourself?

But it was of pianos we intended to say a word—rather than of players or singers, however good. And this is suggested to us, by a note received a few days since from Prof. Thos. P. Ryder, the distinguished organist at Tremont Temple, Boston, who it will be remembered so skillfully brought out the superb qualities of the new Grand, at the Concert given by Mr. Warren's troupe recently. Mr. Ryder says, voluntarily, in the course of a business letter to us:

BOSTON, Nov. 8.

"Mr. Miller—Dear Sir, * * * Allow me to express to you the gratification I felt in having the use of so splendid a pianoforte, at the "Warren Concert" recently give at this Temple, in your city; and which I understand is to be retained there for the use of concerts, &c. The public of Portsmouth are certainly very fortunate in having so fine an instrument in their hall.

I have never played on a better grand pianoforte, nor do I think any pianos are made, superior to those manufactured by Hallet, Davis & Co. Their tone is rich and noble, the action very satisfactory, and they also remain in tune for a great length of time.

Accept my hearty thanks, sir, for the use of the piano, which I ha l the honor to inaugurate.

Yours very truly,
THOS. P. RYDER.

Mr. Ryder is one of the best judges of pianos; and his opinion, or rather knowledge, agrees with that of all other unprejudiced judges—that there are no better instruments made, than those of the celebrated house referred to.

☞ On Monday Marshal Dresser recieved word from Rye that two men supposed to be horse thieves were in that town. He dispatched an officer to the spot, who secured two men giving their names as Charles Stevens and George Blake, and with them took possession of a horse and a top buggy. A telegraphic dispatch to the Marshal at Portland brought Deputy Marshal Irish to this city, and on his appearance the men confessed that they had stolen the team from Lewiston, Me., and Mr. Irish took the men on a trip to the eastward by the evening train on Tuesday.

☞ The steam tug-boat Speedwell, which has been expected at this Yard for a week past, arrived on Monday evening, in command of Acting Volunteer Lieut. Commander Devens. She is a staunch boat of over 300 tons register, and will prove of efficient service in moving large vessels. We learn that she is to remain in commission, but no officers have yet been assigned to her. Several applications have been made to the Navy Department for the command of her.

GOLD, Tuesday, 147 1-4.

— A New York item of Tuesday says there have been no additional cases of cholera on board the Atlanta. The passengers on board complain much of the detention. Strict quarantine is being enforced by the Commissioners.

— The Boston Post says that Messrs. Worthington, Brewster, & Goodsell, of the Traveller, have purchased the Saturday Evening Gazette. It is understood that the price paid was $25,000.

— A fatal accident occurred at East Boston, Saturday afternoon, by which Mr. Henry Winton, foreman of the Sugar Refinery, lost his life. He was riding out, and near the corner of Maverick and Orleans streets, was from some unexplained cause thrown from his carriage, and in the fall struck his head upon the pavement. He was taken to his home, where he died in about three hours afterward. He was 35 years of age and leaves a widow.

— Joshua Bennett of Boston, who died last summer, gave instructions while on his death-bed for his last will and testament. The bulk of his large estate was given to his immediate heirs, legacies were left to churches, and for other purposes, in Billerica, and $25,000 to the Washington Home in Boston, the government of which there recently been notified that the sum is subject to their order.

AMERICAN CREDIT ABROAD. — The London News, in its city article, says: "Pending the receipt of news from America, as to the temper in which the Washington Cabinet receives the refusal of our government to take into consideration the Alabama claims, a check is given to the movement in American securities, as regards which the tendency of the market is otherwise very favorable. Nevertheless, in the meantime, the high rates of interest required from speculative holders of the twenty bonds at the last settlement have caused occasional realizations, so that the price is barely maintained. Should the American government adopt the moderate course which is expected of them, it would seem difficult to limit the extent of the probable flow of British capital into American securities, new and old, for there is evidence on every side that the result of the civil war has raised the prestige and credit of America and her enterprises higher than they ever stood before."

PARSON BROWNLOW ON HIS MUSCLE. A Nashville dispatch says that, on the 8th inst., Governor Brownlow had an encounter with a couple of rebel soldiers at Franklin, Tenn. One of them had begged alms of Mrs. Brownlow on the ground of his having fought for the Confederacy. Upon her telling him she could not give him anything for such a reason as that, he grew angry and cursed her. When the Governor learned of the affair he went in search of the offender, whom he found in company with another rebel soldier who made common cause with him. The Governor whipped them both very genteelly.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.

The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire tract, consisting of fifty square miles of land, is laid out upon a grand system of improvements. The land is only sold to actual settlers with provisions for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.

Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.

Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.

For persons who desire mild winters, a healthful climate, and a good soil, in a country scientifically improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.

Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.

Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.

From Report of Solon Robinson, Agricultura Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and with ship conditions, for peasant farming that we know of this side of the Western Prairie.* n1-dawlm

Morning Chronicle.

☞ A New York item says:—

Reports show that the mortality among the negroes during the war varied from 30 to 40 per cent. Disease is making the same fatal inroads now as before the peace. During 1864 the deaths in the interior of South Carolina amounted to 50 per cent. of the whole colored population of those sections. The medical department of the Freedmen's Bureau complains that it is powerless to stay the progress of disease while the surgeons are scattered so widely through the Southern country, and funds are not provided for the employment of the local practitioners.

These statements must be exaggerated and erroneous, though the mortality no doubt is very *large*: but the story is much larger.

— Hon. Toppan Robie, one of the oldest residents of Gorham, Me., has offered to to erect, at his own expense, a public monument in that town, in commemoration of the gallant soldiers who volunteered from Gorham in the late war, and who fell in battle or died from disease contracted in the service.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on the shortest terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to secure a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in counsel his large practice, made on *twenty rejected* applications SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents.

CHEROKEE CURE,

THE GREAT

INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal Weakness, Night-Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption*, and all diseases that follow as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. There is two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges*, in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females*. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $2, " " $5.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*," are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Do not be deceived*. If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us *in perfect confidence*. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

SANDWICH ISLANDS—AND LONDON.—Both these places seem to be staked out as Mission Fields.

The Rev. T. N. Staley, who was sent out to Hawaii and consecrated as a bishop by the Bishop of Oxford in 1861, is now in this country soliciting funds for the erection of a cathedral in Honolulu. In common with those who sent him, he entertains the opinion that the American mission has failed to meet the wants of the people, and that the ritual of the Episcopalian worship is necessary to prevent them from becoming Romanists on the one hand, or falling back into gross immorality on the other. The Bishop of Oxford, himself begging for the Cathedral, in recent speeches represented the American missionaries as carrying to these poor heathen a code, if anything, "rather more sour and vinegar like" than that of the Puritans, and breaking their necks with the Connecticut blue laws, the most severe, declares his Reverence, "ever inflicted upon any people upon earth."

Considering that both the Bishop and the American Board of Missions are "Evangelical," this is rather a sharp cut. But let us listen to what the Catholic Rev. Dr. Pusey said last month of London:

"There are places in London, as I have myself seen, where, for generation after generation, the name of Christ has never reached, and their inhabitants had much better been born in Calcutta than in London, because the charity which sends forth Christian missionaries would the rather reach them."

And so Dr. Pusey and the Roman Church are to do for London, what the Bishop of Oxford and the English Church are to do for the Sandwich Islands.

WHAT THE DEMOCRATIC PARTY HAVE DONE.—A correspondent of the Waltham Free Press says:

"From the language of the Boston Post it might be inferred that it was the Democratic party alone which sustained the honor of the country during the late war—upheld the flag—put down the rebellion—abolished slavery and preserved the Union. If it will continue its labors—pass the slavery amendment in New Jersey and Kentucky—establish suffrage without regard to color—punish the rebel leaders—sustain the national credit — reduce the debt—bring about specie payment at the earliest and safest moment—form no more alliances with friends of slavery—abolish the spoils system—support the Constitution, the Laws, Union, and President Johnson, it will receive the thanks of the Republicans and Abolitionists."

— Highwaymen are becoming numerous and very audacious in California.

— Some of the principal New York hotels talk of raising the price of board to $6 per day. There are families in the Fifth avenue (and it is possible they may be able to afford it) who give $500 or $600 a week for their mere lodging and boarding privilege, while their "extras" will reach $300 or $400 more.

THE GREAT
CONSUMPTIVE REMEDY!
DR. LAROOKAH'S
Indian Vegetable Pulmonic Syrup!
The best preparation ever made for the following complaints:
Colds, Coughs, Whooping Cough, Croup, Asthma, Catarrh, Bronchitis, Spitting Blood, Pain in the Side, Night Sweats, Humors, General Debility, Liver Complaints, and Throat and Lung Complaints tending to Consumption.
This well known remedy is offered to the public, sanctioned by the experience of many years, and when resorted to in season, seldom if ever fails to effect a speedy cure of any of the above complaints. Those who have not already made use of this never failing Remedy, are only to refer to the written testimonials of hundreds of our most distinguished citizens: Clergymen, Doctors, Congressmen, Lawyers, Singers and Public Speakers, and last but not least, many hundreds of Private Citizens, both Male and Female, who have been restored to Health, when all expectation of being cured was a "forlorn hope." My limited space will only admit of the following extracts of Unsolicited Testimonials:
REV. J. C. INGALLS, *of Melrose, Mass.*, says:—"LAROOKAH'S I. V. P. SYRUP, for Pulmonary Diseases, stands unrivalled by any medicine yet discovered. It has completely cured me of Bronchitis of six years standing."
REV. B. F. BOWLES, *of Manchester, N. H.*, says: "Dr Larookah's Pulmonic Syrup I would confidently recommend for Hoarseness and Severe Colds."
REV. G. C. SIMMONS, *Gansevoort, Sar. Co., N. Y.*, says: "I feel it my duty to say Larookah's Syrup is the best medicine we ever used in our family."
DR. PORTER, *of Northfield, Vt.*, says: "Larookah's Syrup is the best medicine for Colds, Coughs, &c., he knows of in the market."
HON. D. W. GOOCH, *Member of Congress from Massachusetts*, says: "I have used Dr. Larookah's Syrup in my family for six years, and have found it an excellent remedy for Coughs, Colds, Sore Throat, and all Consumptive Complaints. I have recommended it to several friends, who have received great benefit from its use."
W. R. BOWEN, 86 *Hanover St., Boston*, a well known druggist of 20 years experience, says: "I am prepared to say, Larookah's Syrup is superior to any medicine I have ever known, for the positive cure of Coughs, Colds, Sore Throat, and all similar complaints."
Price 50 cents and $1.00 per Bottle.

DR. LAROOKAH'S
SARSAPARILLA COMPOUND!
It is double the strength of any other Sarsaparilla Compound in the market.
For the cure of Liver Complaint, Dyspepsia, Scrofula, Dropsy, Neuralia, Epilepsy, Erysipelas, Boils, Tumors, Salt Rheum, Ulcers and Sores, Rheumatism, Pain in the Stomach, Side, and Bowels, Debility, and all complaints arising from impurities of the BLOOD.
The trial of a single Bottle of either will gain the confidence of the sick.
PREPARED BY S. SEVERY,
Price $1.00 per Bottle.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen,
I am a resident of Curacao, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for Indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for almost three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacao, S. A.
New York, June 28th, 1866.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

It is the Popular Monthly of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore.)
The most popular Monthly in the world.—*New York Observer.*
We must refer in terms of eulogy to the high tone and varied excellences of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each library of miscellaneous reading should contain, appropriately illustrated with good wood cuts; and it contains in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—THURBER'S *Guide to American Literature, London.*
The volumes bound constitute of themselves a library of miscellaneous reading such as can not be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

THURSDAY, NOVEMBER 16, 1865.

THE POOR IN GEORGIA.—A distinguished and excellent Presbyterian clergyman in Georgia writes to the New York Observer as follows:

Such is our terribly impoverished condition that there are sufferers, white and black, around us, whom we cannot relieve without aid from abroad. I know and feel what I say, my dear sir, when I tell you that we cannot feed the hungry, almost daily calling at our houses for assistance. Sometimes three or four women, widows or orphans, call at my house together and tell their piteous tale till my heart aches and my soul sickens at the recital. I have given away and loaned out until my little stock of provisions is almost gone. You will ask, where are all your rich people? They are all poor now. All their money, all their railroad stock and railroad bonds and the millions of poor Confederate trash, bonds and bills and notes and other securities of the so-called government, all died of apoplexy, as it were, in one night. I had never conceived of such an awful state of things as I now witness in this country. Those who were formerly worth from $100,000 to $500,000, who happened to have on hand little or no provision when the crash came, found themselves as poor as Lazarus. They sent to their neighbors to borrow, sometimes succeeding, sometimes failing. As for all their so-called funds, pits and piles and piles of them would not buy a barrel of flour, nor one peck of corn. I had but little before the war, but we were comfortable. The poor were never sent from our door empty. But now there lie some $10,000 or $12,000, and if the whole are worth $1, I do not know it.

As for the poor negroes, they are bewildered. They do not know what freedom is. They seem to suppose that it means to do nothing but to wander about, to dance, to frolic, to visit their friends and live on them.* They leave the country and flock to the towns and villages, often seeking employment and can find none.†

Next, numbers of our citizens in the towns are so reduced that they are compelled to send from their lots one-half or more of the servants they had, because they are unable to pay them wages, or even feed and clothe them. Hence most of those coming from the country, with multitudes of idlers already in the towns, make a vast concourse of vagrants, doing no good, but many of them much evil. The nightly thefts and robberies are truly alarming. To look forward to the winter is dark as Egypt, both for white and black.‡

NOTES—BY U. T.

* No wonder some of them should think so: for during all their lives they had seen free white people living without work, and spending their time as here described.

† This sentence *contradicts* the other, for if thousands are *often seeking employment*, they certainly do *not* think freedom means to do nothing.

‡ There is no doubt "*poverty enough*" down that way. Solomon taught that, long ago, when he said "he that followeth after vain *persons* shall have poverty enough." No vainer persons ever lived, than the leading rebels:—and no vainer project ever existed, than their Confederacy.

THE HOWLAND WILL CASE.—In the S. J. Court at New Bedford, Mass., Miss Hetty H. Robinson declined to prosecute her appeal from the decision of the Judge of Probate in the the Howland will case, and the following decree was entered:

Ordered, That the decree of the Court of Probate admitting to probate the last will and testament of Sylvia A. Howland, deceased, and the codicil thereto, and relating to the appointment of the executor, be affirmed, and the cause remitted to the Probate Court for further proceedings.

The New Bedford Standard says it is understood that Miss Robinson will bring an action in equity for the estate, based on a verbal contract or promise of the testator to give it to her. [*Query*, whether Miss Robinson is *sane* or otherwise?]

MR. BUCHANAN'S BOOK.—This book is nearly ready for publication. Its title is "Mr. Buchanan's Administration on the Eve of the Rebellion." The New York Express says those who expected curious revelations of political secrets from Mr. Buchanan are doomed to disappointment. He has "rigidly abstained" from the use of private letters. He may have kissed, but he will not tell. The work is an argument, by Mr. Buchanan, of his own case, on the facts already public.

[If so, the book is not worth a straw. The "argument" of the man who said, five or six years ago, "Kansas is as much of a slave State as South Carolina," cannot amount to much in the mind of friend or foe. Whatever flattering unction he may lay to his soul, he has been weighed in the balance and found wanting.]

— At Nashville, Tenn., Judge Trigg has decided against granting a writ of habeas corpus in the case of Dick McCann.

— Gov. Hamilton of Texas writes to the President that he expects to call a State Convention in December.

— The President has appointed Gen. John A. Logan of Illinois, Minister, and Wm. A. Browning of Tennessee, Secretary of Legation to the Republic of Mexico. Gen. Logan is known as a strong and earnest friend of the Liberal cause in that country. Col. Browning has been Private Secretary to President Johnson, and is now succeeded by Col. Robert Johnson, son of the President, in that office.

NEW HAMPSHIRE ITEMS.

—— On Sunday evening at Manchester, Mrs. Benj. Mathews attempted to blow out the blaze of a Kerosene lamp, when it exploded with a report like a gun, throwing a portion of the lamp, violently against one of her eyes. The brass neck of the lamp where the chimney was set, was blown into many fragments. [Will kerosene explode?]

—— The New Hampshire Soldier's Aid Society at Washington, has been dissolved, having accomplished its work. It has done much good, and special credit should be awarded to Miss Dame, who has devoted herself to the sick and wounded at the Granite State since she came there with Gen. Marston's regiment.

—— Geo. H. Neibuhr, Esq., for some years past the efficient Clerk of the Courts for Strafford County, formerly of Boston, has resigned. He has been one of the best clerks the county has ever had. His successor is not yet appointed, but we learn that a well known young "martial" lawyer will probably secure the position. Mr. N. removes to Bangor, Me., where he enters into business.

—— A returned soldier named William H. Horner, about 25 years old, committed a brutal outrage upon a young girl ten years of age at Concord, on Sunday evening last. The victim is the daughter of a respectable mechanic, and the outrage has created great excitement. Horner is threatened with lynching in case he can be found.

PARDON BROKERS.—Perley writes from Washington, Nov. 14: Of late the pardon brokers of both sexes have become so unblushing in their operations that it was deemed necessary to check their plundering operations, by which the repentent Southerners have been sadly victimized. Gen. Baker set one of his detectives at work, disguised as a Southerner seeking pardon, and a good looking female, who has had admission to the White House and the Departments, agreed to obtain the desired pardon in thirty-six hours for two hundred dollars cash in advance. The money was paid, the pardon was procured, a receipt was given for the money, and the woman was then arrested, forced to disgorge, and warned not to visit the White House again.

To-day the pardon broker went before the grand jury, and procured the indictment of General Baker for her unlawful arrest, and for having forcibly compelled the restitution of money. If the case is tried and the operations of the fair pardon broker are ventilated, lovers of scandal will be delighted.

It is time that Washington was freed from these female cormorants who seek to plunder all having business here, and enrich themselves by scandalously disgraceful conduct.

PRESTON KING, Collector of the port of New York, an eminent man, committed suicide on Monday morning, (by jumping overboard from a ferry boat,) in an insane condition. His health had been poor, and his spirits depressed; he was a bachelor.

Perley says: the death of Preston King has created a profound sensation in Washington, where he was beloved by all. He was in years past insane for a year or more, and it was thought that he had permanently recovered his reason; but the pressure for office, the rascality of New York politicians and annoyances of his position doubtless caused his derangement.

— It was not Governor Brownlow who thrashed a couple of impudent rebel soldiers the other day, but Gen. J. P. Brownlow.

— The ladies of the Bedford street Methodist Episcopal Church in New York have subscribed one hundred and fifty dollars to make Lieutenant General Grant a life member of the Missionary Society under the patronage of the Methodist Church.

— The wife of Gibbs, the brakeman who was recently killed at Erving by being knocked off a car on the Vermont and Massachusetts Railroad by a telegraph pole, has sued the American Telegraph Company for $10,000 damages.

— A Wisconsin copperhead who was arrested along with nearly a hundred others for forcibly resisting the draft in 1862, brought a suit against Governor Salomon for false imprisonment, but after hearing the case Judge McArthur of the Circuit Court directed the jury to return a verdict for Gov. Salomon.

— An unknown man was run over by the evening train to Fall River, on Saturday evening, and instantly killed, about three-quarters of a mile below Myrick's Station. The man was sitting on the track, and was probably intoxicated. He belonged in Portland, Me.

— The citizens of Tullahoma who were actors in the destruction of the freedmen's school house sometime since, have been ordered by Major General Thomas to rebuild the same; but compliance with the order being refused, Gen. Thomas sent a detachment of soldiers with directions to enforce the order and put every citizen under guard until the requirements of the order were complied with.

FALSE HAIR.—There will always be a natural demand for human hair. But the present unnatural and exaggerated demand has run the article up to a price that calls the supply from sources which the gay and dressy wearers never dream of.

Starvation hair, cut from the heads of poor girls in distress, is much more rare than we generally suppose. Such cases are oftenest met with in novels, scarcely a case in a lifetime occurs in any man's knowledge. But every fibre of such hair is steeped in heart's blood.

Fever hair is much more frequent. The patient rises from a long sickness, and finds that her hair must be cut off or it will fall off and leave the scalp enfeebled. It rarely if ever causes suspicion to the purchaser.

Gutter hair is frequently saved out from the tangled masses removed by the comb and thrown into the slop-bucket. It may have traversed miles of sewers in its passage from one head to another.

Assault hair is suddenly seized by violence from the wearer as she walks the streets.

Convict hair is the hair of those unhappy creatures that are transported or imprisoned for crime. Each hair, could it speak, would tell a terrible history that the new wearer had better never know.

Dissecting-room hair has been in the market for centuries. The body snatcher disrobes the unconscious sleeper, and ends by cutting off all those beautiful tresses that weeping affection spared, as coolly as the fleece is clipped from a dead sheep.

Church-yard hair is the great remaining staple. Hair is almost indestructible, and from graves of a past generation a handsome crop can be raised in a single night in a sandy soil. It comes to the market with the bulbs on and often with minute particles of the scalp still attached. These are removed in cleaning. Portions of the bodies of saints in glory thus re-visit the world of the living and are proudly borne into scenes of vanity and revelry and of sin. Oh! could they whisper eternal truth into those ears near which they are coiled! Shall some future monstrous fashion call the natural hair with which they mingle in turn from the sleep of the grave?

THE JAMAICA INSURRECTION.—Letters from Morant Bay, Jamaica, dated Oct. 17th, speak of the insurrection there as follows:

"The evidence found on some prisoners shows that it was the intention of the insurrectionists, *to spare none of the white or colored people, but to slaughter all indiscriminately*. Thanks to the energetic and summary measures adopted by the authorities, they have been baulked in their designs. Of the number of persons that have been murdered in cold blood no estimate can be made, but it is large. The negroes were shot down in all directions by the military or tried by the Court Martial and hung. A correspondent of the Standard, writing from Morant Bay, October 17th, says that thirty rebels had been hung at that place on the day previous, and the rebels all over the country were being killed right and left by the military. From other localities reports of a similar nature are published. The capture of the leaders has dispirited the rebels, and the latest reports say many of them were coming in and delivering themselves up. The maroons have behaved very bravely, and saved many valuable lives at the different estates. No apprehension is felt of any further trouble."

The latter statement is good news: and being made so long ago as Oct. 17th, it shows that we were correct in our supposition that the outbreak, violent and terrible as it was, only lasted a short time.—We have not heard, as yet, any clear and credible statement of the *causes* or *pretexts* for insurrection.

ASSASSINATION.—The shooting of Major Dixon at Alexandria, Va., by Dr. Maddox, a rebel surgeon, has already been noticed. Major Dixon was the only person in Fairfax county who voted for Mr. Lincoln in 1860, and from that day it is said he has been a marked man. On the breaking out of the war he was made a paymaster in the army. Before dying he made a statement under oath, which shows the act of Dr. Maddox to have been most cowardly and cold-blooded. We quote:

"At the time I was shot I was walking along Royal street, in this city. Doctor Maddox saw me as I walked along Royal street, and shot me before I drew my pistol. I was passing away from him at the time. I shot at him after he shot me. I was in this city because I had business at the War Department, and was temporarily stopping here. Mr. Maddox fired at me twice. I had not started to draw my pistol before he shot me. He had fired once before I started to draw my pistol. I carried my pistol on my left side in my holster. He sought me once before in the Mansion House, and spit in my face while I was sitting in a chair, without my knowing that he was present. I had not seen him before since 1857. This was about ten days or two weeks ago. Not a word was said before he shot me."

Dr. Maddox went before the civil magistrate, and went through the farce of giving himself up. The magistrate released him on five thousand dollars bail, although he knew Dixon was mortally wounded. Dixon leaves a wife and eight children.

— A fire took place at West Buxton, Me., which destroyed Hall's woolen mills, Lord's saw mills and house, and Bryant's grocery store. Loss $100,000.

THE YACHT WANDERER.—This noted craft, sold by government several months since to parties in Rockland, Me., is now on the marine railway there, being rebuilt throughout. The purchasers of the vessel on opening her found her rotten, and she is to be entirely reframed and resceiled—only the original outside plank and a few timbers will remain in her. The parties paid government $6000 for her, and those who have examined her say it will cost $7000 to repair her. She will cost her purchasers more than a new vessel of the same tonnage, but they will save her beautiful model.

A HOTEL CLERK IN TROUBLE.—New York detectives some times pursue rogues with great shrewdness. Recently one of their number had reason to suspect the honesty of a certain hotel clerk, where the guests had frequently complained of the loss of jewels, money &c. There was nothing against him except the fact that he lived in extravagant style. The detective called a woman to his assistance and instructed her how to act. She managed to get an introduction to the wife of the clerk, and soon visited her house. She displayed a large amount of jewelry, when the clerk's wife, with the pride of a woman, brought out several articles that looked like those that had been stolen. The proprietor of the hotel was informed of the discovery, and the missing property was recovered, and the clerk left in haste for Boston.—*Exchange.*

☞ An Augusta correspondent of the Boston Journal says:

The arrest of Major Rollins, late commandant of Camp Berry, Portland, for alleged defalcation, has failed to shake the confidence reposed in him by his hosts of friends, who believe that he is an honest man, and that he will be able to settle his accounts with the War Department at Washington to its entire satisfaction. In the examination which his affairs are now undergoing, not a particle of evidence of guilt has appeared, but, on the contrary, every development goes to show that he will be honorably discharged.

— The Bartlett Mills of Newburyport have declared a dividend of twenty-five per cent., payable December first.

— The Memphis-Grenada-Jackson-Atlanta-Montgomery Appeal is revived. The first number of volume sixteen was published at Memphis on the 5th inst. It is printed on the identical press which left Memphis in 1862, and which was kept out of the hands of the Union army during the war, though it had to do some tall travelling to accomplish this. It is worked by the same pressman who was shelled out of Jackson when Grant made his famous move from Brownsburgh.

— Why, Mrs. C., how nice and clean your clothes always look! What kind of soap do you use? Well, Mrs. D., it gives me great pleasure to say that I use the Gold Medal Soap, manufactured by J. Monroe Taylor, 112 Liberty street, New York, and as long as he keeps the quality as good as now, I shall never use any other. Every one who will try it, will say just as I am now telling you. Try it and be convinced. 10

THE REASON

Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in many a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, to exchange it for the Southwest (Saint Louis.) My Wife's health being very feeble, and being advised many times during her suffering that change of climate would be beneficial to her,—after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.

Respectfully yours,

I. HAHN.

BOUNTY.

$100 BOUNTY.

THE OLD $100 BOUNTY.

The bounty of $100 promised to men who enlisted early in the war, but which was paid only to those who served two years, or who were discharged for wounds, will in all probability soon be paid to all men who served over one year.

This bounty was promised by placards and posters all over the country, and by nearly every recruiting officer to *all* men upon receiving honorable discharges. We therefore propose in connection with other offices, to make application for payment of bounties as follows:

1. To all soldiers the bounties promised to them, no matter for what reason, or reasons, they may be discharged, provided such discharges were not for disability existing *prior to enlistment*, or were not ordered *as punishments*.

2. To nine months' men, three-eighths of $100—$37.50.

3. To one year's men, $100 bounty, as promised.

4. To all men discharged *within two years*, by reason of disabilities contracted while in the service, (*not alone because of wounds received in action*,) the *full bounty* to be given them by the Act of Congress under which they were enlisted.

5. To all men discharged by reason of promotion *pro rata* bounty according to the Act under which they enlisted, for the time they served as enlisted men.

6. Of $200 bounty to all deserters who rejoined their regiments and served two years, *exclusive* of the time they were absent without leave.

7. Of three months' pay proper to all officers who have been discharged by reason of disabilities contracted in the service, by reason of expiration of term of service, or by becoming supernumeraries on account of consolidation of regiments.

8. Of three months' pay proper to all enlisted men who were prisoners of war for three months or longer.

9. Also a grant of 160 acres of land to all enlisted men who only received the $100; and a similar grant to officers in proportion to their pay proper.

Inform all your friends who are interested and solicit their co-operation.

No Discharges Bought.

Apply in person or by letter (stamp enclosed.) Call at our office with your discharges and make your claims.

ALLCOCK'S POROUS PLASTERS.—A Druggist said the other day, you have no need to advertise your Porous Plasters, for every one sold certainly causes a dozen to be sold, and a dozen sells a gross, and so on. But we can supply a thousand yards a day.
AFFECTION OF THE SPINE CURED.
HARTFORD, CONN., Nov. 11th, 1861.
Messrs. Thos. Allcock & Co.:—Please send with dispatch, twelve dozen Allcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing, a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay $5 for a single *Plaster*, if they could not be had at a lower rate. I am surprised that surgeons do not make use of these perforated plasters, to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them render them greatly superior to all others for ordinary surgical uses. Knowing the Plasters to be so useful, I have no scruples that my sentiments should be known. J. W. JOHNSON, M. D.

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no Opium or other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.
Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1265, New York City.

LARGE THING ON ICE.—"Poor Tom's cold" says the old verse, and perhaps he was in danger of freezing; but that pump which you can see by calling on Marden & Co. is in no such danger.

Firstly, my brethren, it is a very powerful pump, and is easily worked.

Secondly, it will not freeze up, for the same reason that a jackass does not change his opinion—because he can't. But unlike a jackass, this pump always works.

The water runs back to the level in the well, and yet is started at once. It is really a big thing as to ice, and is worthy of being made a handle of.

☞ The Transcript says that "Mr. Gough, (though he has spoken three or four hundred times here) proves as attractive as ever in Boston. All the seats were sold to his recent lecture, and a few tickets of admission, with the privilege of standing during the lecture, were sold by the committee. This in Boston, while in Portsmouth the house is but half filled, so to speak, to hear the same lecture. Our citizens need either greater or less entertainments than other people—which is it?

☞ At the late great Mechanics' Fair in Boston, a gold medal was awarded to Chickering's Pianos; also a gold medal to Mason & Hamlin, for their Cabinet Organs, and a gold medal to Hallet, Davis & Co., for the marked improvement in all the Piano-Fortes exhibited by them. The Committee go on to say, that "the Grand piano fortes of Hallet, Davis & Co. have many very admirable features; they have a great body of tone and are specially commended for their fine touch and their beautiful singing quality.

"The Square Piano of the same makers was very much admired. It has great fullness, depth and mellowness of tone, and in certain grave styles of music would probably be unexcelled by any similar instrument on exhibition."

The fact is, there are many good makers of pianos now, but none have equal Chas. D. & Co.

S. J. COURT.—The case State vs. Sheehan, before Judges Sargent and Bellows, is still on trial; testimony for the defendant was put in on Wednesday.

☞ By the recent decease of Mrs. Elizabeth Greely, the town of Cumberland, Me., comes into possession of a handsome legacy left to his native town by Mr. Greely in his will dated January 28, 1858, in which, after the death of his wife, he bequeathed $28,000 to that town for educational purposes. Of this sum, $20,000 is to be invested in a fund, the interest and income of which is to be appropriated to the instruction of youths, of both sexes, residing within the limits of that town, as they stand at the date of the will. Six thousand dollars is given for the erection of a suitable building for the purpose—the town to purchase and pay for a lot; $1000 for the purchase of philosophical apparatus; $500 for a library for the institution, and $500 for a suitable architect.

WORTHLESS LAND.—A gentleman in Middlesex county, Mass., had eighteen acres of worthless land. A few years ago he resolved to reclaim it, which he did at an expense of three thousand dollars. He then put the entire lot down to cranberries. The land lay conveniently to be overflowed whenever it was desirable to flow it. The vines grew and flourished beyond expectation. The grower picked his cranberries by hand, never suffering a rake to be used for that purpose. His crop some years has been one thousand barrels; he estimates the crop this year at six hundred barrels. Some years cranberries are worth $9 a barrel. The value of the crop any year is greater than the original cost of reclaiming the land. This encouraging story to farmers, is told by an exhibitor of cranberries at the show of the Horticultural Society.—*Boston Courier.*

— An engineer at Nashville sent a workman under his locomotive to oil the running gear,—and then forgetting his presence, ran his engine ahead just far enough to cut off one of the man's legs. A bystander shouted to warn the engineer, who thereupon backed his machine in dismay and cut off the other leg of the unfortunate workman. He survived, however, and suing the company for $50,000 damages, has obtained $5,500.

— In the Tennessee legislature Nov. 14, Mr. Trumble offered a resolution in the Senate against confederate leaders, giving his resolution with these words—"That for their great crimes against their fellow men and the United States, Jefferson Davis and his accomplices justly forfeited their lives, and deserve and ought to suffer the extreme penalty of the law."

— A Lawrence, Kansas, dispatch of Nov. 14, says, Mr. Colgraves, the Special Indian Agent, and Col. Dodd, agent for the Navajoes, left here to-day, with a train of 25 wagons laden with agricultural implements, goods and presents for that tribe. About 8000 of the Navajoes have agreed to settle on the Pecos river and abandon their wild life.

— The erection of a statue to Dr. Simpson, as discoverer of chloroform, is exciting some interest in foreign medical circles. The French doctors say that one M. Soubeiran is the original discoverer.

PHOTOGRAPHY AS A WITNESS IN COURT.—A curious case of the photographic art was lately made in a Pennsylvania Court. An individual living in Chicago entered suit against the Pennsylvania Railroad Company for $6500, the alleged value of two trunks and their contents, destroyed at the time of an accident. Costly silk dresses, rare diamonds, and various other valuable articles were in the inventory of goods for which compensation was claimed. Several witnesses were examined in support of these allegations, and all was going ahead swimmingly for the plaintiff, says the Philadelphia Bulletin, when the defense produced a couple of large-sized photographs which afforded front and back views of the premises occupied by the plaintiff in Wells street, Chicago. It was a one-storied shanty, in the windows of which was an announcement that liberal prices would be paid for new or second hand clothing; that gentlemen would be waited upon at their residences by the proprietor, and ladies by his wife. The rear view was still less inviting, and the presumption was strong against the proprietor of such a house and his wife travelling with $6500 worth of silk dresses and diamonds in their trunks. This impression was converted into a certainty by an internal revenue collector from Chicago, who testified that Wells had sworn that he was worth only $900.

CLEANSING NEW YORK CITY, &c.—The captain of the City Sanitary Police on Tuesday transmitted to the Police Commissioners a statement of his operations to avert cholera. He says his force has been vigorously work and notices served during the past week for the cleaning of nearly 400 places in a filthy condition in different parts of the city.

A woman named Catherine Ruffle was found dead from starvation in a basement in Williamsburg, Tuesday. Four little children in the most abject state of suffering were also found there and sent to the poor house.

NOT SUBJECT TO STAMP.—It has uniformly been considered necessary to affix a revenue stamp to the "Certificate of Marriage" issued by Town Clerks. Deputy Commissioner Rollins has decided to the contrary, as follows:

"The instrument is not designed for the parties, but is required by the laws of the State for the use of the Town Clerk in completing his record. I am of the opinion that neither of the certificates thereon is subject to stamp duty."

We have considered that *all* matches were included in the list of articles requiring a stamp.

IN MISSOURI, the legislature have passed a resolution for the appointment of a committee to memoralize President Johnson to release all Union soldiers now in confinement for offences committed during the rebellion, on the ground that the rebel soldiers, whose crimes were infinitely greater, have been pardoned.

— On Monday afternoon in New York, St. George's Episcopal Church, (Rev. Dr. Tyng's,) corner of 16th street and Stuyvesant square, was destroyed by fire. The loss is estimated at $300,000, on which there is $70,000 insurance. Only the walls and towers are standing.

— In Boston, at 11 1-2 o'clock, Tuesday night, Kate Callahan, alias Jasper, was put into the lock-up as a night-walker. In a few hours she was found dead, having hung herself on the cell door. She was 20 years old and weighed nearly 300 lbs.

— Mexican news, from Imperial sources, report great disasters to the Republican Gen. Ortega, who is said to be captured and hung, and his army destroyed.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of Middle and Baltimore, Md.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provisions for public adornment. The place, on account of its great beauty, as well as other advantages, has become the *resort of people of taste*. It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other marks of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who crave a mild winter, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other comforts and privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. R. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawóm

Morning Chronicle.

CAUSE OF HIGH PRICES.—Prices will never again be so low as they once were We say never, for, if the National debt was paid to-morrow, if all the war taxes were abolished, and the currency reduced so as to destroy the premium on gold, still prices would be higher than they were ten years ago. Gold itself is inflated. Since the discovery of gold in California and Australia, about 17 hundred million dollars worth of gold has been added to the world's stock of this metal, to say nothing of the product of the silver mines of Nevada, which is immense. This mart of new gold and silver is sufficient to affect prices all over the world; and, accordingly, we hear complaints from London, Paris, Berlin and St. Petersburg that it costs more to live in those capitals than ever before. All the labor and capital expended in getting the gold and silver from the bowels of the earth we regard as mere waste; the only effect of it being to oblige us to pay an ounce and a quarter of gold for what we formerly paid an ounce—which is no advantage but a disadvantage. Gold being only a representative of value, a small quantity would answer the purpose of commerce as well as a large one. This is past praying for, however. Gold is inflated; let us not aggravate this evil, which we cannot help, by an inflation of the currency, which we can. The superabundance of gold in the world will make it easier for us to return to the gold standard.—*Louisville Journal.*

—DEALERS IN—
S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is as simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,
39 Congress Street.

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, and, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a 3d stamp.

CHEROKEE CURE,
THE GREAT
INDIAN MEDICINE,
Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal Weakness, Night-Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption,* and all diseases that follow as a sequence of youthful indiscretions.
The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.
Price $2 per bottle, or three bottles for $5. Sold by all druggists, or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,
Cures all Urinary Complaints, viz: *Gravel, Inflammation, Stricture, Spermatorrhœa, Kidneys, Retention of Urine, Strictures of the Urethra, Chronic Swellings, Brick Dust Deposits,* and all diseases that require a diuretic, and when used in conjunction with the
CHEROKEE INJECTION,
does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days,* and is especially recommended in those cases of *Fluor Albus or Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.
Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $2. " " $5.
The Cherokee "*Cure,*" "*Remedy,*" and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for the intrinsic sole worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us in *perfect confidence.* We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

The Chronicle.

☞ A gentleman just from Excelsior informs the Enterprise at Virginia City, that about half a mile south of Summit City are an immense number of large granite rocks completely covered with hieroglyphics. These are deeply cut into the solid rock, as though done with a chisel. There are pictures of men and animals, birds and beasts, and of various warlike weapons, with many lines and signs difficult to be understood. These pictured rocks extend for a distance of two or three miles in a line running east and west. These hieroglyphics must have been cut by a race of people much superior to the Indian tribes at present found in California.

USES OF WHISKY. — Dr. Guthrie has little sympathy with the love of of whiskey, so prevalent in Scotland, and we are sorry to add, in this country also. He expresses his opinion in the following energetic language.

"I have heard a man with a bottle of whiskey before him have the impudence to say 'Every creature of God is good, and nothing to be refused, if it be received with thanksgiving;' and he would persuade me that what was made in the still-pot was a creature of God. In one sense it is so, but in the same sense so is arsenic, so is oil of vitrol, so is prussic acid. Think of a fellow tossing off a glass of vitrol, and excusing himself by saying that is a creature of God. He would not use such creatures, that's all I'l say.—Whiskey is good in its own place There s nothing like whiskey for preserving a man when he is dead. But it is one of the worst things in the world for preserving a man when he is living. If you want to keep a dead man, put him in whiskey; if you want to kill a living man, put the whiskey into him. It was a capital thing for preserving the dead admiral when they put him in a rum puncheon, but it was a bad thing for the sailors when they tapped the cask and drank the liquor, till they left the admiral, as he had never left his ship, high and dry.

— A certain gallant major in the army of the Cumberland was presented with a silver pitcher by some of his "admiring friends." On its being presented to him, accompanied with "a few happy remarks appropriate to the occasion," he first looked into the pitcher, and then said, "An empty silver pitcher is gratifying to my pride; but a full one, of ice-water, would have been more exhilarating to my feelings." His friends soon after supplied the gallant major with the means of filling his silver pitcher as he pleased, by presenting him with a lot of land with a running spring on it.

— When Mr. Livingston, the American Minister, who was quite deaf, was introduced at the Court of Napoleon, he had prepared to answer the question he supposed the Emperor would ask in regard to his passage across the Atlantic. Napoleon accosted him thus: "How is Mr. Jelferson?" "Very boisterous! very boisterous!" replied Mr. Livingston, to the great amusement of those present.

— A man appeared at church, in Boston, on Sunday, with only the right side of his face shaved: the clock struck ten when the barber was half through. A New Bedford paper now calls upon the State constables to have a brush with the Sunday bootblacks.

— A new use of Confederate money has been found. A lady in Texas stuffed a mattress with five hundred thousand dollars worth of it.

— A person's character depends a good deal on his bringing up. For instance a man who has been brought up by the police, seldom turns out respectable.

— The Telescope is following up the "Star of Empire." Chicago boasts of the largest instrument in the world for searching the heavens.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, NOVEMBER 17, 1865.

THE JAMAICA REBELLION.—A Jamaica correspondent of the Washington Chronicle declares that the troubles in that island did not arise from political oppression, but from destitution among the blacks. Thousands of negroes would be glad to work for a shilling (British) a day, and a mess ration of yams, potatoes, or plantains. Jamaica, above all things, needs men of capital to hire and pay her negro population. The white planters who had the money and intelligence to lead forward the industrial interests of the country have been discouraged out of it by injudicious legislation and an absurd fear of black domination, and there is nowhere a reservoir of black wealth and enterprise on which to draw to fill up this terrible void. This, says the correspondent, is the testimony of a man of wealth, influence and capacity, himself a quadroon, elevated by his force of character and the liberality of the British laws to a seat in the Executive Council. It is remarked further:

The laws of Jamaica are mild and liberal, the society good, though slightly exclusive, the climate and scenery of her coffee hills delightful beyond description, and so capable of profitable cultivation for men of small means that nothing but the systematic discouragement of white immigrants by the British Government could keep that beautiful island in its present state of depression.

The elective franchise, but imperfectly balanced by the crown appointments, is held by an overwhelming black majority, and the Island Legislature has not had the power to pass effective laws for the suppression of vagrancy. Capital avoids the island, and the last two years of consuming drouth have left the poor, unemployed negroes half starved and desperate. In their ignorance of cause and effect, these famished wolves have turned upon the whites, and satiated their hunger with blood and pillage.

AN INCORRIGIBLE THIEF.—The police of Dorchester, Mass., arrested a young man of the age of 22, named Harvey Scudder, Jr., in that town Tuesday night, for several larcenies. The arrest was made and prosecution will ensue at the instance of his father, from whom he is suspected or known to have been for a long time in the practice of stealing money and other valuables. He is also said to have done a little of something in the forgery line, and only last week he presented a false order for a suit of clothes. He has seemed to have a perfect passion for stealing, and neither the admonitions nor the threats of his parents have had any beneficial effect. He was arrested some weeks since by detective Calder of the Boston police, and placed in the Tombs, but, as he promised better fashions, he was released. No sooner was he at liberty than he stole a watch and an article of silver ware from his father's table. He was again arrested by the same officer and a second time placed in the city prison.

Again was he released at the request of his father, on condition that he should go to sea. To this he agreed, and he shipped as second mate—having seen some sea service. Within a day or two he pretended to be sick with bleeding at the lungs, and the Captain of the vessel discharged him; but he was arrested again ere he could leave the vessel. Still again was leniency shown him, and regard had for his pleadings and for his earnest promises of reform. But his promises have been violated as before, and his pilferings and other dishonorable acts becoming perfectly unendurable, he has been again arrested as above stated and placed in the Tombs. He will now probably be prosecuted and made to feel the rigor of the law. He manifests the utmost indifference to his situation and seems to care little or nothing what is said or done in relation to his case. What makes his case more singular is the fact that his parents are wealthy and allowed him a sum for spending money which should have satisfied a young man of his years.

INDIANA.—The Governor's message pertains mostly to State affairs. It asks for prompt provision for the public debt; the establishment of a home for disabled Indiana soldiers and seamen; a bureau of emigration and separate schools for colored children, and for the repeal of the statute excluding negro testimony. It pays tribute to Indiana soldiers and advises that altho' the heresy of State sovereignty had been extirpated and the questions involved settled by the arbitration of arms, they should also be adjusted and determined by the highest tribunal of the land in the trial of Jeff. Davis for treason and other atrocious crimes. It avers the President's reconstruction policy does not consider the negro suffrage a condition precedent; advocates representation according to the number of voters, and recommends the adoption of such an amendment if it passes Congress.

BOILER EXPLOSIONS.—From Oct. 12 to Nov. 10, there occurred in various parts of the country, nine boiler explosions—four of steamers, four of locomotives, and one in a convent — and eighty-four persons were either killed or wounded by them.

Correspondence of the Chronicle.

SAN FRANCISCO, CAL., Oct. 18, 1865.

It is with pleasure I renew my correspondence, and acknowledge obligations to you for newspaperial favors remitted in the past, which have come to these shores like wavelets of the ocean. As years o'erlap each other in the ceaseless round of time, our memories of other days cling in ever-growing clusters; like the grapevine's luscious fruit, each pleasant fancy takes form, and the treasure is enclosed in its own casket, grouping on stems of thought, numberless gems that hang pendant from the lattice, tempting us to refresh ourselves at pleasure.

Our infant days open up through boyhood with pleasant rambles of school-boy days; and in the second decade, the happiest term of life, there are many very pleasant reminiscences of flirtations, social and intellectual, which serve to mark the period of life's cheerful bloom. Crowded with such a plenitude of varieties, we were ushered into the matrimonial decade in such an era. Old Portsmouth could hardly contain us; we could not contain ourselves, and forthwith another rib in perfect unison with ours was added, and in this dual state we roamed abroad, crying Eureka. Thus I have passed those happy terms of life, and now you find your old Portsmouth friend settling down into the coming future with the placidity of a shoreless ocean of bliss.

Our State and country are progressing; as our eastern visitors say of us "We are a fast people," and have a country suited to our wants. If we want a change of climate, all we have to do is to take a steamer to Stockton or Sacramento at 4 P. M., and next morning we wake up in a mild and much warmer climate than that at our busy city. There we may find it too hot for our health, so we take the cars and stages over the hills to Placerville; there having gained a higher altitude, we can breathe a lighter atmosphere, and frolic on the snow-clad hills, or bathe in cool rivulets, and feel, perhaps, as much cold as New Englanders do in December. There is no State in the Union, I will venture to say, that presents such a variety of climate, and all within a ride or sail of 48 hours. Then again, if we want money, either gold or silver, and if stock and trade are dull, we go into the mines, dig out the precious metals, put them through the mint, and thus we are furnished with the means or motive power to push enterprises to a successful issue.

Californians are getting fairly into the rail road work, and extending the iron highways over the hills; and ere another year shall roll round, the Sierra Nevada Mountains will be tapped by a tunnel, and steam cars will run beneath their summit into the great Carson Valley, and perhaps to the State line. This railroad once connected to its eastern branch, we shall then be on a better footing, commercially, than any Atlantic city. Now we are at the mercy of speculators, for the markets are easily controlled by capitalists, as it takes four months for ships to land eastern freights on our wharves; but when the freight trains are once started from Boston or New York, for a through trip over the Central Pacific Railroad, we can have eastern produce and manufactures put down at our store doors in two weeks' time, and thus save over one hundred days—a large period of time for a *fast* people. This saving is equal to six months in advance of our present business relations with the centre of this great Republic. On the other hand, what are our Boston and Portsmouth merchants going to obtain from this result? We will guarantee, when the IRON extends from ocean to ocean, to send a train of cars laden with the choicest preserves and teas of China or Japan, and sugar from the Sandwich Islands, fresh with the odors of their plantations, in 30 days direct from Canton, Shanghae, or Hong Kong in China, or Whampoa and Kanagawa, in the Islands of Japan. To carry out this, we are to have a line of steamers from this port to China and Japan. The Chinese waters now have thirty team vessels, of a capacity in all of about 33,000 tons. The inland steamers, in connection with those of the ocean, will make the trip to this city in 15 days. Thus you see, the tea is put on the cars on arrival, and in one month's time you may drink a decoction of Bohea with the richness and vivacity of a group of Celestials quaffing "Ne Yumchar."

Our mines are more productive than ever. As most of our capital is employed in Nevada I shall speak of that State in this connection. The silver and gold mines of Nevada have yielded in the past nine months $12,404,776, and our own State $24,000,000. This is a large yield, say you. True, it is a beautiful yield of pure metal—and where does it go? Into the pockets of speculators? No; but the expenses of working and salaries of officers are *made* so great that a large proportion is used up, and the dividends are few and far between. This causes fluctuations in stocks, and those who traffic in them make the money; and bullion is melted up or sold to keep the mines busy, while Montgomery street brokers and sharpers are pocketing the fortunes made in selling stocks of the richest paying mines. The mint in this city coined for the third quarter $6,781,300 in gold, and $125,000 in silver.

The codfish business on this coast is a new business, and promises to be a permanent feature in our home industry. Six vessel loads of fish have already been landed at Potraro Point, where the "Bakes" for curing them are located. The atmosphere is peculiarly fitted for drying—the warm climate and winds of this coast being a great desideratum.

The past week has been an eventful one to us, for we experienced one of the greatest earthquake shocks, perhaps, ever felt on this coast, and yet no lives were lost. It commenced on Sunday, Oct. 8th, at a quarter to one o'clock, just after most of the churches were out, and your correspondent was returning from church, with his wife and child. The first sensation was a tremulous spasm, and succeeding this was a severe heaving convulsion—the earth rising and falling in a waving motion—everything resting on terra firma rocking and pitching like a boat on the water, and at last ending with a sort of twinging concussion. It lasted about 30 seconds, more or less, but when persons are thrown out of their usual equilibrium, they are not apt to keep good time. Suffice it to say, that in this short space of time, nearly the whole State was shaken from centre to circumference. As soon as I had turned round to see the effect it had produced, I found that most of the people residing on Howard street had rushed into the street, fearing lest the houses, reeling and shaking, should fall on them. A large number of brick buildings in various parts of the city suffered more or less from the shock. An imperfect brick building on the corner of Mission and Third streets, nearly completed, (four stories high) fell on the Third street side, and destroyed all the best part of the edifice from top to bottom. Store windows were shaken to fragments, and tops of houses, such as parapets, ornamental battlements to fronts and sides of houses, were thrown down in a number of cases. Cracks and fissures in the walls extended down so far as to render it necessary to demolish the whole or a part in order to repair the damages. A hundred thousand dollars will cover the loss thus sustained, but mil ions will not restore the damage done to shaken confidence of those who never felt a shock before. We have felt one or two slight convulsions of nature each day for a week since, and it is customary at this season of the year to feel these vibrations. Counties contiguous to volcanic eruptions are more or less subject to earthquakes, and since I have been in this country, I have come to the conclusion that these frequent earthquakes are in the process of nature working in a southwesterly course and in a series of years will be so far removed from *us*, that we shall not experience the slightest effect of them. In other words the electrical forces are tending southward, and thus, as the positive gains upon the negative of our climate, we shall have air-quakes (thunder) instead of earthquakes. If you should feel for one season these periodical phenomena, you could not be made to believe that nature was seeking an eruption for pent up gases, but that it came from the surcharged surface of the earth, reaching down perhaps to the Metalic oxides of which this country is so largely composed.

In a little over a year we have had two steamboat explosions and over one hundred lives were lost. That of the Yosemite, one of our best boats, which occurred last week, was during her regular trip to Sacramento. By this casualty 33 Chinamen and one Chinese woman were killed, and the number of white men is 20 or more. There were several severely scalded. In this age of steam, men of sober and strictly moral habits should take charge of steam engines wherever there are human lives, either on land or sea. The steam Navigation Company are building a new steamer said to surpass anything of the kind ever built on this coast. It is to be called the "Pacific" and her extreme length will be 300 feet, with the boilers on the sides next the wheels, thus leaving the centre clear for freight, of which she will carry 1200 tons, besides about 1000 passengers.

There are many things I should like to speak of but I am already trespassing on your valuable space, I only say that our monetary interest is keeping pace with our growth. The banking system is improved and has been augmented by the establishment of several branches of Foreign banking houses, representing millions of European Capital to be used in our domestic, and State affairs, and thus helping to swell the great future of California.

NEW HAMPSHIRE ITEMS.

—— The Nashua Gazette says that there were eight burglaries committed in that city last week.

—— Gov. Smyth has issued his proclamation for Thanksgiving to be kept Dec. 7. A note at the bottom recals the former proclamation.

—— Ten scholarships of $1000 each, with an annual income of $60 to $70, have recently been founded at Dartmouth College, only one of them, however, by a resident of New Hampshire—Hon. George W. Burleigh of Great Falls.

—— By the railroad accident at Newark, N. J., Nov. 15, W. L. Gordon, proprietor of the Willard's hotel coaches, of Washington, was killed outright. Mr. Gordon was from Holderness, N. H., and was accompanied by his wife and two children, who were uninjured.

—— From Concord, *via* the Boston Journal, we learn that on Wednesday evening, Hon. George G. Fogg of Concord, late Minister to Switzerland, had a most brilliant public reception at the mansion of Gen. Robert N. Corning. The house was crowded to overflowing with visitors for nearly four hours. Gov. Smyth, Adjt. Gen. Head, Hon. Daniel Clark, Hon. E. H. Rollins, Col. Walter Harriman, and many other distinguished gentlemen were present. The reception was highly gratifying to Mr. Fogg and his numerous friends. Ex-President Pierce is suffering from a brief yet dangerous illness.

— Brig. Gen. H. A. Barnum is ordered to command the Military District of Massachusetts, New Hampshire and Vermont, in place of Gen. Sickles, relieved.

THE WILL OF JOSEPH E. WORCESTER, L. L. D., gives to his wife her legal share of his personal estate; also his house and appurtenances, about 2 1-2 acres of land surrounding it, for life; also his furniture, fixtures and books, except those in his library and the room over it; also all his clothing and jewelry, and all stock standing in her name; also all notes payable to him and an annuity of $1000.

He gives to the library of Harvard University all such dictionaries and glossaries of the English language as are found in his library, but are not found in that library; also his dictionaries of any other language than English, of which said University does not possess copies, in case either of his brothers do not want them. He gives such books as are acceptable, not exceeding twenty in number, to each of a dozen persons, and the remainder of his library in equal shares to his five brothers.

He gives to the American Bible Society, formed in New York in 1816, and to the American Peace Society, incorporated by the Legislature of Massachusetts, the copyright of his Quarto Dictionary of the English Language, each to have one-half of the annual income thereof, subject to any incumbrances, charges or contracts existing at his death, said devise to take effect after the death of his wife. He gives to his nephews and nieces * * * who may survive him, all the residue of his real and personal estate to be equally divided between them without reference to previous advancements, the issue of any residuary legatee who does not survive him more than a year to take the parent's share.

He appoints his brothers Samuel T. Worcester and Frederick A. Worcester his executors, and gives them or either who accepts said executorship full power of sale for the purpose of fulfilling the provisions of the will.

— The James Cotton Mill, Newburyport, has declared a semi-annual dividend of twenty-five per cent., payable Nov. 20.

THE GREAT
CONSUMPTIVE REMEDY!
DR. LAROOKAH'S
Indian Vegetable Pulmonic Syrup!

The best preparation ever made for the following complaints:

Colds, Coughs, Whooping Cough, Croup, Asthma, Catarrh, Bronchitis, Spitting Blood, Pain on the Side, Night Sweats, Humors, General Debility, Liver Complaints, and Throat and Lung Complaints tending to Consumption.

This well known remedy is offered to the public, sanctioned by the experience of many years, and when resorted to in season, never fails to effect a speedy cure of any of the above complaints. Those who have not already made use of this never-failing Remedy, I have only to refer to the written testimonials of Hundreds of our most distinguished citizens: Clergymen, Doctors, Congressmen, Lawyers, Singers and Public Speakers, and last but not least, many hundreds of Private Citizens, both Male and Female, who have been restored to Health, when all expectation of being cured was a forlorn hope." My limited space will only admit of the following extracts of Unsolicited Testimonials:

REV. J. C. INGALLS, *of Melrose, Mass.*, says: "LAROOKAH'S I. V. P. SYRUP, for Pulmonary Diseases, stands unrivalled by any medicine yet discovered. It has completely cured me of Bronchitis of six years standing."

REV. B. F. BOWLES, *of Manchester, N. H.*, says: "Dr. Larookah's Pulmonic Syrup I would confidently recommend for Hoarseness and Severe Colds."

REV. G. C. SIMMONS, *Gansevoort, Sar. Co., N. Y.*, says: "I feel it my duty to say Larookah's Syrup is the best medicine we ever used in our family."

DR. PORTER, *of Northfield, Vt.*, says: "Larookah's Syrup is the best medicine for Colds, Coughs, &c., he knows of in the market."

HON. D. W. GOOCH, *Member of Congress from Massachusetts*, says: "I have used Dr. Larookah's Syrup in my family for six years, and have found it an excellent remedy for Coughs, Colds, Sore Throat, and all Consumptive Complaints. I have recommended it to several friends, who have received great benefit from its use."

W. R. BOWEN, 86 *Hanover St., Boston*, a well known druggist of 20 years experience, says: "I am prepared to say, Larookah's Syrup is superior to any medicine I have ever known, for the positive cure of Coughs, Colds, Sore Throat, and all similar complaints."

Price 50 cents and $1.00 per Bottle.

DR. LAROOKAH'S
SARSAPARILLA COMPOUND!

It is double the strength of any other Sarsaparilla Compound in the market.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either; and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientific and compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speaks in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (inclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.00 per bottle.**

SOOTHING SYRUP
For Children Teething,
which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is
Sure to Regulate the Bowels.
Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**
We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup administered.
Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.
Sold by all Druggists throughout the world.

ALLCOCK'S POROUS PLASTERS.—A Druggist said the other day, you have no need to advertise your Porous Plasters, for every one who certainly causes a dozen to be sold, and a dozen sells a gross, and so on. But we can supply a thousand yards a day.
AFFECTION OF THE SPINE CURED.
HARTFORD, CONN., Nov. 11th, 1861.
Messrs. THOS. ALLCOCK & CO.:—Please send with dispatch, twelve dozen Allcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing, a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay $5 for a single Plaster, if they could not be had at a lower rate. I am surprised that surgeons do not make use of these perforated plasters, to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them render them greatly superior to all others for ordinary surgical uses. Knowing the Plasters to be so useful, I have no scruples that my sentiments should be known. J. W. JOHNSON, M. D.

Durne's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded testimonials and premiums.
Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1535, New York City.

Local.

S. J. COURT, *Thursday*,—In State v. Sheehan, the evidence having been submitted on Wednesday the argument for the defense was made by Mr. Hatch on Thursday forenoon, occupying 2 1-2 hours; followed by Attorney General Clark in behalf of the State, who concluded at twenty minutes past one. At the assemblage of the Court at 3 o'clock in the afternoon, the jury was charged by Judge Sargent, and the case was given to the jury late in the afternoon.

At seven o'clock last evening the Court came in, the jury returned a verdict of Not Guilty. The announcement of the verdict was received with demonstrations of applause on the part of the friends of the prisoner, who left the Court House surrounded by a large number of congratulating acquaintances.

Indictment State vs. Joanna Green was next found. Respondent is charged with stealing a dress, muff, and gloves from Joanna Barry, landlady of the "Shamrock House," located in Fleet street,—a spot made familiar to the officers of the Court in a former trial. The principal witness in the case is under several indictments for keeping a house of ill fame. Defense, that the articles alleged to have been stolen were not taken by respondent. The case was delayed at the adjournment in order to give the respondent an opportunity to prove certain statements made in the Police Court Bell, County solicitor, for State,—Rollins for respondent.

☞ A rare treat was it which aroused the residents of Deer street and vicinity from their slumbers on Wednesday evening, the occasion being a serenade given to the Mayor by Knight's Cornet Band. After listening to their sweet strains for a short time, our worthy magistrate cordially invited them into his hospitable dwelling, but owing to the lateness of the hour the leader thought it best not to accept this kind invitation. After playing two more beautiful pieces, the Band departed, leaving us all much pleased with their performance. May they always have as pleasant a (K)*night* as that was to the listeners. P.

☞ Our city has been unusually quiet for a day or two past. In these days of high prices, while most of our hotels and boarding houses are raising their prices, Mr. Norton has failed to advance the rates at his hotel on the north side of the pond, but for all that not an individual has applied to Judge Odell for an entrance ticket since Tuesday last.

☞ We often receive communications, deaths, marriages, and other matters, intended for publication, which we should have no hesitation in accepting were they not anonymous. All such *must* be endorsed by a responsible name to secure publication.

☞ Capt. William H. Barnes of this city, late of ship Adelaide Bell which was burnt at Chincha Islands last Spring, sailed from New York on Saturday last for Liverpool, to take command of ship Anna Decatur, Capt. Pickering, about coming home.

☞ Maj. Broome of the Marine Corps is ordered to relieve Col. Delaney at this Naval Station.

NEW YORK ITEMS.—On Wednesday evening General Grant attended the Academy of Music and was received with great enthusiasm by the audience

A plan is already on foot for the rapid reconstruction of Dr. Tyng's church.

The body of Collector King has not yet been discovered. No doubt is entertained of its being in the bottom of the river, and men are dragging for his body.

Gen. Grant visited the Union League rooms Wednesday night and was welcomed by Vice President Beckman, who after thanking Gen. Grant for his victories, alluded to the "foul wrong of the French occupation of Mexico."

Gen. Grant replied briefly, saying: "There is one sentiment in your address which is mine also. It is the one touching the future of Mexico." This was received with cheers.

WASHINGTON ITEMS, Nov. 16.—The Secretary of the Navy has determined to send abroad a considerable portion of our surplus naval force to cruise about and visit the principal commercial ports frequently, if Congress will make appropriations.

The statement that the Secretary of the Treasury intended to discharge all the female clerks in his Department is erroneous.

The President is more than usually annoyed by importunate reconstructionists. On Wednesday he remarked that he had tried to overwhelm the South with pardons and kindness; but from recent events he began to think them incapable of appreciating magnanimity.

☞ The N. Y. Tribune of Wednesday suggests that Barlow's (Union Republican) majority in the State of New York is 30,000.

— A merchant who started in business in New York a few years ago, with a capital of $160,000, was admitted to the Albany almshouse last week as a pauper.

GOLD, Thursday, 147 1-8.

— Brigham Young, Jr., and family, have been enjoying a tour in Switzerland.

— The Wilmington (N. C.) Herald of last Saturday says that Worth is elected Governor over Holden, *undoubtedly*, by a large majority. The Herald supported Holden during the contest.

ISRAEL MARDEN & CO.,
No. 39 Congress St., Portsmouth, N. H.,
—DEALERS IN—
S. Vance's Submerged Well PUMP.
This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.
ITS ADVANTAGES.
FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.
SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.
THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.
FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.
FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.
SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.
☞ Manufactured by S. VANCE & CO., No. 81 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,
39 Congress Street.
☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

BOUNTY.
$100 BOUNTY.
THE OLD $100 BOUNTY.
The bounty of $100 promised to men who enlisted early in the war, but which was paid only to those who served two years, or who were discharged for wounds, will in all probability soon be paid to all men who served over one year.
This bounty was promised by placards and posters all over the country, and by nearly every recruiting officer, to all men upon receiving honorable discharges. We therefore propose in connection with other offices, to make application for payment of bounties as follows:
1. To all soldiers the bounties promised to them, no matter for what reason, or reasons, they may have been discharged, provided such discharges were not for disability existing *prior to enlistment*, or were not ordered *as punishments*.
2. To nine months' men, three-eighths of $100—$37.50.
3. To one year's men, $100 bounty, as promised.
4. To all men discharged *within two years*, by reason of disabilities contracted while in the service, *(not alone because of wounds received in action,)* the *full bounty* to be given them by the Act of Congress under which they were enlisted.
5. To all men discharged by reason of promotion a *pro rata* bounty, according to the Act under which they enlisted, for the time they served as enlisted men.
6. Of $100 bounty to all deserters who rejoined their regiments and served two years, *exclusive* of the time they were absent without leave.
7. Of three months' pay proper to all officers who have been discharged by reason of disabilities contracted in the service, by reason of expiration of term of service, or by becoming supernumeraries on account of consolidation of regiments.
8. Of three months' pay proper to all enlisted men who were prisoners of war for three months or longer.
9. Also a grant of 160 acres of land to all enlisted men who only received the $100; and a similar grant to officers in proportion to their pay proper.
Inform all your friends who are interested and solicit their co-operation.
No Discharges Bought.
Apply in person or by letter (stamp enclosed.)

THE REASON
Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in many a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, to exchange it for the Southwest (Saint Louis.) My Wife's health being very feeble, and being advised many times during her suffering that change of climate would be beneficial to her,—after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.
Respectfully yours,
I. HAHN.

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles south of Philadelphia, and twenty in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass, Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste*. It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; also Steam Power, which can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawóm

Morning Chronicle.

THE GRAVE OF YANCEY.—A Montgomery correspondent of the Cincinnati Gazette thus describes the grave of Wm. L. Yancey:

It is marked by no monument. A plain marble slab lying on a level with the ground, and enclosed by a low iron fence, covers the ashes of the once proud fire-eater. "Wm. L. Yancey," on the iron gate, is the only thing that tells whose bones rest here. Strange enough that one so ambitious during life should, when dying, request his friends to put no monument to his grave—so strange, indeed, that I am disposed to doubt it in the case of Mr. Yancey, notwithstanding an old citizen tells me that such was the fact. He was an active member of the Presbyterian church in this city; was remarkably gifted in prayer, and zealous of good works generally—at least that is the reputation he has here. He had a small plantation and owned a few slaves, but was by no means wealthy. Still he was the recognized champion of slavery and slaveholders. He gave his great genius to the defence of an institution whose destruction 'tis a pity Providence had not spared him to see. Many have lived to see it whom, I fear, do not profit by the lesson as much as he would have done.

A NATIVE MUSICIAN.—In New York, says Burleigh, "Blind Tom, the colored boy, is the fashionable sensation of the hour. Dodworth's Hall is crowded every night at a dollar a ticket. He is a genuine Southern negro, thick set, heavy molded, low forehead, looking like a country clown, and apparently not over seventeen years of age. In his opening speech, he speaks of himself in the third person and says: 'Tom belongs to a despised race. He is black, he is blind, he is ignorant. How he should play as he does, Tom don't know. Why the piano should be Tom's 'forte' is a mystery that Providence only can solve.'

When Tom was a child he imitated every noise that he heard from man, beast or bird. At three years he groped his way to the piano and commenced imitating the sounds that he had heard upon it. He cannot read, write nor spell, but he remembers every piece that he has heard from his childhood. The most difficult operas, and Thalberg's and Gottschalk's most brilliant compositions he masters with ease. His imitation of the music-box is the most wonderful exhibition ever heard in this city. The most eminent musicians of the city come on to the platform and play most difficult pieces, and Tom will sit down and follow them with wonderful accuracy.

He is indifferent to censure or praise. His excitement at times is so great that he cannot contain himself. He drinks in his own music with all the delight that could attend the performance of another. During the performance of some of his most brilliant passages he laughs, shouts, shakes with excitement as if he was going into a fit, and pats his ear close down to the piano to drink in every strain of melody. At the conclusion of every piece he springs to his feet and leads the applause by a hearty clapping of his hands, precisely as if some one else had been at the piano and he was in raptures at the performance. Regarding him as a poor blind slave, his execution would be wonderful, any way. But his touches are rarely exquisite, and his performances considered in an artistic point of view, would put to the blush many of the professors of music in our city."

Is not the negro a man and a brother?—*N. Y. Independent.*

He may your brother, or half brother—he is no relation of ours.—*Louisville Journ.*

For the negro's sake we hope not. But if the ancient dough-faced Yankee who edits the Journal isn't at least a grandfather in Africa, he has failed in wholly identifying himself with Southern institutions, and is in danger of being considered an Abolitionist.—*San Francisco Flag.*

— "My friends," said a returned missionary, at a late anniversary meeting in this city, "let us avoid sectarian bitterness. The inhabitants of Hindostan, where I have been laboring for many years, have a proverb that, 'Though you bathe a dog's tail in oil and bind it in splints, you cannot get the crook out of it.' Now a man's sectarian bias is simply the crook in the dog's tail, which cannot be eradicated; and I hold that every one should be allowed to wag his own peculiarity in peace!"

— For a long time it baffled the medical authorities to account for the force with which the waves beat against the shore; and it has recently come to light that it arises from the fact of there being "muscles" in the sea.

— The extension of the boundaries of your knowledge, unlike the extension of the boundaries of your farm, never narrows or extinguishes the possessions of your neighbors.

— A correspondent wishes to know whether it would be *comme il faut* to call Miss Hosmer, the sculptor, a "model artist." We should say "not especially," if she has a "big-her-rather."

— Lord Palmerston used to tell this anecdote of himself: "When I was a young man the Duke of Wellington made an appointment with me at half-past seven in the morning, and some one asked me—'Why, Palmerston, how will you keep that engagement?' 'Oh,' I said, 'the easiest thing in the world. I shall keep it the last thing before I go to bed.'"

— He that would have no trouble in this world, must not be born in it.

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, who, after trying all remedies, and finally treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacoa, S. A.

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gonorrhœa, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Tropical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from two to three days*, and is decidedly recommended in those cases of *Fluor Albus or Whites in Females*. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2. Three Bottles, $5.
" Injection, " " $2, " " $5.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us in *perfect confidence*. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. AMUSING SPECIMEN OF IGNORANCE.—A correspondent of the Binghamton (N. Y.) Republican, giving an account of his experiences during a visit to Europe, relates the following incident:

"Upon the top of a coach going from Brussels to Waterloo, seated along side of me was a portly, well-fed Englishman, one of the kind who would rather choke at dinner than ask his neighbor to pass him the water jug. All the way for ten miles he had ridden beside me with his arms folded across his breast, his fat cheeks puffed (as if from rarified internal air) and apparently feeling himself of more weight than all four of us Yankees who were alongside of him.

Arrived at Waterloo we had the same guide, who for some hours pointed out all the points of interest upon the battle-field, John Bull still silent, but at last upon ascending the mound two hundred feet high, formed of the remains of those who fell in battle, he could hold in no longer, but turning to me said: 'Sir, do you think your government does quite right in the dreadful incarceration of Mr. Jefferson Davis?' Upon my replying that a man indicted for the highest crime known to our laws should be kept in prison for safety, he responded: 'But not in such a dreadful manner, for I am credibly informed that he is confined in a dungeon without fire or light, and only bread and water for food once a day.' And nothing that I could say would convince him of the untruth of his information. He then relapsed into silence again, and rode all the way back to Brussels without giving us a word or a look; and this is a fair specimen of the feeling and the correctness of their information in relation to us."

— A match factory at Oskkosh, Wis., employs fifty girls, who earn from three to five dollars a week each.

What a lot of "match-making" old women are in preparation for years to come.

— During the war, the jewels of Zion Lodge of Masons in Jones county, N. C., fell into the hands of a Connecticut regiment, and were ultimately brought to Hartford, where they were repaired by the St. John's Lodge of that city and forwarded to the North Carolina owners with sundry additions to their value.

— The New Bedford Standard says the consideration of the contract which Miss Hetty Robinson claims to have made with the late Sylvia Ann Howland, on which Miss Robinson bases a claim in equity to the estate of her aunt, is said to have been an agreement on the part of the niece not to marry—whether for her own life or only during the life of her aunt does not seem to be ascertained.

— A sad railroad accident occurred at Newark, N. J., on Tuesday, by a misplaced switch. The smoking car was nearly demolished, the first passenger car running nearly through it. Few persons in the smoking or first passenger car escaped without some injury. Four passengers are dead. Eight or nine were injured, of whom it is believed a number will not recover. The switchman has been arrested, and, it is believed, will be tried for murder.

— Minister Clay has addressed a letter to the Secretary of State, dated St. Petersburg, Oct. 17, warning the United States against the importation of the Russian cattle plague. Mr. Clay minutely describes the disease, and comes to the conclusion that there is no sanitary precaution that can arrest it short of absolute non-intercourse. Congress should pass a law prohibiting the importation of cattle from countries afflicted with this scourge, and it would pay well to call Congress together for that purpose only.

A Good, Cheap, and very Valuable Paper for Every Man, Woman and Child, in City, Village and Country.

The American Agriculturist.

FOR THE FARM GARDEN & HOUSEHOLD, Including a Special interesting and Instructive Department for Children and Youth.

The Agriculturist is a large periodical of 82 pages, well printed, and filled with plain, practical, reliable original matter, including hundreds of beautiful and instructive Engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in and around the Dwelling, etc.

The thousands of hints and suggestions given in every volume are prepared by practical intelligent working men, who know what they write about.

The Household Department is valuable to every Housekeeper, affording very many useful hints and directions calculated to lighten and facilitate in door work.

The Department for Children and Youth is prepared with special care, to furnish not only amusement, but also to inculcate knowledge and sound moral principles.

CIRCULATION—IMMENSE.—The circulation of the American Agriculturist (60,000 to 100,000) is so large that it can be furnished at the low price of **$1.50 a year** 4 four-copies for $5; ten copies for $12; twenty or more, $1 each; single numbers, 15 cents each. TRY IT A YEAR. Club Prices for 1866.

Portsmouth, N. H.

SATURDAY, NOVEMBER 18, 1865.

A LITTLE PLOT.—Perley writes from Washington;

It is known here that some of the Southern Representatives elect are endeavoring to persuade their colleagues to agree to act in concert. Their plan is for them all to present their credentials on the first day of the session, and if they are not admitted at once to leave Washington for Richmond, there to remain in a body until solicited to return and take their seats.

Well: if so, they may remain there a long time; or if they should extemporize a new confederacy at Richmond, it may be expedient to send some Kilpatrick or Sheridan, with a small squadron of cavalry to disperse them or bring them back" in a body" as conspirators.

CHANGE OF FRONT.—The late Democratic sweetness toward President Johnson is turning sour. One of the New York Democratic organs, after praising the President's policy to the skies during the State campaign, now suddenly pronounces it "inexplicable." Another begins to question the propriety of particular administration measures; and a third, the News, which had been extravagant in its laudations of the President's supposed stand against the "radicals," now subjects him to the most sweeping abuse. It says, somewhat "sarcastic," as Artemus Ward has it:

But, it seems his (the President's) policy was "an experiment," and that its persistent prosecution was contingent, not upon its efficacy as an instrument, but upon its conformity to the temper of the Republican party. They reject, and he renounces it.—With the instinct of a professional politician, he detects the drift of popular opinion; and perceiving in the result of recent elections, a protest by the dominant party against the avowed principles of his administration, he abandons the experiment, and announces another and less liberal system of reconstruction.

In view of this increasing constraint brought to bear by the President on the seceded States—rendered absolutely necessary, by the way, in consequence of the failure of several of them to respond to his very indulgent terms—the News inquires, as if in a whisper of horror: "Is there any assurance that he will not rise in his demands, and deny them admission to the Union till they conceded the right of suffrage to the negro?" Truly, responds the Boston Journal, that is a dreadful thought—to copperheads and traitors. To others, it is not among the improbable events of the future: not, as the News pretends, from the unreasonable exactions of the President, but from the doubt whether any foundations short of complete justice to the freedmen will answer for the successful and satisfactory reconstruction of the South. But from the "cold shoulder" which the Democracy have already turned to the President for attempting to discipline the refractory leaders of the South, it will be apparent how quickly the party will resume its attitude of bitter antagonism, should he go still further in humiliating treason for the sake of the country. He is now charged with "violating the freedom of elections," "abjuring the Constitution," and subjecting equality and liberty to "the prevalence of a despotic will." What worse can be said of him hereafter, and what from that quarter is worth minding, anyhow?

THE PRESIDENT'S PLAN.—General Simon Cameron, at a reception of returned colored soldiers at Harrisburg, Pa., on Tuesday, gave the following latest version of the President's plan of reconstruction:

I cannot close without saying that there is at the head of the National Government a great man, who is able and determined to deal justly with all. I know that with his approval, no State that was in rebellion will be allowed to return to the benefits of the Union without having first a constitutional compact which will make all men equal before the law; which will prescribe no distinction of color on the witness stand and in the jury box; and which will protect the homes and the domestic relations of all men and all women. He will insist, too, on the repudiation of all debts contracted for the support of the war of the rebellion.

LATER FROM MEXICO.—The Brownsville Mexican Republican of Nov. 7th announces the capture of the city of Mexico by the Liberals. Other advices report Maximilian as desiring to be gone, shipping specie to Europe, &c. [Not very reliable.]

☞ Owing to the extortionate demands of hotel-keepers and house-owners in Washington, quite a number of Congressmen have engaged apartments in Baltimore, where the cost of living is much cheaper than in Washington. It is said that a party of the members, unable to get quarters in Washington for anything like their Congressional pay, have determined to test by resolution the question of adjourning the coming session to Philadelphia, immediately after its organization, and the project has the promised support of every member who has been consulted.

— The city of Toronto, Canada, is in alarm from an apprehended Fenian invasion: troops are posted, police forces doubled, &c.

NEW HAMPSHIRE ITEMS.

—— Col. W. A. Crafts, and Capt. O. W. Dimmerick of this State, have been appointed to $1200 clerkships in Washington.

—— Hon. Barrett Potter died in Portland, Me., on Thursday, Nov. 16, aged 88. He was a native of Lebanon, N. H.

—— Rev. Laurer Armsbury, formerly of Chester has accepted a call to be pastor of the Congregational Church in Candia. He has recently preached at the West.

—— From Concord, we learn that on Friday ex-President Pierce continued dangerously sick with chronic diarrhœa, tending to ulceration. Doctors Morrill of Concord, and Kimball of Lowell, attended him. The latter considered the symptoms more favorable on Friday morning.

LATE FROM JAMAICA.—At last we get something direct from that island. The steamer Montezuma, from Kingston, Ja., 6th inst., has arrived at New York. An outbreak was threatened at Browntown, arising out of suits of ejectment by Mr. Ingram against certain parties, and 100 troops have been ordered. [From this item about *ejectment*, we get the first gleam of intelligence as to the real cause of the outbreak.]

The government had offered amnesty to the rebels who return to their allegiance to the crown, provided they have not been concerned in any actual murders or cases of arson. Several more persons had been executed at Port Antonia, who confessed their guilt.

Advices from Port Morant, 22d, report several rebels condemned to death, including Gordon, the leader, and complete crushing of the rebellion. The road from Long Bay to Mauchineal Bay, eight miles, is so strewed with dead bodies of rebels as to render the road impassable.

Individual arrests of rebels continued. Among them, Sidney Laine, editor of the County Union, published at Montego, and his office seized. Troops were stationed at all points in the island, and the rebellion seemed at an end.

Further accounts state that disturbances had broken out in Stamis Parish, and troops had been sent there. Twelve more rebels were hanged on the 4th. Volunteers were ordered out on the 3d, to suppress a rebel demonstration near Montega Bay; but it seemed a slight affair. Kingston still remained under martial law.

WASHINGTON ITEMS, by Perley.—War clouds again begin to float across the political horizon, and military men talk of a campaign against the French occupants of Mexico, as if it was decided upon. Meanwhile large sales of government arms and munitions of war are to be made, which will afford emigrants to our sister republic a chance to procure means of defense. At the War and Navy Departments it is denied that any war-like preparations are being made.

Schuyler Colfax is expected to arrive on Saturday morning, and will be serenaded that evening by his Indiana friends. He will be elected Speaker on the first ballot.

Gov. Newell of New Jersey is here to protest against the erection of a cholera hospital on the government reservation on Sandy Hook.

☞ Part No. 51 of that valuable work, the Rebellion Record, with portraits of Gens. A. P. Hill and W. F. Smith, is received from the publisher, D. Van Nostrand, 192 Broadway, New York. No lawyer should be without this record, it already having been admitted several times as testimony in various cases.

— Rev. Mr. Atwood becomes Pastor of the new Universalist Society in Portland, at a salary of $2000.

— The Boston Recorder is to be enlarged the 1st of January, 1856, and new features added.

— Rev. Mr. Walton, the Pastor of the Third Parish in Portland, (whom the Council would not instal because they denied his orthodoxy,) has been surprised by a visit from the mass of his people, loaded with useful gifts.

— Details of the fatal accident to W. P. Johnson, brother to the President, show that he was accidentally shot while removing a gun from a small boat in which he crossed the Brazos river, on the 24th of October. The ball shattered his arm, and amputation being deferred too long, he died after lingering three or four weeks.

— The First (Orthodox) Congregational Church in Washington, D. C., was organized on Wednesday, in the meeting-house of the Unitarian (Congregational) Church. [The reader will perceive the beauty of calling a house a church, if we say "the Orthodox Church was organized in the Unitarian Church."] The new Congregational Society at Washington bids fair to be large.

— Postmaster General Dennison is now awarding the Southern mail contracts for which bids have been made. Of the fifty-four routes advertised in Florida, only six could be contracted for. The Department refuses to award contracts or to give appointments as Postmasters to any persons who cannot subscribe to the test oath.

NOTES OF FORMER DAYS.

Collected and Collated by UNCLE TONY.

Popular Discontent in 1783—87—Efforts for Paper Money.

Perhaps no portions of these old papers are more likely to be useful, than the extracts we are now about to make from Belknap's New Hampshire, showing the state of things in New Hampshire, (as well as in other States) which proved our old Confederation to be loose and powerless—and which led to the formation, by the United States Constitution of a government which could *act*, instead of a heap of sovereignties bound together by a mere rope of sand. These extracts are from the pen of a calm, conservative, deliberate writer, who lived through the events which he records, and who wrote his history only a few years after our Union was completed. Dr. Belknap says:

The American revolution had been crowned with success, as far as it respected our emancipation from foreign jurisdiction, the establiament of forms of government among ourselves, and our deliverance from war. It remained, to accomodate the minds and manners of the people under the new administration, to a regular course of justice, both public and private; to perfect the union of the States; and to establish a system of finance. These things were necessary to make the revolution complete.

The extremes of despotism on the one hand, and of licentiousness on the other, are equally to be avoided. In a just medium between these, a government well balanced and executed with vigor, is capable of producing the most valuable benefits. To this point it was necessary to conduct our revolution. But it was equally necessary, that it should proceed by slow degrees; that errors in principle should be gradually reformed; and that men should be taught by their own experience, the folly of relying on any system of politics, which however supported by popularity, is not founded in rectitude.

A large debt accumulated by the war, remained to be discharged. For this purpose, requisitions were made by Congress, as well as by the State governments. Silver and gold, which had circulated largely in the latter years of the war, were returning, by the usual course of trade, to those countries, whence large quantities of necessary and unnecessary commodities had been imported. Had any general system of impost been adopted, some part of this money might have been retained, and some part of the public debt discharged; but the power of Congress did not extend to this object; and the States were not united in the expediency of delegating new and sufficient powers to that body. The partial imposts laid by some of the States, were ineffectual, so long as others found their interest in omitting them. Recourse, therefore, was had to the usual mode of taxation on polls and estates; by which means, a heavy burden was laid on the husbandman and the laborer. Those who were punctual in their payments, saw no probable end of their exertions, whilst the negligence of others occasioned repeated demands. Private creditors, who had suffered by long forbearance, were importunate for their dues; and the courts of law were full of suits.

The people who felt themselves distressed, held conferences with a view to devise means of redress. The remedy which appeared to many of them most easy, was an emission of paper bills, founded on real estate, and loaned on interest. To effect this, Feb. 24, 1785, petitions were addressed to the legislature; and to remedy the grievance, as far as it was occasioned by a debt of the State, an act was passed, to draw into the treasury all notes issued by the state, and give certificates for the interest, and for fifteen per cent. of the pricipal, annually; which certificates were to be received by the treasurer for taxes, "in lieu of, and equal to silver and gold." By this means, it was expected that the debt would gradually be extinguished; and that the people would easily be enabled to pay at least one species of their taxes.

This was far from satisfying the complainants. The public securities, they said, were engrossed by rich speculators, and the poor were distressed for the means of paying their taxes and their private debts. The cry for paper money was incessant; and the people were called upon in the public papers, "to assert their own majesty, as the origin of power, and to make their governors know, that they are but the executors of the public will."

To this clamor, the voice of reason and justice calmly answered; that it was not in the power of the legislature to establish any fund, which should secure paper money from depreciation; that there was so much paper then in circulation, and the time of its redemption was so distant, that the notes passed at a discount of sixty, and the certificates of twenty per cent.; that if the quantity were increased, the depreciation would increase in proportion; that if bills were issued and made a tender in all payments, it would never be in the power of government to redeem them by silver and gold, because none could be collected; and in that case, no part of the continental or foreign debt could be discharged; that if bills were loaned on land security, it would be in the power of the public debtor to purchase the bills at a reduced value and with them to make his payment at the treasury, in which case, though the public chest might be filled with paper, yet the government would suffer all the embarrassment of poverty. It was added, that the legislature were by the constitution expressly forbidden to make retrospective laws, and had no right to alter the nature of private contracts; and that should the majority of the people petition the government to make paper a lawful tender, it would be their duty to reject the petition as unconstitutional. When it was proposed, that the paper should not be a tender for past but only for future contracts; it was answered, that this would not relieve the debtor, who was suffering for his past engagements, and the difficulties which it pretended to cure would still exist.

In vain were agriculture and manufactures, industry and frugality recommended as the only adequate sources of relief; the complainants had no disposition to apply a remedy so slow in its operation; and indeed it was doubtful whether the utmost exertions in that way would have been sufficient, completely to extricate us out of these difficulties, without some alteration in our confederated government.

FROM HAYTI, *via Jamaica*, we got some accounts, which look as if the Haytien rebellion was collapsing, as well as that in Jamaica.

Jamaica papers say that the outrage committed by the rebels against the Haytien Government and on the flag of England, is one that will insure the leaders a punishment such as they little thought would be realized.

The U. S. steamer De Soto had arrived, with 36 refugees from Cape Haytien, among them the Consuls of Prussia and Hamburg, and sailed again, carrying some of them back to Cape Haytien, including the Russian Consul.

Gen. Salnave, the rebel leader, was among the persons killed at Cape Haytien by the shots of the Bull Dog. Particulars of the affair say some kind of a compact was entered into by the captain of the Bull Dog and President Geffrard, who had three steamers of war under his command, the understanding being that the Bull Dog should be supported in obtaining redress for the firing into steamer Jamaica Packet in the small harbor near Cape Haytien by the rebel steamer Valdroque. The Bull Dog ordered the Valdroque to desist, when her captain reported the matter to Salnave, who forcibly removed all the Haytien refugees from the British Consulate. The Bull Dog entered the harbor of Cape Haytien, closely followed by a Haytien steamer; she steered toward the Valdroque with the intention of running her down, but grounded. Her guns, however, were ranged on the Valdroque, which was sunk in three minutes. She then opened fire on shore. The arsenal was blown up, and all the forts quickly silenced and dismantled. It being impossible to get the Bull Dog off, she was abandoned and blown up.

The latest advices state that the ship of war Lilly had sailed for Cape Haytien.—Rumors say Gen. Lamothe, one of the leaders of the insurrection, is to be handed over to the Haytien government.

— During the visit of the cholera in 1849, the common house flies died, and none were to be seen after the epidemic had prevailed a short time.

— It is reported that Government will prohibit the use of fractional currency in case of the cholera's raging badly in this country, as Napoleon has prohibited the rag trade in Paris.

— It has been ordered at Moscow that in all public buildings the doors of the main entrances shall open outward, instead of, as hitherto, inward. The reason of this arrangement is to enable people to have free egress in the event of any accident or panic occurring.

— It is but simple justice to the manufacturer of the J. Monroe Taylor Gold Medal Soap, to award him the credit of being far ahead of all competitors in catering to the luxury of the ladies, who prize nice, clean, white clothes (and what lady does not?) Our wife says she could not keep house without it. It is decidedly the Soap of the world. It is a peculiar institution of itself, and such a luxury to use it, that after one trial it is always found to be one of the most useful articles in the household. ISRAEL MARDEN & CO.,

No. 39 Congress St., Portsmouth, N. H.,

—DEALERS IN—

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are wanted. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

ISRAEL MARDEN & CO.,

39 Congress Street.

☞ We are permitted to refer to Mr. MOSES HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

ALLCOCK'S POROUS PLASTERS.—A Druggist said the other day, you have no need to advertise your Porous Plasters, for every one sold certainly causes a dozen to be sold, and a dozen sells a gross, and so on. But we can supply a thousand yards a day.

AFFECTION OF THE SPINE CURED.

HARTFORD, CONN., NOV. 11th, 1861.

MESSRS. THOS. ALLCOCK & CO.:—Please send with dispatch, twelve dozen Allcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing, a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay $5 for a single plaster, if they could not be had at a lower rate. I am surprised that surgeons do not make use of these perforated plasters, to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them render them greatly superior to all others for ordinary surgical uses. Knowing the Plasters to be so useful, I have no scruples that my sentiments should be known. J. W. JOHNSON, M. D.

Burno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no Tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. BURNO, P. O. Box 1235, New York City.

S. J. COURT, Friday, Nov. 17.—State vs. W. Denin, an appeal from Police Court on complaint for violation of Sunday ordinance, was called, and respondent waited with great patience for the evidence to appear on the part of the State, which not being forthcoming, a nolle pros. was entered by the Solicitor. Bell for State; William H. Hackett for respondent.

The following State cases in continued docket were disposed of:

State *v.* Russell, Waldron and Smart, for riot, a nolle pros. was entered.

State *v.* Mark Scott, nolle pros. entered.

State *v.* Hattie Morrison, house of ill-fame. The question of fine was argued by Mr. Hatch for deft. and Atty. General for the State. Respondent sentenced to pay a fine of $50 and costs.

State *v.* James Jones and John Donovan not to be brought forward.

State *v.* Jas. Pickering, nolle pros.

State *v.* Gove, nolle pros.

In case State *v.* Fanning, Fanning was sentenced, in the case where a verdict was found against him, to 5 months' imprisonment in the common jail, and other indictments against Fanning and wife were continued on the recognizance of the respondents.

The Court were engaged a quarter part of the afternoon in the call of the continued docket.

POLICE COURT, Nov. 17.—Friday was bright and warm, just the day for a ride, but then our main street is hardly the place to try the speed of horses, or at least that is the opinion of our City Marshal, who introduced Benjamin Spencer to his honor the Police Judge, and the latter assessed Mr. Spencer a fine of $5 and $4.80 costs, as a penalty for urging his steed through the city at a greater rate of speed than is sanctioned by our city ordinances.

NAVY YARDS.—Perley writes from Washington:

The statement telegraphed from Boston that the iron-clad Passaconaway and three steamers at Portsmouth were to be fitted for sea, had no foundation in fact. On the contrary, work at the Portsmouth and other Navy Yards is to be partially suspended, and large numbers of workmen will be discharged at an early date.

Another item on the same subject says:

It is rumored among the mechanics of the Brooklyn Navy Yard that within a short time 2000 of them will be discharged. The retrenchment will take place among those who during the war have enjoyed the benefit of good situations without doing any duty in the active forces of the army and the navy.

☞ L. Pray & Co., Boston, continue to produce new sets of their beautiful album pictures, in oil colors. We have received from them a dozen views in the White Mountains and also the language of flowers. They published a set of "Magic Cards," which furnished a great deal of amusement, at the low price of 25 cents. Every sort of illustrated publication to please the young seems to be published by this firm. Most of their goods can be had of Messrs. Shores and Foster.

"The silver chord is loosed; the golden bowl is broken."

DIED, in Kittery, Nov. 17th, 1865, Mr. SAMUEL TODD, aged 73 years, 4 months: this is the first death in the family circle of six children for more than 60 years. The widowed mother died in '43, at the advanced age of 78 years.

☞ At noon to-day, Mr. Wendell will sell the two-story house, with land, at the corner of Pickering and Water streets.

☞ The steamer Resaca will be launched from this Navy Yard to-day (Saturday) at about 12 o'clock.

☞ Some persons have ventured, during the past few years to question the truth of the old saying that "Cotton is King," but in our mind there is no doubt of its credibility, if applied to negro minstrelsey, in which realm Cotton, Murphy & Smith reign supreme.

☞ Our Citizens will not fail to avail themselves of the opportunity offered them to hear their townsman, Mr. Henry C. Barnabee, (now of Boston) on Friday evening next, in connection with Mrs. Whipple's readings, and Mr. Howard M. Dow's performances upon the piano.

"THAT COMICAL BROWN."—People who don't like to laugh and have a good time generally, should give the Temple a wide berth next Friday Eve., for that irresistibly funny genius, popularly known as "That Comical Brown," is to give one of his racy, humorous musical treats then and there. Miss Marsh, the favorite Contralto is to assist on some of her best pieces. A new and attractive feature of the entertainment is the remarkable performances of the trained dogs, Scottie and Prince Charlie, who go through their paces by Mr. Eustis their trainer. Brown's entertainments rank among the most popular of any now before the public, and wherever he goes crowded houses greet him. Those who want seats must go early or be content to stand.

INDIAN SUMMER.

****** Then followed that beautiful season,
Called by the pious Acadian peasants the Summer of All-Saints!
Filled was the air with a dreamy and magical light; and the landscape
Lay as if new-created in all the freshness of childhood.
Peace seemed to reign upon earth, and the rest less heart of the ocean
Was for a moment consoled. All sounds were in harmony blended.
Voices of children at play, the crowing of cocks in the farm-yards,
Whir of wings in the drowsy air, and the cooing of pigeons,
All were subdued and low as the murmurs of love, and the great sun
Looked with the eye of love through the golden vapors around him;
While arrayed in its robes of russet and scarlet and yellow,
Bright with the sheen of the dew, each glittering tree of the forest
Flashed like the plant-tree the Persian adorned with mantles and jewels.

Now recommend the reign of rest and affection and stillness.
Day with its burden and heat had departed, and said twilight descending,
Brought back the evening star to the sky, and the herds to the homestead.
Pawing the ground they came, and resting their necks on each other,
And with their nostrils distended inhaling the freshness of evening.

SINGULAR FREAK OF NATURE.—A Mrs. Woodward, of this town, recently cut open a ripe pumpkin, and found some of the seeds fully sprouted, the stem having grown two inches or more, and the leaves being well formed and quite sizeable. A friend of ours years ago obstinately refused to eat the roe or spawn of cooked herring, from the apprehension that the natural warmth of the stomach would convert it into little fishes. We thought the apprehension an unreasonable one. But it nature is inclined to play such freaks with pumpkins, nobody can tell what might happen with cooked herrings.—*Brunswick Tel.*

☞ The recently published reports concerning the activity of the Navy Department in getting ready for sea various vessels have no significance beyond the fact that at all times there are circumstances connected with the business of the Department which necessitates the fitting out of vessels to be dispatched on government duty. One vessel will leave during this week for Europe, and soon another will sail for the West Indies.

— Samuel B. Thompson, a young man in Henrietta, N. Y., who is afflicted with periodical attacks of insanity, went to Rochester the other day and drew $1500 from the bank, and, repairing to the market, purchased a load of potatoes, which he gave to a stranger. He gave away bank notes by the handful to strangers, and when taken into custody by the police, had but $50 left. Several hundred dollars were subsequently recovered.

— Last Saturday night a middle-aged man was drugged while on the cars between New York and Bridgeport, and robbed of $1200 in gold. He has recently arrived from England, and was en route to Boston to meet his wife. The money he had with him was all he possessed.

BOUNTY.

$100 BOUNTY.

THE OLD $100 BOUNTY.

The bounty of $100 promised to men who enlisted early in the war, but which was paid only to those who served two years, or who were discharged for wounds, will in all probability soon be paid to all men who served over one year.

This bounty was promised by placards and posters all over the country, and by nearly every recruiting officer to *all* men upon receiving honorable discharges. We therefore propose in connection with other offices, to make application for payment of bounties as follows:

1. To all soldiers the bounties promised to them, no matter for what reason, or reasons, they may have been discharged, provided such discharges were not for disability existing *prior to enlistment*, or were not ordered as *punishments*.

2. To blue months' men, three-eighths of $100—$37.50.

3. To one year's men, $100 bounty, as promised.

4. To all men discharged after *two years*, by reason of disabilities contracted while in the service, (*not all we because of wounds received in action*,) the full bounty to be given them by the Act of Congress under which they were enlisted.

5. To all men discharged by reason of promotion *pro rata* bounty, according to the Act under which they enlisted, for the time they served as enlisted men.

6. Of $100 bounty to all deserters who rejoined their regiments and served two years, *exclusive* of the time they were absent without leave.

7. Of three months' pay proper to all officers who have been discharged by reason of disabilities contracted in the service, by reason of expiration of term of service, or by becoming supernumeraries on account of consolidation of regiments.

8. Of three months' pay proper to all enlisted men who were prisoners of war for three months or longer.

9. Also a grant of 160 acres of land to all enlisted men who only received the $100; and a similar grant to officers in proportion to their pay proper.

Inform all your friends who are interested and solicit their co-operation.

No Discharges Bought.

Apply in person or by letter (stamp enclosed.) Call at our office with your discharges and make your claims.

THE REASON

Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in many a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, to exchange it for the Southwest (Saint Louis.) My Wife's health being very feeble, and being advised many times during her suffering that change of climate would be beneficial to her,—after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.

Respectfully yours,

I. HAHN.

VINELAND

FARM AND FRUIT LANDS.

In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.

The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. *This is a great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is among one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $30 per acre. Five and ten acre and Village lots for sale.

Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.

Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.

For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.

Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.

Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.

HE LEADS US ON.

He leads us on,
By paths we did not know;
Upwards He leads us, though our steps be slow,
Though oft we faint and falter on the way,
Though storms and darkness oft obscure the day;
Yet when the clouds are gone
We know he leads us on.

He leads us on
Through the unquiet years;
Past all our dreamland, hopes and doubts and fears,
He guides our steps. Through all the tangled maze
Of sin, of sorrow, and o'ercloaded days
We know *His* will is done;
And still *He* leads us on.

And *He*, at last,
After the weary strife,—
After the restless fever we call life,—
After the dreariness, the aching pain,
The wayward struggles which have proved in vain,—
After all our toils are past,
Will give us rest at last.

MEXICO. — The latest advices from Brownsville say the Liberals under Gens. Escobado, Cortinas, Canales and Mendes, were vigorously continuing the siege of Matamoras. They captured on the 5th the steamer Rio Grande, and brought her to Clarksville to transform her into a gunboat. The Liberals held the river below the town, which had been evacuated by the women and children, who sought refuge on the American side. It is thought that the Republicans will capture the place. While the Federal forces were enthusiastically cheering the progress of the rebel besiegers on Thursday last, the Imperial steamer Pessano fired four shots at them. The casualties by this strange proceeding are unknown.

There are indubitable indications that a persistent effort will be made in many of the rebellious States, as soon as they are reconstructed, to appropriate pensions to wounded officers and soldiers who fought on the southern side, leaving such citizens of those States as joined the Union army to the care of the Federal Government, but taxing them to support their enemies—*Exchange.*

If so, this would be a sufficient reason for keeping them without any *construction*, except that of conquered territory.

DE PROFUNDIS.—It is said the Atlantic cable is in a state of ex-communication.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
FARRANT & CO
Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabinis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUEZ,
Merchant, Curacoa, S. A.
New York, June 28th, 1865.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rhematic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us in *perfect confidence.* We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

GONE.

ar out from the pitiless night,
Which enshrouds the gloomy shore,
air little bark has sailed o'er the sea.
ad my voice—when I call it back to me—
Is drowned in the ocean's roar.

nly a brown little curl
Is left me, here on the shore;
r the clinging arms and beautiful eyes,
t and blue on summer skies,
Are gone forevermore.

Only the memory sad
Henceforth will come to my soul,
the dear little feet that have wandered away,
d eyes that have sought the Perfect Day,
Beyond where the dark waves roll.

And I look with longing eyes,
Far away, o'er the midnight sea,
catch the gleam of a snowy sail;
it tears and longings will not avail—
He will never come back to me.

— President Johnson, after sending Carl hurz and John Covode to the South, to port on the condition of public affairs ere, dispatched several conservative ends on the same confidential mission. ne of them—the Hon. Wm. Waterson—merly a Representative in Congress from Knoxville district of Tennessee, has returned and given a rose colored account of hat he saw and heard. He represents the ople as loyal, slavery as dead and the esident as popular everywhere.
[Luckily, there are newspapers and the legraph, to offset rose-colored lies.]

— Rev. J. R. Kerfoot of Connecticut has een elected Bishop of the Protestant piscopal Church in West Pennsylvania.

— It appears from a report presented to e Norwegian Storking that one hundred ousand children are educated in the disict schools of that country, at an annual ost of eighty thousand pounds.

— One Peter Myres, of Collinsville, onn., it is said, can wheel, with comparative ease, a load of one ton. The same an has a son twenty-one years of age who heels a load of from one thousand to fifen hundred pounds.

— One who has tried it says that the est cure for corns is to keep them well wet ith a strong solution of common washing oda, when they will soon and permanently isappear.

— According to the address of the State Teachers Association of Tennessee, there re 83,000 adults in that State who can neither read or write and 300,000 children without school advantages. It seems that ne-quarter of the adults are totally illiterate.

— The rebel Gen. Longstreet asserts that in April last the rebels had under arms but 250,000 men, of whom our records show that 175,000 afterward formally surrendered as prisoners of war. The total strength of the Union army on the 1st of May was upward of 1,000,000 of men, and we also held 98,000 rebel prisoners.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) as obtaining the safest, surest, and the latest remedies for these diseases; offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Fistula, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blisters, Ulcers, Abscesses, and all other diseases arising of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with unusual success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of the terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures: Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Single by A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. Teller still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for obstructions, irregularities, and other instructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

MONDAY, NOVEMBER 20, 1865.

ORIGIN OF THE REVOLT IN JAMAICA.—The Jamaica Guardian says the origin of the revolt was a letter by Dr. Underhill, Sec. of the Baptist Missionary Society, to the British Government in the early part of the year, setting forth the imaginary wrongs of the peasantry. This was widely circulated on the Island, and the country has been in a state of continued excitement ever since. Opposition to their views produced a loud storm of passion on the part of Underhill's sympathizers. Public meetings were held in every direction, there was loud talk about their wrongs and oppressions, and strong resolutions were passed. Conventions were formed and a secret society entitled "The African Liberation society." One of the prime movers was George William Gordon, a large landed proprietor and a member of the Legislature, who traveled over the country making intemperate harangues. His influence was very great.

Previously, or early in 1864, secret societies were formed in St. Thomas-in-the-east, under the instigation of Wm. Grant, a saddler at Morant Bay, of which Paul Boyle, a negro preacher, was the chief commander. They for some months past have been swearing in all of their own class in the country, and secretly taking the lives of all whom they suspected of being inconstant. Boyle's church at Stony gut was fortified as a garrison for the insurgents.

On the 7th of October the Court at Morant Bay was disturbed by rioters, one of whom was taken into custody, but was rescued by Boyle and others, and the police beaten. Warrants were issued for the arrest of Boyle and 27 others, but it was impossible to execute them, Boyle being supported by 300 persons armed. Troops were sent for, a small party of volunteers having been overpowered by the rioters and obliged to take refuge in the Court House. The latter was fired, and on the roof falling all the inmates rushed out, were attacked by the rebels and 15 killed and 19 wounded: some were dreadfully mutilated. Several of the wounded died afterwards. Various similar acts on a smaller scale, were committed at other places, until on Saturday, the 14th, the military appeared, and the rebels were surrounded and either made prisoners or shot down.

[This shows that the insurrection was formidable for one week, being put down on the 8th day from the first disturbance of the Court.]

Gordon was arrested on the 17th, tried and convicted on the 21st, and hanged on the 23d. Boyle was brought in on the following Tuesday, as was his brother Moses, Old Bine, the rebel Captain General. All were tried and executed on one day, with fourteen others.

Among the treasonable documents captured was a plan to fire Kingston and massacre all the inhabitants. They are said to have been prepared by Lamothe, the Haytien refugee.

[Lamothe was a Haytien rebel against Pres. Geffrard's government, and seems by this account to be the father of the violence an denormities in Jamaica, though Gordon and Underhill appear to have been chief movers of the popular mind against real or supposed grievances.]

From all that could be gathered the outbreak was premature. It was to have commenced on Christmas eve, and been general throughout the island. It was generally regarded as suppressed.

[The Jamaica Guardian is a prominent and able paper, and gives us the above statements, from the standpoint of loyalty to the Colonial and British Authorities. It is not probable that any paper in Jamaica will dare to give us an account from a rebel point of view. We may get *that*, some day, from the British Parliament, or from Exeter Hall.]

It appears now from authentic rumors, that the great body of the working people did not join in the conspiracy, took no part in the outbreak, and deem the attempted rebellion a great folly as well as a crime.

The trouble was local: chiefly in one parish, that of the St. Thomas-in-the-East: and and only in other places very near. There are 22 parishes (or counties) in the whole Island; and most of these have remained quiet. About 1000 blacks have been executed, shot and hung, within three weeks.

WASHINGTON ITEMS.—Government has decided to appoint female detectives to search suspicious women who are extensively engaged in smuggling silks, &c., between Canada and the United States.—Their chief operations are transacted by way of the Grand Trunk Railroad, and it is believed that Buffalo is the main depository.

Government has ceased purchasing cattle for our armies at the North.

Several citizens of Richmond met in a drinking room in Washington and drank to the "honored name of Wirz."

— P. T. Barnum and others have under consideration plans for erecting cheap tenements, on a large scale, in Bridgeport, Ct.

— President Johnson told a gentleman who called on him that he was clearly of the opinion that negroes have now the legal right to bring suits, and to testify, in any U. S. Court.

— Maj. Gen. Terry, commanding the Department of Virginia, has issued an order that after the close of the present month no more rations are to be delivered to white persons in Virginia, with the exception of some in Richmond.

NEW HAMPSHIRE ITEMS.

—— Ex-President Pierce is said to have had more comfortable rest on Friday night.

—— Major Bowers of New Hampshire, commander of the 10th Veteran Reserves, is the only one of several hundred officers of that corps who has resigned. Nearly all of the privates have been mustered out.

—— The store of R. D. Tibbetts at Gilmanton Iron Works, was broken into Wednesday afternoon and $1000 in money stolen there from. It is said that the crime was committed by a young man belonging in Manchester.

—— Four suspicious looking characters, having a bag filled with poultry recently killed, were arrested in Nashua on Thursday. They refused to give any account of themselves, no one appeared against them when arraigned on a charge of theft, they entered a plea of *nolo contendere*, paid fines and costs amounting to $23, and went their way, still incog.

—— Chas. L. Pearl of Farmington Village, was at work in Boston, and suddenly disappeared about eighteen months since, leaving a wife and dependent family of small children. People supposed him dead till he arrived home from a whaling voyage a few days since. He says he was drugged and got on ship board when he was senseless, and was out to sea before he knew it. We trust he will not put himself in the way of being drugged again.—*Rochester Courier.*

ASSISTANT SECRETARY CHANDLER.—Washington correspondence says that Hon. Wm. E. Chandler, the acting Secretary of the Treasury, is earning praise on all sides by his prompt, impartial and methodical manner of doing business. Those who have known him best in New Hampshire say that he enjoys the respect and confidence of men of all parties, and his behavior since entering upon his present arduous and responsible labor has gained him hosts of friends. He is the youngest man of his rank in the government, being only about 30 years old.—*Boston Journal.*

CONFEDERATES IN MEXICO.—It is said that Maximilian has given land to several settlers near Cordova, on the road between Vera Cruz and the City of Mexico. There are about a dozen large haciendas of soil supposed to be good, and capable of producing cotton, coffee, cocoa and tobacco. It is given in estates of 640 acres to families, and smaller lots to single men. Price, Shelby, Harris and others were there, relying upon the effects of a manifesto to be circulated in the Southern States by Lieut. Maury, to induce emigration. They would not begin to till the soil without an accession of numbers, which is to say they have no idea of going to work themselves. The fact is, (remarks the Boston Journal) if these Southern gentlemen were planted in Eden, their false ideas of labor would debar them from any true prosperity. The pioneers who have held the outposts of the advancing tide of Western population waited for no accessions. Each man singly in his place began the contest with the forests, often moving forward indeed to escape the press that threatened to impede his independent exertions. This is the spirit that founds States, and which has given us our wonderful prosperity and power. The romances of Maury and the chivalry of ex-Governor Harris may be desirable things to have, but they never can constitute the foundation of a prosperous community in Mexico, or anywhere else.

— After this month, no ordnance hands in Washington Navy Yard are to have over $3 per day.

— A large number of women have been appointed in the Post Offices South, on account of the inability of men to take the oath.

— The Jamaica Standard says over 1050 rebels have been hanged and shot in St. Thomas Parish, and it is likely that before the court martials close 10,000 will pay the penalty, &c.

— A telegram has been received at Charleston, S. C., from Washington, suspending all action in regard to the Sea Islands, now occupied by freedmen: i. e not to disturb them at present.

— Professor Newton, of Yale College, states that a few mornings since, he saw 430 shooting stars in one hour and fifty minutes. We have seen ten times that number, in a single second of time—when learning to skate.

— Mr. Gerard Halleck some time ago presented to city of New Haven, land on the harbor for a bathing ground. The city expended $500 in fitting it up, found it would cost $5500 more, and therefore reconveyed it to the donor.

— The Newburyport Herald says the Pollock fishermen are now doing grandly; the fish were never more abundant. The fish find a ready market; the oil is in demand at a high price, and the spawns are preserved and sent to France to feed fish.

— Gov. Durkee, the newly appointed Governor of Utah, writes from Salt Lake City that he finds the Mormons openly defying the United States government on the question of polygamy, which they declare they will never give up. But a comparatively small internal revenue tax is paid, and many of the United States officials are Mormons.

Correspondence of the Chronicle.

Friend Miller:—I have long been silent, but by no means inattentive. When I wrote last, the Gazette was a large fraction of all the journalism that I was called to handle. It was perhaps a fifth then, and not a fiftieth now. Still from all the rest the Gazette is sorted out, carried home, and every column glanced over at least. But it has been hard to respond for want of time. Formerly I used to write you about nearly every one of the few books that I read, if I found that they would be valuable acquisitions to household libraries; now that every day brings a new book, and every week a good one, neither my time nor your space would suffice for a review of them. But I have singled out two, and many weeks ago promised myself that I would tell the Gazette about them.

The first is a religious book, with an unpromising title. It proved, however, novel and important in its aim, and withal that aim so well achieved, that I hold it as quite an acquisition. It is entitled "Voices of the Soul Answered in God." I do not know the author, save that his name is John Reid, but the book is published in New York by the Carters, and kept in Boston by Gould & Lincoln. You know that what satisfies you of the truth of Christianity is not any historical argument, but the accordance of the doctrines of Revelation with what is passing and has passed within you. The voices of your soul, its longings and wants, are answered by the existence of the God of Revelation. The analysis of what passes generally unconsciously within us is so trenchant, we see so much, under the direction of the guiding finger of the author, that ordinarily escapes our notice, that we feel that he anatomizes aright.

I do not say that external arguments would not satisfy every candid man of the truth of revealed religion; it certainly would, but that is not the evidence in which we *rest*. It is this which is here developed better than I have met it elsewhere. I feel inclined to copy you a specimen; but, remembering that what I have always admired in the Chronicle is the brevity of its articles, I content myself with the summary of a single chapter, the first of Part 3: Unconscious Knowledge; Soul in its Infancy; May be undeveloped germs of eternal ideas in the soul; Generic longings mingling together; Doubt; Movements of mind that cannot be expressed in human language; Ideas of the future and the eternal partly dim; Transcendental element; The mysterious; These may form a nebulous region in the soul; Its relation to the future developments of God; Latent powers may appear in eternity; There must ever be a degree of dimness in the finite mind.

The other is quite a different book, and supplies a more palpable want. Did it never occur as strange to you that we had no systematic zoology? Some costly works we have: Soy's Entomology; Harris's Injurious Insects; a quarto on Herpetology; one volume on Birds, that can be purchased for less than $10; a quarto on mammals in the series yielded by the Jeff. Davis Railroad Survey; and another on birds. Agassiz and Gould, two first class zoologists, began a work on zoology in general, in the first half of this century; it will not be completed before the last half of the next. Just here steps in Prof. Sanborn Tenney, a second-class naturalist fortunately, but a first-class professor in a first-class institution (Vassar Female College), and gives us just the book we need. It covers the whole range of animal creation, from mammals to the sponge, only that the last immense section, standing between other animals and the lowest order of the vegetable world, is briefly dismissed in a note of a little more than a page, with eleven illustrations.

Such a work without engravings would be an imposition, but quite a good-looking book would be made by fishing up woodcuts that would not cost a dollar. But here we see no evidence that the publishers have spared any cost that would add to the value of the book. Many are from original drawings. All are selected for the wants of the American pupil, to whom also the text is adapted. And now if among all the issues of our prolific press, there is any rival or substitute for this book, I have not seen it, and if there is any way in which it can be improved, except by making it large, I have not found it. As it is, it is full large—a handsome 12 mo. of 540 pages, printed in that semi-antique type that the Atlantic Monthly shows. Charles Scribner & Co., of New York, are the publishers, and they have done a good thing for the public. If they do not make it a good thing for themselves, I shall be both surprised and sorry.

By the way, I wish somebody that is competent would discuss that type. I am not. It seems to me less beautiful, but easier to read and less liable to fatigue the eye. Others maintain precisely the reverse. The *e* is more distinct from the *c*, which, by the way, looks like a bad *o*. On the whole, this type looks uncouth and unfinished. Can there be no tribunal before which the claims of the two shall be litigated?

To return to the zoology. I see that on the back it bears the name "Natural History." Does this mean that Prof. Tenney is to offer us a Botany also? We hope not. Prof. Gray has left us no want for another to supply. Another, if the press do its duty, would be a ruinous speculation.

Yours, I. F. H.

ANOTHER RAILROAD TO THE MISSISSIPPI.—Chicago papers state that the American Central Railway Company, which was organized in 1856, to build a road from Fort Wayne, Ind., to New Boston, Ill., on the Mississippi river, about sixty miles below Rock Island, has recently been consolidated with the Pittsburg, Fort Wayne, and Chicago Railroad. The work was interrupted by the financial crash of 1857, but will be vigorously resumed next Spring. One hundred miles of the road is already graded.

— No more puny children, decayed teeth, or yellow bread, if you will use Herrick Allen's Gold Medal Saleratus. There is nothing equal to it. It is far superior to soda to use with cream tartar. Bread or biscuit raised by it is more easily digested than by any other. Try one paper, and you will not fail to use it ever after. Have the Gold Medal or none. Grocers and Druggists keep it. 19

☞ L. Prang & Co., Boston, continue to produce new sets of their beautiful album pictures, in oil colors. We have received from them a dozen views in the White Mountains and also the language of flowers. They published a set of "Magic Cards," which furnished a great deal of amusement, at the low price of 25 cents. Every sort of illustrated publication to please the young seems to be published by this firm. Most of their goods can be found of Messrs. Shores and Foster.

A Card to Invalids.
A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*

Perry's Moth and Freckle Lotion.
☞ Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discoloration show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either; and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discoloritions, which is at once prompt, infallible and harmless.
Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES
These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most fashionable preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**
Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

S. Vance's Submerged Well PUMP.
This unsurpassable invention, now being first introduced, it is believed, supersede all other Well Pumps now in use.
ITS ADVANTAGES.
FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can put it together.
SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.
THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.
FOURTH, POWER.—For the amount of power applied, this Pump exceeds anything known. It throws one-third more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.
FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.
SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.
☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,
39 Congress Street.
☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup administered.

ALLCOCK'S POROUS PLASTERS.—A Druggist said the other day, you have no need to advertise your Porous Plasters, for every one sold certainly causes a dozen to be sold, and a dozen sells a gross, and so on. But we can supply a thousand yards a day.
AFFECTION OF THE SPINE CURED.
HARTFORD, CONN., Nov. 11th, 1861.
Messrs. THOS. ALLCOCK & CO.:—Please send with dispatch, twelve dozen Allcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing, a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay $5 for a single Plaster, if they could not be had at a lower rate. I am surprised that surgeons do not make use of these perforated plasters, to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them render them greatly superior to all others for ordinary surgical uses. Knowing the Plasters to be so useful, I have no scruples that my sentiments should be known. J. W. JOHNSON, M. D.

Burno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper ventilation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the medical faculty have awarded it testimonials and premiums.
Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 20 cents for one box, or $1 for four boxes. ADDRESS, MAS. DURNO, P. O. Box 1235, New York City.

S. J. COURT, Saturday, Nov. 18.—State vs. Garrity, indictment for disorderly house, which has been to the Law Court on a question of law, and in which was ordered a judgment on the verdict of guilty. The respondent was fined $50 and costs.

In case State vs. Joanna Crane, the jury on Friday evening returned a verdict of not guilty.

The Court finally adjourned without day on Saturday afternoon.

POLICE COURT, Nov. 18.—Michal Meade for being drunk, fined three dollars and costs $3.86, which he paid in preference to taking up his abode at the outskirts of the, city.

☞ The house corner of Water and Pickering streets, which was sold at auction on Saturday last, was purchased by Mr. John Stickney for the sum of $1500.

COTTON, MURPHY & SMITH'S MINSTRELS.—The reputation of this company as giving the best and most chaste concerts of any travelling company in the country, has been fully sustained during their late tour through New England. We heartily endorse the following from the Portland Advertiser:

Those who attend the concerts of this company are assured that there will not be heard a single joke or allusion which can offend the most fastidious. We take pleasure in recommending this company to the patronage of the public.

☞ Have you purchased your tickets for Mrs. Whipple's elocutionary and musical entertainment of Tuesday evening? If not, do so at once and show to our talented artists that home talent is appreciated. Mr. Barnabee has a rare compass of voice, a nice musical taste in the rendering of his songs which never fails to please his audience. His humorous declamation of "Plea of Sergeant Buzfuz in the case of Bardell vs. Pickwick," is alone worth the price of a ticket. Mr. Barnabee is a rising man, and we trust that our citizens will give him a good reception at his debut in his native city.

Mrs. Whipple has already shown herself a reader of no ordinary merit. Her manner is smooth, attractive and effective; her voice is clear and mellow, and shows to special advantage in her readings. Her ability to touch and hold an audience has been shown in her former readings in this and other cities. Let the Temple be filled on Tuesday evening.

☞ It will be seen that Mr. Emery is a true Jacksonian, taking the responsibility of early closing upon himself, whether his compeers do so or no. This is the sort of spirit of which we should like to see more.

☞ We take pleasure in calling the attention of our patrons to the advertisement headed "A Household Blessing," which a first-rate Sewing Machine surely is.

☞ Mrs. Whipple's fine entertainment it to take place to-morrow (Tuesday) evening, and should not be confounded with any other.

☞ The Resaca made a fine launch at the Navy Yard, on Saturday.

☞ We are indebted to Mr. T. F. Hedges for late New Orleans papers.

— President Johnson telegraphed to Gov. Brownlow of Tennessee Thursday that the pardon of John Overton, a wealthy man of that State, was revoked.

— Nearly all the annuities to the Indian tribes at the Chippewa Agency have been paid off, and will be concluded this week. The Indian tribes are entirely amicable toward each other and the whites.

— The Navy Department has in the yards at Portsmouth, Boston, New York and Philadelphia, over 1000 condemned cannon, which will be offered by the Ordnance Bureau for sale shortly.

— A good deal of excitement has been caused in Nashville through the discovery by the Committee of the Legislature appointed to investigate affairs of the State that between five and six millions in spurious notes had been issued by the rebel Gov. Harris and his accomplices.

— Some of the recent letters from Rome have mentioned a singular circumstance as likely to take place in that city—namely, that the inferior clergy, who are paid for saying masses for the dead, are about to refuse continuing their task unless they receive a more liberal rate of payment; or, in other words, think of having recourse to the vulgar expedient of a strike.

— A novel entertainment was provided for General Grant, in New York, Thursday afternoon. He was driven out in Bonner's celebrated double team to a half-mile track on the Harlem road, where all of the leaders of the turf, including Flora Temple, were trotted out and exhibited their best speed before the General, who frequently expressed his admiration of the splendid horses—and if he has a single vanity, it is in his knowledge and appreciation of horseflesh.

FENIANISM IN IRELAND.—Archbishop Cullen of Ireland has recently issued an address to his diocese, which is attracting attention abroad, for, as the mouth-piece of the Pope, his words have great force. He attacks Fenianism as opposed to the doctrines of the Roman Catholic Church, and he is fearful that they will substitute for the teachings of the fathers of the church the impious talk of Voltaire. Though virtually taking sides with the English Government, the Archbishop avails himself of the opportunity to allude to the injustice practiced by England in her treatment of Irishmen, and bespeaks a more conciliatory spirit. Alluding to the Fenian movement in this country, he says: "Unless the Fenians of the great Republic armed themselves with swords as long as those of the great Fenian giant of the olden times, and struck their enemies across the vast ocean, I do not see what service they could render." This is certainly a bit of pleasantry on the part of the Archbishop, but it will not be appreciated in Canada, where the greatest alarm exists, in fear that the Fenian sword will first be unsheathed in that country.

— The City Council of San Antonio, Texas, have retired,—putting in their protest against Gen. Hamilton's removing them and substituting incumbents of his own appointment.

— After a spirited discussion the Board of Directors of the Brooklyn Academy of music have resolved, by a vote of 12 to 5, that the prejudice against color was absurd, and that hereafter the building should be open to the "colored people."

☞ Special attention is invited to the advertisement of Vance's patent Submerged Well *Pump*, as an article far superior to any other pump ever offered to the public.

A SPECK OF DANGER.—The minutest black spot on the enamel of a tooth, is an evidence that decay's effacing finger has touched it. Quickly interpose the Sozodont as a safe guard, or the tooth is gone—and not only that one, but perhaps half-a-dozen. Be assured that nothing but Sozodont will either effectually prevent or arrest dental disease.

THE GREAT
CONSUMPTIVE REMEDY!
DR. LAROOKAH'S
Indian Vegetable Pulmonic Syrup!
The best preparation ever made for the following complaints:
Colds, Coughs, Whooping Cough, Croup, Asthma, Catarrh, Bronchitis, Spitting Blood, Pain in the Side, Night Sweats, Humors, General Debility, Liver Complaints, and Throat and Lung Complaints tending to Consumption.
This well known remedy is offered to the public, sanctioned by the experience of many years, and when resorted to in season, seldom if ever fails to effect a speedy cure of any of the above complaints. Those who have not already made use of this never failing Remedy I have only to refer to the written testimonials of Hundreds of our most distinguished citizens: Clergymen, Doctors, Congressmen, Lawyers, Singers and Public Speakers, and last but not least, many hundreds of private Citizens, both Male and Female, who have been restored to Health, when all expectation of being cured was a "forlorn hope." My limited space will only admit of the following extracts of Unsolicited Testimonials:
REV. J. C. INGALLS, *of Melrose, Mass.*, says:—"LAROOKAH'S I. V. P. Syrup, for Pulmonary Diseases, stands unrivalled by any medicine yet discovered. It has completely cured me of Bronchitis of six years standing."
REV. B. F. BOWERS, *of Manchester, N. H.*, says: "Dr Larookah's Pulmonic Syrup I would confidently recommend for Hoarseness and Severe Colds."
REV. G. C. SIMMONS, *Gansevoort, Sar. Co., N. Y.*, says: "I feel it my duty to say Larookah's Syrup is the best medicine we ever used in our family."
DR. FOSTER, *of Northfield, Vt.*, says: "Larookah's Syrup is the best medicine for Colds, Coughs, &c., he knows of in the market."
HON. D. W. GOOCH, *Member of Congress from Massachusetts*, says: "I have used Dr. Larookah's Syrup in my family for six years, and have found it an excellent remedy for Coughs, Colds, Sore Throat, and all Consumptive Complaints. I have recommended it to several friends, who have received great benefit from its use."
W. R. BOWEN, 86 *Hanover St., Boston*, a well known druggist of 20 years experience, says: "I am prepared to say, Larookah's Syrup is superior to any medicine I have ever known, for the positive cure of Coughs, Colds, Sore Throat, and all similar complaints."
Price 50 cents and $1.00 per Bottle.
DR. LAROOKAH'S
SARSAPARILLA COMPOUND!
It is double the strength of any other Sarsaparilla Compound in the market.

THE REASON

Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in many a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, to exchange it for the Southwest (Saint Louis.) My Wife's health being very feeble, and being advised many times during her suffering that change of climate would be beneficial to her—after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.

Respectfully yours,
I. HAHN.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles south of Philadelphia, on the West Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. *Vineland is already one of* the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, will room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the "Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fruit tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawóm

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, 8 years in the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign Patents, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting *One Dollar.* Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
Hence, besides his extensive library of legal and mechanical works, he has full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on which Patents or Reissues have been granted, and that is now pending. Such unmistakable proof of great talent and ability in his profession, I can recommend to inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART
During eight months, the subscriber, in court at his large practice, made on twice rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Morning Chronicle.

— Rev. W. H. Milburn, Methodist blind preacher, is to be admitted to Holy Orders by Bishop Hopkins of the Episcopal Church in Vermont.

— Sorghum planting will be extensively carried on in Connecticut next year. Mills for crushing and boiling have been built, and syrup of a fine quality, worth $1.50 per gallon, has been made this year.

— In speaking of the "enormous prices" which the Americans are paying for cattle and sheep, a Canada paper says farmers are now disposing of their stock at prices which will repay them, and leave a great deal of money in the country.

— It is stated on the authority of Paymaster General Price that since the commencement of the war the Pay Department has paid out the enormous sum of one thousand and twenty millions of dollars. With all expenses, defalcations and losses of every kind, it has only cost to pay out this amount three-quarters of one per cent.

— Martin Bossange, the oldest bookseller in Europe, died in Paris Oct. 27. He commenced business in Paris on the eve of the Revolution, 1786, and was the first bibliopole who established efficient trade intercourse with continental and American houses, dealing largely in the export of French literary products, and maintaining to the last a high character.

— Over $1,000,000,000 in gold have been exported from California the past nine years.

— The cost of water in San Francisco is nearly as high as that of gas in many of our Eastern cities.

— So dry is the climate of Death Valley, Cal., that wagon tracks made there in 1852 are still distinctly discernable.

— A wrestle between a huge cinnamon bear and a man, is one of the late advertised amusements in Nevada.

— The lawyers cry "hard times" in San Francisco. Litigation is falling off, and their fees are counted in brief time.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacoa, S. A.
New York, June 28th, 1865.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

CHEROKEE CURE,
THE GREAT
INDIAN MEDICINE,
Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal Weakness, Night-Emissions, Loss of Manhood, Chitterwall, Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Nervousness, Insanity, Consumption*, and all diseases that follow as a sequence of youthful indiscretion.
The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.
Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,
Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention, Incontinence of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the
CHEROKEE INJECTION,
does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing in *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females*. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.
Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $3. $5.
The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us *in perfect confidence*. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

ABOUT RIGHT.—It would seem from the following that one of the new U. S. Senators from Mississippi is about right so far as he goes:

Gen. Alcorn, late of the rebel army, and one of the newly-elected U. S. Senators of Mississippi, made a speech recently at Jackson, Miss, in which he argued that as the negro was protected in his "person and property," under the constitution, therefore he had a "right" to testify. He wished to know what *could* be done in a case where one white man killed another in the presence of a negro witness *only?* and was of the opinion that unless we "behaved" ourselves, and made a friend of the negro, he would ally himself with men who would incite him to hatred of his former master, and finally compel us to grant him even more privileges than are now demanded. He could give us no encouragement or hope that the negro would work; he wouldn't work *until his master John pulled off his coat and worked in the field with him;* overseers could not make him work.

DEMOCRATIC PHILOSOPHY.—A Democratic contemporary, speaking of the recent election intelligence, says its receipt reminds him of the story of an old farmer whose little boy came to him one morning and said:

"Father, the old black sheep has brought a pair of twin lambs."

"Good, that is the most profitable sheep I ever owned."

"But, father, one of the lambs is dead."

"All right, my son, the other will do better."

"But both of them are dead."

"It's just as well, the old sheep will get fat now."

"But, father, the old sheep is dead too."

"I am glad of it, she was a troublesome old thing, always the ring-leader of the flock."

— It is rumored that Wilkie Collins chews opium.

— Seventy tons of mail matter are daily handled in the New York post office.

— A gymnasium is to be established in Virginia City. The graduates ought to be good at "jumping" claims.

— A man in New Bedford was refused the privilege of voting, on the ground that he was dead. This he strenuously denied, but the check list was against him.

— The Galveston and Bremen line of packets, which in former years gave Texas so good a class of immigrants, has been re-established.

— At last accounts Gen. Hovey was in Iowa, receiving his final instructions as Minister to Peru. A roundabout way of receiving diplomatic instructions from Washington, is it not?—*N. O. Times.*

No; Peru is in the next State.

"Unquestionably the best sustained work of the kind in the World."

HARPER'S
NEW MONTHLY MAGAZINE.
Critical Notices of the Press.
It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore.)
The most popular Monthly in the world.—*New York Observer.*
We must refer in terms of eulogy to the high tone and varied excellences of HARPER'S MAGAZINE—a journal which in monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each Number contains fully 144 pages of reading matter, appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—HUNNEN'S *Guide to American Literature, London.*
The volumes bound constitute of themselves a library of miscellaneous reading such as can not be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

SUBSCRIPTIONS.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use on receiving descriptions of your cases. Dr. Dow has also for sale the French Cappettes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, can be consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

TUESDAY, NOVEMBER 21, 1865.

PROPOSAL FOR A MIXED COMMISSION.

There seems to be a puzzle, or a muddle among a portion of the newspapers, and of the Washington correspondents, as to what can be done with Jeff. Davis, in the way of trial and punishment. And yet Wirz has just been tried, convicted and *hung*, for "conspiracy with Jefferson Davis" and others to retain, maltreat, starve and murder our U. S. soldiers, who were held as prisoners by the rebel confederacy, of which Jeff. D. was chief.

Some astute lawyers and able editors (in their own estimation) indulge in day dreams like one which we here copy from an exchange now before us.

We think the judgment of the best constitutional lawyers that the President may consult, will lead to the conclusion that *technically* Davis can never be convicted legally of treason, even if a jury can be found within the vicinage of his alleged offences to convict him upon the facts. And if so, there are reasons why he may never be brought to trial—but must be set free, *unconditionally*.

How gingerly this copperhead talks of Jeff. Davis' *alleged* offences, when every body *knows* his offence is rank. But let that pass, and suppose that our Constitution, and the laws of Congress, and the "technicalities" of the lawyers have made a trial for *treason* impossible or *fruitless*:—What then? Is there not as much power to try the Chief *Conspirator* by Military Commission, as there was to try the subordinate Wirz? But some one says, Davis' offence was civil, and therefore he ought not to be tried by a military court. Indeed! is the Commander in Chief of All the Armies of the Confederacy, which destroyed a hundred thousand lives of loyal men, and of all their Navies which destroyed our Navigation and insulted our Flag,—Is he only a Civil Officer? and all this offence only *civil*? If he be not guilty of Treason, as some say, then there are no *traitors*, and *can* be none. But if *not* a traitor he is surely a *rebel*, the King of the rebels, and now held a prisoner as such;—he *conspired* against Constitution, laws, government, liberty. He put himself on trial by "Wager of Battle," and after a four years' fight was defeated, and now *has no right which loyal men or the U. S. government are bound to respect!* He is in our hands, to be dealt with, as Mercy *and* Justice may dictate.

The President, or Congress, or both together, surely have power to order his trial by a proper Military Tribunal. If they don't feel inclined to try him by a Court of West Point Graduates, lest they be too lenient to be just, there are plenty of Volunteer officers who never went to that school, and plenty of Men who suffered in rebel prisons, over which Jeff. D. was chief jailer. Let them try him.

It may perhaps be worthy of a moment's thought, to say, what are the objects of a trial? To decide whether a prisoner be innocent or guilty,—and to satisfy the public mind. Both these objects are already attained. The man's guilt as a rebel is unquestioned and unquestionable!

Yet when he should be brought to trial, there might be some sharp practice by eminent counsel, if tried by a court of lawyers, like which we have seen in a smaller court, viz. that after a *criminal* had plead *nolo con.*, in other words *guilty*, the learned counsel proposed to put in affidavits to show *innocence*.

But Jeff. D.'s trial must not be a farce. It should be a solemn reality, if he is to be tried, by a military commission. Perhaps, however, if the President is puzzled as well as the papers, it might be well for Congress to pass a Preamble and Resolutions, something after this manner:

Whereas, one Jefferson Davis, lately Secretary of War of the U. S., later a Senator in the U. S. Senate, and later still chief and captain of a confederacy of rebels, is now a prisoner at Fort Monroe: and Whereas doubts have arisen as to how he shall be tried, and for which of his varied offences, therefore

Resolved that a Mixed Commission be established to consider his case; to consist of James Buchanan and Hannibal Hamlin, Millard Fillmore and Gov. Brownlow, John C. Fremont and Clement Vallandingham, Benj. Butler and Benj. Wood, Ben. Wade and Wendell Phillips, Gen. McClellan and Gov. Curtin: and that they may be empowered and directed to consider and decide these three questions: 1. whether there can be such a thing as treason in the U. S., and if so, whether anybody can be *coerced for it*: 2. whether the *commander in chief* of an army be a military officer and may have a military trial;—and 3. When, Where, and How the said Jefferson Davis shall be tried.

Resolved that said Commission shall have power to send for persons and papers, and to continue their sessions till they shall come to a *unanimous* decision of all these questions, after the manner of a jury; and then report the result to the President of the U. S.: and that in the meantime and until the Commission so agree and report, said Jefferson Davis shall be kept a prisoner, in the winter season at the Dry Tortugas, where he can have the medical advice of Dr. Mudd, and in the summer at Fort Constitution, where he can have the medical advice of Dr. Batchelder.

U. T.

FROM MISSISSIPPI.—Judge Swan has declared the action of the Legislature in abolishing the cotton court to be unconstitutional. The Governor vetoed the bill, but the Legislature passed it over his veto.

The Legislature has adopted a memorial to the President praying him to withdraw the Federal troops from the State.

The House of Assembly has rejected by a decided vote the proposition to admit negro testimony against white men.

Generals Thomas and J. Wood have arrived at Vicksburg. The latter has assumed command of the troops in this State.

The Vicksburg Herald says that General Howard has stated that he has discovered the condition of affairs in the Southern States to be not sufficiently promising to justify him in recommending the withdrawal of the Freedmen's Bureau. He regarded the condition of the Freedmen in Georgia and Alabama as unpromising.

GOV. BROWNLOW ON THE SITUATION. Gov. Brownlow of Tennessee, in a late letter, says the entire State of Tennessee abounds with robbers who would murder a man for his watch or a five dollar bill. He has no faith in the rebel professions of loyalty, thinks the war ended at least two years too soon for the good of the country, and adjures the republican majority not to admit to Congress indiscriminately the representatives from the lately rebellious States. Those States, he maintains, will not elect loyal men to Congress, nor can loyal men be elected Governors of them. He believes that the political leaders have not as yet abandoned their idea of a separate confederacy, and that they are now reorganizing to make another effort at rebellion.

CRIME IN ST. LOUIS, MO.—Highway robberies and burglaries have of late become so frequent and daring as to create a general alarm, and the citizens are seriously contemplating the formation of a vigilance committee.

Two men were killed in an encounter with highway robbers about noon Friday. Collector Messenger, of the United States Savings Association, having $35,000 on his person, was knocked down on one of the most frequented streets and robbed. The Collector, however, fired his revolver at the retreating robbers, who dropped the money and escaped. The banking house of Messrs. Benoist was also robbed of $7000, and no clue to the robbers can be had.

☞ A speech made at Washington last Saturday, by Mr. Colfax of the House of Representatives is regarded there indicative of a determination on the part of the Union men in the coming session of Congress not to be over hasty in restoring the Southern States to their full fellowship, and not to admit any member who cannot take the test oath. The tone of the speech is temperate and firm!

☞ Thanks to P. T. Barnum for tickets to his Museum, an advertisement of which may be found in another column of our paper, but as it is so far "up town," we can hardly go ourselves. He still displays his excellent judgment in catering to the tastes of the wonder-loving public, and this week adds a circus to his other attractions.

— There is no soap that will begin to compare with the J. Monroe Taylor Gold Medal Soap, and probably no other manufacturer begins to expend one-half as much money to make it worthy of the community, and the maker is richly deserving the patronage bestowed on him. It is a God-send to the world, and all who use it will agree with us that what we say is true. 19

☞ A bill which is before the South Carolina delegation to establish and regulate the domestic relations of persons of color, and which will become a law whenever the Governor elect is permitted to exercise his functions, has been received at Washington, and is there, says Perley, regarded is intended to establish a servitude far worse than slavery. When the constitutional amendment shall have been adopted by two-thirds of the States, congressional legislation will constitutionally remedy these abuses.

MEMPHIS.—N. A. M. Dudley, Superintendent of the Sub-District of Memphis, has issued an order forbidding negroes leaving the plantations to visit cities or towns for amusement, and forbidding ferrymen to furnish them transportation across the river unless they have a pass or certificate from their white employer.

— Three Irishmen made an attack on the house of Mrs. Booth, a colored woman, in Providence, on Thursday night,—and one of them, James Tirrell, had his arm nearly shot off for his trouble.

— The Coroner's inquest into the cause of the railroad disaster at Newark, had concluded in a verdict that O'Brien, the switch tender is guilty of manslaughter, and that the city authorities should restrict the speed of railroad trains through that city.

— The cholera was brought to New York in 1848 by the steamer New York, which arrived at that port on Nov. 9, with 400 passengers from Havre. By a singular coincidence, it is again introduced there in the same month, and by a similar steamer, coming from the same port.

Local.

ROCKINGHAM MILLS.—To Chas. Rook, Esq., the gentlemanly Agent, we are indebted for an hour agreeably spent in the inspection of these mills, and for lucid explanations of the vast amount of intricate machinery used therein. Every such establishment supported in our midst adds to the prosperity as well as the population of our city, and still but few of our citizens are aware of the manifold operations which are steadily carried forward in this quiet manufactory in our midst.

We followed the raw wool from the sorting room, through the washing room, thro' many picking and cleansing machines and many machines for doubling, until the wool had been doubled seventeen thousand times and our brains were twisted and picked and doubled beyond our powers of analysis.

We watched the looms deftly weaving their patterns upon broad tapes to be used in hoop skirt manufacture; or passing their shuttles back and forth, filling in the bright-colored warp with a woof of more sombre hue, in edgings for horse blankets, straps for boots, and other like trifles which go to form a great whole in this world of utility and ornament. We saw the bright silken threads, descending like the spider's handiwork when the sun's rays lend it rainbow tints; concentrated by man's ingenuity, coming out in the jaunty little neckties which adorn the persons of our young men and are sometimes favored with a resting place around throats of ladies fair.

Braid and tape, double bindings for such unmentionable articles as under shirts, broad silk ribbons for belts; all these we watched as they grew into being from the spools upon the machines, and, as ever when we witness such achievements of man's fertile brain, our wonder and admiration more than kept pace with the production of the web.

To their already varied class of goods, these Mills are making preparations to add the manufacture of those in which rubber forms a part, suspenders being the principal item. Success to them, for their success is an addition to the success of our city.

☞ We were highly pleased yesterday when a gentleman whose accent proclaimed him to be of Milesian descent entered our office with the salutation: "I've brought ye a pair o' ducks;" fondly deluding ourselves with the supposition that some sportsman was thus laying at our feet the just tribute of our notice of the recent advent of wild fowl into the waters hereabout.

Imagine, then, our disgust when he handed us a greasy bit of paper on which were pencilled the wretched drivellings of an idiotic brain which we give below. But that his sturdy trunk forbade, we could have torn the bearer limb from limb as he stood rooted to the spot while we perused the document. As it was we stemmed the tide of our feelings and bowed him out when he took his leave.

The paper bore the signature of our comic editor. In answer to the query we would say to him that if he asks many more such fool's questions he will be mustered out of our corps. An Osage Indian might give him a suitable answer.

PARADOX.

A murderer is generally out of the pale of society when he "kicks the bucket."

A SEASON-ABLE QUERY.

Is it at all singular that our sage men often enjoy "a green old age?"

POLICE COURT, Nov. 20.—The fine weather of our Indian Summer has left us, and in its stead November asserts its lawful reign of drizzle, a state of things conducive of consumption——of whiskey, at least. And thus it is we are called to record the fact that Sally Brown, for having regaled herself so freely with stimulants as to become drunk, was sentenced to the House of Correction for thirty days, and to pay $3.86, the costs of prosecution.

PORTSMOUTH STEAM MILLS. — The new company are busily engaged in refitting their machinery for starting up, and in a short time life and activity will replace the silence which of late has reigned upon their premises. We understand that the manufacture of yarns will occupy their attention for the present, although there has been talk of substituting the production of cambrics.

☞ Some folks think it strange that there should be errors in newspapers—which of course must always be prepared in a hurry—especially the Dailies. But the New York "Printer," the monthly organ of "the art preservative of all arts," thinks that "No work is likely to be accurate which has not been read and revised at least four times by professional proof readers, and twice or thrice by persons acquainted with the subject treated of." Newspaper matter rarely gets more than one reading, and that hurried—and no revision at all. Why wonder there are errors?

PROF. GUNNING'S last Lecture of his Course on Geology will be delivered on Wednesday evening at the Christian Chapel, Court street.

WASHINGTON ITEMS.—The President, getting daily more disgusted and annoyed by Southern pardon seekers and advisers, states that hereafter he will exercise greater discrimination. A notorious ex-rebel General, upon insisting upon an interview, had his card returned with a message that his persistency was impertinent; and a Richmond personage, who insisted on defining his position to the President, at the same time proffering some advice as to government policy, had his card thrown on the floor and the interview summarily closed.

Senator Johnson of Arkansas is in the city seeking the restoration of his plantation, now in the hands of the Freedmen's Bureau. It is thought the property will be turned over to him.

Gen. Thomas has been ordered on an inspecting tour of the colored troops in Louisiana.

The overland mail route to Salt Lake City costs the Government $385,000 annually. The postal receipts are $6200.

The statement that an English rebel draft, captured during the war, had been collected in gold by the Treasury Department, is untrue.

[Certainly—it will never be paid.]

APPLES.—The Portland Press suggests, that however scarce apples may have been this year in the orchards of Maine, there are unusual quantities of them in Portland market, and that they come in abundantly from the Provinces, Canada and the West, so that the price is receding; and it adds that at an auction sale in Portland, last Saturday, the average price was three dollars a barrel.

BUTTER.—A Lewiston, Me., paper understands that butter is accumulating in the interior of the State, because dairymen and other speculators are not willing to sell at the current rates.

A HOUSEHOLD BLESSING!

HOWE'S SEWING MACHINE!

The Best Machine in the Market!

The people of Portsmouth and vicinity are respectfully informed that I have taken the Agency of the above beautiful Sewing Machine, and am now prepared to promptly supply the same, either by wholesale or the single machine.

☞ *No Family can afford to be without one of these vast Labor-Savers.* ☜

Why is this the best Sewing Machine ever invented? Because—

1ST. It is better made than any other.
2D. It runs with less noise.
3D. It is much less liable to get out of order.
4TH. No other Machine works so small a needle.
5TH. It is the cheapest Machine, because the best.
6TH. It has improvements over every other Machine.

The better the work performed, the better the price obtained; hence that Machine which produces the best work is the most profitable.

FOR FAMILIES,
MERCHANT TAILORS,
BOOT AND SHOE
MANUFACTURERS,

The Howe Machine Stands Unrivaled.

☞ Every Machine will be kept in order ONE YEAR WITHOUT EXPENSE TO THE PURCHASER.

Many Ladies earn from $1.50 to $5.00 per day in running these Machines.

—DEALERS IN—

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump exceeds anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs are ever needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

ISRAEL MARDEN & CO.,
39 Congress Street.

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

ALLCOCK'S POROUS PLASTERS.—A Druggist said the other day, you have no need to advertise your Porous Plasters, for every one sold certainly causes a dozen to be sold, and a dozen sells a gross, and so on. But we can supply a thousand yards a day.

AFFECTION OF THE SPINE CURED.
HARTFORD, CONN., Nov. 11th, 1861.
Messrs. THOS. ALLCOCK & CO.:—Please send with dispatch, twelve dozen Allcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing, a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay $5 for a single Plaster, if they could not be had at a lower rate. I am surprised that surgeons do not make use of these perforated plasters, to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar; to them render them greatly superior to all others for ordinary surgical uses. Knowing the Plasters to be so useful, I have no scruples that my sentiments should be known. J. W. JOHNSON, M. D.

Burno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the principal members of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address CAS. DURNO, P. O. Box 1235, New York City.

Local.

☞ It is stated that a heavy discharge of workmen is to take place among the workmen on the Portsmouth Navy Yard on the 1st of December, orders having been received to that effect on Monday.—The number of men employed there at the present time is about nineteen hundred, one thousand of whom will probably receive a "ticket-of-leave." Every department under the cognizance of the Bureau of Construction and Repair have had their "quotas" assigned them in relation to the number to retain or discharge.

It seems to be an unfortunate time of the year for so large a number of men to be suddenly turned out of employment; and while we hardly think it is fully realized among the citizens and traders of this city, it is no less true that the almost total suspension of labor at the Yard will have a paralyzing effect upon the business of Portsmouth, and cause loud and frequent calls to be heard for the relief of the poor among us. Prices of provisions, clothing and rents are so exorbitant, that but few can stand the terrible drain upon the purse, without the means of a steady replenishing. All we ask, however, in connection with this matter, is a fair proportion of the Government work, and not to allow Brooklyn and Charlestown to receive the whole of it.

☞ Now that the Rebellion is crushed—though the rebels themselves and their sympathizers at the North are not so thoroughly squelched as they should be—the attention of the Soldiers' Aid Societies is being turned to the needy Freedmen—a most noble and worthy object of christian consideration. We believe there are branch Freedmen's Aid Societies connected with several of our city churches—the Unitarian, North, and perhaps others.

And besides this, the Unitarian Society, by subscription among the members, have already raised a fund of $700 or more, which will doubtless be increased—to keep three lady teachers in the field for one year. The ladies engaged, we understand, are Miss Emily Peduzzi, who has already had experience in teaching the freedmen in Tennessee; Miss Ann Philbrook, and Miss Ann S. Fernald—all of them most estimable ladies and well adapted for the position. We learn that they will probably be stationed in Richmond, Va., and will proceed thither at an early day. May every blessing and all good success attend them.

☞ Don't forget the Readings of Mrs. Whipple and the Concert to-night. Barnabee is a fine singer, and will keep his audience in a state of laughter while performing his comic role. Mrs. W. is too well known among us as a reader to need any encomiums from us, and we trust our readers will not lose so rich a treat as the above combination of talent will furnish.

☞ Mr. Blaisdell, at the No. 1 Grocery, has just received his fall supply of the delicious Lebanon Cheese for which his corner has long been famous. Six thousand (6000) pounds it takes to supply his customers, of this one article; and his advertisement shows he has a full and well assorted stock of goods in his line. That sample of the Lebanon cheese reminds us of Thanksgiving.

☞ We are informed that Rev. P. Canavan, late of this city, recently on a visit to the land of his fathers, was arrested in Cork on suspicion of being a Fenian, but was released after being held in durance vile for seven hours. To his former parishioners here, who are aware of the relation in which he stands to the Fenian organization, the occurrence is rather amusing.

☞ We have received several copies of the Trenton Daily and Weekly Monitor, and find it a very able, thorough business and political newspaper. Mr. James K. Medbery, formerly employed on the editorial staff of the N. Y. Post, is one of the editors of the Monitor; and his active pen has rendered efficient service in aiding to redeem New Jersey.

☞ Rev. D. W. Murphy has been appointed by the Bishop of Portland as pastor of the Catholic Church in this city.

REVENONS A NOS MOUTONS. — We should judge that our citizens had returned to their sheep, if the large flock which passed our office on Monday was intended for home consumption. As an elderly friend remarked, "they were going to their own funeral."

☞ Sheriff Morse sells to-day a lot of machinists' tools and gearing.

The Unitarians of Providence have contributed $29,000 toward the enlarged endowment of Antioch College. This magnificent gift has most cheerfully made in a city which nobly supports its own University on such a scale of generosity that there is no probability that one of its own children will seek the care of the young sister university now to be established in Ohio.—*Christian Register.*

— From Mexico we have contradictory reports—the balance being rather in favor of Maximilian and his Empire—but nothing really decisive.

THE HOURS OF LABOR.—In Massachusetts, at the present time, there is a Board of Commissioners on the Hours of Labor, who give a hearing to men of various occupations. Among those who give opinions, is Dr. Edward Jarvis, an eminent physician of Dorchester, himself a very active and laborious man, whose views are worthy of mature consideration. In his statement Dr. J. shows why he required of his clerks engaged on the mortality statistics only seven hours labor in a day. The work was of an exhaustive mental nature, imposing a greater strain upon the vital powers than ordinary clerical employment. But he could not thence deduce or advise any general rule which should apply to the endless diversity of human employment. "It would neither be kind or wise," he says, "to prevent those who work with him 42 hours a week at 33 cents per hour from working 60 hours a week in any other employment that is less exhaustive and half as well paid. At muscular labor in the open air men could safely work ten hours a day without drawing unduly on that capital of life which is to support them in old age. The English census divides the people among over 1200 occupations. Considering the great variety of interests concerned, with their differing conditions and influence on the health of the workmen it is clearly impossible to adopt any general rule which shall apply with equal justice to them all.

Dr. Jarvis regards the discussion and thorough investigation of this subject as of great importance, and considers it the duty of every laboring man to use his capital, which is his health and strength, in such a manner as shall give him the longest life, and contribute best to his own interest and that of the commonwealth. But in consideration of the serious difficulty which besets the project of making a large legislative enactment which shall cover the infinite diversity of employments, capabilities, situations and wants, the Doctor observes:

"The application of these principles will be better left to the workman, to society, to intelligent discussion, to customs which shall be established and *amended with the increase of thought and the study of the human constitution, and of health*—to the common law, which, in these matters, will be better and more humane and just than any statute law."

☞ The latest news from Liverpool, November 9, says:

The pirate Shenandoah had arrived in the Mersey and surrendered to the guardship Donegal, and is now in the hands of the naval authorities. Capt. Waddell says that the first information he received of the close of the war was on August 30th, from the British war vessel Banacouta, and that he immediately consigned his guns to the hold and steered for Liverpool.

[Capt Waddell lies: he knew it long before; but it was appropriate for him to wait for British information.]

In England, Earl Russell as Premier and Lord Clarendon as Minister of Foreign Affairs, have been installed into office. It is expected that no material change will be made until February.

The Shipping Gazette states that oil springs have been discovered in England.

The French commenced evacuating Rome on the 5th.

☞ Special attention is invited to the advertisement of Vance's patent Submerged Well *Pump*, as an article far superior to any other pump ever offered to the public.

THE SWEET SOUTH WIND, breathing o'er beds of violets, is not more fragrant than Sozodont. And the aroma which it exhales, communicates itself to the breathe of all who use this marvelous dentrifice. White teeth, ruddy gums, a sweet mouth, and the certainty of enjoying these desirables in perpetuity, are among the blessings derived from the use of Sozodont. n21eod1w 15

THE REASON

Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in many a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, to exchange it for the Southwest (Saint Louis.) My Wife's health being very feeble, and being advised many times during her suffering that change of climate would be beneficial to her,—after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.

Respectfully yours,
I. HAHN.

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.

The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c, produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is on sale to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.

Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.

Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.

For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in the means of possessing all other social privileges, in the heart of civilization, it is worthy of a visit.

Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.

Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.

From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, on an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawôm

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (or the Act of 1837.)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that more MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, all but one of which patents have been granted, and that is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications BEFORE APPEALS, FIFTEEN of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

OUR MUNICIPAL ELECTION.

The time is near at hand when we shall be called upon to elect a new city government, or to re-elect the present one. It is poor policy to make such frequent changes in our city officers as has been the custom in years past. By the time one set of men become well acquainted with their duties others are put in their places, and thus the city loses the benefit of their experience; the effect of this is especially bad in the case of the Mayor and Aldermen, to whom are entrusted the expenditures of public moneys, and the general welfare of the city.

Some have advocated paying a large salary to the Mayor in order to command the services of a first class business man; but we doubt if one more competent than the present incumbent would be obtained if the salary were trebled. Mayor Bailey is one of our very best business men; prompt, energetic, and a good financier. He has devoted a large portion of his time to the city during the past year; its financial affairs have been admirably conducted, and all its material interests well cared for under his administration.

It is doing no injustice to his predecessors to say that we have never had a more capable, efficient and faithful Mayor than Mr. Bailey. He ought to be re-nominated by acclamation, and doubtless would be, were it not for some personal pique on the part of a few individuals who, we understand, are making an effort to have him superseded. Such a course would be prejudicial to the interests of the city. Every good Republican should be present at the meeting, and prevent any such action.

IMPORTANT MOVEMENT.—A Committee having been appointed from the different artisans employed on the Navy Yard, consisting of about twenty, to petition Congress to make the wages of all Government employees on the public works in New England uniform, have invited all the Senators and Representatives in Congress from New Hampshire and Maine to meet them at the Rockingham House in this city on Wednesday next, the 22d proximo, to consult and advise as to the proper course to pursue to bring their endeavors to a successful termination. A circular will also be gotten up to forward to all the principal cities and towns in Maine and New Hampshire requesting a reply from some reliable citizen as to the costs of supporting a family in such places. The Committee are determined to furnish Congress with substantial proof of their assertions in their prayer.

P. S. — Inasmuch as the State Central Committee of New Hampshire, meet on Wednesday next at Concord, Mr. Stackpole, the Chairman of the Committee, has decided to postpone the assembling of the Congressmen until Friday the 24th of this month.

REV. HENRY BLANCHARD'S LECTURE ON Whittier, was a literary production of rare merit. Its tone throughout was elevated, and its sentiments calculated to inspire and strengthen the better attributes of our humanity. Indeed, a faithful portraiture of the character and works of this "Poet of the people," could, only appeal to our purest and noblest sentiments.

Whittier's life has been one of earnest and solemn thought, and his ringing rhymes are the ripe fruit of an entire consecration to duty and human rights. Our faces take on a graver look as we think of the travail of his soul through all the years when liberty seemed so far in the future that he dared not hope to see the days which dawn upon him in this "peace autumn."

If any went to the Temple to see the Comedian's grimace, and laugh at his nonsense, they were disappointed. The Lecturer is evidently an earnest man and a lover of his race, who deems his work best done when the highest taste of the audience is appealed to and strengthened.

Mr. Blanchard's elocution is unusually correct, and gives evidence of a thorough appreciation of poetic sentiment and an entire sympathy with the great ideas which stir the hearts of Americans so profoundly at the present time. His recitation of Barbara Frietchie was the best to which we ever listened; and the many gems of illustrative readings with which his lecture abounds, were presented in a style chaste and captivating.

It was Mr. B.'s first appearance before a Portsmouth audience as a Lyceum lecturer, but he has, we hear, spoken in many other cities, and judging from the delight of the literary portion of his audience here, we predict for him a wide field and increasing popularity.

REMOVALS.—It is very probable that some important changes will be made in the Custom House in a few days; in fact there is no doubt that certain nominations have been made to the Secretary of the Treasury, which if confirmed, will displace two gentlemen who have held prominent positions there during the last administration. The persons to step into the shoes of those who retire, will probably be an Ex. U. S. Mail agent of this city, and the brother of a prominent politician of the interior of the State.

THE PASSACONAWAY.—The boilers which were built in New York for this ship have been ordered to the Kalamazoo, a vessel of the same class, building in the Brooklyn Yard. The Passaconaway is now ready to receive her boilers, work having been stopped on her in May last. Her final completion will probably be delayed some months by the change.

SAD.—We have no desire to mention a subject which will cause anguish to the hearts of those interested, but it becomes our painful duty to announce that Aaron B. Mason, having been afflicted with softening of the brain for some months past, has by the advice of his physician, Dr. Oliver, been sent to the Insane Asylum at Concord. He was formerly conductor on the C. & P. R. R.

CONCERT.—The Philharmonic Society of this city intend giving a concert at the Temple about the middle of December. They will have, as they deserve, a full house.

FAMILY JARS.—There were no less than six divorces granted last Saturday by Judge Gray of the Supreme Judicial Court of Essex County, Mass., to persons living in Newburyport, and all for adultery.

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Doctor Cabbalis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

I trusting that you will give this publicity, and repeating my earnest gratitude and thanks.

I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacoa, S. A.

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Billious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

CHEROKEE PILLS,

Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness*, and all diseases that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by directions*, and are easy to administer, they are nicely *sugar coated*. They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we boast of no Female Complaints, and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, on receipt of a letter, free from observation, by addressing the sole proprietor,

Dr. W. E. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S

REJUVENATING ELIXIR,

Or, Essence of Life,

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course through veins, restoring the *Organs of Generation, removing Impotency and Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing a bland and delicated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

"As the Phenix rises from the ashes of its fire, renewed with new life"—so does this Elixir restore Manliness into the system, and and full vigor, thus proving a perfect "Elixir of Life," overcome disease.

Price, one bottle $2; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

The Chronicle.

☞ Wade Hampton of South Carolina being about to leave that State for an uncertain period, issued an address to his fellow citizens, presenting his ideas of what he conceives to be their duty under present circumstances. Although he does not fully concur in all the measures of the State Convention, he thinks it the duty of South Carolinians to abide by them, as they are part of the terms agreed upon with the President, whose course toward the people of the South is commended as wise and generous, and Southerners are counselled as sensible men to endeavor to construct a raft from the wreck of the Southern Confederacy. "Above all," he says, "let us stand by our State. Here is our country."

[Though thou bray a fool in a mortar with a pestle, yet will not his foolishness depart from him.]

— A Western editor published a long leader on hogs. A rival paper in the village upbraids him for obtruding his family matters upon the public.

— Take off your hat, man, cried a judge to an amazon in a riding dress. "I'm a lady," was the reply. "Then," said his lordship, "I'm not a judge."

— After all the noise in California about purchasing a homestead for Mrs. John Brown, the widow of the hero of the Virginia raid, but $426 has been raised for the purpose.

— The number of oil companies in Ohio, which received certificates of incorporation under the statute of the State, for six months, ending the 30th of June, was 191, the aggregate nominal capital being over $50,000,000.

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address Dr. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M. THSuly
Boston, July 15, 1865.

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
F. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

THE GREAT
CONSUMPTIVE REMEDY!
DR. LAROOKAH'S
Indian Vegetable Pulmonic Syrup!
The best preparation ever made for the following complaints:
Colds, Coughs, Whooping Cough, Croup, Asthma, Catarrh, Bronchitis, Spitting Blood, Pain in the Side, Night Sweats, Humors, General Debility, Liver Complaints, and Throat and Lung Complaints tending to Consumption.
This well known remedy is offered to the public, sanctioned by the experience of many years, and when resorted to in season, seldom if ever fails to effect a speedy cure of any of the above complaints. Those who have not already made use of this never failing Remedy I have only to refer to the written testimonials of Hundreds of our most distinguished citizens: Clergymen, Doctors, Congressmen, Lawyers, Singers and Public Speakers, and last but not least, many hundreds of Private Citizens, both male and female, who have been restored to Health, when all expectation of being cured was a "forlorn hope." My limited space will only admit of the following extracts of Unsolicited Testimonials:
Rev. J. C. Ingalls, *of Melrose, Mass.*, says:—"Larookah's I. V. P. Syrup, for Pulmonary Diseases, stands unrivalled by any medicine yet discovered. It has completely cured me of Bronchitis of six years standing."
Rev. B. F. Bowles, *of Manchester, N. H.*, says: "Dr. Larookah's Pulmonic Syrup I would confidently recommend for Hoarseness and Severe Colds."
Rev. G. C. Simmons, *Gassenort, Sar. Co., N. Y.*, says:—"It is my duty to say Larookah's Syrup is the best medicine we ever used in our family."
Dr. Porter, *of Northfield, Vt.*, says: "Larookah's Syrup is the best medicine for Colds, Coughs, &c., he knows of in the market."
Hon. D. W. Gooch, *Member of Congress from Massachusetts*, says: "I have used Dr. Larookah's Syrup in my family for six years, and have found it an excellent remedy for Coughs, Colds, Sore Throat, and all Consumptive Complaints. I have recommended it to several of my friends, who have received great benefit from its use."
W. R. Bowen, *86 Hanover St., Boston*, a well known druggist of 20 years experience, says: "I am prepared to say, Larookah's Syrup is superior to any medicine I have ever known. for the positive cure of Coughs, Colds, Sore Throat, and all similar complaints."
Price 50 cents and $1.00 per Bottle.
DR. LAROOKAH'S
SARSAPARILLA COMPOUND!
It is double the strength of any other Sarsaparilla Compound in the market.
For the cure of Liver Complaint, Dyspepsia, Scrofula, Dropsy, Neuralia, Epilepsy, Erysipelas, Boils, Tumors, Salt Rheum, Ulcers and Sores, Rheumatism, Pain in the Stomach, Side, and Bowels, Debility, and all complaints arising from impurities of the BLOOD.
The trial of a single Bottle of either will gain the confidence of the sick.
PREPARED BY S. SEVERY,
Price $1.00 per Bottle.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, NOVEMBER 22, 1865.

So THEY GO.—The leaders of the Democratic party, finding that they cannot manage President Johnson, have dropped their honeyed compliments and resumed their old-fashioned style of abuse. Thus, the Hartford Times says of the President's demand that the seceded States shall ratify the Constitutional Amendment:

"We protest against all this. Every Democrat and truly conservative man in the country will protest against it, for the President has no such constitutional authority, and it is the way to destroy the Union, not to reconstruct it in a manner that shall be of real benefit to both sections of the country."

But these threats will have about as much influence upon the President's course as the house-dog's howl has upon the progress of the moon.

GEOLOGY AND BALLOONING.—Harper's Weekly contains a picture of Prof. Boynton, the Geologist, and his tall, dignified, and courageous-looking bride, who went up with him in the balloon on their wedding-day, and came safely down again. Now, may we not reasonably expect that, having had a nearer view of that planet, Mr. Boynton will give in his next lectures some glimpses of the Geology of the Moon, and especially of the Honey Moon?

☞ The Washington correspondent of the Boston Herald says:

There can be no doubt now but that there will be a long delay in the admission of the Southern representatives, and only those will be successful who come with credentials of unquestioned loyalty. The Virginia delegation, it is intimated, declare that if one of their number is admitted, all must be admitted, or else all will stay out.

The threats of these F. F. Vs. are ludicrous now, and somewhat pitiable. Suppose they *should* all stay out: what then? The Sun will shine and the Rain will fall exactly the same; and the United States will be as light as ever, even though Virginia should, by veiling her face, be in a total eclipse.

WASHINGTON ITEMS.—Judge Advocate Chipman has resigned position and will practice law in Washington.

On Monday the Secretary of State issued an orders prohibiting any member of the press entering that Department. It is reported that the order was induced by the publication of inaccurate and blundering statements regarding the Department.

Intelligence has been received at the Freedmen's Bureau that a certain Judge in Ann Arundel county, Md., recently sentenced a colored man to be sold into slavery for the term of two years.

The Richmond Whig says Robert E. Lee, late rebel commander-in-chief, has no connection with the military school in Lexington and has nothing now to do with artillery. The statement that he had applied for cannon for use for the pupils, is untrue

RETURN OF GEN. HOWARD.—General Howard, Commissioner of the Freedmen's Bureau, has concluded his Southern tour of inspection and arrived in Washington. He represents that wherever he has been the loyal whites and negroes are universally desirous of the continuance of the national troops among them.

— The Anglo-rebel pirate Shenandoah has been handed over by the British authorities to the American Consul;—but the captain and crew were unconditionally discharged.

— One of the best things of the season is that of Bishop Simpson, who has declared in favor of paying the rebel war debt when it becomes due, viz: after "the independence of the Confederate States shall have been secured."

— A grove of large trees in a swamp in Maplewood, Malden, has recently fallen down in consequence of fire burning up the roots and soil in which they grew. During the spell of dry weather in October the swamp took fire, burning slowly the peat-like soil, and so undermined the trees and caused them to fall.

— Snow fell during the greater portion of Sunday last in Portland, Me., but melted almost as quickly as it fell.

— Thursday night last, John Reed of Orono, Me., accidentally fell down the cellar stairs of a house in which he had just taken up his abode, mistaking the cellar door for that leading to the kitchen. He was taken up insensible and remained so until he died Friday evening.

— Gen. Robert E. Lee recently applied to the War Department for permision to keep the few pieces of artillery now at Lexington, Va., and belonging to the United States, for the purpose of instructing the young men at the military school in artillery practice. An officer was at once sent to remove the guns to Richmond.

— Dr. James McCune Smith, a prominent colored physician of New York, died on Friday. He was very active in all measures intended to benefit his race.

NEW HAMPSHIRE ITEMS.

—— Rev. T. H. Miller is to preach at South Hampton next Sunday.

—— The store house of Mr. Solomon J. Perkins, in Exeter, was broken open on the night of Nov. 17, and $100 worth of goods stolen.

—— A levee was held at Raymond on the evening of the 2d inst., the proceeds of which are to be appropriated to the painting of the congregational meeting house, &c. It was very fully attended. The proceeds were $215,00.

—— Applications for copies of the Adjutant General's Report have become so numerous that it has been deemed advisable to issue a second edition. It will be ready about the 1st of January prox., at a cost of about $2 50 for each volume, bound in cloth.

—— Mr. Charles H. Leavitt, who died in Washington in July last, was buried in Exeter on Thursday the 16th inst. He served three years in the 3d N. H. Regiment. He then re-enlisted in a Massachusetts regiment, and died in the Hospital at Washington, aged 38 years and six months.

—— Rev. E. Tuttle has closed a pastorate of nine years over the Free Baptist Church in Deerfield. On Monday evening before he left town, a very large assembly of members of the different congregations in town, convened in the Town Hall for a donation visit. He has moved to the State of Wisconsin.

—— The funeral of Henry L. Gordon, proprietor of the Willard Hotel coaches at Washington, who was killed by the Railroad accident at Newark, N. J., took place at Holderness on Sunday. He was buried with Masonic honors. Lodges from Laconia and Plymouth united with the Mount Prospect Lodge of Holderness, of which Mr. Gordon was a member, for that purpose.

—— In Manchester on Saturday, a woman from some neighboring town, drove in an Ox Team with a cart load of round hogs; and it is said she handled her goad stick equal to any one. A snob deems it dreadful; and perhaps Mrs. Grundy may say something sharp:—but we presume the *teamstress* above mentioned does not care much for either of them.

BRAZIL.—Rio Janeiro correspondence states that the Emperor of Brazil is urging a vigorous prosecution of the war. The Allies are very sanguine that Lopez, the President of Paraguay, must soon succumb. On the occurrence of such an event their intention is to compel arrangements for a liberal navigation of the interior waters, which will create a heavy demand for American steamers.

There are quite a number of Southerners in Rio Janeiro. They represent themselves as agents for Southern families, who desire to emigrate to Brazil. It is thought that little success will attend the movement, as they desire to perpetuate slavery, which is rapidly growing in disfavor in Brazil.

CURRENCY.—Perley says there are good reasons for believeing that Secretary McCulloch will offer, in December or January, proposals under the act of March 3, 1865, for funding all the compound interest bearbearing legal tenders at par and with accrued interest into Five-twenty bonds at a fixed price. This is regarded as the initial step toward the gradual conversion of the greenback currency first into compound interest bearing notes and next into long bonds at perhaps five per cent. interest, by which the nation may, after two or three years, enjoy a convertible currency.

☞ Official returns from 37 counties in North Carolina show an aggregate majority of 6165 for Jonathan Worth over W. W. Holden as Governor of North Carolina. The Raleigh Progress says that none of the gentlemen elected to Congress "will be able to take the test oath, nor do we suppose the State will send a single man to Congress that can. We could have wished that it was different, and it might have been, but the copperheads and secessionists are perverse and self-willed."

☞ A San Francisco dispatch of Friday last, (Nov. 17,) says: the fall of rain during the last twenty-four hours has been equal to 11 1-10 inches, being about 1-20th the usual fall of the entire year. Within a few days upward of five inches have fallen in the mountain portion of the State, and the streams are rising rapidly, the river at Sacramento having risen five feet during Tuesday night.

— The facts developed by the steamship Atlanta are very singular, and tend in a measure to explode the theory that Asiatic cholera is contagious. The cabin passengers of this ship have not experienced any symptoms of the disease.

— They have a monster pumping machine in Cincinnati, which draws from the Ohio river and discharges a stream of water five feet in diameter. It is the largest machine of the kind in existence, and is peculiar in having neither crank nor fly-wheel. It was put into efficient operation last Thursday, and surprised all who witnessed its accomplishment.

WASHINGTON ITEMS.—The National Republican of Monday says a bill has been drafted and probably will be offered immediately after the organization of the House of Representatives, for the organization of governments for the States heretofore in rebellion, by the appointment of Governors with power to call Conventions to frame new Constitutions, on the approval of which by Congress, reconstructed States are to be admitted by special act.

Winder, Duncan and Gee, now in the Old Capitol prison, are to be tried by a court martial for their cruel treatment of the prisoners at Andersonville. Let it be hoped, says Perley, that in due time their superior officers, who countenanced the cruelties, will be brought to trial.

Maj. Gen. Terry has approved the sentence of the Court Martial which tried 1st Lieut. Thomas Keep, of the 4th Massachusetts Cavalry, for the murder of Dr. Geo. Martin, in Albemarle county, Va., on the 2d of October. The sentence is that he be imprisoned for 20 years in a prison to be designated by the Secretary of War.

Maj. Gen. Howard's forthcoming report on the practical workings of the Freedmen's Bureau will show that its continuance is demanded after the expiration of the one year for which Congress authorized it.

Schuyler Colfax has received assurance from Henry J. Raymond that he shall not be an opposing candidate for the Speaker's chair.

Mr. McPherson will doubtless be re-elected Clerk. Ordway's labors in behalf of the wounded soldiers alone will insure his re-election as Sergeant-At-Arms, and Goodenow is pretty certain to be re-elected Doorkeeper.

Gen. Carl Schurz, who has recently seen a large number of Congressmen, is confident that the national policy of Schuyler Colfax will be indorsed, and that no Southern members will be admitted, until further proceedings are had.

COOL HIGHWAY ROBBERY.—Last Tuesday evening, between 10 and 11 o'clock, as Mr. John S. Brown (formerly keeper of the Exeter Jail, and lately an officer in the Boston Custom House,) was on his way to Boston from Salem, with a buggy team, when near the junction of the turnpike and the Chelsea beach road, his horse was seized by two stout men, one of whom pointed a pistol at his head, and demanded his money. Mr. Brown, seeing no escape from them, gave up his wallet which contained about $80 in greenbacks. It was quite dark at the time. The ruffians took the Saugus road after leaving Mr. Brown. Five or six highway robberies have taken place in the vicinity of Chelsea within a month, and the citizens are greatly excited.

☞ The Detectives have recently made a grand haul of *bogus* paper money. Eighty thousand dollars in unfinished counterfeit currency fifty cent notes, with a quantity of paper, tools, printing press, engraved plates, gold leaf and all other apparatus for carrying on counterfeiting business, were found in a house in the suburbs of Philadelphia. A quantity of bogus bills representing about $20,000 had been finished and put in circulation. Detectives also succeeded in capturing in Brooklyn last Tuesday night and committing to jail the person said to be at the head of this gigantic swindling enterprise, named Charles I. Roberts, an alleged noted counterfeit engraver.

☞ At Washington, two Germans named Dreeser and Robe have been arrested for an attempt to defraud the Treasury. Dreeser, who is a clerk in the 2d Auditor's office, abstracted the papers filed there, representing claims worth over half a million dollars, which were to have been presented, and which would have been paid. The claim agent employed, got frightened and disclosed the plot, whereupon the parties were arrested. Another account states that bogus heirs were to be manufactured, and papers prepared with great skill. Considering the double fraud attempted, on the widows and orphans of deceased soldiers as well as the government, these two rascals deserve imprisonment at hard labor for thirty years.

A NEW MAGAZINE.—Messrs. Beadle & Co., 118 William street, New York, who have become extensively known of late years as publishers of popular literature, are to begin with the new year the publication of "Beadle's Monthly, a Magazine of Today." The January number is already issued, and its table of contents indicates a varied banquet for the reader. Published at $3 per year or 25 cents per copy: strong efforts will be made to add this magazine to the list of standard favorites.

APPLES.—Eighteen thousand barrels of apples have been received in Boston over the Western Railroad during the past ten days. Within a week one vessel from Albany has brought 1600 barrels and another 550. Besides these receipts there have been arrivals from other places. The retail price of apples in the city has been $3.50 to $5 per bushel, while they are selling in Michigan at $1.50 per barrel.—Why is this thus?"

☞ A board of officers, consisting of Col. H. K. Craig, Col. H. Brooks and Lt. Col. S. Eastman, has been ordered to assemble in Washington to examine and report applications and recommendations which have been submitted for appointment in the regular army of the United States. The vacancies to be filled are 54 second lieutenants of cavalry, 40 second lieutenants of artillery, 30 first lieutenants of infantry and 299 second lieutenants of infantry—in all 453. After a careful examination of the testimonials and military history of the applicants, the Board will select the above number from those who have been in the volunteer service at least two years, and apportion the appointments, except twenty, to the several States and territories, according to the representation in Congress.

VIRGINIA MANNERS.—The Richmond Times reports that at the tournament in Fredericksburg on Wednesday, many of the sashes, horses, saddles, etc., were loaned by the United States officers stationed there, and that notwithstanding this kind civility on their part, the Committee of Arrangements passed a resolution excluding them from the Ball given at night. The affair produced a good deal of bitterness, and the commanding officer of the garrison issued an order the next morning that no ambulance or other United States property should be used by the citizens.

— The better nations become acquainted each other, the fewer will be their prejudices and the more likely will they be to love and respect each other. Just so with Herrick Allen's Gold Medal Salcratus—the more you know of it, the more you want to, and the more anxious you are to have your friends become its patrons. It not only makes the best Biscuit, Bread, &c., but it cures dyspepsia, and strengthens weak stomachs. It has no equal. Most of the Grocers have it. 11

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions accompany each, they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws. will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50.

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn, who can be consulted either personally, or by mail, (inclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either; and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of "*what we do know*," after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

ALLCOCK'S POROUS PLASTERS.—A Druggist said the other day, you have no need to advertise your Porous Plasters, for every one sold certainly causes a dozen to be sold, and a dozen sells a gross, and so on. But we can supply a thousand yards a day.
AFFECTION OF THE SPINE CURED.
HARTFORD, CONN., Nov. 11th, 1861.
Messrs. THOS. ALLCOCK & CO.:—Please send with dispatch, twelve dozen Allcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing, a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay $5 for a single plaster, if they could not be had at a lower rate. I am surprised that surgeons do not make use of these perforated plasters, to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them render them greatly superior to all others for ordinary surgical uses. Knowing the Plasters to be so useful, I have no scruples that my sentiments should be known. J. W. JOHNSON, M. D.

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.
Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or four for four boxes. Address JAS. DURNO, P. O. Box 1225, New York City.

Local.

☞ We trust that our shipbuilders, in anticipation of the coming discharge at the Navy Yard, will make preparations for the resumption of work in private yards, so that the ring of the axe and the clang of the hammer shall once more awaken the long silent echoes of the Piscataqua. In Maine the shipbuilding interest has experienced quite a revival since the close of the rebellion; and there is no reason, with the reputation which Portsmouth-built ships have borne abroad, why our port should not again send forth its fleet of vessels, even though they seldom return to us again.

☞ The Union Republican Committee's call for Nominating Caucuses will be found among our new advertisements. And while this Chronicle never goes in for any man for any office; it does, as our readers well know, always go for *keeping the old officers*, of whatever party, so long as they are capable and faithful. And we see no reason for any change of the present incumbents of the principal places.

☞ Mr. Uriah Blaisdell has his say about Stoves, in his new advertisement this morning—and tells a pretty strong story, too, if all O. K.

Mr. James A. Blaisdell is to close the corner Grocery at 8 o'clock, all evenings except Saturday. A sensible move.

We are glad to see that most of our traders have come to the same conclusion—to have some evenings to themselves. Mr. Emery is the only jeweller who advertises to do so as yet; but fair play is a jewel, and all had better follow the example "set" by him.

☞ Sch. G. J. Miller, which arrived at New York on Thursday from Abaco, reports that part of a vessel's cabin and a life buoy, with "Benj. Adams" on it, drifted ashore at Scotland's Cay, Abaco, on the 2d inst. The ship Benj. Adams, of New York, sailed from Morehead City Oct. 16 in ballast for Mobile, and as her arrival there had not been announced up to Nov. 7, it is feared she was driven ashore during the late severe gales and has gone to pieces.—She was commanded by Capt. Frank Chase, of this city.

☞ The heavy storm of wind and rain on Tuesday drove the tides into our harbor with avengeance, many of the wharves being entirely submerged with water, spreading consternation among the dock-rats, and cleaning out many a filthy hole which had been nicely adapted to the in-dwelling of the cholera and other kindred diseases.

☞ Counterfeit 50 cent. U. S. notes are said to be in circulation, and to be a very nice imitation of the genuine *New* notes.—But the counterfeiters somehow got their plate about 1-8 of an inch shorter than the true bills; so that having a genuine note, no person need be imposed upon by this new counterfeit.

☞ Those mosaic photographs taken by Meinerth, of which we made mention a few days since, are for sale at Bodge's Jewelry Store, where you will also find a large assortment of goods in his line of business, as may be seen by reference to his column on the fourth page of our paper.

☞ The Portland Advertiser, in noticing Prof. Gunning's lectures in that city says: "it speaks well for the intelligence of Portland, that his audience is large and appreciative. No lectures have drawn more largely from our best citizens."

☞ On account of the severe storm of last evening, Mrs. Whipple's entertainment was postponed until further notice.

☞ Mr. Henry C. Barnabee announces the long-wished for concert by the choir of the Church of the Unity, Boston, to take place in this city on Wednesday of next week. Anticipations of a musical treat will be amply realized.

☞ On our fourth page we publish the usual warnings of elections in the several wards of this city; also the notices of the meetings of selectmen for revision of the check lists.

☞ Mr. Wendell sells at auction this morning a great variety of dry goods, crockery, glass ware, &c., and will also have sales in the afternoon and evening.

— A Halifax dispatch of Monday says: the French town of St. Pierre has been destroyed by fire. One hundred and twenty houses were burned. Loss four million francs.

— Two mysterious personages, said to be from Richmond, were incarcerated in the Old Capitol prison at Washington on Saturday. Even the officers attached to the prison were forbidden to hold communication with them.

— President Johnson, as a reward for rescuing two white women from the savages, has directed to be presented to two Blackfeet Indians a silver medal, $150 in money and an official document with his signature narrating the, circumstances of their noble conduct.

— George Stephenson, the last survivor but two of Kane's Artic expedition, was buried at Brooklyn on Saturday.

"NOW I LAY ME DOWN TO SLEEP."

In the quiet nursery chambers,
Snowy pillows yet unpressed,
See the forms of little children,
Kneeling, white-robed, for their rest.
All in quiet nursery chambers,
While the dusky shadows creep,
Hear the voices of the children,—
"Now I lay me down to sleep."

In the meadow and the mountain
Calmly shine the winter stars,
But across the glist'ning lowlands
Blanks the moonlight's silver bars.
In the silence and the darkness,
Darkness growing still more deep,
Listen to the children's prayer,
Pleading God their souls to keep.

"If we die"—so pray the children—
And the mother's head droops low;
(One from out her fold is sleeping
Deep beneath the winter's snow),
"Take our souls!" and past the casement
Flits a gleam of crystal light;
Like the trailing of his garments,
Walking evermore in white.

Little souls, who stand expectant,
Listening at the gates of life,
Hearing, far away, the murmur
Of the tumult and the strife;
We, who light beneath the banners,
Meeting ranks of foemen there,
Find a deeper, broader meaning
In your simple vesper prayer.

When your hands shall grasp this standard,
Which to-day, you watch from far,
When your deeds shall shape the conflict
In this universal war,
Pray to Him, the God of Battles,
Whose strong eye can never sleep,
In the warring of temptation,
Firm and true your souls to keep.

When the combat ends, and slowly
Clears the smoke from out the skies,
When, far down the purple distance,
All the noise of battle dies,
When the last night's solemn shadows,
Settle down on you and me,
May the love that never faileth
Take our souls eternally.

UNION REPUBLICAN CAUCUS,
For Nomination of Mayor.

The Union Republican voters of the city of Portsmouth are hereby notified to meet at the Court House on Court Street, THIS (WEDNESDAY) EVENING, Nov. 22d, for the purpose of nominating a candidate to be supported for Mayor at the coming City Election, and for the transaction of such other business as may properly come before the meeting. Per order.

Nomination of Ward Officers.

WARD THREE.—The Union voters of Ward 3 will meet at the Court House immediately after the above Caucus, for the nomination of candidates to be supported at the coming election, and such other business as may become before the meeting.

WARD TWO CAUCUS.—At the Court House, *Friday Evening*, Nov. 24, at 7 1-2 o'clock.

WARD ONE CAUCUS.—At the Ward Room, Elm Street, *Saturday Evening*, Nov. 25, at 7 1-2 o'clock.

A SPECK OF DANGER.—The minutest black spot on the enamel of a tooth, is an evidence that decay's effacing finger has touched it. Quickly interpose the Sozodont as a safe guard, or the tooth is gone—and not only that one, but perhaps half-a-dozen. Be assured that nothing but Sozodont will either effectually prevent or arrest dental disease.

THE REASON
Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in many a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, to exchange it for the Southwest (Saint Louis.) My Wife's health being very feeble, and being advised many times during her suffering that change of climate would be beneficial to her—after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.
Respectfully yours,
I. HAHN.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers, with provisions for public adornment. The place, on account of its great beauty, as well as other advantages, has become the *resort of people of taste*. It increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Literature, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Small Farms and Vineyards given earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing reports of Solon Robinson, sent to applicants.
Address CHAS K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most vigorous growing districts, as to almost every product, and is a suitable condition for pleasant farming that we know of this side of the Western Prairies.* n11—dawów

☞ *No Family can afford to be without one of these vast Labor-Savers.* ☜
Why is this the best Sewing Machine ever invented? Because—
1ST. It is better made than any other.
2D. It runs with less noise.
3D. It is much less liable to get out of order.
4TH. No other Machine works so small a needle.
5TH. It is the cheapest Machine, because the best.
6TH. It has improvements over every other Machine.
The better the work performed, the better the price obtained; hence that Machine which produces the best work is the most profitable.
FOR FAMILIES,
MERCHANT TAILORS,

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabtalis, of Venezuela, who immediately prescribed your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

I trusting this will give the publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUES,
Merchant, Curacoa, S. A,

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

CHEROKEE PILLS,

Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness*, and all diseases that bring from the Regularity, by removing the cause and all the effects that arise from it. They are perfectly safe in Pregnancy, *except when forbidden by directions*, and are easy to administer, as they are nicely coated. They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we can safely advise and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S

REJUVENATING ELIXIR,

Or, Essence of Life,

"As the Phœnix rises from the ashes of its fire, encasted with a new life"—so does this Elixir rejuvenate the sick the system and overcome disease.

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course through the veins, removing *Impotency and Debility, rekindling Manliness and and full vigor*, thus proving a perfect "*Elixir of Love*," removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and nervous to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

Price, one bottle $3; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

THE HATEFUL FASHIONS.—Can extravagance in head dress make any further progress? We ask this question seriously, for though the style of wearing the hair in the street and at home is really laughable, we think it has reached a point when something must be done. "No man of moderate income will think of deserting the jolly lot of the bachelor if it is to require so much merely to adorn the head of his wife. We met a lady a few days since on Washington street, whom we knew well in the days of smooth hair and modest bonnets, but when she accosted us, we really had to confess our ignorance of her identity. Miss J. we mistook last week for Namookee, and plain Miss L. reminded us of the Queen of Sheba, and as she appears in prints, we shouldn't have been at all surprised to have met King Solomon in the next street. We had a blue jay's wing poked into our eye in an omnibus, and while turning the corner of Winter street, rapidly, we encountered the horrid gaze of an ugly owl which was apparantly seated in a little bread basket which a naughty little girl had mistaken for a hat. We have hopes, however, that the next Legislature will come to our relief, and we shall see then if the sex have a right to make themselves as horrible as they please."—*Boston Sat. Eve. Gaz.*

— A bachelor sea captain who was remarking the other day, that he wanted a good chief officer, was promptly informed by a young lady present that she had no objection to being his *first* mate. He took the hint and married the lady.

— A Boston gentleman has recently imported a watch, made by James Hardin in Switzerland, from an original design of the Boston gentleman. Its cost is $3000, the work alone costing $1,500. It has been some two years building, and is a magnificent and most perfect affair.

— A New York policeman overhauled a couple of young bloods wending their way home at a late hour, and amusing themselves in passing down Broadway, by upsetting ash barrels in the street. He gave them their choice, either to shovel the ashes back into the barrels, or to go to the station house. "No station house for us" said the youngsters, and accordingly they set to work, the policeman standing by to witness their labors. One did his work very reluctantly; the other in the best natured manner possible. He politely demanded the officer's number, remarking that possibly some day he might require a recommendation to the street department.

SLOPED.—We hear that a recent Old-town trader left town ostensibly for Boston this week, but switched off at the Junction for Canada—notifying his friends he should not return, and leaving $5000 to $6000 of debts here and in Oldtown, with assets amounting to $700.—*Bangor Whig.*

GENEROUS OFFER.—The Boston Advertiser says a merchant of that city has offered to give $5000, or so much of that sum as may be needed to make up with others the amount of $30,000, which the city asks from private sources as the condition of its building a Central Relief Office, or Bureau of Charity, for which the Overseers of the Poor are laboring.

— The London station of the Midland Railway will have the largest roof span of any building in the world—250 feet clear.

— An English writer says that Mr. Beecher, upon one occasion, entered a mock auction, and was at once recognized by the "Peter Funk," who cried out, "Why don't you bid, Mr. Beecher?" Upon this Mr. Beecher disappeared, but persuaded a friend to go and ask the rascal how he came to know Mr. Beecher. "Know Beecher," exclaimed Funk, "why, I've owned a pew in his church five years!"

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to the males. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, White, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address Dr. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1865. ThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest and rapid cure, to the most difficult and dangerous as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick cure, which can not be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healthes and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now joyous in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. Teller still remains the only Agency in America, for the sale of L'Moiselle Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy; unapproached, in all the annals of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On receipt of $1 (per post paid per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or observation.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

No. 39 Congress St., Portsmouth, N. H.,
—DEALERS IN—
S. Vance's Submerged Well PUMP.
This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.
ITS ADVANTAGES.
FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.
SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all pumps yet invented.
THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.
FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws another part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.
FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.
SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.
☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,
39 Congress Street.
☞ We are permitted to refer to Mr. HONORE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

HARPER'S
NEW MONTHLY MAGAZINE.
Critical Notices of the Press.
It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the mind a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore.)
The most popular Monthly in the world.—*New York Observer.*
We must refer in terms of eulogy to the high tone and varied excellences of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading matter, appropriately illustrated with good woodcuts; and it combines the merits of the monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love for literature.—TRUBNER'S *Guide to American Literature, London.*
The volumes bound constitute of themselves a library of miscellaneous reading such as can not be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*
SUBSCRIPTIONS.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to consult Dr. Dow from the country, with a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, may be consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

THURSDAY, NOVEMBER 23, 1865.

THE DECLINE OF CHURCHES IN NEW ENGLAND.—Most of the religious denominations have to-day fewer members in New England than they had ten or twenty years ago. This is so, with all orders of Baptists—the Calvinistic, the Free Will, and Christian Baptists; it is so with the Unitarians and the Universalists; it is so with the Methodists and the Quakers; and also with the Congregationalists. All these may have gained, and most of them have, in the country, but New England has had little increase in population, and far less in religion. In some of the old agricultural towns the population has declined and the churches remain stationary or have fallen off. The Episcopal church is the only Protestant church that may be said to have prospered in the time named. They have increased their churches and membership and activity. *Exchange.*

Some of these statements are true: but taking the whole together they may mislead the reader who relies upon them without having them explained by statements of other facts connected with them. And some of the statements are very far from accuracy. Several of the denominations mentioned, especially the Orthodox Congregationalists, Baptists, and Freewill Baptists, have made true statements of decline or only very small increase in Church Members, i. e. *communicants.* But when we apply this test to Universalists, it fails, for their Church Membership has been largely increased.

It must not be inferred however, that the other three denominations have greatly declined in attendants on public worship, in their number of able ministers, nor in their influence or support:—neither must the increase of Universalist church members be supposed to show to show a corresponding increase of attendants on public worship.

Some of the denominations compare their church membership *now*, with what it was 20 years ago. Let them do so, but remember at the same time, that in 1845, just 20 years ago, William Miller and the Adventists had been for years sweeping over the land with their lectures, papers and tracts; and the other meetings had been largely attended and great activity prevailed, in getting members into the churches. The Washingtonian movement also, as a collateral aid, had helped to swell the tide of increase of church membership to a very extraordinary, not to say unnatural degree.

From 1840 to 1845, churches and congregations of several denominations, in all this part of New England, were somewhat fuller, as a general thing, than they had been for thirty years before that time: and this was particularly the case in those that have been represented above, as losing church members since that time.

Taking all the above denominations together, that are spoken of as *declining*, we are able to say from as good a knowledge of the whole ground as most of our neighbors, that there is and has been as good and large an attendance on public worship for the last five years, as there was from 1835 to to 1840, or from 1845 to 1850. Indeed the same official report of the Freewill Baptist Churches, which mourns over the decrease in number of Church Members, also acknowledges general prosperity, and especially notices good congregations, and societies more substantial and reliable than formerly!

The statement of comparative prosperity in the Episcopal Church is true, and belongs to the history of the times. The political and social convulsions through which our Nation has passed, have tended to this result. The well known conservative structure and usages of that church, being well understood by intelligent Churchmen, have not, so far as we know, caused any of its members, however loyal, earnest, and zealous for the Union and against the rebels, to forsake her communion or absent themselves from her worship; as they did not expect to hear any Sermons on the Times, or allusions to modern events:—but on the other hand, considerable numbers of persons of other sects who felt themselves hit and hurt when ministers preached against slavery and treason, and when they prayed for the President and Congress and the Army and Navy,—made a retreat from their usual Sabbath-seats; and portion of these, not a large number in any one place, but in the whole a very considerable number sought refuge in the episcopal churches, where they felt sure no such unpleasant subjects would be introduced and discussed.

This must not be taken as the *only* source of increase: (who ever should make this supposition would deceive himself; for there is a large class of people who are fond of the liturgy and forms of the Church:) but it is an important element, not to be overlooked; for political antipathies are quite as apt to create changes, as doctrines are to make proselytes.

To any one who understands the subject, the usual croaking of political or sectarian papers or lecturers over the Decline of Religion, is ludicrous. It is not a *new* thing at all, but has been common in the papers these forty years, and in the old sermons for more than one or two hundred years. And even as long ago as Solomon's time, we hear him say: "say not thou what is the cause that the former days were better than these? for thou dost not enquire wisely concerning this!"

Finally, we do not believe there is less religion now in New England than there was twenty years ago, nor that its quality now, is below what it was then. Nor do we believe the sifting of the churches, repeated several times since we can remember, has on the whole been injurious, but beneficial. But we do believe that each and all of the churches have their mission, and we rejoice at their prosperity and usefulness in their several spheres, without a particle of envy, jealousy, or fear. U. T.

NEW HAMPSHIRE ITEMS.

—— Joseph Libby and Elias H. Nute have been bound over, at Conway, in $1000 each, charged with setting buildings on fire at Jackson, in the copperhead insurrection against the draft.

—— The editor of the Manchester Mirror, who has been over the State considerably, says he has never seen so many nor so large flocks of Turkeys in New Hampshire, as this year. Turkeys are said to be cheaper than Beef in Boston markets.

—— Col. Henry M. Fuller, of the 75th U. S. Colored Infantry, late of the 10th N. H. regiment, now of Roxbury, Mass., has been brevoted Brigadier General of Volunteers, for good conduct on the field, the commission dating from March 16, 1865. Gen. Fuller enlisted as a private in the 8th New Hampshire regiment, and had served in almost every capacity up to his present position. He is still retained in the service.

☞ The Portland Advertiser of Wednesday said:

Prof. Gunning is exploring our coast, and we learn is enthusiastic over our rocks and marine life. The labors of our Natural History Society have made the scientific world somewhat acquainted with Maine. We are glad to see strangers in the field with our own explorers, and hope that much good will come to science, and much pleasure to the world. Thoreau made our "Maine Woods" almost as famous as Humboldt made the forests of South America. Prof. Gunning is now studying our Maine forests. These mimic trees that grow on the floor of the sea have hardly found an interpreter. We shall have a volume from his pen on the Marine Algæ. His materials he is collecting in Maine. This he is doing by day. Once a week, every Monday evening, he is treating us to a Lecture on Geology. It speaks well for the intelligence of Portland that his audience is large and appreciative.

THE SPIRITS.—A lobby is already at Washington urging a reduction of the tax on distilled liquors, on the ground that the amount of tax collected has been diminished since the tax was last increased. But Perley says—"The true reason for this is that the distilleries were kept at work night and day before the tax was raised, and have since been idle much of the time, the market having been overstocked. It is not probable that the tax will be changed."

☞ Miss Augusta St. Clair, the "Marriage no Lottery Humbug, and gift enterprise lecturer, has been hauled up in Albany, where she performed last Saturday night; and her husband or manager, Mr. Zoeth M. Smith, has been arrested and held for trial.

— Gen. Grant's reception Monday night at New York, was an uncomfortable jam. Some 3000 people were crowded into a space only sufficient for 300. The distinguished hero expressed great gratification at the ovation.

— The contract for supplying the public printing office with book paper during the coming year has been awarded to Grant, Warren & Co., of Boston. No contracts for letter paper have been made, as the large supply laid in last year for printing army blanks is more than sufficient for the next year's consumption.

— Gideon G. Pillow, who dug ditches in Mexico and was a General during the commencement of the rebellion, has instituted a suit against Gen. Curtis for the value of twenty-three hundred bales of his cotton which Gen. Curtis seized when he captured Helena, and sold. Pillow has been pardoned, and his agent cannot find that the proceeds of the cotton ever reached the public treasury. He wants them for his private use.

— Speaking of the failure of the government in convicting certain distillers charged with evasion of the internal revenue law, a Milwaukie dispatch says it is a marvel to some how distillers make the large profits they are known to make, and still retain their integrity, with a margin of only three cents between the government tax and the market price; but judicial decisions seem to assert, with the sanction of judicial authority, that such things may be done.

The J. Monroe Taylor Gold Medal Soap is just the thing to please the ladies. The maker studies their wants and wishes, and leaves nothing undone which will make a washing day a gala day; and from the sale of it we should think it was fully appreciated by them. The lady who does not enjoy the advantage of its good qualities is deprived of a great luxury in she way of white, nice clothes. Go at once and get a supply. 13

WASHINGTON ITEMS.—Perley says:

The lack of accommodations at the Kittery Navy Yard will prompt the Secretary of the Navy to ask Congress to purchase all of Seavey's Island, now private property. The price asked is one hundred and five thousand dollars.

The distribution of pardons to rebels has been checked; neither is it certain that the people will ratify one-tenth of those already granted.

Mr. Conway, late Commissioner of Freedmen in Louisiana, proposes to visit England and interest the British manufacturers in the production of cotton at the South by the labor of emancipated blacks. Gen. Howard favors the project.

A Revenue inspector of Philadelphia, and his brother, Assistant Assessor of the same city, are charged with fraud, in not having returned more than one-twentieth of the tobacco manufactured by them.

American and English capitalists are talking of organizing a national cotton-growing company in the South. The English attempt to produce cotton in India proves discouraging. To remove apprehensions of securing labor of freedmen, Mr. Conway, late of the Freedmen's Bureau in Louisiana, will shortly visit Liverpool.

There is scarcely a doubt that a bill will pass Congress, providing for the heirs of soldiers who died in rebel prisons. They will be privileged to collect commutation for government rations for the time the deceased were prisoners of war.

A THUMPING LEGACY.—The Shepardstown (West Virginia) Register states that the late Rezina D. Shepherd of that place, left an estate valued at about $1,500,000, all of which goes to his daughter, Mrs. Brooks, of Boston. He was born in 1784, in Shepherdstown, in a house which stood where the town hall now stands, which accounts for his partiality for that site, and his erection of the hall to perpetuate the memory of his birth-place. In 1809 he went to New Orleans and engaged in the commission business until 1849, and was the executor of the estate of the late Judah Touro, of that city. To the older merchants of this city Mr. Shepherd's name is familiar, as that of an upright energetic man in all his dealings.

☞ An Albany dispatch of Monday says: the prize fight between Davis and Elliott has probably been stopped, the managers of the Susquehanna Railroad together with the police having prevented the cars leaving with the immense crowd of roughs who had chartered a special train. Some assert that the fight is going on at Penranea, Schoharie county, the principals having reached there last night. Many robberies were committed here last night by the thieves who are here in crowds.

COMPLIMENT TO GEN. HOWARD.—The Faculty of the Theological Seminary of the General Synod of the Evangelical Lutheran Church of Gettysburg, Pa., have determined to endow a Professorship of Theology, to be called the "Gen. Howard Professorship." The Seminary stands on the site of the battle of Gettysburg, where Gen. Howard had command.

☞ Harper's Magazine for December begins volume 32d with a highly-interesting illustrated article on the "Making of the Magazine." Dickens' serial is concluded, and new attractions are promised. A. Williams & Co., Boston, New England Agents. For sale by Messrs. Foster and Shores.

— Advices from Gen. Sheridan, who is at San Antonio, indicate that the Liberals are again in the ascendant in Mexico.

— The pewholders of Dr. Tyng's church have met and determined to rebuild the church on the old site with as little expense over $120,000 as possible.

— Governor Holden of North Carolina has appointed Dr. Wm. Sloan, an ultra Union man, and who was lately defeated for Congress, to the State Treasuryship.

— Fifty schooners, laden with oysters for New York, Boston and New Haven, wind bound; also fifty wood schooners for New York, were at Fort Monroe Tuesday.

— James McCormick died at Newburg, N. Y., on the 11th inst., at the age of one hundred and fourteen years. The deceased was a native of Ireland, and came to this country in 1846. He was probably the oldest person in the United States.

— President Johnson's instructions to Judge Sharkey to continue to act as Provisional Governor Mississippi have had no effect upon Governor Humphrey, just elected there, who signs or vetoes legislative bills, and acts as sure enough Governor.

— An excellent imitation of the new issue of fifty cent fractional currency has been received at the Treasury Department. It is considered to be the best executed counterfeit yet put into circulation. It can however, be easily distinguished from the original by the coloring and the signature of Gen. Spinner, the last E having been omitted. The Secretary has decided to alter the general appearance of the present fractional currency in order to make it uniform and the better to protect it from counterfeiting. In future all new issues will be of the greenback circulation.

☞ The Liverpool Post says that the crew of the pirate Shenandoah brought on shore a large quantity of luggage, and appeared to have no lack of money—facts which appear to attest that their long cruise did not go unrewarded. Many of the crew were Liverpool men, and these, immediately on being landed, drove to their homes.—The Post is also represented as saying, that when Capt. Waddell heard the real news of the fall of the Southern Confederacy, or suspected that what he was told was true, he put about ship and started for Lisbon. Not knowing what interpretation the British Government or the Federal Government might put upon his conduct, he entered the Tagus, paid off his crew, and put a new crew on board.

[The two statements are contradictory. The former is most probable.]

PRICE OF FLOUR.—The prospect of a speedy decline in the price of flour made all of the Georgetown dealers bid for a contract awarded Tuesday, at Washington. One thousand barrels of Extra No. 1 were taken at ten dollars and eighty cents, and twenty-four hundred barrels of No. 2 at prices ranging from ten dollars and nine cents to ten dollars and a quarter. After the contract was awarded, a mill owner offered to deliver ten thousand barrels of No. 1, during the first week of next year, at ten dollars a barrel, but found no takers.

— Gen. Palmer has been indicted on a charge of enticing slaves to leave Kentucky.

THE REASON
Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in many a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, to exchange it for the Southwest (Saint Louis.) My Wife's health being very feeble, and being advised many times during her suffering that change of climate would be beneficial to her,—after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.
Respectfully yours,
I. HAHN.

ALLCOCK'S POROUS PLASTERS.—A Druggist said the other day, you have no need to advertise your Porous Plasters, for every one sold certainly causes a dozen to be sold, and a dozen sells a gross, and so on. But we can supply a thousand yards a day.

AFFECTION OF THE SPINE CURED.
HARTFORD, CONN., Nov. 11th, 1861.
Messrs. Tarrant & Co.—Please send with dispatch, twelve dozen Allcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing, a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay $5 for a single plaster, if they could not be had at a lower rate. I am surprised that surgeons do not make use of these perforated plasters, to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar, to them render them greatly superior to all others for ordinary surgical uses. Knowing the Plasters to be so useful, I have no scruples that my sentiments should be known. J. W. JOHNSON, M. D.

Duruo's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the disease arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1235, New York City.

Local.

☞ On Wednesday morning ex-Gov. Goodwin received a dispatch from Sec. Welles, stating that Paymaster Boardman died at Havana on the 12th inst.—GEORGE CLIFFORD BOARDMAN, Paymaster U. S. N., was a son of Dr. Boardman of this city, was about 25 years of age, and a young man of more than ordinary promise. He was attached to the ex-rebel steamer Stonewall, which vessel has put into Beaufort. His disease was yellow fever.

☞ The offices of Master Cooper and Master Spar-Maker, at the Portsmouth Navy Yard, are to be abolished on the first of December next,—a quartermaster supervising the work. It is probable that these master workmen will have the position of quarterman tendered them, in view of the fact of their having held the more responsible position of masters. The reduction of the pay of the Master Cooper—Mr. Hanscom—would then be $1.50 per day, while that of the Master Spar-Maker—Mr. Martin—would be $1.25 less than formerly.

☞ The attendance at the Republican Caucus last evening was very large, and there was considerable spirit manifested in the choice of Moderator and the selection of a candidate for Mayor. Hon. H. D. Walker was called to the Chair, and John H. Bailey nominated as candidate for re-election as Mayor by a heavy majority. A delegation of gentlemen subsequently waited upon Mayor Bailey to notify him of his re-nomination.

LOOK OUT FOR COUNTERFEITS!—Somebody must have *made* money recently, judging from the fact of the large number of spurious $50 Treasury notes in circulation. A grocer doing business in this city, had occasion to visit Boston one day last week to purchase goods, and prior to his departure went to one of our banks and drew $400 in U. S. fifties, but, arriving at the city and purchasing a bill of goods, it was found that his greenbacks wouldn't stand the refining fire of detective skill, seven notes out of the eight proving to be worthless. It would have been a bad "note" for our grocer friend, if he had been detained on a charge of knowingly passing counterfeit money, altho' not quite so hard as it would have been had the aforesaid been bound in the fetters of matrimony at the time, he being one of the very few bachelors who have survived the tempests of feminine charms. We say again, to him and to every one who reads this, "look out for *counterfeits*." Of course this word of caution has no reference to the female sex!

PISCATAQUA SHIPWRIGHTS' UNION.—The following is a list of officers of this Society, which now numbers about one hundred and seventy members:

President—Daniel Moulton.
Vice President—E. P. Parcher.
Recording Secretary—Geo. B. Curtis.
Corresponding Secretary—Waterman K. Prior.
Financial Secretary—Samuel Averill.
Treasurer—Henry Works.
Warden—Ezekiel Burns.
Assistant Warden—John S. Campbell.
Conductor—Gilbert Grindle.

LIFE INSURANCE.—There seemes to be much more than usual interest felt in this city, on the subject of life insurance, and many who have neglected this important duty and judicious investment are now taking out life policies. No man who has investigated and understands the subject can oppose it. We regard Life Insurance Companies among the strongest, safest and largest monied institutions of the country, and we have yet to learn of the failure or embarrassment of one, or the refusal to pay a loss when due. No man can afford to be without insurance. The working man, by paying a small sum each year, secures a competency to his family. The wealthy find it a good investment and safe relief should misfortune befall them and riches take to themselves wings. But the advantages and inducements can be fully explained and enlarged upon by the numerous agents now congregated in the city. We would suggest, however, to the citizens of Portsmouth, that before being insured, they call on our townsmen, John S. Harvey & Son, 47 Congress street, who are agents for the Charter Oak Life Ins. Co., one of the best and safest companies in the United States, and which has more insurance in this city than any other company.

☞ The only culprit before the Police Court on Tuesday was the weather, on the charge of being "an old soaker." Although the offender intemperately increased in that offence during Tuesday night, and "blowed around" considerably, it was deemed unnecessary to bring any charge on Wednesday.

☞ The Portsmouth correspondent of the Evening Voice learns that the third-rate screw steamer Resaca, launched at this Navy Yard on the 18th, is to be commanded by Lieut. Com. J. M. Bradford.

☞ Mrs. Whipple's Readings, postponed from Tuesday evening, on account of the storm, are to be given on Monday evening, Dec. 4, with the concert, as advertised.

☞ Mr. Morse will sell a large assortment of housekeeping goods at auction today, (at 10 o'clock) at the Market Street House.

WARD TWO CAUCUS.—At the Court House, *Friday Evening*, Nov. 24, at 7 1-2 o'clock.

WARD ONE CAUCUS.—At the Ward Room, Elm Street, *Saturday Evening*, Nov. 25, at 7 1-2 o'clock.

☞ Special attention is invited to the advertisement of Vance's patent Submerged Well *Pump*, as an article far superior to any other pump ever offered to the public.

THE SWEET SOUTH WIND, breathing o'er beds of violets, is not more fragrant than Sozodont. And the aroma which it exhales, communicates itself to the breaths of all who use this marvelous dentrifice. White teeth, ruddy gums, a sweet mouth, and the certainty of enjoying these desirables in perpetuity, are among the blessings derived from the use of Sozodont. n21eod1w 15

AGENTS.
WHAT THE PEOPLE WANT:
THE
STANDARD
HISTORY OF THE WAR,
COMPLETE IN ONE VERY LARGE VOLUME OF OVER 1,00 PAGES.
This work has no rival as a candid, lucid, complete, authentic and reliable history of the Great Conflict. It contains reading matter qual to three large royal octavo volumes, splendidly illustrated with over 150 fine portraits of generals, battle scenes, maps and diagrams.
In the selection of matter, for this great work, the author has confined himself strictly to *official data*, derived from the reports of Northern and Southern Generals, the Report of the Committee on the Conduct of the War, National and Rebel Archives, &c. &c.
He has carefully avoided the introduction of by matter not strictly *reliable* and *official*, and so succeeded in producing what is universally demanded, a *fair* and *impartial* History of the War.
Returned and disabled officers and soldiers, and energetic young men in want of profitable employment will find this a rare chance to make money. We have Agents clearing $250 per month, which we will prove to any doubting applicant; for proof of the above send for circulars and see our terms. Address, JONES BROS. & CO., 14 Phœnix Building, Boston.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.

The soil is rich and productive, varying from a clay to a sandy loam, suitable for Wheat, Grass, Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste*. It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $20 per acre. Five and ten acre and Village lots for sale.

Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.

Opening for all kinds of business. Lumber Yards, Manufactories, Journals, Stores and the like; and Steam Power, with room, for sale cheap.

For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.

Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.

Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.

From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most productive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawôm

Morning Chronicle.

JUSTICE.—In the Supreme Court, Boston, Saturday, Judge Putnam presiding, the Brattle street garroters, James Brown and John Davis, two of the three persons convicted of robbing Gower Wilson, were each sentenced to fifteen years hard labor in State Prison. In the case of Samuel Cowen, the third party convicted of the same crime, sentence was postponed on motion of his counsel, who proposes to argue in favor of a new trial. Sometimes the criminal lawyer deserves to be sentenced with his client.

The colored man, Elijah Johnson alias Charles Smith, who pleaded guilty of robbing a young lady of her watch a few weeks since on Newbury street, was sentenced to fifteen years hard labor in State Prison.

SOUTHERN FEELING.—A St. Louis letter to the Chicago Tribune says:

"An officer of the army, who is said to have been on a private confidential mission to the South during the last four weeks, passed through the city *en route* to Washington, on Friday last, and though he gave no clue to his mission, he was outspoken as to his own opinions of affairs in the South. He said plainly that Provisional Governors were humbugs, and the leading unreasoned rebels in the South were fully committed to the policy of providing hereafter, not only for paying the State debts created to help the rebellion, but also to support in some manner the families of wounded rebel soldiers and the families of rebel soldiers who are dead.

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen. I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Caballa, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,

S. D. C. HENRIQUER,
Merchant, Curacoa, S. A.

New York, June 25th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

CHEROKEE PILLS,

Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Hysterics in Women, Sick-Headache, Giddiness*, and all diseases that spring from irregularity, by restoring the system to vigor, the effects that arise from it. They are perfectly safe in all cases, except *forbidden by the directions*, and are easy to administer, as they are nicely *sugar coated*. They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S

REJUVENATING ELIXIR,

Or, Essence of Life,

Cures *General Debility, Weakness of the Generative Organs, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, *"as the Phenix rises from the ashes of its funeral fire, animated with new life"*—so *perfect a restoration, removing Impotency and this Elixir renews Debility, restoring Manliness into the system and full vigor*, that everyone *observes the perfect "Elixir of Love,"* removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, this Elixir is a boon than this "Water of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

Price, one bottle $2; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled men, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

THE PROFIT OF DRINKING.—Boston papers tell the story of one Jeremiah Toomey, of Cambridge, Mass., who was discharged from the army and returned to his home about two weeks ago; on Friday last he drew from the bank $250, which he had saved during his term of service. This, with $50 which he had just been paid, he put in his boot. He got drunk in the afternoon, and his wife took the money from him and put it in her bosom for safe keeping. She got drunk soon after, and it was taken from her. Officer Twist was notified and he found one of the men who had been in company with Mrs. Toomey, drunk in a saloon, and spending money freely. He was arrested and carried to the station house, where $141.50 were found on his person. One hundred dollars of this money were identified by Mr. Toomey as part of that which he had lost.

☞ The Protestant Episopal Bishop Davis, of South Carolina, has issued a pastoral to his flock on the subject of re-union with the Northern Church. He professes the most diapassionate judgment on this important subject, but takes the strongest ground against re-union. He wishes that "the Southern Church may be enabled to maintain her present independent position." He flatly contradicts the theory that was maintained in the General Convention that the Southern Church went out of its own free accord, without coercion of any kind, and declares that "the cause of severance was both involuntary and overwhelming." Bishop Davis, however, is satisfied that the country is too large, and that its "heterogeneous and discordant" population is too "vast for one church." Poor man, "he is blind, and cannot see afar off, and has forgotten that he was purged from his old sins:"—and to crown all, he deems himself wiser and better than the whole General Convention, "wiser in his own conceit than seven men that can render a reason."

JUDICIAL ADVICE.—A citizen asked a well known and popular Judge, this week, in view of danger at night from garroters, what it was best to do in the way of self-protection. "Carry a loaded pistol and shoot—*accurately!*" was the laconic and emphatic answer of the learned Judge.—*Boston Journal.*

— A contempt of the sacred rite of marriage not only endangers the morality of the individual, but strikes at the very foundation of social order and domestic happiness.

THE GREAT
CONSUMPTIVE REMEDY!
DR. LAROOKAH'S
Indian Vegetable Pulmonic Syrup!
The best preparation ever made for the following complaints:
Colds, Coughs, Whooping Cough, Croup, Asthma, Catarrh, Bronchitis, Spitting Blood, Pain in the Side, Night Sweats, Humors, General Debility, Liver Complaints, and Throat and Lung Complaints tending to Consumption.
This well known remedy is offered to the public, sanctioned by the experience of many years, and when recorded to its virtues, it never fails to effect a speedy cure of any of the above complaints. Those who have not already made use of this never failing Remedy, are kindly invited to refer to the written testimonials of Hundreds of our most distinguished citizens: Clergymen, Doctors, Congressmen, Lawyers, Singers and Public Speakers, and last but not least, many hundreds of Private Citizens, both Male and Female, who have been restored to Health, when all expectation of being cured was a "forlorn hope." My limited space will only admit of the following extracts of Unsolicited Testimonials:
REV. J. C. INGALLS, *of Melrose, Mass.*, says:—"LAROOKAH'S I. V. P. SYRUP, for Pulmonary Diseases, stands unrivalled by any medicine yet discovered. I have personally cured me of Bronchitis of six years standing."
REV. E. F. BOWLES, *of Manchester, N. H.*, says: "Dr. Larookah's Pulmonic Syrup I would confidently recommend for Hoarseness and Severe Colds."
REV. G. C. SIMMONS, *Gansevoort, Sar. Co., N. Y.*, says: "I feel it my duty to say that Larookah's Syrup is the best medicine we ever used in our family."
DR. PORTER, *of Northfield, Vt.*, says: "Larookah's Syrup is the best medicine for Colds, Coughs, &c., he knows of in the market."
HON. D. W. GOOCH, *Member of Congress from Massachusetts*, says: "I have used Dr. Larookah's Syrup in my family for six years, and have found it an excellent remedy for Coughs, Colds, and Sore Throat, and all Consumptive Complaints. I have recommended it to several friends, who have received great benefit from its use."
W. R. BOWEN, 86 *Hanover St., Boston*, a well known druggist of 20 years experience, says: "I am prepared to say, Larookah's Syrup is superior to any medicine I have ever known for the positive cure of Coughs, Colds, Sore Throat, and all similar complaints."
Price 50 cents and $1.00 per Bottle.
—AND—
DR. LAROOKAH'S
SARSAPARILLA COMPOUND!
It is double the strength of any other Sarsaparilla Compound in the market.
For the cure of Liver Complaint, Dyspepsia, Scrofula, Dropsy, Neuralia, Epilepsy, Erysipelas, Boils, Tumors, Salt Rheum, Ulcers and Sores, Rheumatism, Pain in the Stomach, Side, and Bowels, Debility, and all complaints arising from impurities of the BLOOD.
The trial of a single Bottle of either will gain the confidence of the sick.
PREPARED BY S. SEVERY,
Price $1.00 per Bottle.

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, Spinal Complaints, and Suppression of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that atients see none but the Doctor himself.
Address DR. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, under the care of a lady.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1865. THSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

The Old Established Hospital.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the drugs as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has saured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. J. Teller's great work for the benefit of those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published. Warranted to be worth three times the amount asked for it, yet, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stopping irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For persons see directions which accompany each package for the guidance of patients. On the receipt of $3, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, free from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cared at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

—DEALERS IN—
S. Vance's Submerged Well PUMP.
This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.
ITS ADVANTAGES.
FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.
SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.
THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.
FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.
FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized, it can in no way corrode, consequently it brings up pure water at every stroke.
SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.
☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more popular teacher than Harper's Magazine.—*Methodist Protestant (Baltimore).*
The most popular Monthly in the world.—*New York Observer.*
We must refer in terms of eulogy to the high tone and varied excellence of Harper's MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each Number contains fully 144 pages of reading matter, appropriately illustrated with good woodcuts; and is complete in itself the very monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has grown powerful in the dissemination of pure literature.—*Feuerne's Guide to American Literature, London.*
The volumes bound constitute of themselves a library of miscellaneous reading such as can not be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

Morning Chronicle,

Portsmouth, N. H.

FRIDAY, NOVEMBER 24, 1865.

☞ There is one reason for a slight diminution in the number of communicants in some denominations in New England, that we have not seen stated,—viz. the fact that a great many young men, teachers and scholars in Sunday Schools and Bible Classes, went to the war from patriotic and religious motives,—and fell in battle, or were starved in rebel prisons, or died in hospitals. We know of scores of such: we dare say there were hundreds: many of whom were church-members, and many more would most probably have become such. They are not counted in the Church below —but they are of the Church above; and they encompass us now, like a "great cloud of witnesses,"—and they belong to the "noble army of martyrs" for the right. They are not lost; nor can true religion suffer by their translation. U. T.

WASHINGTON ITEMS.—Few or no pardon applications are coming in at the Attorney General's office. The President has directed the suspension of the issue of pardon warrants except by special order to the contrary. The suspension is understood to be caused by the flagrant breach of faith committed by some who have been pardoned. Twenty thousand pardons have thus far been granted.

Gen. Carl Schurz, in his report to the President, states that if negro suffrage were to be forced on the South it would require a large standing army to carry it out.

[*Exactly:*—but let Congress pass an amendment of Constitution, on the plan of Judge Upham and others, basing Representation on Voters—and let the States ratify it—the suffrage question would take care of itself, speedily. In the meantime let Congress and the President *protect* all loyal men in the South, by keeping rebels and traitors under due restraint, using exactly force enough for the purpose.]

Official dispatches to the State Department from various foreign consuls show that the cholera is rapidly abating throughout Europe. In Paris it is on the decrease, and at Barcelona, Spain, it has ceased altogether.

Gen. Ochra has arrived at Washington from Mexico, duly accredited by Juarez with an important mission to the government. He is seeking an interview with the President and Secretary of State.

The Government regrets that our Consul at Liverpool accepted the pirate Shenandoah. In doing so, he acted without authority.

☞ Perley says the United States Consul at Liverpool was not authorized to receive the Shenandoah, but we shall probably see that piratical craft at the Washington Navy Yard before many weeks have elapsed, sailing under the stars and stripes.

Paymaster General Brice has issued a circular in answer to inquirers about cases now before his department, stating that it is impossible to reply to claimants, but that all cases will be adjusted at the earliest possible moment.

☞ On Thursday evening, in Boston, police officer Walker, in Sudbury street, saw a fellow take some carriage robes from a shop door and move off. The officer ordered the thief to stop, or he would fire. Thief ran on: officer fired pistol, and shot struck: thief dropped the robes, but ran on: officer said again—stop, or I'll fire; but thief still ran. Officer did fire, and down fell thief, who was arrested and jailed. His name is Philip Herriot; age about 20; wounds not dangerous. Officer Walker did well; but probably some eminent counsel for the prisoner will utter some well paid plea against the officer's barbarity.

— One man was attacked by two garroters an evening or two since in Boston; but he happened to be stronger or smarter than they, and bumped their heads together till they begged to be let off.

— Apples are plenty in Canada, and selling at the low price of $1.25 per barrel in gold.—None ever grew better. Beatiful pippins, one of them weighing a pound, and others nearly as large.

— John Van Buren was drowned in the Boise river, five miles above Boise city, Utah, on the 27th of September. His ghost, which had troubled the people of New York a good deal since that time was effectually laid on the seventh of November last.

— A "Magdalen Asylum," which was started in Syracuse, N. Y., a year or two ago, has failed, only three young women having entered the asylum. It is hoped that two of these are reformed, but the third is irreclaimable.

— A gasometer containing a million cubic feet of gas recently exploded in London, at two o'clock in the afternoon, completely demolishing the structure and surrounding buildings. Seven dead bodies had been taken from the ruins, and a large number were injured.

NEW HAMPSHIRE ITEMS.

—— Ex-President Pierce is said to be recovering.

—— Capt. S. G. Goodwin of Littleton, in company with others, has killed twelve deer this season.

—— Miles Tuttle, of Antrim, has gathered one hundred and thirty bushels of sound ears of corn from one acre of land this season.

—— At Manchester, on Tuesday evening, the high wind blew off about 100 feet of the tin roofing from the Dye House on the Amoskeag Corporation.

—— Mr. C. Henry Harlburt, Station Agent of the Railroads at Manchester, had his thigh broken by being thrown from a wagon. The breaking of the transom-bolt caused the fall.

—— The N. H. Union Central Committee held a meeting at Concord on Wednesday, which was well attended, lively and harmonious. There is a U. S. Senator to be chosen next summer.

TEXAS ITEMS.—The amount of indebtedness contracted by Texas during the war is $9,000,000.

Ten thousand bales of cotton were at Houston on the 7th inst., ready for shipment to Galveston.

A gentleman just returned from a trip to Montgomery and Walker counties, reports that the corn crops in that region are very heavy, and that the negroes behave very well and work diligently at saving the crops.

THE SHENANDOAH VALLEY. — Accounts from the Shenandoah valley represent that the farmers are rapidly recovering from the ravages of the war. New barns are springing up on the sites which a few months ago were heaps of smoldering ashes, and fences are everywhere being replaced. Not the least among the evidences of returning prosperity is the revival of numerous local newspapers and the appearance of new ones.

— A good story is told of a recent smash-up on a Western railroad. A soldier who, in coming from Baltimore to Rock Island, had met with four accidents, was on this occasion in the car that completely turned over. Making his way through a window, and gaining an upright position, he looked around and coolly inquired, "*What station do you call this?*"

— The following very naive advertisement appeared in a French paper recently: "The individual who on Sunday, deprived M——, 37 Rue du Sentier, of a gold watch chain and ornaments, is requested to return the locket. As this article is of slight value, and only dear to M—— as a souvenir, M—— thinks he may so far rely on the delicacy of the individual, and therefore begs him to accept his anticipatory thanks."

— In one of the suburban school-districts of Fall River the people are afflicted with the itch. The News says the teacher, usually prompt and faithful in the discharge of duty, in the present case is reluctant *about coming up to the scratch.*

Instead of asking each other whether they are ready to go home, the printers on the morning papers look to the capping of their pistols, and say, when they leave in the early mornings—"Are you ready to meet the garroters?"—*Boston Journal.*

— On Wednesday, President Johnson ordered the execution of two white men in Georgia, convicted for the unprovoked murder of a negro woman.

— All the regular Union candidates in the new State of Colorado have been chosen. William Gilpin is Governor and Geo. M. Chilcott, member of Congress.

— The official count of the Ohio election returns in the office of the Secretary of State, increases the Union majority. Gen. Cox's majority will be about thirty thousand; that of the rest of the ticket will reach thirty-three thousand.

— At Portland, on Tuesday evening Mr. and Mrs. J. F. Weeks celebrated their Golden Wedding at their residence. During the evening their youngest daughter was married.

— The Jews of San Francisco are building two new synagogues. In both of them the arrangement is such that families sit together in pews as in our churches. Those who compose one of these societies call themselves "Reformed Hebrews," and have given up looking for a Messiah yet to come.

— A Brooklyn gentleman was followed into his residence by a desperado, a few nights since, and choked until he handed over to the villain the contents of his purse, which amounted to $103.

— Over $200,000,000 worth of railroad property belonging to the Government, has been sold to Southern railroads on credit, and their notes taken, some of them to run two years.

— Mr. Greene, who murdered his wife in Hartford a few weeks ago, is still improving gradually. It said that he has opened his eyes but once since the tragedy, and speaks only when it is necessary to answer some question asked him.

— There are now at the University of Virginia two hundred and thirty students, nearly all of whom were in the rebel army during the war.

— A resident of Wayne county, Pa., can boast of thirty-one children, thirty of whom are living and in good health.

JAMAICA.—The London Times of a late date, in an editorial upon the situation in Jamaica, alludes to a rumored league existing between the negroes of that colony and those of Hayti, said to emanate from New York. It professes to be very much astonished that the favored subjects of the Queen in that island should have any cause for dissatisfaction, and dilates upon the great change apparent for the worse in the manners of the present generation of negroes. The time of this revolt is considered very inauspicious for the interests of the black race in the United States. The article closes with one of those florid pictures with which brilliant essayists gild old England's brazen facts, and which one needs to be told refers to the descendants of the emancipated slaves of Jamaica. It says:—

"He for whose special benefit all the past culture of his adopted islands may be said to have existed—he, who has come in as the favored heir of a civilization in which he had no previous share; he, petted by philanthropists and statesmen and preachers into the precocious enjoyment of rights and immunities which other races have been too glad to acquire by centuries of struggles, of repulses, and of endurance; he, dandled into legislative and official grandeur by the commiseration of England—that he should have chosen such a time to revolt against the Power which protected and elevated him when every other Power neglected him or trampled on him—this is a thing so incredible that we will not venture to believe it now."

To any one who knows the measure of protection and elevation which really has been extended to the British freedmen, who has observed the obstinate colonial policy of the government, the bitter and inveterate prejudice of the planter, the total failure to educate, christianize and give fair play to these wards of a more powerful race, the bit of inflated rhetoric quoted above will only invite a smile of pity or contempt.

The insurrection (remarks the Boston Journal) is indeed a warning to the white race of the United States, with a far different interpretation from that which superficial observers may put upon it. It shows that there can be no security except in absolute justice, and in the moral and intellectual elevation of the colored man. Refuse him employment, deprive him of schools, drive him to the woods and mountains, and at some time the object of this fatal repression will burst forth with tropical violence, and we shall see the bloody scenes re-enacted which have occurred in British Indies and in Jamaica. The government cannot discharge too faithfully the duties implied by the act of emancipation. We shall never believe, until it has been fairly tried, that a course of honest, just and generous treatment will not be appreciated, and be a lasting benefit to the freedman as well as to his former master and to the country at large.

FROM MISSISSIPPI.—The bill conferring certain civil rights upon freedmen passed the House, with the substitute by which the negro is allowed to testify when a party to the record, but not in cases exclusively between white men. The vote was 56 to 30.

Gov. Humphrey telegraphed on the 18th inst. to President Johnson that a body of colored troops attacked and took possession of a passenger train at Lauderdale Springs, and insulted ladies, their officers being unable to control them.

He says the Legislature has memorialized for the removal of the troops, and are willing to extend the right of freedmen to testify in courts if the troops are withdrawn.

The President replied that the troops would be withdrawn when peace and order could be maintained without them. Measures should be adopted by the Legislature giving protection to the freedmen and securing their constitutional rights. There was no disposition on the part of the Government to dictate, but simply to advise the adoption of a policy that would be beneficial.

FROM NEW ORLEANS we learn there is a rumor from Mexico that Bagdad is besieged by the Liberals. It is also stated that the French Admiral has demanded of Gen. Weitzel the surrender of the steamer captured by the Liberals, which was refused. Also that the sudden disappearance of the Liberals from before Matamoras was because they were informed the Imperialists were marching from Montery to attack them in the rear.

Gen. Canby has issued an order restoring the Methodist Episcopal Church of New Orleans to the society.

The Methodist Conference of Mississippi has just adjourned. It adopted resolutions providing for the education of the Freedmen, their wives and children.

VINELAND. — This new settlement in New Jersey, organized by Northern men since the beginning of the war, cast 100 Republican votes at the late election, and but 5 for the copperhead ticket. Bravo for Vineland: verily New Jersey is in the Union. See advertisement of Vineland.

— A Mrs. Boylan died in Providence this week from injuries by burns. She had a son killed in the war, another met a violent death, and her husband was found dead in bed.

— "As my strength was then, even so is my strength now," said Joshua. So will every one say who is now troubled with weak stomachs and worn out digestive organs, if they will now and forever use Herrick Allen's Gold Medal Saleratus—for wherever it has made an acquaintance, it "sticks closer than a brother,"—it will be your protector and shield, besides always giving you nice, light and digestible Bread, Biscuits, Puddings, Cakes, &c. Try it. Most of the Merchants sell it. Depot 112 Liberty St., New York. 13

PRICES RECEDING.—At the public sale of coal in New York on Tuesday prices declined from $1 to $2 per ton. At the New York live stock markets this week, beef, which has been of late in light demand, and the supply large, prices fell 1 and 1 1-2 cents per pound; mutton and lamb half a cent, and hogs 1 3 8 cents per pound. It is very difficult to dispose of stock at this reduction.

Hoping my friends will call and purchase freely, (as the price will be no obstacle) and thereby assist me in reducing my Stock, so as to be better able to sell the remainder on the 1st of January next to a good man, who will deal justly and serve his customers faithfully.

THE REASON

Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in man a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, I exchange it for the Southwest (Saint Louis.) My Wife's health being very feeble, and being advised many times during her suffering the change of climate would be beneficial to her, after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.

Respectfully yours,

I. HAHN.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than that of a brunette; but they greatly mar the beauty of either; and any preparation that will effectually remove them, without injuring the skin or color of the skin, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being fluid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all those complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature, those laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.00.**

Prepared by Dr. JOHN L. LYON, 196 Chapel Street, New Haven, Conn, who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

ALLCOCK'S POROUS PLASTERS.—A Druggist said the other day, you have no need to advertise your Porous Plasters, for every one sold certainly causes a dozen to be sold, and a dozen sells a gross, and so on. But we can supply a thousand yards a day.
AFFECTION OF THE SPINE CURED.
HARTFORD, CONN., Nov. 11th, 1861.
Messrs. THOS. ALLCOCK & CO.:—Please send with dispatch, twelve dozen Allcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing, a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay $5 for a single plaster, if they could not be had at a lower rate. I am surprised that surgeons do not make use of these perforated plasters, to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them render them greatly superior to all others for ordinary surgical uses. Knowing the Plasters to be so useful, I have no scruples that my sentiments should be known. J. W. JOHNSON, M. D.

MEMORANDA OF WHITEFIELD.—Burleigh concludes a letter to the Boston Journal with the following items of Whitefield's preaching in Portsmouth:

A well known Portsmouth lady left among her effects a memorandum book, with the records of events extending thro' a period of 64 years, from 1763 to 1827. Among other interesting items is the record of the four last sermons preached by the celebrated George Whitfield. She was a particular personal friend of the great Evangelist, and the following records I take from her book:

"Portsmouth, Sunday, Sept. 23, 1770—The Rev. Dr. Whitfield preached in this place from 1st. Corinthians 15: 48. 'As is the earthy so are they also that are earthy: and as is the heavenly so are they also that are heavenly.'

Monday, Sept. 24—Revelations 11: 4 and 5: 'Nevertheless I have somewhat against thee, because thou hast left thy first love. Remember therefore from whence thou hast fallen, and repent and do the first works, or else I will come unto thee quickly and remove thy candlestick out of his place except thou repent.'

Tuesday, Sept. 25,—Luke 15: 2: 'And the Pharisees and Scribes murmured, saying, this man receiveth sinners and eateth with them.'

Friday, Sept. 28,—Mark 16: 15 and 16: 'And he said unto them, go ye into all the world and preach the gospel to every creature. He that believeth and is baptised shall be saved; but he that believeth not shall be damned.'

This was the *last sermon* that he ever preached, much to be regretted by all. He died at Newbury, Mass., on Sabbath morning, Sept. 30, 1770."

It appears that the last sermon preached by Whitfield was in the Congregational Church on the Parade ground, so called, in Portsmouth, New Hampshire. He left on the next day, being Saturday, for Newburyport. He was taken sick that afternoon and died the next morning in the dwelling in the rear of the so called Whitfield Church of Newburyport.

[All right as to the memoranda.—But Whitefield preached in Portsmouth, in the *North Meetinghouse.*—The Congregationalists of that day did not call their House a Church.]

☞ As Mr. Frank W. Ingalls was returning home about 11 o'clock on Wednesday evening, he was met by two ruffians on the corner of Austin and Middle St., who sprang upon him and threw him down, evidently with the intention of robbing him. Finding he was not stunned by the blow, they were about to commence a second assault and would in all probability have used him rather severely, had not a man come in sight, when the villians ran, and Mr. Ingalls was left to depart to his home without being further molested. T.

☞ In the Police Court, on the 23d, Frank Adams was fined $3 and $3.86, for having mistaken his "guage" and thus imbibed so much liquor as to bring him into the class with those who have woe, who have babbling, who have redness of eyes and wounds without a cause; *i. e.* he was drunk.

☞ Saturday, Nov. 18th, being the twenty-fifth anniversary of the wedding of Mr. Francis Chase, Superintendent of the P., S. & P. Railroad, his friends in Portland called upon him that evening, and left many acceptable mementoes of the occasion.

☞ The Portland, Saco and Portsmouth Railroad has been in operation nearly 25 years, and of all the millions of people carried over that road, not a single passenger has lost his life thereon.

☞ The work on the new bridge over the the Merrimac, on the line of the Eastern Railroad, is being pushed forward with much vigor, over a hundred men being at present employed upon it. A large scow, known in Newburyport as "the Fenian Gunboat," will be launched there today, having been built by the Railroad Co., at an expense of about $4000. She is 93 feet long, 32 wide and 8 deep, and has a hole in the bottom through which the man will descend for work in the diving bell. The Herald thinks the scow would make a grand dry dock for small vessels, after the completion of the bridge.

NAVAL.—Thomas R. Wilson reported for duty as Gunner—at the Portsmouth Navy Yard on Thursday.

Acting Ensign J. Loues Harris has been ordered to duty at this Yard, and reported on Thursday.

☞ A Southern paper remarks that "the following General invitation from a Confederate country maiden to a friend in the city was penned before the Confederacy 'went up':"

Come leave the noisy *Longstreet*
And come to the *Fields* with me;
Trip over the *Heth* with flying feet
And skip along the *Lee*.
There *Ewell* finil the flowers that be
Along the *Stonewall* still,
And pluck the buds of flowering pea
That grow on a *A. P. Hill*.
Across the *Rhodes* the *Forest* boughs
A stately *Anderson* form,
Where sadly pipes that *Early* bird
That never caught the Worm.
Come hasten, for the *Bee* is gone,
And *Wheat* lies on the plains;
Come braid a *Garland* ere the leaves
Fall in the "blasting *Rains*."

— Lay it down as rule never to smile, nor in any way show approval or merriment at any trait in a child which you should not wish to grow with his growth, and strengthen with his strength.

— "As you do not belong to my parish," said a clergyman to a begging sailor with a wooden leg, "you cannot expect that I should relieve you." "Sir," said the sailor, with a noble air, "I lost my leg fighting for all the parishes."

— It is said that there was never but one man who was not spoiled by being lionized—he was a Jew, and his name was Daniel.

— "What did Lot do when his wife was turned into a pillar of salt? "Took a *fresh* one, of course."

— Brigham Young is indeed a Pillar of Salt Lake. His idea of a wife is—*Lots.*

WHAT THE PEOPLE WANT:
THE
STANDARD
HISTORY OF THE WAR,
COMPLETE IN ONE VERY LARGE VOLUME OF OVER 1,000 PAGES.
This work has no rival as a candid, lucid, complete, authentic and reliable history of the "Great Conflict." It contains reading matter equal to three large royal octavo volumes, splendidly illustrated with over 400 fine portraits of Generals, battle scenes, maps and diagrams.
In the selection of matter, for this great work, the author has confined himself strictly to *official data*, derived from the reports of Northern and Southern Generals, the Report of the Committee on the Conduct of the War, National and Rebel Archives, &c. &c.
He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *impartial* History of the War.
Returned and disabled officers and soldiers, and energetic young men in want of profitable employment will find this a rare chance to make money. VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become a resort of people *of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, the best part of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawem

A HOUSEHOLD BLESSING!

HOWE'S SEWING MACHINE!
The Best Machine in the Market!
The people of Portsmouth and vicinity are respectfully informed that I have taken the Agency of the above beautiful Sewing Machine, and am now prepared to promptly supply the same, either by wholesale or the single machine.
☞ *No Family can afford to be without one of these vast Labor-Savers.* ☜
Why is this the best Sewing Machine ever invented? Because—
1ST. It is better made than any other.
2D. It runs with less noise.
3D. It is much less liable to get out of order
4TH. No other Machine works so small a needle.
5TH. It is the cheapest Machine, because the best.
6TH. It has improvements over every other Machine.
The better the work performed, the better the price obtained; hence that Machine which produces the best work is the most profitable.
FOR FAMILIES,
MERCHANT TAILORS,
BOOT AND SHOE
MANUFACTURERS,
The Howe Machine Stands Unrivaled.
☞ Every Machine will be kept in order ONE YEAR WITHOUT EXPENSE TO THE PURCHASER.
Many Ladies earn from $1.50 to $2.00 per day in running these Machines.
Wives and Mothers! Buy HOWE'S FAMILY SEWING MACHINE, and you will then be able to refute the assertion that "*Woman's work is never done.*"

Morning Chronicle.

CURIOUS MISHAP.—At a pianoforte manufactory in New York, last week, a weary young workman got into a box containing an upright piano, partly packed, and went to sleep on the straw. He was missed, but not discovered, and the box cover was quietly screwed on. The weary young man was presently awakened by the rude shock occasioned by removing the box to the wagon in the street, and found himself standing upon his head. After the lapse of some moments he made himself heard and was released, but not until he was well-nigh suffocated.

— No cover was ever made so big or so fine as to hide itself. Nobody was ever so cunning as to conceal his being so.

THE SPECIFIC PILL. Two To Six BOXES OF THE SPECIFIC PILL

is usually sufficient to effect a prompt and radical cure of SPERMATORRHŒA, or SEMINAL WEAKNESS, and is equally the SPECIFIC REMEDY for every species of *Genuine Old Country Debility*. Involuntary or *Nightly Seminal Emissions*, from whatever cause produced, or however severe, will be speedily relieved, and the vigor restored to healthy action.

PROFESSIONAL OPINIONS.—"I have used your SPECIFIC PILL in many cases of impotence with the most *perfect success*."—B. KEITH ANDERS, M. D., LL. D.

"I have cured very severe cases with from six to ten doses of your SPECIFIC PILL."—B. KEITH M. D.

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Cumberland, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabiatis, of Venezuela, who immediately prescribed her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks, I am very respectfully yours,

S. D. C. HENRIQUEZ, Merchant, Curacao, S. A.

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Diarrhœa, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your physician.

CHEROKEE PILLS,

Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness*, and all diseases that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by the directions*, and are easy to administer, as they are nicely *sugar coated*. They should be in the hand of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole agent for the

DR. WRIGHT'S

REJUVENATING ELIXIR,

Or, Essence of Life,

"As the Phœnix rises from the ashes of its fire, animated with new life"—so does this Elixir rejuvenate and restore the system and overcome disease.

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *Organs of Reproduction, removing Impotency and Debility, restoring Manliness* and *Strength* to the emasculated beyond boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

Price, one bottle $2; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

FAIRS.—The British Provincial Bishop of Fredericton is hard on bazaars, tea meetings, &c. He said in St. John the other day, "he would rather see a congregation worshiping in a but, or in the open air, than in a building erected from funds raised at picnics, tea-meetings, bazaars and races. The steps which had been taken in late years toward raising money for church purposes, were such as to excite no wonder if open, unblushing gambling be adopted a few years hence."

— There are now at the University of Virginia two hundred and thirty students, nearly all of whom were in the rebel army during the war.

— "I am afraid you will come to want," said an old lady to a young gentleman. "I have come to want already," was the reply: "I want your daughter."

—With a little house well filled, a little land well tilled, a little wife well willed, a husband well skilled, and servants well drilled—a little time may be well killed.

—Many men dedicate business to the devil and politics to the devil, and shove religion into the cracks of time, and make it the hypocritical outgoings of their leisure and their laziness.

— A German usurer, who took 9 per cent. interest instead of 6, the legal rate, was asked if he ever thought of what God would say to his extortion. "Oh, yes," said he, "but when God looks down from heaven, the 9 will look like a 6."

ISRAEL MARDEN & CO.,
No. 39 Congress St., Portsmouth, N. H.,
—DEALERS IN—
S. Vance's Submerged Well PUMP.
This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.
ITS ADVANTAGES.
FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.
SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.
THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they sink low all the water above to pass down into the well, and thus prevent freezing.
FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.
FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.
SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.
☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,
39 Congress Street.
☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 28 Endicott street.
Persons at a distance can consult Dr. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address Dr. BRISCOE, at No. 28 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1865. ThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 28 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

The Old Established Hospital.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healthe and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and made happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published. Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Michel's Italian Female Monthly Pills. The sale of more than 100 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. TELLER, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.
N. B.—No students or boys employed. Notice this, address all letters to

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the undersigned; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, in the case capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
THOMAS EWBANK,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all the subjects of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN LAGGART
During eight months, the subscriber, in courses of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, NOVEMBER 25, 1865.

☞ The York Tribune mourns more the death of the lamented Preston King, and attributes it mainly to the uneasiness caused in his sensitive mind, by the fierce and tumultuous scramble of men who sought the offices supposed to be in his gift as Collector of the Port of New York. The Tribune very sharply rebukes the seekers, and condemns the practice. Other papers have often spoken in the same way;—and we have sometimes seen slurs cast upon the present party in power, by opposing papers, for such practices, as if they were new, or peculiar to the Union Republicans.

It is not so, however;—but it is just as old as the Democratic party, by whom and for whom it was made, when they elected JACKSON and CALHOUN, and *reversed* the policy of the General Government, as the record plainly shows.

The U. S. officers who were appointed by Washington, were retained by Adams; and Mr. Jefferson, tho' he appointed Republicans, rarely if ever displaced Federalists for that purpose. Mr. Madison did not displace Jefferson's appointees; and Mr. Monroe appointed his new officers from both parties, but never displaced any one except for cause, and very few in the whole. And John Quincy Adams disturbed no one in office.

But when the Jackson tornado swept over the land, the cry was, "to the Victors belong the Spoils!" Gen. Jackson will reward his friends and punish his enemies!"

It was "a word and a blow." Post offices were swept with the famous Broom of Reform, so suddenly and so generally, that the Postal Service was thrown into utter confusion and plunged into bankruptcy. Custom House officers were changed almost every where, not *always* for the better;—and the old incumbents were mostly *removed*, because the new men did not like to wait for the terms to expire!

Then, there, and thus, was the Spoils System inaugurated, by the *new Democratic party* which was then formed, and by Gen. Jackson, its first president. This system, bad, vicious, dishonorable and contemptible, has prevailed through all administrations and under all parties, (varied to be sure in some respects,) to the present time. We see it to be an evil, but we do not see, so clearly, how it is to be remedied. It is worth while however, at the present time to look at its *origin*: and when any writer or orator is disposed to laud the "old Democratic party," as the dispenser of great *benefits*, it may be well to remind him, that this system is one of them! U. T.

MEMPHIS, TENN., is invested by bands of robbers and murderers. Wednesday night, about 10 o'clock, Mr. Hoffman, a citizen, was returning from the St. Cecilia Seminary, with his daughter and son, when he was attacked by four highwaymen, who dragged him into the bushes by the road, robbed and injured him so dangerously that his recovery is impossible.

One of the robbers was badly wounded by Hoffman. All have been captured and are in jail. An excited crowd were preparing to lynch them. They were found to be teamsters in the employ of the government.

THE CATTLE PLAGUE IN ENGLAND.—The following is a psalm sung in Osmotherly Church Yorkshire, England, above a century ago. It was composed by the parish clerk on the occasion of the murrain—a severe distemper that raged among the horned cattle in the year 1747. It was lined and chorused by the whole congregation in the church. The four first stanzas contained an account of the cattle that died, and the names of the farmers to whom they belonged. The remaining verses were as follows:

No Christian's hull nor cow, they say
But takes it out of hand;
And we shall have no cows at all,
I doubt, within this land.

The doctors, though they all have spoke
Like learned gentlemen,
And told us how the entrails look
Of cattle dead and green;

Yet they do nothing do at all,
With all their learning's store;
So Heaven drive this plague away,
And vex us not no more.

This piece was so well received that after the service it was desired again by all the congregation, except by five farmers, who wept, declaring that the lines were too moving. The minister, on going out, said to the clerk: "Why, John, what psalm was that we had to-day—it was not of David's?" "No, no," quoth John, big with the honor he had acquired, "David never made such a psalm since he was born; this is one of my own."

— It is asserted by one who has proved its efficacy, that a certain cure for cancer is the juice of the sheep sorrel or *sagitate*, expressed, and exposed on a pewter plate in the sun until somewhat jellied. Apply it on the skin over and around the cancer.

— At the request of the Sons of Temperance in Bath, the thirteen clergymen of that city have agreed to deliver discourses in their respective churches on the subject of Temperance—the lectures to be given on Sabbath evenings, and so arranged as to have one a week during the course.

☞ The Coos (N. H.) Republican gives the details of an outrageous attack upon Charles McFarland, Collector of the town of Northumberland, his brother Chester McFarland, and Josiah Blodgett, on Friday night last. It appears that the three men left the village about nine o'clock in the evening for a lot about two miles distance, where they were engaged cutting wood. While on the way Charles McFarland, who was a little in advance, was suddenly assaulted by William Cummings, Jr., and Daniel Graham, who knocked him down with clubs, jumped on and pounded him, and robbed him.

They then went back after his brother and Blodgett, while he crept into the village on his hands and knees and alarmed the people, who with him went back and found his brother Chester laying over a fence and horribly pounded over the head. Blodgett was also struck, but made off. Chester McFarland says that Thomas Cummings attacked him, and that all his money, from five to eight dollars, was taken from him; also that two or three attacked him. Blodgett says there were four. Thomas and William Cummings and Daniel Graham have been arrested, and say that the fracas was the result of a spree, and that they were attacked by the complainants.

[This is, the prisoners plead "not guilty by reason of being drunk" — so drunk that they believed the wood-cutters attacked the rowdies.]

☞ The Memphis Argus is "called upon to chronicle the disgraceful fact that gambling prevails to an alarming extent" in that city. It says the "hell" is too mild a name for the gambling dens there, whose name is legion, and calls upon the State and municipal authorities to interpose the strong arm of the law to beat down this growing, horrible evil; giving to the gamblers—*professional* and unprofessional—the following "puff":

They are the best dressed men in the community. "They toil not, neither do they spin, yet Solomon in all his glory was not arrayed" more gorgeously than are these pests of society—these blacklegged vermin, that prey upon the body politic and the body social, of Memphis.

Of the gambling-houses it says:

They are in fact an awful nuisance. Their ways are ways of darkness, and their outgoings and incomings take hold on death, and lead directly down to that HELL whose name they bear.

WHITEFIELD'S LAST SERMON.—A correspondent of the Boston Journal, corrects Burleigh's error about Whitefield's preaching the *last* sermon of his life, in Portsmouth, into which he was led by the lady's old memoranda, of which we took no particular notice when we copied the article. It is well known here, however, and recorded by Mr. Adams, in his annals, that Mr. Whitefield preached in Portsmouth four times on the last week of his life, and on Saturday at Exeter.—As a matter of some interest, we copy the following extract from Stevens' History:

"During six days he (Whitefield) preached there (Portsmouth) and in the vicinity every day. Returning, he addressed a vast assembly in the open air at Exeter. His emotions carried him away and he prolonged his discourse through two hours. It was an effort of stupendous eloquence—*his last field triumph*: the last of that series of mighty sermons which had been resounding like trumpet blasts for thirty-four years over England and America.

He departed the same day for Newburyport, where it was expected he would preach on the morrow. While at supper the pavement in front of the house and event its hall were crowded with people impatient to hear a few words from his eloquent lips; but he was exhausted, and rising from the table said to one of the clergymen who were present with him, 'Brother, you must speak to these dear people, I cannot say a word.' Taking a candle he hastened toward his bedroom, but before reaching it he was arrested by the suggestion of his own generous nature that he ought not thus to desert the anxious crowd, hungering for the bread of life at his hands. He paused on the stairs to address them. He had preached his last sermon: this was to be his last exhortation. It would seem that some pensive misgiving, some vague presentiment touched his soul with the saddening apprehension that the moments were too precious to be lost in rest. He lingered on the stairway while the crowd gazed up at him with tearful eyes, like Elisha at the ascending prophet. His voice, never, perhaps, surpassed in its music and pathos, *flowed on until the candle which he held in his hand burned away and went out in the rocket!* The next morning he was not, for God had taken him."

UNITARIANISM.—The New York Post says the Unitarians of New York and vicinity are giving new signs of activity. A pastoral association has been formed, and holds regular meetings; and measures were taken this week to form a Sunday School Society. A course of lectures, already announced, will be given early in the new year, by seven leading Unitarian ministers, probably on Saturday evenings, at Cooper Institute. The Unitarians have lately raised nearly three hundred thousand dollars for missionary purposes.

— An Italian princess, of the late reigning house of Modena, was recently received into the Marylebone Workhouse, and died there. Other members of the family are said to be living in London in a state of poverty.

MURDER OF ONE FOREIGNER BY ANOTHER.—Jose Garcia Othero, who was murdered in Brooklyn Wednesday night and robbed of $8000 or $10,000, was proprietor of a theatre in Havana and come to New York to purchase machinery, &c. It is supposed that the murderer is Jose Gonzales. He is represented to be about 40 years of age, five feet eight inches high, dark complexion, black hair, and wears a thin black moustache. He had dined with Othero in the afternoon, knew that he had the money on his person, and left the hotel in company with the victim. The murdered man was horribly mutilated by more than a dozen wounds from a dagger. A wound over his right eye was inflicted with some blunt instrument, and his body was lacerated with a razor-dagger, and a razor was found in the vicinity.

Theodore Martinez Bellecer, a Cuban, was arrested at New York Thursday evening on board a steamer just about to sail for Havana, on suspicion of being implicated in the murder of Othero. The circumstantial evidence against him is strong. The Brooklyn Eagle says Joseph Gonzales, the man who left the hotel with the murdered man has also been arrested.

LARGE SALE OF DAMAGED GOODS.—The Cincinnati Commercial says the executors of the Democratic party offer for sale, until the stock is cleaned out, the effects personal and political of the "time-honored," "Bourbon," and "New Jersey" Democracies, in lots to suit purchasers, as follows:

One set resolutions that coercion is unconstitutional. (Badly damaged.)

One set resolutions that the rebellion can't be put dow, *vi et armis*. (Played out last spring.)

One set resolutions to compromise with treason. (Worm eaten.)

One set resolutions that this war is an abolition war." (Useless to the heirs and assigns.)

One set resolutions that the war is a failure. (Purchaser will be paid to take it away.)

One-half set resolutions of thanks to the army and navy. (Convenient to have in the house.)

There will also be disposed of, on terms made known on the day of sale, the following principles, good as new, having been but little used:

One resolution approving the policy of reconstruction. (Impaired by conditions.)

One resolution indorsing Andrew Johnson as a patriot and statesman. (Value subject to future events.

One resolution that the Democratic party is and always has been in favor of the Union, one and indivisible. (Not suitable for a Southern market.)

One resolution concerning State Sovereignty. (This is a valuable self-adjusting article, capable of expansion or contraction at the pleasure of the owner.)

— Twenty-five States have ratified the Constitutional Amendment abolishing slavery. But two more are required to make it form a part of the fundamental law of the land; and New Jersey, Oregon and California will each ratify it.

THE REASON

Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in many a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, to exchange it for the Southwest (Saint Louis.) My Wife's health being very feeble, and being advised many times during her suffering that change of climate would be beneficial to her,—after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.

Respectfully yours,

I. HAHN.

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of "*what we do know*," after 30 years experience; *and pledge our reputation, for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

ALLCOCK'S POROUS PLASTERS.—A Druggist said the other day, you have no need to advertise your Porous Plasters, for every one sold certainly causes a dozen to be sold, and a dozen sells a gross, and so on. But we can supply a thousand yards a day.
AFFECTION OF THE SPINE CURED.
HARTFORD, CONN., Nov. 11th, 1861.
Messrs. THOS. ALLCOCK & CO.:—Please send with dispatch, twelve dozen Allcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing, a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay $5 for a single plaster, if they could not be had at a lower rate. I am surprised that surgeons do not make use of these perforated plasters, to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them render them greatly superior to all others for ordinary surgical uses. Knowing the Plasters to be so useful, I have no scruples that my sentiments should be known. J. W. JOHNSON, M. D.

Local.

LYCEUM.—Next Tuesday evening all may expect a rich treat. We mean all, who are so fortunate as to be at the Temple, to hear that eloquent public lecturer, George W. Curtis, esq., editor of Harper's Weekly. He has lectured twice in this city. In addition to the charming *graces* of the orator, he possesses, in an eminent degree, good sound sense, expresses his sentiments clearly and definitely, and not only attracts by a fine personal appearance and grace of manner, but also entrances by that mysterious power of (what some call) self-communication—the ability to carry conviction to the hearts of his hearers. He does not feast his audience on anecdotes and commonplaces, but imparts what is of vital importance to the well-being of society, and especially useful to young men. Such are the lecturers we need.

The youth of our city should be instructed and trained to lofty and ennobling views of life and duty. They should aim at a worthy manhood; and they can attain it, if they will place themselves in positions to secure useful instruction rather than mere amusement. We think parents have a duty to perform in this regard. An honorable and useful life, on the part of their offspring, would well repay all their efforts and sacrifices to secure it.

POLICE COURT, Friday, Nov. 24.—Judging from its effects, we should say that some of the whiskey sold in this city is bad; many persons go so far as to place it all in that category. The weather has been rather stormy of late, and many persons have been led into making inward applications of "something hot" to counteract the outward moisture, with the following result:

John Jones, drunk, fined $3, and costs $3.86.

John Sheehan, ditto, ditto, ditto, ditto.

☞ We notice that Geo. N. Carleton, Esq., formerly of this city, and late Special Agent of the Treasury Department at Memphis, has formed a copartnership with A. M. Foute, in that city, for a general commission businession business. Mr. F. was recently President of the Gayoso Savings Institution, and the firm will possess business talent sufficient to ensure success.

☞ We published an item a day or two since in relation to the missing ship Benj. Adams, and have since, through private sources, learned that she went ashore on Green Turtle Key (Abaco) on the 23d of October, and is a total loss. Ten of the crew and twelve wreckers were lost, among whom was the son of Capt. C. H. Chase of this city. The Captain and his wife were saved.

☞ "That Comical Brown" entertained a large audience last evening. Miss Marsh has improved much in her singing since last here, and the trick dogs reflect great credit upon Mr. Eustis, their trainer.

☞ To Geo. N. Carleton, Esq, we are indebted for Memphis papers; to Capt. W. O. Sides for St. Paul papers; to Thos. F. Hedges for New Orleans papers, and to various unknown friends for like favors from different parts of this country as well as from foreign lands.

☞ Mr. Wendell has an extensive sale advertised for this morning. Besides household goods of nearly all varieties, he sells a horse, phaeton, piano, &c.

WASHINGTON ITEMS.—A Washington dispatch says the prisoner recently brought from the South under circumstances of great mystery, and incarcerated in the Old Capitol Prison, is Major Lee, who was arrested in Florida. He was in charge of the Swisburg prison while the mortality was greatest among Union prisoners.

Postmaster General Denison has completed his report, and it is now ready for distribution. It exhibits the Department as being in a very favorable condition, and will not require any additional appropriations for the next fiscal year.

The forthcoming Treasury report will show a more encouraging condition of the national finances than has hitherto been anticipated.

The removal of Gen. Steele from command in Texas, and the appointment of Gen. Weitzel in his place, is said to have been caused by his (Steele's) violations of strict neutrality in dining with Maximilian's officers and dancing with Mexican Senoritas.

GOLD, Friday, 146 1-8.

— The "abductors" of Sanders have been released on bail.

— It is stated that the members of the Philadelphia Coal Exchange are to discuss the subject of creating an artificial scarcity of coal at their next monthly meeting.

— About 12 o'clock Saturday night, Mr. Edward Emmery of Grafton, Mass., was met in that town by three robbers, who holding a pistol to his head robbed him of $470.

— The Savannah Herald has information that an emeute took place among the negroes near Marianna, West Florida, the rioters burning a cotton gin house. A company of regulars were sent there to keep order.

TRUE.—The Vermont Standard truly remarks that "parents who allow their boys of from eight or ten to fifteen years of age to congregate at night in the street alleys of our village, and make the evenings hideous with their shouts and groans, their yells and laughter, their words of anger, profanity and vulgarity, are laying up for themselves a store of sorrow for their declining years, that will mock them when fear, distress and anguish shall come upon like a whirlwind, as the sure consequence of such a neglect of duty toward their children."

All efforts to rival the J. Morse Taylor Gold Medal Soap have signally failed; we do not hesitate to pronounce it the cheapest and best Soap in existence, it will take out grease, spots, or paint, will make nice soft soap, and make clothes of all grades look better after washing, than any other article of the kind in the market; it will not injure the finest fabric. Try it, their Depot is at 112 Liberty Street, New York. Most of the grocers sell it. 14

— Mechanics' wages are advancing in England. The cabinet makers in London lately demanded an advance of ten per cent. on all kinds of work, and received it.

WARD ONE CAUCUS.—At the Ward Room, Elm Street, *Saturday Evening*, Nov. 25, at 7 1-2 o'clock.

☞ Special attention is invited to the advertisement of Vance's patent Submerged Well *Pump*, as an article far superior to any other pump ever offered to the public.

THE SWEET SOUTH WIND, breathing o'er beds of violets, is not more fragrant than Sozodont. And the aroma which it exhales, communicates itself to the breaths of all who use this marvelous dentrifice. White teeth, ruddy gums, a sweet mouth, and the certainty of enjoying these desirables in perpetuity, are among the blessings derived from the use of Sozodont. n21eod1w 15

AGENTS.
WHAT THE PEOPLE WANT:
THE
STANDARD
HISTORY OF THE WAR,
COMPLETE IN ONE VERY LARGE VOLUME OF OVER 1,000 PAGES.
This work has no rival as a candid, lucid, complete, authentic and reliable history of the Great Conflict." It contains reading matter equal to three large royal octavo volumes, splendidly illustrated with over 150 fine portraits of generals, battle scenes, maps and diagrams.
In the selection of matter, for this great work, the author has confined himself strictly to *official data*, derived from the reports of Northern and Southern Generals, the Report of the Committee on the Conduct of the War, National and Rebel Archives, &c. &c.
He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and is succeeded in producing what is universally demanded, a *fair* and *impartial* History of the War.
Returned and disabled officers and soldiers, and energetic young men in want of profitable employment will find this a rare chance to make money. We have Agents clearing $250 per month, which we will prove to any doubting applicant, by proof of the above send for circulars and see our terms. Address, JONES BROS. & CO., 14 Phœnix Building, Boston.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass, Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold in actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste*. It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the Saw and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters and Pamphlets, about Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawóm

A HOUSEHOLD BLESSING!

HOWE'S SEWING MACHINE!
The Best Machine in the Market!
The people of Portsmouth and vicinity are respectfully informed that I have taken the Agency of the above beautiful Sewing Machine, and am now prepared to promptly supply the same, either by wholesale or the single machine.
☞ *No Family can afford to be without one of these vast Labor-Savers.*
Why is this the best Sewing Machine ever invented? Because—
1st. It is better made than any other.
2d. It runs with less noise.
3d. It is much less liable to get out of order
4th. No other Machine works so small a needle.
5th. It is the cheapest Machine, because the best.
6th. It has improvements over every other Machine.
The better the work performed, the better the price obtained; hence that Machine which produces the best work is the most profitable.
FOR FAMILIES,
MERCHANT TAILORS,
BOOT AND SHOE
MANUFACTURERS,
The Howe Machine Stands Unrivaled.
☞ Every Machine will be kept in order ONE YEAR WITHOUT EXPENSE TO THE PURCHASER.

Morning Chronicle.

— "I like to reverse things once in a while," said an old toper, who was found at an early hour in the morning, sitting beside a ditch; "I like to reverse things once in a while—I sat at a banquet all night, and now I am sitting on a wet bank."

— "Dear me!" exclaimed a lady, as she looked at a boa constrictor in a show, "why the skin of the creature is of a regular tartar pattern." "It is, my dear," remarked her husband, "and that is what Shakespear alluded to, when he talked about a snake being 'scotched.'"

— Two sons of Erin were standing by a hydraulic press, superintended by a friend of mine, when one called out to the other, "Jim, I'd like to put ye under and squeze the divil out o' ye." "Would ye, indade, my boy?" was the answer: "Squeze the divil out o' you, an' there'll be nothing left."

— Hope writes the poetry of the boy, but memory of the man. Man looks forward with smiles, but backward with sighs. Such is the wise providence of God. The cup of life is sweetest at the brim, as we drink deeper the flavor is impaired, and the dregs are made bitter that we may not struggle when it is taken from our lips.

— A London reporter says that the Thames police have remarked, as a characteristic circumstance, that nearly every female who throws herself into the water is careful to divest herself of her bonnet and shawl, which are placed on the ground in such a manner as not to be in the least damaged.

— The Providence Journal can think of no punishment which it would like better to see inflicted on Waddell, of the Shenandoah, than to have him dropped in the streets of New Bedford, and left for twenty-four hours to the tender mercies of the whaling captains. What a *whaling* they would give him!

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately recommended your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacoa, S. A.
New York, June 28th, 1865.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

CHEROKEE PILLS,
Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness*, and all diseases that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by directions*, and are easy to administer, as they are nicely *sugar coated*. They should be in the hands of every Maiden, Wife, and Mother in the land.
Ladies can address us in perfect confidence and send for pamphlets in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.
The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.
N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,
Or, Essence of Life,

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course through the veins, restoring the *Organs of Generation, removing Impotency and this Elixir rejuvenates, restoring Manhood gives the system and full vigor*, thus proving a *perfect "Elixir of Love,"* removing Nervousness and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life to the weak and debilitated, to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.
"As the Phenix rises from the ashes of its fire, renovated and with new life"—so does this Elixir rejuvenate, restore and give full and full vigor, thus proving a *overcome disease.*
Price, one bottle $2; three bottles $5; sent by express to any address.
Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

Daily Morning Chronicle

VOL. XXVII. PORTSMOUTH, N. H., MONDAY, NOV. 27, 1865 : 331. No. 128.

The Chronicle.

— If a person has the blues, can he be said to be a "colored" individual?

— Why is a faithful printer like an ardent lover? Because he "sets up" a great deal, and employs an occasional "em brace."

— That young lady possessed an immense water power, who had a canal in her stomach, a cataract in her eye, a crick in her neck, and a waterfall on her head.

— Glycerine is a very useful article to have at hand during this season, when chapping prevails so. For the lips it is excellent, though in some cases it may be difficult to keep the chaps away.

— The Kennebec Journal says: "If any one finds contradictory reports from Mexico in our columns, we beg he will not lay the fault at our door. The trouble is in Mexico, where just one-half the people lie, and we don't know which half it is."

— An old portress, who had always been supposed to be wretchedly poor, has just died in the Calle d'Alcala, Madrid, leaving her heirs, who have not yet been found, an immense stock of household linen, which has never been used, and a sum of 60,000 reals in bank notes, gold and silver.

— A Providence paper referring to the outlandish and utterly abominable words constantly coined by telegraph operators, says, "The Associated Press pours a stream of cold poison into the English language every morning." We hear of buildings being "burglarized" and "incendiarized," of steamers "colliding" and oil wells "conflagrating," and the other day we were told an actress had "debutted" with success! There ought to be a law against such atrocities.

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address DR. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 18, 1865. ThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

THE GREAT
CONSUMPTIVE REMEDY!
DR. LAROOKAH'S
Indian Vegetable Pulmonic Syrup!
The best preparation ever made for the following complaints:
Colds, Coughs, Whooping Cough, Croup, Asthma, Catarrh, Bronchitis, Spitting Blood, Pain in the Side, Night Sweats, Humors, General Debility, Liver Complaints, and Throat and Lung Complaints tending to Consumption.
This well known remedy is offered to the public, sanctioned by the experience of many years, and when resorted to in season, seldom if ever fails to effect a speedy cure of any of the above complaints. Those who have not already made use of this never failing Remedy I have only to refer to the written testimonials of Hundreds of our most distinguished citizens: Clergymen, Doctors, Congressmen, Lawyers, Singers and Public Speakers, and last but not least, many hundreds of Private Citizens, both Male and Female, who have been restored to Health, when all expectation of being cured was a "forlorn hope." My limited space will only admit of the following extracts of Unsolicited Testimonials:
REV. J. C. INGALLS, *of Melrose, Mass.*, says:—"LAROOKAH'S I. V. P. SYRUP, for Pulmonary Diseases, stands unrivalled by any medicine yet discovered. It has completely cured me of Bronchitis of six years standing."
REV. B. F. BOWLES, *of Manchester, N. H.*, says: "Dr. Larookah's Pulmonic Syrup I would confidently recommend for Hoarseness and Severe Colds."
REV. G. C. SIMMONS, *Gansevoort, Sar. Co., N. Y.*, says: "I feel it my duty to say Larookah's Syrup is the best medicine we ever used in our family."
DR. PORTER, *of Northfield, Vt.*, says: "Larookah's Syrup is the best medicine for Colds, Coughs, &c. I ever knew of in the market."
HON. D. W. GOOCH, *Member of Congress from Massachusetts*, says: "I have used Dr. Larookah's Syrup in my family for six years, and have found it an excellent remedy for Coughs, Colds, Sore Throat, and all Consumptive Complaints. I have recommended it to several friends, who have received great benefit from its use."
W. R. BOWEN, 86 *Hanover St., Boston*, a well known druggist of 20 years experience, says: "I am prepared to say, Larookah's Syrup is superior to any medicine I have ever known, for the positive cure of Coughs, Colds, Sore Throat, and all similar complaints."
Price 50 cents and $1.00 per Bottle.

DR. LAROOKAH'S
SARSAPARILLA COMPOUND!
It is double the strength of any other Sarsaparilla compound in the market.
For the cure of Liver Complaint, Dyspepsia, Scrofula, Dropsy, Neuralgia, Epilepsy, Erysipelas, Boils, Tumors, Salt Rheum, Ulcers and Sores, Rheumatism, Pain in the Stomach, Side, and Bowels, Debility, and all complaints arising from impurities of the BLOOD.
The trial of a single Bottle of either will gain the confidence of the sick.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1857.
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments and Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND RELIABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me cordially to recommend parties to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made *one twice* rejected application SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

MONDAY, NOVEMBER 27, 1865.

☞ In a dispatch to late minister Dayton, Mr. Seward wrote: "The statements made to you by M. Drouyn De L'Huys concerning the Emperor's intentions are entirely satisfactory, if we are permitted to assume them as having been authorized by the Emperor in view of the present condition of affairs in Mexico. It is true, as I have before remarked, that the Emperor's purposes may hereafter change with changing circumstances. We ourselves, however, are not unobservant of the progress of events at home and abroad, and in no case are we likely to neglect such provision for our own safety, as every sovereign State must always be prepared to fall back upon, when nations with which they lived in friendship cease to regard their moral and treaty obligations."

WASHINGTON ITEMS.—The President and his entire Cabinet were in session Friday for several hours, discussing the estimates of appropriations for the next fiscal year, which were finally adopted and sent to the public printer. Every estimate has been reduced to the lowest possible figure, without making any allowance for a surplus in case of unexpected expenditure. The last fiscal year gives the following result:—

EXPENDITURES.

Interest on Public Debt,	$695,168,821.
Civil and Diplomatic Expenses,	40,346,543
War Department,	1,030,483,865.
Navy Department,	123,460,218.
Interior Department,	21,852,365.

RECEIPTS.

Internal Revenue,	$209,464,215.
Customs,	84,928,260.
Loans,	1,175,589,740.

Thirty-three volunteer army paymasters were mustered out Friday, which leaves one hundred and sixty-five on the roster, some of whom must also go.

There seems to be no opposition to Schuyler Colfax's re-election to the Speakership. Letters have been received from Henry J. Raymond and Gen. Banks announcing that they will not be candidates.

☞ A Washington dispatch says information having reached the Government a week or two ago that Major Gibbon, Quartermaster Taylor and Private Heth, late of the Confederate army, had in their possession at the surrender of Lee's army $47,000 in gold belonging to the rebel government, they were accordingly arrested and imprisoned in the Old Capitol Prison.—Heth subsequently buried $20,000 near the Dowe river, which the party exhumed and spent in Richmond. Only $4000 has been received by the Government.

☞ The bankrupt United States, about which John Bull was so solicitous before the close of the war, have proved better customers than ever before for his manufactures. A trade circular gives figures showing that in June of this year the exports from England to America were seven times greater than they were during the same month in 1861, although it is hinted that a great deal of this trade is indebted to speculation which may not be over-safe.

☞ The Washington correspondent of the N. Y. Evening Post says:

Prominent Republicans who have had interviews with the President within a few days, assert confidently that he agrees with the average sentiment of Congress upon the subject of reconstruction. At a Cabinet meeting held on Friday last, the President expressed himself in strong terms of disapprobation of the South, because of its apparent refusal to accept the terms of reconstruction held out.

— Gen. Frank Fessenden, son of Senator Fessenden, of Maine, has been brevetted Major Gen. of Volunteers.

— A letter to the New Orleans Picayune from Plaquemine parish, says grinding is the order of the day on several plantations. The new manufactured sugar is represented as being of a very good quality.

— A Canadian lady crossed the river to Buffalo in bridal array, the other night, to be married, when the merciless revenue inspector confiscated her outfit on suspicion that she was a smuggler.

— The Wilmington (N. C.) Herald gives the following results, as far as heard from, on the popular vote of the State on the anti-slavery ordinance: For, 4833; Against, 1108. On the anti-secession ordinance: For, 5239; Against, 906. Mr. R. W. Best of Greene county has been appointed Secretary of State by Gov. Holden.

— A tornado occurred on the Musquito coast on the 18th ult., sweeping away the town of Bluefield, killing many persons and destroying all valuable merchandise in the place, and many plantations. Mr. Thomas and family, consisting of thirteen persons, formerly of Baltimore, were all drowned, his plantation on Pearl Key being submerged six feet under water. The schooner Deliverance, Cobb master, from Boston, at Coon Island, loading with cocoa nuts, was taken up bodily by the hurricane, carried two hundred yards inland and landed high and dry.

NEW HAMPSHIRE ITEMS.

—— Orders were issued on Friday for the mustering out of the 2d N. H. Regiment now in the Department of Virginia.

—— A barn and contents, in Gofistown Centre, belonging to Mrs. Godfrey, was destroyed by fire on the night of the 20th. Loss $1400; no insurance.

—— G. W. Wadleigh's millinery store, in Franklin, was entered on the night of the 18th, and many goods packed up for removal, but the burglars took fright and escaped without plunder.

—— In Lyndeboro,' a foreigner named Hotchkins, shot a clock-repairer named Heath, on Thursday, 17th inst., for alleged insult to his wife. The charge took effect in the back of the neck and shoulders.—Twenty shot have been extracted, and it is thought Heath will recover.

—— Hon. James W. Grimes, Senator from Iowa, is in Boston. He is a native of New Hampshire, a graduate of Dartmouth College, and though not yet fifty years of age, has been Governor of his adopted State four years, and one of its Senators since 1859.

—— Mrs. Miller's millinery store, in Walpole, was entered on the night of the 15th. The burglar was surprised while packing up goods, but escaped, and was afterwards captured in Brattleboro,' Vt. His name is Daniel Wood, and he is an old offender, having served one term in State Prison for stealing.

—— The Dover Gazette states that on the evening of the 17th inst., Mr. Alonzo Pinkham at Dover Point, went to his barn to feed his horses, and on returning, about two rods from his barn, some villain or villains knocked him down, and robbed him of his pocket-book, containing about two dollars and a half. Two hours before he had a much larger sum with him.

THE GOVERNOR'S HORSE GUARDS.—A business meeting of the Governor's Horse Guards of New Hampshire was held in Concord, Thursday evening last, Col. Henry O. Kent presiding. The condition and prospects of the corps were discussed, and a special committee, consisting of Major V. C. Gilman, Capt. C. C. Webster, Surgeon C. P. Gage, Paymaster Frank W. Miller and Lieut. S. S. Chick, was appointed to ascertain whether the Guards are inclined to merge themselves in the enlisted militia of New Hampshire. The committee will report at an adjourned meeting of the corps to be held in Concord on the 20th of December.

NEWSPAPER IMPROVEMENT.—John B. Clark, Esq., announces improvements in the "Mirror and Farmer," published at Manchester, which will add greatly to its value. Dr. Henry Boynton of Woodstock, Vt., takes charge of the department of sheep husbandry next week.

☞ There has been considerable deer-slaying in the upper part of this State recently, and there was a great deal of dear sleighing in Boston last winter, $8 being the average price for an afternoon's horse hire at that time. They have had a little of both kinds in Littleton lately. A party from that town have slain twelve deer, and on the 10th and 11th of November there was good sleighing there, with about three inches of snow.

GEN. LOGAN'S APPOINTMENT.—A dispatch from Chicago says that, up to the 20th instant, as stated by Gen. Logan himself, he had no official notice of his appointment as Minister to Mexico, and, as a consequence, he has neither accepted or declined such appointment. When the place is offered to him by the President, he says, the President and the people will be informed of his determination. In the meantime no person is authorized to say what he will do, or what he will not do. Of course all the ridiculous stories about his insisting, as a condition of his appointment, that he shall have an army of 20,000 men to accompany him to the city of Mexico, are pure fictions.

— It curious and significant to find papers in Virginia, North Carolina and Georgia rejoicing over the late Republican triumphs at the North. Thus the Savannah Republican announces the news in a great flourish of types, and makes the "glad tidings from New York and New Jersey" the caption of a double-leaded leader. The Richmond Republic dwells upon the calamity which would have attended a Democratic victory. The Danville, (Va.) Register bids a long farewell to the Democratic party, which it says can no longer be useful to the country.—*Boston Journal.*

A LOTTERY OF DEATH.—The money (about $10,000) which led to the horrid murder of the Cuban, at Brooklyn, N. Y., Wednesday night, was won by him in an Havana lottery some time since.

— A Macon (Ga.) paper contradicts, upon the authority of Hon. A. H. Stephens himself, the report that he said that Hon. Henry Wilson, Senator from Massachusetts, had declared he would vote for the admission of the Southern members in Congress. Mr. Stephens never made such a statement.

— Ex-rebel Gen. Albert Pike has been to Charleston to preside over the Supreme Council of the 33d Degree of the Scottish rite of Free Masonry.

☞ Com. Murray, of the steamer Rhode Island, Friday, reported the arrival of the rebel ram Stonewall at the Washington Navy Yard. The only incident of the voyage which he has to report is the sinking of a coal schooner, which ran across the bow of the ram attaced to the Stonewall, off Smith's Point, in Chesapeake Bay The night being dark it may have been an accident, but to all appearances, the schooner from some motive, purposely encountered her fate. There was an unavoidable delay in bringing the Stonewall away from Havana, owing to the derangement of her machinery, and the keeping of holidays by the Spanish officials, who extended to our officers many courtesies and unexpected civilities. The total amount paid to the Cuban authorities for the custody of the Stonewall, ordnance, stores and provisions was $18,064.

☞ A suit in equity has been brought by Franklin Haven, Esq., and Ex Governor Good win of this city, Trustees under the first mortgage of the depot grounds at East Boston by the Grand Junction Railroad and Depot Company, to obtain authority to sell the mortgaged premises. The interest on the mortgage is largely in the arrear, and the Trustees represent that the income has not paid the interest and expenses, while they have no means or authority to make repairs and improvements. The Boston and Worcester Railroad Corporation hold a large number of the bonds, and have offered to buy the premises if a good title can be given.

☞ The St. Paul Press gives a full account of the execution at Fort Snelling, on the 11th inst., of the Indian Chiefs, Medicine Bottle and Little Six, for participation in the massacre of 1862 in Minnesota. They were wonderfully calm and firm to the last, but expressed great sorrow for their sins, and asked forgiveness therefor from him to whom such applications are best addressed. The Press says:

As soon as the bodies were cut down a great yell went up from the crowd, and such expressions as "how are you Pennsylvania quakers," how are you Massachusetts philanthropists," and other like exclamations could be heard on every side. The crowd also made a rush for the rope, each anxious to have some memento of the terrible scene. The rope, and even portions of the scaffolding was literally cut into fragments. Some relic hunters even took hats worn by the Indians, as they could not be found after the execution. Such things are disgraceful in the extreme, and are becoming so common in this country that it is one of the strongest arguments against public executions.

THE PRESIDENT AND THE FREEDMEN. We take the following interesting statements from the speech of Gen. Fisk, in Brooklyn, on Tuesday evening of last week:

The President said to me yesterday: "We must follow the indications of Providence. Many say, oh, he was born in the South, and must do justice to the blacks." I saw the great tears flow down his cheeks as he said: "I am determined to do justice to these people. (Applause.) That good man, President Lincoln, made them free, and I am determined they shall be. (Applause.) I am resolved they shall have a fair chance, and that justice shall be done them. If the people of the North could know how I am badgered and hampered, if they could know of the difficulties which surround me, they would think I have something to do. And in regard to the suspension of the Freedmen's Bureau, I say it will be discontinued when the people of the South treat the colored people with justice and fairness. Take back your resignation, sir; go back to your work, and do the best you can, and I'll stand by you." (Applause.) I tell you, my friends, I came away from that interview more than ever convinced of the honest patriotism of Andrew Johnson. (Applause.)

— Herrick Allen's Gold Medal Saleratus is cleaned of all impurities, and contains the largest amount of all necessary and wholesome properties which can be contained in the same weight; is guaranteed to give the most perfect satisfaction or the money refunded. It will cure dyspeptic persons, and save the health of all who use it. Grocers and Druggists sell it. Depot 112 Liberty Street, New York. 14

HOURS AT HOME. — The December number of this magazine (whose very inception was a success,) is received from A. Williams & Co., through J. F. Shores, Jr., agent for this city. Its hundred pages of choice reading are preceded by an engraving of the cemetery and monument at Gettysburg. Chas. Scribner & Co., New York, publishers.

☞ The fifth of the series of Messrs. Ticknor & Fields' Companion Poets for the People is made up of the Humorous Poems of O. W. Holmes, and the man who can't find fifty cents' worth of fun in this neat little volume, must have little of the comic in his composition.

☞ G. Bartlett, 246 Canal street, New York, sends us a neat pamphlet on Political Economy, with an essay on the difference between Money and Capital. Sent postage free on receipt of 50 cents.

☞ From S. W. Cone, publisher, Boston, we have received a pamphlet entitled "Our Social Health," by Garth Wilkinson, M. D. Price 25 cents.

— The rebel Gen. Magruder has been appointed Imperial Surveyor of Mexican colony lands.

ALABAMA.—A Montgomery dispatch of the 22d says Governor Parsons has delivered his message to the Legislature. He urges the adoption of the amendment to the Constitution of the United States abolishing slavery, and the passage of laws protecting persons and property of negroes. "This course," he says, "will secure the admission of one Representative in Congress, and restore to the State all its political rights in the Union." He opposes a special code for the government of negroes, and recommends the adoption of the vagrant law, bearing upon white and black alike, and suggests that vagrant laws similar to those of Mississippi be adopted, and that provision be made for destitute white and black persons.

ALLCOCK'S POROUS PLASTERS.—A Druggist said the other day, you have no need to advertise your Porous Plasters, for every one sold certainly causes a dozen to be sold, and a dozen sells a gross, and so on. But we can supply a thousand yards a day.

AFFECTION OF THE SPINE CURED.
HARTFORD, CONN., Nov. 11th, 1861.
Messrs. THOS. ALLCOCK & CO.:—Please send with dispatch, twelve dozen Allcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing, a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay $5 for a single plaster, if they could not be had at a lower rate. I am surprised that surgeons do not make use of these perforated plasters, to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them render them greatly superior to all others for ordinary surgical uses. Knowing the Plasters to be useful, I have no scruples that my sentiments should be known. J. W. JOHNSON, M. D.

Local.

POLICE COURT, Nov. 25.—There be simple drunks and there be compound drunks, but in all of them the drinker is simple, for while he fondly imagines that he is enjoying himself immensely, he is but laying up a stock of bitter repentance for the future. Three worthies, on a simple drunk, made night hideous with their vocalization in the quiet avenue yclept Water street, last Friday evening, and on Saturday were brought before that stern critic, the Police Judge, who thought so little of their musical efforts as to assess them each a fine of $3 and $3.86 costs. Mark W. Simpson, Chas. W. Moulton, and a gentleman who is so modest as to desire his name not to be placed on the page of history, compose this gay and festive trio.

☞ The U. S. steamer Winona, under command of Lieut. C. C. Ricker, left this Navy Yard on Saturday morning for Boston, but was obliged to put back on account of the weather. We learn that the object of the removal of this vessel to the "Hub," is for the purpose of effecting a quicker and more lucrative sale of her.

☞ We will gladly publish, free of charge, obituary notices of all footpads and burglars killed while pursuing their damnable occupations. In this respect perhaps we copy a little after a certain Catholic father in New Orleans, (suspected of being a secession sympathizer,) who is reported to have said, when brought before Gen. Butler and charged with having refused to perform the burial service over one of Gen. B.'s command: "It's a mistake, General, I should be happy to bury them all."

☞ The work of reconstruction, which gives so much trouble at the South, seems to be considered no difficult problem here. The store on Market street recently occupied by Col. Chas. G. Pickering is to be rejuvenated for the occupancy of Messrs. Neil, Tarlton & Co., and the easterly portion of the old Melcher house, on Congress street, is undergoing a transformation into auction rooms, to be occupied by Messrs. M. T. Betton & Co.

☞ Some weeks since eleven young cattle belonging to Col. J. W. Pierce were stolen from Pierce's Island, and no traces were to be found of them. Our city police have been quietly following up the case, however, and on Saturday, deemed they had accumulated sufficient evidence against one Cook, a butcher, to justify them in arresting him. They made the arrest, and the case will be heard this morning.

☞ Mr. Preston advertises a variety of goods this morning, among them his well-known flavoring extracts, and they are *goods* in more than one sense of that term. They are very neatly put up, and those who have tested them for any length of time rarely patronize other than this home manufacture.

☞ Mr. G. V. Rowe has removed to his new Store, at the old stand, recently burnt out—and has about the handsomest Grocery Store in the city, too.
Mr. S. W. Webber has bought out Mr. Whidden's Livery, on Fleet street—and invites you all to "take a ride," at a fair price.

☞ The ship Sinola, built by Tobey & Littlefield of this city, of the best New Hampshire oak, recently sailed from Aden to Calcutta in 18 days—nearly as quick as the steamers pass over the same space.

☞ Gen. Sickles, late commander of this department, has assumed command of the Department of South Carolina.

— The Attorney General has not yet received Waddell's application for pardon.

— Several Imperial successes are reported in Mexico.

— New Orleans, not to be behind the times, has a band of garroters at work.

— Jane G. Swisshel is about to start a weekly paper in Washington, to be called the "Reconstructionist."

— Citizens from each ward in Nashville have been enrolled as patrols, to protect themselves against the bands of robbers and murderers who infest the city.

— The Philadelphia police stopped a brutal dog-fight in the suburbs of that city a day or two ago, and arrested 70 of the spectators. Their ages ranged from 18 to 50 years. Seven were from Boston.

— The release on parole of Mr. Seddon, formerly rebel Secretary of War, and Mr. McGrath, rebel ex-Governor of South Carolina, both lately confined in Fort Pulaski, and the rebel ex-Governor Lubbock of Texas, recently an inmate of Fort Delaware, is announced.

— Capt. Waddell, of the pirate Shenandoah, appears to have been among the most conscientious villains that ever "cut a throat or scuttled a ship." It seems that he left the ship without paying men, officers, or even himself, considering that the Shenandoah and all she contained was the property of the United States. He did not even buy provisions on his passage home, and came in on very short allowance, but otherwise in the most admirable condition.

GOLD, Saturday, 147.

☞ Special attention is invited to the advertisement of Vance's patent Submerged Well *Pump*, as an article far superior to any other pump ever offered to the public.

A NEAT REPLY.—"I dislike your saying that my teeth are going. So don't." Said a young lady to her beau. "Not 'So don't,' but 'So-so-don't' you should have said," he replied. The damsel pouted, but took the hint. Nor need it be said that the balsamic preparation arrested the evil, though it could quite repair the damage already done. n27eod1w

MARRIAGES.

In Amesbury, Nov. 17, Mr. THOMAS BOOTHMAN to Miss E. H. FORTEN.

GREAT CHANCE
—FOR—
AGENTS.
WHAT THE PEOPLE WANT:
THE
STANDARD
HISTORY OF THE WAR,
COMPLETE IN ONE VERY LARGE VOLUME OF OVER 1000 PAGES.
This work has no rival as a candid, lucid, complete, authentic and reliable history of the "Great Conflict." It contains reading matter equal to three large royal octavo volumes, splendidly illustrated with over 150 fine portraits of Generals, battle-scenes, maps and diagrams.
In the selection of matter, for this great work, the author has confined himself strictly to *official data*, derived from the reports of Northern and Southern Generals, the Report of the Committee on the Conduct of the War, National and Rebel Archives, &c. &c.
He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *impartial* History of the War.
Returned and disabled officers and soldiers, and energetic young men in want of profitable employment will find this a rare chance to make money. We have a special circular of $250 per month, which we will prove to any doubting applicant; for proof of the above send for circulars and see our terms. Address, JONES BROS. & CO., 14 Phœnix Building, Boston.

GET READY! A NEW VOLUME! LOOK OUT FOR JANUARY PICTORIAL DOUBLE NUMBER of the ILLUSTRATED PHRENOLOGICAL JOURNAL with PHYSIOGNOMY, or "Signs of Character," and How to Read them; PHRENOLOGY, or the Science of Man; PHYSIOLOGY, the Laws of Life and Health; PHRENOLOGY and the Temperaments, with choice of pursuits; PAYCHOLOGY, the Science of the Soul; OUR SOCIAL RELATIONS, including Love, Courtship and Marriage, when and whom to marry; EDUCATION and SELF IMPROVEMENT, with such other matters as all ought to know, and can be found in no other publication. It is the best and cheapest work of its size and price.
Terms, $3 a year; single Nos. 20 cts. New Volume begins now. Subscribe at once. Address Messrs. FOWLER & WELLS, 389 Broadway, New York.

Hoping my friends will call and purchase freely, (as the price will be no obstacle) and thereby assist me in closing my stock, so as to be better able to sell the remainder on the 1st of January next to a good man, who will deal justly and serve his customers faithfully.

THE REASON
Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in many a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, to exchange it for the Southwest (Saint Louis). My Wife's health being very feeble, and being advised many times during her suffering that change of climate would be beneficial to her,—after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.
Respectfully yours,
I. HAHN.

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and productive, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. *This is a great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profit. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public improvement. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and good soil, this is a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, in vicinity of a city.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agriculture Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.*

From the Portsmouth Journal

MR. BARNABEE'S CONCERT.—We again call the attention of our readers to the advertisement of the Concert by the Choir of the Church of the Unity, given under the direction of Mr. Henry C. Barnabee, well known as one of our Portsmouth boys. Those who were best acquainted with Mr. B. while at home, are not surprised at the high position to which he has been raised in public estimation. Before he left us, his vocal powers and his superb faculty of rendering the humorous in song and elocution, with exquisite and elevated taste, were well known and appreciated in and beyondthe social circle. He will be welcomed home with a hearty good will and by a crowded house. Respecting his standing before the Boston public we give below a letter from another son of Portsmouth, long resident in Boston.

The reputation of the Choir is second to none in the country. Miss Adams has a clear, bird-like soprano voice, and Miss Regan is an exquisite ballad singer. Mr. Haggerty is a most pleasing tenore, and Mr. Dow's brilliant piano playing fully accords with the standard of the singers.

BOSTON, Nov. 24, 1865.

Messrs. Editors,—I am pleased to see that Portsmouth is to be favored with a Concert, on Wednesday Evening, by one of its Sons and our Boston friend Mr. Barnabee.

If your good people wish to enjoy an hour's delightful enjoyment, let me beg of them not to fail being present. Mr. Barnabee is one of the most popular of our amateur artists, of wonderful versatility, and quite original. He is to be assisted by the Choir connected with the Rev. Mr. Hopworth's Society, and the programme presented should fill the house.

His song of "Simon the Cellarer" alone, will amply repay one for going. W. H.

PERSONAL.—The Rev. MOSES HOWE of New Bedford, Mass. formerly of this city, familiarly and favorably known by all of our old residents, has been here spending a few days last week. Mr. Howe is now in his seventy-seventh year, and looks nearly as young as he did fifteen years ago. During the fifty-one years of his ministerial service he has preached upwards of 8000 sermons, solemnized 1745 marriages, and officiated at 2141 funerals. He preached at Kensington on Sunday, and from thence returned to New Bedford.

WRECK AND LOSS OF LIFE.—A Bark bound to Boston from Prince Edward's Island with produce and swine, went ashore on Phillip's Beach near Bald Head Cliff in York, Me., on Wednesday morning at two o'clock, and was a total wreck in fifteen minutes. The crew were all saved but one, he being drowned.

The vessel lost was the Barque F. Burichlnea, Capt. Bainaman, from Summerside. Cargo 2000 bushels grain, butter, poultry, &c.

NARROW ESCAPE.—Ladies cannot be too careful in regard to their clothing taking fire when near the stove. The dress of a lady at the Franklin House caught fire this week, while her back was turned to the stove, and she would have burned to death probably, had it not been for the presence of mind of another lady present, who immediately enveloped her in a cloth which was near by, thus suffocating the flames. She is minus a nice dress for her carelessness.

THE TARTAR.—The new ship built by Messrs. Tobey & Littlefield, has been named by her owner, Robert L. Taylor of New York, the "Tartar." She is to be commanded by Captain B. A. Follansbee, and is to sail for New Orleans, thence to Liverpool and Calcutta.

APPOINTED.—Capt. Daniel Hall, late Provost Marshal of this District, last Monday received the appointment of Clerk of the Supreme Judicial Court of Strafford County. His office will be at Dover.

PRESTON'S FLAVORING EXTRACTS.—Mr. Preston's assortment is large enough to favor all the sauce, pies, puddings, &c., which will be made for Thanksgiving in Portsmouth and vicinity; and in quality unsurpassed. Try his Lemon, Rose, Vanilla, &c., &c. We know they are excellent.

INCORRECT.—The report that the Eight Hour League intend making nominations to be supported next Tuesday is not true. We are informed that such a thing has not been thought of.

In noting the new banking firm of Hines, Eaves & Co. at that place, the *Leavenworth (Kansas) Bulletin*, makes honorable mention of one of our late townmen, as follows:—

"Captain Samuel Leighton is the cashier of the concern, and of him we need not speak. Every citizen is acquainted with him. After serving three years in the army as captain of a company in the 8th Kansas volunteers, and having served through the most noted engagements in Sherman's campaign, he returns among us to renew his former occupation. No young man in the community has more friends, and no one stands higher in a business point of view. The firm has a cash capital of two hundred thousand dollars to start with, and will be one of the safest houses in Kansas with which to transact business."

From the Transcript.

MORNING IN INDIAN SUMMER.

The heavens to their zenith gleam with light,
As grand as the white glories of Bethlehem,
When peace was to the sin-stained world proclaimed:
The stars recede, most loyal host of night!
The hills are hazy in their morning dream,
And o'er the russet fields the drifted shrub-leaves flame.
The elm stands shorn and sad—but sumac vies
With vine and maple in enamelled dyes!
Now in the east a golden haze is seen,
And soon the sun in royal splendor takes
His throne—age-marked of six thousand years!
His sceptre high he waves, and, cheerful nature wakes,
Puts on her pilgrim robes, and soon will be
A day's march nearer to eternity!

EDWARD P. NOWELL.

A DOG STORY.—George W. Harris, Esq., travelling salesman for Messrs. Hyde & Co. coffee and spice dealers in Boston, has a beautiful Italian greyhound which many of our readers have doubtless observed and admired when Mr. Harris has been here. The dog is so well trained that he will remain for several days at any hotel wherever Mr. H. may leave his overcoat, or horse and carriage. Not long since Mr. Harris visited Ipswich, and after his pet on his coat and started out on business, "Spring" accompanying him. In some manner the dog got separated from his home in Lynn ran back to the hotel, went to the barn and it being locked could not find the team; returned to the office of the hotel, looked for the coat, did not see it, and went out. The clerk noticed him and also the time, it being quarter past nine o'clock. His master soon came in, but "Spring" did not come back that night. Mr. Harris went home to Lynn the next morning, and the dog had arrived there the night before at eleven o'clock precisely, having travelled a distance of eighteen miles in one hour and three quarters.

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

FARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. H. HENRIQUEZ,
Merchant, Curacoa, S. A.

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Biliousness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

CHEROKEE PILLS,

Or Female Regulator.

Cure Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-headache, Giddiness, and all diseases that spring from irregularity, by removing the cause and all the effects that follow in its train. They are perfectly safe in all cases, *except when forbidden by directions*, and are easy to administer, as they are nicely *sugar coated*. They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,

Dr. W. E. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S

REJUVENATING ELIXIR,

Or, Essence of Life,

Cures General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases. It restores new life and vigor to the aged, causing the hot blood of youth to course freely, restoring the *Organs of Generation, removing Impotency and Debility, restoring Manhood as the system and and full vigor*, thus proving a *overcome disease*, perfect "*Elixir of Love*," removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

"As the Phenix rises from the ashes of its fire, animated with new life"—so does this Elixir renew the system and full vigor, thus proving a perfect "Elixir of Love," removing Sterility and Barrenness in both sexes.

Price, one bottle $2; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

WESTBROOK SEMINARY.—The Gospel Banner announces that the sum ($10,000) necessary to secure the grant contemplated to be given by the State of Maine to the Westbrook (Universalist) Seminary has been secured by the financial agent, and the Governor and Council have taken action to comply with the resolution passed by the Legislature, which provides that the timber and lumber on any one-half township of land belonging to the State, that shall be designated by the Trustees, shall be sold at auction to the highest bidder, and the proceeds, not exceeding $10,000, shall be paid over to the Treasurer of said Institution, the interest only of which can be expended in behalf of the Institution. Thus a permanent fund of $20,000 will be secured for it. In addition to this, Gen. Hersey of Bangor has agreed to give five thousand dollars toward an additional fund of ten thousand, if other friends will make up the other five thousand. Mr. Goddard of Boston has promised half of this amount, and other contributions have been made so that only $1800 remains to be raised.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable—and men happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Leland's great work for the Married or those contemplating Marriage—200 pages—full plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Treatise and the Married Life, by a lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Nichols's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price of one box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult Dr. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address DR. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and nursery observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1865. ThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SKILLED IN THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, and more capable of putting their applications in proper form to secure for them early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has obtained FIFTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the best skill and attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART
During eight months, the subscriber, in course of his large practice, has obtained one hundred applications SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents. **R. H. EDDY.**

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unimpeached skill, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be treated with pleasant rooms, and charges for board moderate. Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three for $5 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imparts and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Portsmouth, N. H.

TUESDAY, NOVEMBER 28, 1865.

WASHINGTON ITEMS, — Sunday.—Western members of Congress who have arrived are unanimous in declaring that the Internal Revenue taxes should be reduced, with the exception of income taxes. They desire to have the tax on whisky reduced, but it is understood that the Secretary of the Treasury will not indorse their views.

The National Soldiers' and Sailor's League are obtaining signers to a petition to Congress asking that pensioners appointed as clerks or messengers may continue to receive their pensions.

The interior of Ford's Theatre has been transformed into a three-story fire-proof building, and the contractor has given the keys to the War Department. The exterior of the building remains unchanged.

Lieut. Gen. Grant has received a letter from Gen. Logan stating that he will arrive here about the 1st of December, and that he desires to know what course the Government intends to pursue toward Mexico before he decides whether to accept or decline the mission there.

Wm. Porcher Miles was among the supplicants for pardon at the White House on Saturday, and when told that he must take his turn, asked the President for a permit to go to work, as he had lost all his property. Mr. Johnson smiled, and answered Mr. Miles that he might go to work without having any fear of being molested.

NEW ORLEANS ITEMS, Saturday.—The test oath has been argued before the District Court for two day. Judge Durrell intimated that he considered the law unconstitutional.

A Monroe (La.) paper speaks encouragingly of the prospects of cotton-planting in that section. The planters are all disposed to give the freedmen a fair chance. The same paper says a large number of emigrants from Alabama and contiguous States are going to Texas.

Thomas J. Carver, the Special Bonded Agent of the Treasury Department for Choctaw County, Ala., who was tried at Mobile by a Military Commission on a charge of fraud in revenue transactions, has been sentenced to pay a fine of $9000 and to one year's imprisonment, with hard labor, in Nashville.

☞ The Matamoras Ranshen (French-Austrian-Mexican paper,) complains bitterly that steamer Antonio, coming up river to drive off the Liberals, was fired upon from the Texan side of the river; and that the Liberals on the North bank were dressed in U. S. Federal uniforms. The French commander refrained from returning the fire from the Texas bank. The same paper says it seems to be the settled purpose of the same men to bring on a war between the United States and Mexico. It says the outlaws have been on the American side of the river in force, where officers were enlisting recruits, &c. The steamer Antonio was fired upon from the Texas side near where Cortinas had been encamped.

☞ Gen. Beecher, U. S. A., writes to a Charleston paper, that there is no truth in the report of a negro insurrection in Barnwell District. The report was founded only on the fact that a negro boy, who had been whipped and knifed by a white man, revenged himself by killing his persecutor. Gen. B. tells the people that so long as they practice whipping women, and waylaying and murdering negroes, they must expect their houses to be burned, and occasionally a lone man to be murdered in the woods.

☞ A San Francisco dispatch of Nov. 22 says: "The storm has abated, and today the weather is clear and pleasant throughout the State. The recent thorough drenching of the agricultural lands insures a large planting of grain and probably an abundant yield next year. 34 miles of telegraph cable are going on shipboard, to be laid across the Straits of Fuca."

☞ A most improbable rumor comes from Mexico via Washington, that Maximilian has received a letter from Napoleon, reproaching M. for lack of energy. Such a letter is possible; but if the story were true, would Maximilian tell it? Believe this, who can.

☞ A Washington dispatch says the tone and temper of the members of Congress who up to the present time have arrived in Washington, indicates almost unanimity in opposition to the immediate admission of the Southern Representatives, and there is no disposition manifested to repeal the Congressional test oath.

☞ By a telegram of Monday, it is stated that Ex-Gov. Lubbock, of Texas, was released from Fort Delaware on last Friday.

— Several persons engaged in the sale of lottery tickets in Baltimore were arrested last week on charge of defrauding the Government by not taking out licenses.

AMERICAN UNION COMMISSION, 14 *Bible House, N. Y.*—This Commission "is constituted for the purpose of aiding and co operating with the people of those portions of the United States which have been desolated and impoverished by the war, in the restoration of their civil and social condition, upon the basis of industry, education, freedom, and Christian morality." Its officers are Rev. Jos. P. Thompson, D. D., President; A. V. Stout, Treas.; Rev. Lyman Abbott, Cor. Sec. From the report of the Society we inter that it is a continuation of the Christian Commission, in a modified form, and is composed of members of several "evangelical" denominations. Its object is undoubtedly benevolent. Its report says:

The American Union Commission is National in its character, comprising branches organized not only in the principal cities of the North, but also in several of the Southern States. Though undenominational, it is Christian in its spirit and purposes, and proffers its co-operation and assistance in the work of evangelization to all the different denominations alike. It is catholic in its benefactions, recognizing no distinctions of caste or color, proffering its assistance to all men upon the score of a common humanity alone. Nevertheless, it carefully avoids the duplication of charities and conflict of organizations, by maintaining a cordial understanding and co-operation with the various societies organized for the special benefit of the colored people. Neither political nor sectional in its aims, it is nevertheless composed exclusively of men of recognized loyalty and fidelity to freedom. Its purpose is not to aid in restoring the old order of things which the war has swept away, but to co-operate with all who are now sincerely seeking the restoration of the Union, in re-establishing it upon the basis of universal freedom, education, industry, and Christian morality.

This work is one not only of charity, but of patriotism. We have but one country. In the welfare of every part of America, all Americans possess an equal interest. Especially is it clear even to the least thoughtful that popular education is essential to the perpetuity of popular government. We appeal then to all Americans to unite in this work of civil and social restoration. We ask the clergy, who have so well instructed their people in the duty of patriotic self sacrifice, to instruct them in the no less imperative duty of patriotic beneficence. We urge the women of America to continue, in behalf of their destitute countrymen, the labors which have so abundantly provided for the soldier. And we especially call upon the Churches, which gave us so generously the means to carry on this other and more important work.

— A scoundrel has removed the amulet attached to the neck of the sacred cow, lately imported from India by Wm. Stark, Esq., and now at his farm in Piscataqua village. The amulet was placed upon the neck of the cow with imposing ceremonies by the Hindoo priests, and the most terrible woes pronounced, not only upon the person who should dare to remove it, but also upon all the people round about.

NORTH CAROLINA.—It is thought that the Constitutional Amendment will be ratified by the Legislature.

Prominent gentlemen who have been to Washington are not very hopeful of the State and reconstruction.

— A fly-wheel 25 feet in diameter and weighing 42 tons, has just been cast in Pittsburg. It is the largest in the world.

— The new carpet for the House of Representatives came from England and cost $7000.

— Forty-one millions recently invested in five-twenties have been delivered to subscribers.

— The Mobile Advertiser learns by letter that the Convention of that State has pronounced by an overwhelming vote against State repudiation.

— A letter from the Andersonville stockade, Georgia, dated the 31st ult., shows some further fearful revelations of its horrors, and evidence of the inhumanities practiced there, and details of its repulsiveness.

— No less than seven wrecks, appearing as though the vessels had totally gone to pieces, could be seen from Mt. Desert last Wednesday morning, after the storm of the 21st.

— Gen. George F. Shepley, has been nominated by Gov. Cony, to the vacancy on the bench of the Supreme Court of Maine occasioned by the resignation of Judge Davis.

— A man sold his vote for what purported to be a barrel of flour, at the recent election in Troy, found the barrel, when opened, to contain sawdust. It would seem that there is no more honor among vote-buyers than among thieves.

— Having surrendered their charters and become national banks, and the liability to redeem the old bills having closed by legal limitation, the Maine papers state that the holders of the State bills of the Market bank of Bangor, and of the State Auburn bank of Auburn, in that State, cannot now enforce their payment at law.

— A five-story block of buildings in Chicago, constructed of iron and heavy masonry, eighty feet wide and one hundred and fifty feet deep, and estimated to weigh, with the merchandise in it, at least twenty-seven thousand tons, has just been raised twenty-seven inches without the slightest crack or damage.

NATIONAL THANKSGIVING HYMN.

Copies of the following Hymn of Praise for choir and congregational use on our National Thanksgiving, can be be had at cost, (75 cents per hundred, set to familiar music,) of J. J. Mages, 5 Cornhill, Boston; or by addressing F. O. Box 814, Portsmouth, N. H.:—

Praire the Lord, O, ransomed nation!
Praise Him all, from sea to sea;
He hath built a firm foundation,
E'en the rock of Liberty!
Futile was our best endeavor,
Till we turned from wrong to right;
Gloom had shrouded us forever,
But for Heaven's redeeming might!

Then with peans sing God's praises,
Now, and through all coming time;
Love which manhood's standard raises
Merits gratitude sublime!
Hope and trust at length victorious
Over trembling Doubt and Fear,
Call for rapture, holy, glorious,
Living faith and constant cheer.

Infinite Jehovah! aid us,
While we in Thy favor stand,
To remember Thou hast made us
A regenerated land!
And while time shall with us linger,
May we love the Just and Right,—
Seeing Freedom's guiding finger
Pointing to eternal light!

EDWARD P. NOWELL.

FROM MEXICO, *via California.*—Private letters from a commercial firm at Mazatlan and other Mexican ports, received by the steamer John L. Stephens, report the feeling against the French as becoming stronger and stronger every day.

Large purchases of wine and other commodities made in San Francisco during the summer, on French account, have been rejected by resorting to the subterfuge of short weights, inferior quality, &c., to the detriment of merchants who operated largely on the presumed good faith of the French commissariat.

Goods to the amount of $200,000, imported from Valparaiso on account of the French in Mexico, were also repudiated, to the great disgust of the parties interested. The general condition of the country was deplorable, and under no other government had things been in such a state of chaos. Most of the French troops had gone to the Northern frontier. It was said that there would be general rejoicing if the few hundred remaining at Mazatlan should follow. But for the action of the French authorities it is believed there would have been a good trade with the western ports of Mexico all through the winter, whereas everything is now depressed.

FLORIDA.—Tallahassee correspondents, 7th inst., state that the Convention adjourned on that day. Gov. Marvin, in his address on closing the Convention, after congratulating the members upon the measures adopted, advised them to give the negroes full liberty to go where they please at Christmas, to make new engagements for the coming year, and stated that after the middle of January those not having made engagements, and being idle and dissolute, would be treated by the authorities as vagrants. All the colored troops are to be withdrawn from the interior to the seaboard. Gov. Marvin states that the action of the Convention was free and uninfluenced by any other consideration than those of justice and sound policy.

Nov. 29th has been appointed for the election of State officers.

☞ The Boston Journal says:

The attempt to regulate the hours of adult labor by legislative enactment will, we believe, prove abortive; and if it should be made, the workmen themselves would be among the first to render such laws null and void by seeking employment at piece work or under contracts where their pay would be graduated according to their hours of labor. In regard to the proper employment of children, it is right and proper that there should be legislation to protect them from physical injury by excessive work, which will secure to them the opportunity of obtaining an education, and that such laws should be rigidly enforced.

— Ex-Governor Pierce of Texas, an intimate friend of Governor Hamilton, says Hamilton will hardly call a convention before the middle of January. Civilians fear that Texas will not be represented in the next Congress.

— Breckinridge, who is in Canada, has expressed the determination to remove to Texas, should the President pardon him. He ascribes the late turning-point of the rebel fortunes to the removal of Johnston from the command of the army at Atlanta. All the Federal negro troops have left the Rio Grande.

— The carcass of a forty-barrel whale was washed ashore at Plymouth, the other day, on the land of Mr. Caleb Holmes. The finder claimed him, and so did Mr. Holmes. The question was referred to Hon. Jacob H. Loud, who decided in favor of the owner of the land.

— Mr. A. D. Horr, of Providence, had in his market Thursday some oysters which would delight an epicure. Fifteen of them weighed nineteen pounds. One weighed two pounds. They were taken from a deserted bed off Pawtuxet. It was supposed that this bed had yielded all its treasures years ago, but a neglected corner contained about six hundred of these large sized oysters. Mr. Horr thinks that they must be fifteen years old.

— The famous Johannisberg wine is made of over-ripe grapes.

FATAL COLLISION.—A Memphis, Tenn., dispatch, dated Sunday, informs us that a collision occurred on Saturday night, on the Mississippi, seven miles above Helena, between the steamers Niagara and Post Boy. The Niagara sunk in twenty feet of water. One hundred of the deck passengers, mostly discharged colored soldiers, were drowned. The cabin passengers and crew were saved. The Niagara was valued at $130,000, and uninsured. She had 200 tons of freight on board. The Post Boy was not injured.

— We were never aware that there was so great a difference in the qualities of bar soap until after using the J. Monroe Taylor Gold Medal Soap; our advice to our readers is to go without delay to your grocer and get a supply, for it is a truly wonderful article and will not injure the finest fabric; our experience is that it is the best dirt-extracter known among the many different brands of soap in the market. Their Depot is 112 Liberty Street, New York. 15

☞ On Saturday, at New York, Pellicier, who was arrested for the murder of Otero in Brooklyn, confessed and gave information which led to the discovery and arrest of Gonzales, the other murderer. The money was recovered. There was only about $100 in gold, the rest being in drafts and bills amounting in the aggregate to about $5000. The payment of the drafts had been stopped.

— Mrs. C. C. Clay has been informed that her husband will be held for trial.

— Major Echols of Charleston has been pardoned, in consideration of his having an invention of great value to the Government. His is the first pardon of a West Pointer.

Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

KNOWLEDGE OFTEN SAVES LIFE.

Every living being has in his system

IMPURITIES.

When these are within their natural limits, our health is good; but when they are in excess, pains, colds, rheumatism, gout, debility, costiveness, diarrhea, dysentery, erysipelas, &c., &c., afflict us. What we have to do to recover our health is to take out from the BOWELS AND THE CIRCULATION the excess of impurities. This done, health follows of necessity.

BRANDRETH'S PILLS

are the only medicine that can do this with entire safety to all the organs of the body.

are now living who have adopted BRANDRETH'S PILLS as their only remedy for periods of from thirty to fifty years, and whose average health is excellent. They have always cured themselves, when sick, by these

PORTSMOUTH GYMNASIUM.

This has become a standard institution, as indispensable to its patrons as any other in Portsmouth. Every thing essential to physical culture has been introduced, and in nearly every respect it is as good a gymnasium as any in Boston or New York. Certainly none can afford a better opportunity for river scenery and good air than this.—Overlooking the broad Piscataqua on three sides, and well ventilated, it is a pleasant place to spend an hour, whether one exercises or not. While Gymnasiums in other cities are charging $20 or $25 per year, the young men of Portsmouth are afforded this privilege for $5. It was fitted for the exercise of ladies also, some time since, but the ladies have been waiting for one another so long that they must have forgotten that such a chance is open for them. At this cooler season of the year which is the best time for exercise, it is well that the public, young and old, should be reminded of its existence.

Too much cannot be said for exercise—especially that which imparts such health and happiness as every one who has become accustomed to the ropes and bars experiences after his hour's daily practice. He is invigorated with new life, and has awakened in him a keen sense of enjoyment which drives away care, gives him confidence in himself, enables him with more buoyant spirits to enter the battle of life—in a word makes a man of him. For a vigorous use of our higher faculties it is highly essential that those pertaining to our physical life should be well cultivated.

Since the above was in type, arrangements have been made, by which Ladies are to be accommodated with the exclusive use of the room between the hours of nine and eleven in the forenoon; and we understand a number have already entered upon a course of exercise.

POLICE COURT, Nov. 27.—In case of parties in Hampton, charged with trespass, in taking seaweed from land above high water mark, which case had been continued from the 9th November, the Judge decided that the parties must be discharged unless it were shown that they were not owners of the land adjacent to the beach whence the seaweed was taken, and the parties were discharged.

The case of stealing young Durham cattle from Pierce's Island attracted much attention, and the Court Room was thronged long before the case was taken up. In its conception one of the most daring thefts that have been made in this vicinity for many years, the perpetrators seemed for a long time likely to evade the punishment due their crime. Isaiah Cook, a young man, recently married, was in custody, charged with the commission of the misdemeanor, so far as regards taking the last five of the herd, it having been shown that six were taken at some time previous. The five in question were spirited from the island sometime in the night of Oct. 27, and the prosecution undertook to show that they were driven from the island while the tide was down, and slaughtered at the slaughter-house of Mr. John Stokell, on Frame Point, near by, (without leave to enter the premises from him,) on the morning of the 28th ult.

The examination was conducted by Mr. Hatch on the part of the prosecution, and by Messrs. W. H. Y. Hackett and Frink for the respondent. The number of witnesses called was large, and their examination, with the summing-up of the opposing counsels, occupied the Court until late in the afternoon. Cook was ordered to give bonds in the sum of $1000 to appear before the April term of the S. J. Court.

Charles Thompson, charged with stealing a spy glass, epitome of navigation, &c., from captain of schooner Albion, while lying in the lower harbor on Thursday night last. Thompson was bound over to the S. J. Court in the sum of $300.

Communication.

Ed. of the Chronicle.—The citizens of Portsmouth and vicinity should not forget the Concert to-morrow evening, and the Temple should be filled. The programme comprises some of Bishop's finest Glees one of which, "Give me a cup of the grape's bright dew," is well worth the price of the whole entertainment. The reputation of the Choir of Mr Hepworth's Church, is that of the best in the city of Boston; and Mr. Barnabee is so well known in Portsmouth for his many excellent qualities and his great musical ability, that it is needless to say anything farther then that he is a member of the Choir. Before he left Portsmouth, he was a volunteer member of the Unitarian church Choir of this city, associated with the writer of this notice, and it is hoped that his services will be rewarded by the patronage of many of his warm friends.

P.

NAVAL.—Acting Master Charles W. Adams, of this city, has been ordered to report for duty on board the receiving ship Vandalia, at this naval station.

Acting Ensign Edward Pendexter, of this city, is among the volunteer officers honorably discharged from the Navy October 31.

☞ The lecture this evening must not be forgotten. Those who hear it will be in no danger of forgetting it.

[Communication.]

A TRAVELING NUISANCE.—*Messrs. Editors.*—The now common practice with traveling exhibitions, shows &c., of "blowing" their instruments on the sidewalks and through the streets, has got to be an abominable public annoyance, and the public's good and safety requires that it should be stopped. What is to be wondered at is that the public authorities of towns and cities should so long tolerate such a dangerous and annoying nuisance.

If the business cannot be carried on with the more proper and legimate way of advertising, it would seem that those engaged in it had better seek some other employment that would more contribute to their own good and for the good of the public.

In future when such exhibitors apply for a license to our city government we hope that if granted it will be on the condition they are *not to blow* or drum their business on the sidewalks or through the streets, to the danger of frightening horses, breaking carriages, and generally endangering life and limb, and placing the city under the liability of paying heavy damages. B.

ROCK. CO. AGR. SOC'Y.—The Annual Meeting of the Rockingham County Agricultural Society was held at the City Rooms in Portsmouth on Monday morning. Quite a large number of members were present, chiefly from Exeter and the rural districts. The finances were favorably reported, amounting to $1100 or more. The following Officers were elected:

President—John M. Weare, Seabrook.
Secretary—Geo. W. Wiggins, Exeter.
Trustees—Oliver O. Hilton, So. Newmarket; Chas. N. Healey, Stratham; Chas. Hiram Hayes, Portsmouth; Wm. Hoyt, Danville; Chas. D. Towle, Exeter.

— The Mexican Empire is said to be about to fortify its frontier bordering on Texas.

MARRIAGES.

AGENTS.

WHAT THE PEOPLE WANT:

THE

STANDARD

HISTORY OF THE WAR,

COMPLETE IN ONE VERY LARGE VOLUME OF OVER 1.00 PAGES.

This work has no rival as a candid, lucid, complete, authentic and reliable history of the Great Conflict." It contains reading matter equal to three large royal octavo volumes, splendidly illustrated with over 150 fine portraits of generals, battle scenes, maps and diagrams.

In the selection of matter, for this great work, the author has confined himself strictly to *official data*, derived from the reports of Northern and Southern Generals, the Report of the Committee on the Conduct of the War, National and Rebel Archives, &c. &c.

He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and as succeeded in producing what is universally examined, a *fair* and *impartial* History of the War.

Returned and disabled officers and soldiers, and energetic young men in want of profitable employment, will find this a rare chance to make money. We have Agents clearing $250 per month, which we will prove to any doubting applicant; for proof of the above send for Circular and see our terms. Address, JONES BROS. & CO., 14 Phœnix Building, Boston.

THE REASON

Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in many a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, to exchange it for the Southwest (Saint Louis.) My Wife's health being very feeble, and being advised many times during her suffering that change of climate would be beneficial to her,—after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.

Respectfully yours,

I. HAHN.

FARM AND FRUIT LANDS.

In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.

The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for *Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty more lots and upward, $25 per acre. Five and ten acre and Village lots for sale.

Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.

Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.

For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.

Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.

Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.

From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most attractive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawtm

A BOSTON CAPTAIN KILLED BY AN OLD REBEL TORPEDO.—Schooner Allen Richards of Boston, Capt. N. H. Arey of Thomaston, Me., going to Jacksonville with coal and locomotives, got aground on the 5th of November in the St. John's river, seven miles below Jacksonville. While waiting for the tide to rise, Capt. Arey and his mate, Chas. Hopper of St. Thomas, went ashore for a walk. He saw a strange looking object lying in the weeds, and on giving it an inquiring tap with his axe, it exploded, killing him, and wounding the mate so that he died next day. It was a torpedo, cigar shaped, the size of a barrel, and no doubt one of those placed in the river by the rebels in June, sixteen months ago, when the Harriet A. Weed was blown up. On learning of the accident, commercial and seafaring men at Jacksonville raised $364, buried the mate, placed the body of Capt. Arey in an air-tight coffin, and gave the balance, $269, to the captain's widow, who had seen the accident from the deck of the schooner.

☞ Dr. Chambers, of Kingston, N. Y., was beset by two stout highwaymen in a lonely part of the road, a few nights since, and his money demanded. The Doctor said: "Well, if I must give my money, I had better do it." So he quietly took off his glove, and putting his hand into his side pocket, he drew out—not his pocket book—but a neat revolver—and bringing it to bear in an instant, he shot one of the robbers dead. The other ruffian then fired at the Doctor, but the ball went harmlessly through his hat. The Doctor then took his turn again and wounded the fellow severely. He then rode back to Kingston and made known the facts, but on returning the wounded man had escaped.

A HOUSEHOLD BLESSING!

HOWE'S SEWING MACHINE!

The Best Machine in the Market!

The people of Portsmouth and vicinity are respectfully informed that I have taken the Agency of the above beautiful Sewing Machine, and am now prepared to promptly supply the same, either by wholesale or the single machine.

☞ No Family can afford to be without one of these vast Labor-Savers. ☜

Why is this the best Sewing Machine ever invented? Because—

1st. It is better made than any other.
2d. It runs with less noise.
3d. It is much less liable to get out of order
4th. No other Machine works so small a needle.
5th. It is the cheapest Machine, because the best.
6th. It has improvements over every other Machine.

The better the work performed, the better the price obtained; hence that Machine which produces the best work is the most profitable.

FOR FAMILIES,
MERCHANT TAILORS,
BOOT AND SHOE
MANUFACTURERS,

The Howe Machine Stands Unrivaled.

☞ Every Machine will be kept in order ONE YEAR WITHOUT EXPENSE TO THE PURCHASER.

Many Ladies earn from $1.50 to $5.00 per day in running these Machines.

Wives and Mothers! Buy HOWE'S FAMILY SEWING MACHINE, and you will then be able to refute the assertion that "Woman's work is never done."

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of various Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabalia, of Venezuela, who prescribed her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUEZ,
Merchant, Curacoa, S. A,
New York, June 28th, 1865.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not allow the medicine against the advice of your Physician.

CHEROKEE CURE,
THE GREAT
INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal Weakness, Night-Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption*, and all diseases that follow as a sequence of yourself indulged in.
The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.
Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy;

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Difficulty in Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the
CHEROKEE INJECTION,
does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Diseased Leucorrhœa or Whites in Females*. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.
Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $2, " $5.
The Cherokee "Cure," "Remedy," and "Injection" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us *in perfect confidence*. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

FASHIONS FOR GENTLEMEN.—During the coming winter, old clothes will be all the rage. Second-hand overcoats out at the elbows are to be very much worn by gentlemen between the ages of nineteen and seventy.

"Patches" are now worn among the elite, and are considered very beautiful. A new style of dress pantaloons called the "patched breeches" is gradually becoming popular, and will soon be worn by all classes. The peculiarities of this sort of pantaloons are not numerous, there being nothing distinctive about them except a patch on the disc or that part most rarely exposed to the public gaze.

A very pretty vest has just made its appearance, and is destined to become a universal favorite. It is called the "spotted vest." The spots are formed by accidental applications of grease, gin-cocktails and the like, and are, in most instances, many years old.

The most talked-of style of boot now known to fashion-loving gentlemen, is one called "down at the heel and out at the toe."

— When Sir Walter Scott was urged not to prop the falling credit of an acquaintance, he replied: "The man was my friend when friends were few, and I will be his now that his enemies are many."

— A Democratic orator, at a meeting in New Creek, Virginia, a few days ago, remarked that "the assassination of Abraham Lincoln was a merciful dispensation, but it would be a still more merciful dispensation if his unworthy successor, Johnson, was assassinated." The speaker was arrested.

— In consequence of the favorable weather for perfecting fruit, by which thousands of bushels have been added by the mere increase of size, and of the careful saving of all that have grown, the amount marketed in western New York and Michigan has exceeded all expectations.

— A Scotch gentleman who called on the late President Lincoln, and heard with great satisfaction some compliments paid to his countrymen, ventured to hope that Mr. Lincoln could trace his genealogical tree back to a Scottish root. "Ah," said he, laughing, "I was raised on the prairies, where there are no trees at all."

— Vermont can whip the world in the matter of a productive cow. Walton's Journal tells of a cow in Crafisbury, whose product in butter, during the ten months ending Oct. 20, 1865, was four hundred and fifty-four pounds, which sold for $207!

— The Freemasons of Chambery, France, have addressed to Pius IX a letter in which they reproach the head of the Catholic Church with condemning those whom it is his mission to enlighten, and insist upon the accordance of Masonic ideas with the tenets of the bible.

— A single room in St. Louis, formerly Wood's Theatre, contains twenty-two billiard tables, with no partition or pillar.

THE GREAT
CONSUMPTIVE REMEDY!
DR. LAROOKAH'S
Indian Vegetable Pulmonic Syrup!
The best preparation ever made for the following complaints:
Colds, Coughs, Whooping Cough, Croup, Asthma, Catarrh, Bronchitis, Spitting Blood, Pain in the Side, Night Sweats, Humors, General Debility, Liver Complaints, and Throat and Lung Complaints tending to Consumption.
This well known remedy is offered to the public, sanctioned by the experience of many years, and when resorted to in season, seldom if ever fails to effect a speedy cure of any of the above complaints. Those who have not already made use of this never failing Remedy I have only to refer to the written testimonials of Clergymen, our most distinguished citizens: Clergymen, Doctors, Congressmen, Lawyers, Singers and Public Speakers, and last but not least, many hundreds of Private Citizens, both Male and Female, who have been restored to Health, when all expectation of being cured was a "forlorn hope." My limited space will only admit of the following extracts of Unsolicited Testimonials:
REV. C. CENGALLE, *of Melrose, Mass.*, says:—"LAROOKAH'S I. V. P. SYRUP, for Pulmonary Diseases, stands unrivalled by any medicine yet discovered. It has completely cured me of Bronchitis of six years standing."
REV. B. F. BOWLES, *of Manchester, N. H.*, says: "Dr. Larookah's Pulmonic Syrup I would confidently recommend for Hoarseness and Severe Colds."
REV. G. C. SIMMONS, *Gainescourt, Str. Co., N. Y.*, says: "I feel it my duty to say Larookah's Syrup is the best medicine we ever used in our family."
DR. PORTER, *of Northfield, Vt.*, says: "Larookah's Syrup is the best medicine for Colds, Coughs, &c., he knows of in the market."
HON. D. W. GOOCH, *Member of Congress from Massachusetts*, says: "I have used Dr. Larookah's Syrup in my family for six years, and have found it an excellent remedy for Coughs, Colds, Sore Throat, and all Consumptive Complaints. I have recommended it to several friends, who have received great benefit from its use."
W. R. BOWDEN, *Hanover St., Boston*, a well known druggist of 20 years experience, says: "I am prepared to say, Larookah's Syrup is superior to any medicine I have ever known, for the positive cure of Coughs, Colds, Sore Throat, and all similar complaints."
Price 50 cents and $1.00 per Bottle.
DR. LAROOKAH'S
SARSAPARILLA COMPOUND!
It is double the strength of any other Sarsaparilla Compound in the market.
For the cure of Liver Complaint, Dyspepsia, Scrofula, Dropsy, Neuralgia, Epilepsy, Fever and Ague, Boils, Tumors, Salt Rheum, Ulcers and Sores, Rheumatism, Pain in the Stomach, Side, and Bowels, Debility, and all complaints arising from impurities of the BLOOD.
The trial of a single Bottle of either will gain the confidence of the sick.
PREPARED BY S. SEVERY,
Price $1.00 per Bottle.

ISRAEL MARDEN & CO.,
No. 39 Congress St., Portsmouth, N. H.,
—DEALERS IN—
S. Vance's Submerged Well PUMP.
This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.
ITS ADVANTAGES.
FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.
SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.
THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.
FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.
FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.
SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are required. It is very light, and thus the cost of transportation is very small.
☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,
39 Congress Street.
☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony of their excellence.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not unequally superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years portends unrivalled facilities to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and the one not granted, I think unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in spite of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.

WEDNESDAY, NOVEMBER 29, 1865.

PRESIDENT JOHNSON'S INSTRUCTIONS to the Governor of Mississippi, as just published in full, must be satisfactory to every loyal man, and cannot be offensive to any but traitors at heart. After saying, as before reported, that the troops would be withdrawn as soon as peace and order can be restored and maintained without them, he adds:—

Every step will be taken to enforce strict discipline and subordination to civil authority. There can be no other or greater assurance given than has heretofore been on the part of the President and Government.

There is no concession required on the part of the people of Mississippi, or the Legislature, other than a loyal compliance with the laws and Constitution of the United States, and the adoption of such measures giving protection to all freemen or freedmen, in person and property, without regard to color, as will entitle them to resume all their Constitutional relations in the Federal Union.

These extracts show very plainly, that the President is, as we have all along believed, with the people and with Congress, in the determination to have a thorough submission to good government, as a "condition precedent" to full reconstruction in any late rebel State.

The instructions close with words of kindness, consideration and courtesy; but do not detract one jot or title from the force of the above extracts.

SENTENCED.—John Harvey, arrested a few days since for attempting bigway robbery in Grafton, in connection with Charles W. Spaulding, was brought before the Court at Haverill last week. He stated to the Court that he was responsible for leading Spaulding into his career of crime, and for planning the attempted robbery, and desired to receive the punishment due to both. In consideration of his confession, two years were deducted from his sentence, which was for seven years to State Prison. He arrived in Concord, Saturday, in charge of Sheriff Stevens. The sentence of young Spaulding is suspended for the present.—*Monitor.*

This strikes us as a very *light* sentence for the highwayman who confesses that he was the principal;—and as singular mercy when he asks to be punished for *both*, to take off two years out of seven!—But what shall we say of the *suspended* sentence, i. e. no punishment at all, for a young man who first stole from his employers and was let off easy, but who afterwards associated with highway robbers and became one of their confederates? The Court may have done *wisely* in this, but we don't see it.

THE WAR NOT ENDED.—The Washington correspondent of the New York Evening Post says:

"Congress will act upon the theory that the war is not ended. It is precisely the ground occupied by the President and every one of the Departments of the Government. Volunteers not yet discharged have repeatedly demanded do be, in compliance with the terms of enlistment, and the reply has been invariably, "the war is not yet closed." The Treasury Department also holds, in reference to the payment of bounties, that the war still exists. The President, while he protects the freedmen with the bayonet, does it on the theory that the war has not yet come to an end. That is, time enough has not yet elapsed to satisfy the President and Congress that the people of the South are thoroughly loyal."

THE PRESIDENT AND MR. COLFAX.—President Johnson had a long and very cordial conversation on national affairs, last Saturday, with Mr. Colfax and Gen. Grant. The fact shows that the President does not, as certain South-side writers have pretended, find fault with Mr. Colfax for making his recent speech. He is still reported, however, as preferring a more expeditious mode of reconstruction than Mr. Colfax deems advisable.

— A twenty thousand dollar organ is building in Boston for Henry Ward Beecher's church. It will be the largest ever built in this country.

— The latest advices from Gen. Sheridan state that the Imperial troops are in pretty large force on the south side of the Rio Grande.

— As a Mr. Banks, of Biddeford, was at work with a splitting machine at the tannery in Somesville, on Saturday last, he caught his hand in the machine, lacerating his arm in a shocking manner, and fracturing the bone in two places.

— The man named Pellicier, who confessed the murder of Otero, the Cuban, in Brooklyn, and who gave information which led to the arrest of Gonzales, says his real name is Francesco Gibes of Salvador, and that he was born in a small village in the mountains of Arragon. The circumstantial and collateral evidence against both, is abundant and clear.

— A dispatch from Independence, Mo., dated Nov. 23, states that in "the trial between the Northern and Southern Methodists to-day, the rebels were beaten. The Northern Methodists are in full possession of the Church; all of the offenders were bound over. Civil law is triumphant in Jackson county, where it was trampled on in 1860."

NEW HAMPSHIRE ITEMS.

—— Benj. Chase Esq., of Auburn is collecting materials for a history of Chester, embracing to some extent that also of Candia, Raymond and Auburn, which originally belonged to Chester.

—— On Sabbath Oct. 15, there was a N. E. storm, which lasted nearly all day. In one village of three churches, no meetings were held because in all not more than five persons ventured out. But Rev. A. Folsom of Raymond, whose charge is the Methodist church in Epping, walked six miles to the meeting, preached to five in the forenoon and nine in the afternoon, and went back home in the evening. He is a man of 70 years.

WASHINGTON ITEMS.—The Secretary of the Treasury makes no secret of the fact that his forthcoming report on the finances will be merely an enlargement of the views recently presented in his Fort Wayne speech.

Robert Heth, committed to the Old Capitol Prison with Taylor, for appropriating to his own use $20,000 in specie belonging to the rebel Government, which fell into their hands after the capture of Richmond, has been released by order of the Secretary of War. H. Hitchcock and C. Molane have been released and turned over to the civil authority.

Gen. Spinner has secured the plate on which counterfeit coupons of the five-hundred-dollar Ten-forty bonds have been printed, and which was so admirably executed that the coupons almost defied detection. It was found hidden in a wall near New York, and was owned by Jerry Cowden, recently arrested for counterfeit fifty-cent currency notes, and now in jail at Newark, N. J.

A new counterfeit five dollar legal tender note has been detected, and it is known that they have been printed in Indianapolis, Ind. It can be known by its dark appearance and by the imperfect execution of the Goddess of Liberty on the left end. The imitation of the red seal of the Treasury is better than any one yet made by counterfeiters.

Dective Woods of the Treasury Department positively declares the plate from which the counterfeit one hundred dollar coupon interest notes have been printed is one of those executed in the Treasury Department, and must have been abstracted. Three hundred thousand dollars or more have been printed from this plate, and it is desirable to know whether it was really engraved in the Treasury.

BEEF CATTLE DECLINING AT THE WEST.—The matter of scarcity of cattle at the West has been harped upon for some time past as being one of the reasons why beef ought to be scarce and dear, but the Live Stock Reporter of last Wednesday seems to explode the statement. It says that on Wednesday last there was an abundance of stock at all the yards, of all qualities and grades, and no trustworthy demand for any description. Business was perfectly stagnant and prices altogether nominal. Unfavorable advices from the East had their effect upon the market. The Reporter closes its article by stating that the hog market is in the same paralyzed state, and that "there appears to be but one feeling among operators, namely, that the market for all grades of stock is the dullest ever known. This is also confirmed by the statements of our most experienced and trustworthy men, Drovers had better ship no stock here but good qualities, and those but in a limited way, until the present depression has passed away."

[This advice is eminently suggestive to the public, who may possibly have some voice in the matter, as well as the *operators*. Some new men in the business may bring prices down a peg or two.]

— The young lady who had a thousand acres of valuable land, which the young men said was sufficient grounds for attachment, did not marry as well as the young lady without a fortune, who had learned to discard all kinds of Saleratus or soda, save Herrick Allen's Gold Medal, which has no equal on this or the other Continent. Go, ye young ladies and, do likewise, and Dame Fortune will smile on you also. Everybody retails it, and most of the wholesale Grocers wholesale it. Depot 112 Liberty Street, New York. 15

DOUBTFUL NEWS.—The Government has received no intelligence confirmatory of the recently published exciting reports from the Rio Grande, involving our troops with the French.—And Perley telegraphs to this effect: "The rumors here of hostilities between the French and the United States troops on the Rio Grande, and of the departure of Gen. Grant for that department, appear to have been gotten up by the agents of gold speculators in New York. Gen. Grant has gone South, but only on a tour of inspection."

— A well-to do farmer came into Lewiston to sell his turkeys, chickens, &c., on Wednesday last, thinking Thursday was Thanksgiving. He was somewhat surprised when he was told that Thanksgiving did not come until the 7th of Dec. He sold his load as well as he could, and then, like a wise man, subscribed for a newspaper, saying that if he was fooled so again, it would not be because he took no paper.

POLICE COURT, Nov. 28.—"Stolen apples," we are told, "are sweet," but John Banks and John Gilleson found that, like the Dead Sea apples, such fruit turns to ashes upon the lip. On Monday evening a party of young men entered Mr. John Senter's shop on Summer street, and while one of them engaged the proprietor's attention, the two above-named individuals helped themselves to apples and cheese. Mr. S., considering this "not quite the cheese," caused their arrest. They were each fined $7, and $2.34 for one-half costs; and were also to pay Mr. Senter 75 cents, being treble the value of the goods stolen. Banks paid the $10.09 required of him, but Gilleson, not having the stamps, was bound to jail.

☞ At a meeting of the Trustees of the Rockingham Agricultural Society, on Monday, John H. Bailey of Portsmouth, was chosen Treasurer;—and A. J. Hoyt of Exeter, Greenleaf Brown of Stratham, and Moses Mann of Greenland, Auditors.

☞ "Steele Penn" furnishes the Evening Voice with an account of the meeting of the Committee appointed by the employees on the Navy Yard, and Congressmen Clark, Rollins and Marston. None of the Maine delegation were present, but all replied favorably by letter to the object proposed; which seems to us to be merely the placing of the Portsmouth Navy Yard on a fair footing as compared with other Government yards. Elbridge Pierce, Esq., chairman of the committee, and Chas. W. Stimson, master carpenter, presented the matter in a clear light, and were responded to most favorably by the honorable members. The yard being in Gen. Marston's district, he will probably be the one to bring the matter before Congress for a hearing.

☞ The annual public meeting of the City Missionary Society will be held on Sunday evening, at the Stone Church, commencing at 7 o'clock. The Report of the Missionary will be read, addresses are expected from various gentlemen, and a collection will be taken up *for the benefit of the poor* under his charge.

ABOUT ADVERTISING.—The following very sensible remarks are copied from the Louisiana Flag. They are true and to the point: We cannot censure a man in business who does not advertise if he has nothing worth advertising, but readers must know that the business man who throws out his sign in a newspaper, and is not ashamed of his stock of goods, can always furnish a better quality at lower prices than those who, either through shame or penuriousness, never let the public know what they have or what they are doing.

— Thousands of barrels of apples are awaiting shipment at Syracuse and other places in Western New York. The apples bring $3 to $5 per barrel at the various shipping points. Apple speculators who infested Western New York last fall and purchased all the fruit they could get, have got badly bitten. Canada and the West are taking from $1 50 to $3 per barrel out of their pockets.

THE REASON

Of my selling out just at a time when business is most brisk in Portsmouth, and seems to assume a permanency, awakens some curiosity in many a mind—I therefore am obliged to state that it is not seeking after a fortune induces me to leave my pleasant home of the past twelve years, to exchange it for the Southwest (Saint Louis.) My Wife's health being very feeble, and being advised many times during her suffering that change of climate would be beneficial to her—after two years' trial, with reluctance, I am thus obliged to leave a community whose remembrance will always afford me great pleasure.

Respectfully yours,

I. HAHN.

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; cause new hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, the discolored spots show more plainly on the face of a lady fair than of a brunette; but they greatly mar the beauty of either; and any preparation that will effectually remove them, *without injuring the tender skin of the lady*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know ought of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50.

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn, who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.

Sold by Druggists everywhere.

KNOWLEDGE OFTEN SAVES LIFE.
Every living being has in his system
IMPURITIES.
When these are within their natural limits, our health is good; but when they are in excess, pains, colds, rheumatism, gout, debility, costiveness, diarrhea, dysentery, erysipelas, &c., &c., afflict us. What we have to do to recover our health is to take out from the BOWELS AND THE CIRCULATION the excess of impurities. This done, health follows of necessity.

CITY ELECTION.

The election of municipal officers took place on Tuesday, Nov. 28, and was very quiet throughout, not nearly as exciting as some of the nominating caucuses. It resulted as the following tables show, in the re-election of Mayor Bailey by a large majority in a small vote; and the election of the Union Republican ticket entire, in every Ward.

MAYOR'S VOTE BY WARDS.

	Ward I	II	III	Total
Bailey	352	348	201	901
Webster	97	73	92	262

☞ The Concert this evening will draw out most of the lovers of good music, and their expectations of something unusually good will be proved to be well founded.

☞ From the Charlottetown (P. E. I.) Patriot we learn that the cargo of the bark Bunchinia, which recently went ashore at York, consisted of 9,279 bushels oats, 396 do. barley, 420 do. potatoes, 150 do. turnips, 4,695 lbs. butter, 10 barrels meal, 4 do. beets, 3 do. poultry, 2 do. eggs, 7 do. flax-seed, 5,500 lbs. pork in carcass, 300 lbs. mutton, do., 3,600 feet pine lumber.

— The Burlington Times is informed that the question submitted by the Governor of Vermont in regard to his power to appoint Senator Collamer's successor, the decision of the Supreme Court was unanimously in the affirmative.

— An Irishman was knocked down at the "ship yard," Marblehead, on Sunday night, by two of his countrymen, robbed of $200, and shockingly beaten. The ruffians made their escape, but after diligent search were found concealed in the neighborhood and arrested.

— The owners of the steamer St. John have settled $4000 on the little Montreal girl whose parents were killed by the explosion of the boiler on that boat.

— What is the best thing to do in a hurry? Nothing.

NEW YORK ITEMS.—A gang of roughs at Astoria, Monday, while enjoying a riot and pillaging the citizens, were dispersed by a small force of New York police, nearly every one of the roughs having a head cracked by the clubs of the police.

The health officers have decided to allow the Atlanta's passengers who are bound out of the city, to leave quarantine.

Dr. Sayre says that the statement in the evening papers that a case of cholera had occurred in New York city is unfounded.

A recruiting office for the Haytien Navy has been established in Brooklyn. The pay offered is $80 per month.

[In *which* Haytion Navy?—The *rebel* navy, pitted against the English, will be pirates. The navy of Geffrard certainly cannot pay $80 per month, in any currency worth taking.]

MYSTERIOUS.—The friends of John H. Southwick of this city, who mysteriously disappeared on the 12th of October, have received a letter from him at Chicago, requesting them to send him $50 or they will never see him alive. It will be remembered that, having recently opened a grocery store, he left for Boston on the morning above named, with three hundred dollars in cash, to buy goods, and nothing has been heard of him until now since his arrival at the Providence railroad in that city.—*New Bedford Sthndard.*

[What is the mystery? Has the man been drioking? or gambling? or both?]

— When the war broke out the wealth of the people of Georgia was estimated at $840,000,000. Now it is said to be less than $419,000,000. Of this decrease, the value of the emancipated slaves constitutes nearly one-half. As they all remain in the State, however, there is no real loss as far as they are concerned. Their labor (which was their value) is not lost.

— A hurricane visited South Adams, Mass., on the 21st, sweeping everything before it. It was confined to a narrow limit, but nothing that lay in its path could withstand its force. It took the heavy team wagons used on the tunnel right off the ground, and carried some of them several rods. It also raised the railroad bridge just this side of South Adams, six feet from its foundation.

— A Washinton dispatch states that no part of the President's Message has received so much care as that portion referring to our relations with Mexico. His position is understood to be that while we are not indifferent to transpiring events in Mexico, interference on our part is unnecessary.

— A gentleman just from Appomattox Court House states that "there is nothing left of the apple tree under which Gen. Lee surrendered but a red hole in the ground, and it is feared that unless the hole is fenced in that also will be removed by curiosity seekers."

— The Portland Argus says that during the late severe easterly storm a quantity of goods from the cargo of the wrocked steamer Bohemian was washed ashore, and also a large piece of the lower deck. The goods though they had been under water upward of two years, were in very good condition.

☞ Special attention is invited to the advertisement of Vance's patent Submerged Well *Pump*, as an article far superior to any other pump ever offered to the public.

A NEAT REPLY.—"I dislike your saying that my teeth are going. So dol." Said a young lady to her beau. "Not 'So dont,' but 'So-so-dont' you should have said," he replied. The damsel pouted, but took the hint. Nor need it be said that the balsamic preparation arrested the evil, though it could quite repair the damage already done. n27eod1w

THE GREAT
CONSUMPTIVE REMEDY!
DR. LAROOKAH'S
Indian Vegetable Pulmonic Syrup!
The best preparation ever made for the following complaints:
Colds, Coughs, Whooping Cough, Croup, Asthma, Catarrh, Bronchitis, Spitting Blood, Pain in the Side, Night Sweats, Humors, General Debility, Liver Complaints, and Throat and Lung Complaints tending to Consumption.
This well known remedy is offered to the public, sanctioned by the experience of many years, and when resorted to in season, seldom, if ever, fails to effect a speedy cure of any of the above complaints. Those who have not already made use of this nerve falling Remedy I have only to refer to the written testimonials of Hundreds of our most distinguished citizens: Clergymen, Doctors, Congressmen, Lawyers, Singers and Public Speakers, and last but not least, many hundreds of Private Citizens, both Male and Female, who have been restored to health, when all expectation of being cured was a forlorn hope." My limited space will only admit of the following extracts of Unsolicited Testimonials:
REV. J. C. INGALLS, *of Melrose, Mass.*, says:—"LAROOKAH'S I. V. P. SYRUP, for Pulmonary Diseases, stands unrivalled by any medicine yet discovered; it has completely cured me of Bronchitis of six years standing."
REV. B. F. BOWLES, *of Manchester, N. H.*, says: "Dr. Larookah's Pulmonic Syrup I would confidently recommend for Hoarseness and severe Colds."
REV. G. C. SIMMONS, *Gansevoort, Sar. Co., N. Y.*, says: "I feel it my duty to say that Dr. Larookah's Syrup is the best medicine we ever used in our family."
DR. PORTER, *of Northfield, Vt.*, says: "Larookah's Syrup is the best medicine for Colds, Coughs, &c.; he knows of it in the same light."
HON. D. W. GOOCH, *Member of Congress from Massachusetts*, says: "I have used Dr. Larookah's Syrup in my family for six years, and have found it an excellent remedy for Cough, Cold, Sore Throat, and all Consumptive complaints. I have recommended it to several friends, who have received great benefit from its use."
W. R. BOWEN, 88 *Hanover St., Boston*, a well known druggist of 20 years experience, says: "I am prepared to say, Larookah's Syrup is superior to any medicine I have ever known, for the positive cure of Coughs, Colds, Sore Throat, and all similar complaints."
Price 50 cents and $1.00 per Bottle.
DR. LAROOKAH'S
SARSAPARILLA COMPOUND!
It is double the strength of any other Sarsaparilla Compound in the market.
For the cure of Liver Complaint, Dyspepsia, Scrofula, Dropsy, Neuralia, Rheumatism, Boils, Tumors, Salt Rheum, Ulcers and Sores, Rheumatism, Pain in the Stomach, side, and Bowels, Debility, and all complaints arising from impurities of the BLOOD.
The trial of a single Bottle of either will gain the confidence of the sick.
PREPARED BY S. SEVERY,
Price $1.00 per Bottle.

GEO. C. GOODWIN & CO., M. S. BURR & CO., and WEEKS & POTTER,
Wholesale Druggists, Boston, Mass.
Are now prepared to supply Hospitals, Physicians, and the trade, with the standard and invaluable remedy,
DODD'S NERVINE.
This article supasses all known preparations for the cure of all forms of
Nervousness!
It is rapidly superseding all preparations of Opium and Valerian—the well known result of which is to produce Costiveness and other injurious difficulties—as it allays Irritation, Restlessness and Spasms, and induces regular action of the bowels and secretive organs.
No preparation for Nervous Diseases ever sold so readily or met with such universal approval. For Fits, Sleeplessness, Loss of Energy, Peculiar Female Weaknesses and Irregularities, and all the fearful mental and bodily symptoms that follow in the train of nervous disease, Dodd's Nervine is the best remedy known to science. Sold by all Druggists. Price $1.00.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, 25d.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased 800 per cent. population within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Capital is the only thing wanting to business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultura Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* nl—dawém

☞ For our part we are quite of the opinion of Josh Billings:

"Everybody, at some time in their life, has tried the single state: also most everybody has hankered after the double state or condishun. I have tried both states, and am ready to swear, that if a man kan git a woman who kan fri pancakes on both sides without burning them, and don't hanker to be a woman's committy, the marrid state is a heven and awl to onst. But after awl, the marrid state is a good deal like falling off a cherry tree: if a person don't happen tew git hurt, it is a good reason for not trieing it over again."

— Contract Surgeon Mary E. HOWE'S SEWING MACHINE!

The Best Machine in the Market!

The people of Portsmouth and vicinity are respectfully informed that I have taken the Agency of the above beautiful Sewing Machine, and am now prepared to promptly supply the same, either by wholesale or the single machine.

☞ *No Family can afford to be without one of these vast Labor-Savers.* ☜

Why is this the best Sewing Machine ever invented? Because—

1st. It is better made than any other.

2d. It runs with less noise.

3d. It is much less liable to get out of order

4th. No other Machine works so small a needle.

5th. It is the cheapest Machine, because the best.

6th. It has improvements over every other Machine.

The better the work performed, the better the price obtained; hence that Machine which produces the best work is the most profitable.

FOR FAMILIES,

MERCHANT TAILORS,

BOOT AND SHOE

MANUFACTURERS,

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for Indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Caballo, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,

S. D. C. HENRIQUEZ,
Merchant, Curacoa, S. A.

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

CHEROKEE CURE,

THE GREAT

INDIAN MEDICINE,

Cures all diseases caused by pollution, viz:—*Spermatorrhea, Seminal - Weakness, Night - Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption, Convulsions*, and all those that follow as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhea, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in the treatment of *Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $2, " $5.

The Cherokee "Cure," "Remedy," and "Injection" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their superior merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money on the sale of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us in *perfect confidence.* We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

BUTTER A DOLLAR A POUND.

BY PAPKINS.

AIR.—"*Who will care for mother now.*"

See the kine so sleek and hairy,
Calmly chewing at their cud;
Pasturs green around them growing,
Also butter buzzing in the wood.
Tell them that you'd know their answer,
As you question every cow—
"Mooey, tell me—tell me truly,
Who can pay for butter now?"

CHORUS.

Around the markets I am marching,
Asking who will tell me how,
In the name of all that's fearful,
"Who can pay for butter now?

The farmers tell us to our sorrow,
That cows are very "dry" this year,
But who from this can comfort borrow,
While butter's so extremely dear.
Should you offer them but *ninety*,
They'd kick up a precious row,
So I insist on loudly bawling—
"Who can pay for butter now?

O, I will soak my bread in gravy!
Or any other kind of grease,
Thus making all those greedy farmers
Gladly sue for terms of peace.
But while they still keep up their prices.
To imposition I'll yield bow,
And tell them plainly to their faces,
"I'm blowed if I buy butter now!"

"AND W'AT A FALL WAS THERE, MY COUNTRYMEN.—Kit Carson is said to wear his hair in the waterfall style.

The New Orleans Picayune says the city is full of people, and that there is a cataract or rather water-fall of beauty on Canal Street every day.

The Portland Advertiser perpretrates the following:

Stewart—"I say, Jones, did you hear of that accident that happened this morning?"
Jones—"No, what was it?"
Stewart—"Why, a young lady of my acquaintance was accidentally drowned."
Jones—"How did that happen?"
Stewart—"Oh, she burst her Water fall." (Exit Stewart, followed by Jones' boot-toe.)

ANIMAL GRAFTING.—Some experiments in what is termed animal grafting have recently been described by Dr. Beri, in a paper forwarded to the French Academy of Science. He says "that if the tail of a rat be cut off, skinned, and then inserted under the skin of the same animal, it will live and grow as before. It a fracture is effected, these fractured parts will join again exactly as it the tail were in its natural place; in short, both physiologically and pathologically, the grafted part follows the general laws of nature." These experiments may be interesting to the philosopher, but they must ask for them. Address

— It is stated, on what seems to be good authority, that the skull of Ben Johnson has been abstracted from his coffin in Westminster Abbey, by a person who has added it to his private cabinet of curiosities.

— The death of the fattest man in the world, M. Helm, is recorded. He was German by origin, and employed in Paris as translator of foreign correspondence. His age was 42; he weighed 500 lbs., and latterly was unable to pass through doors of ordinary dimensions.

GREAT CHANCE
—FOR—
AGENTS.
WHAT THE PEOPLE WANT:
THE
STANDARD
HISTORY OF THE WAR,
COMPLETE IN ONE VERY LARGE VOLUME OF OVER 1000 PAGES.
This work has no rival as a candid, lucid, complete, authentic and reliable history of the "Great Conflict." It contains reading matter equal to three large royal octavo volumes, splendidly illustrated with over 150 fine portraits of Generals, battle scenes, maps and diagrams.
In the selection of matter, for this great work, the author has confined himself strictly to *official data*, derived from the reports of Northern and Southern Generals, the Report of the Committee on the Conduct of the War, National and Rebel Archives, &c. &c.
He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *impartial* History of the War.
Returned and disabled officers and soldiers, and energetic young men in want of profitable employment will find this a rare chance to make money. We have Agents clearing $250 per month, which we will prove to any doubting applicant; for proof of the above send for circulars and see our terms. Address, JONES BROS. & CO., 14 Phœnix Building, Boston.

GET READY! A NEW VOLUME! Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience, and unlimited means, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the youth and unmanlies the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate. Medicines sent to all parts of the country, with full directions for using, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Relations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his attention to one class of cases, notice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, NOVEMBER 30, 1865.

THE N. H. FREEDMEN'S ASSOCIATION has recently issued a Circular to the good people of the State, in which is fairly stated the condition of the Freedmen; many thousands of whom by their own industry, and by favoring circumstances, are maintaining themselves, educating their children, and enjoying not only freedom, but many of the substantial comforts of life.

But there remain the equally industrious but less fortunate, who can find neither work nor wages until the planting season returns; besides the infirm and the thousands upon thousands of orphans, whose mothers cannot be found, and whose fathers gave up their lives that we might celebrate our peace.

A large sum of money is needed immediately for the purchase of blankets and personal clothing, for the erection of temporary shelters, and for the opening and maintenance of additional orphan asylums.

In view of this condition of the Freedmen it seems a duty that all human people, should make an immediate and systematic effort for their relief.

We would recommend that town or city societies or committees be formed without delay; that the officers of the late Sanitary and Christian Commissions work for the Freedmen; that towns and parishes be canvassed for money and clothing; that public speakers, especially those who have been South, volunteer their services for public meetings; and yet that no people wait for the call or aid of an agent.

Clothing should be packed in strong boxes or barrels. On each case or barrel put the name of the person sending it and the place whence sent. Send a list of the contents in each package and a duplicate of the same by mail to E. C. Estes, Business Agent, 76 John street, New York. Mark each package thus: N. Y. N. F. R. A., 76 John street, New York. From ——.

Goods should be forwarded to New York by the Boston, Worcester and Norwich transportation line, sent by way of Boston or Worcester. Small packages from country towns may be sent to Concord, care of Deacon Caleb Parker. The expense on the Norwich line will be paid at New York. By a little effort, expressmen and transportation agents may be induced to carry to Boston or Worcester at small expense if any. All money should be sent to Edward P. Prescott, No. 42, Railroad Square, Concord, N. H.

By order of the Executive Committee of the N. H. Freedmen's Relief Association.

ABRAHAM J. PRESCOTT, Sec'y.

Officers of the N. H. Freedmen's Association:

President—Gov. Frederick Smyth.

Vice Presidents—Hon. Ichabod Goodwin, Rockingham County; Hon. Charles A. Tufts, Strafford County, &c.

Sec.—Abraham J. Prescott.

Treas.—Edward P. Prescott, Esq.

Executive Com.—Dea. Caleb Parker, Rev. Silas Curtis, Hon. Sylvester Dana, Dr. Moses T. Willard, Nathaniel White, Esq., Joshua B. Merrill, Esq., Dea. James Morgan.

AN ECCENTRIC CENTENNARIAN.—The Philadelphia Press gives an interesting sketch of an old man residing in Northumberland county, Pa., who is about one hundred and eight years of age, and so smart and active that he walks ten miles in half a day without any apparent fatigue. He has in his house twenty-four clocks, all going, one a little faster than the other, so that there is almost a continual clock-striking. He refuses to sell one of them, and says they are his only company at night. He has an out-house filled with shovels, forks, pitchforks, chains, &c., and refuses to sell or lend them to any person. He keeps a diary of his life, and has for three quarters of a century recorded all the births, baptisms, marriages and deaths in his neighborhood, together with all remarkable events. He was born in Germany, and when a boy came to Pennsylvania, having sold himself for his passage to servitude for seven years, and is now a man of wealth.

DISTRIBUTION OF THE SEXES.—The number of males in the United States is 13,685,854, against 13,004,372 females, showing 681,462 excess of males, according to the census of 1860; so that there is now more than a man to every woman, spite of the loss by the war. In Europe, exclusive of Russia, Turkey, Prussia, Switzerland and Austria, there are 51,350,796 males and 52,346,918 females, showing an excess of 996,122 females. This difference in Europe is accounted for by the fact that 942,068 more males than females have emigrated to America. That accounts for the excess of males in this country. Had it not been for this we should have near 300,000 more females than males. Had the emigration of the sexes been equal, there would be in Europe about 100,000 more females than males, so that this country is far more favorable than Europe to the increase and preservation of females.

— The grand jury in Chicago has indicted all the proprietors of the slaughter houses and soap factories in that city who create nuisances.

NEW HAMPSHIRE ITEMS.

—— A lead mine has been discovered on the farm of Mr. Horace Stickney, in East Hanover, and a company formed to work it.

—— Mr. Frederick Livingston has sold his interest in "Old Bell Factory," Peterborough, to a New York firm, who will at once make extensive addition and repairs.

—— During the gale on Tuesday night the steeple of the Congregational church in Sullivan, was broken off at the belfry, and fell, breaking through the roof, and filling the singers' seats with the wreck.

—— On Thursday as the local freight train passed the station at So. Keene, Mr. Tuttle, the agent at that depot, fell beneath it. He was found upon the track with his head cut off.

—— Mr. J. C. Sturtevant, furniture manufacturer at Lebanon, has heavy contracts for furniture for the South. The other day he sent off a lot of sash for Libby Prison in Richmond.

—— At Dover, on Tuesday, Joshua G. Hall, Esq., Republican candidate for Mayor, had 540 votes; John L. Platts, Esq., Citizens', 294; Republican majority 246. Every Republican candidate was elected. The vote was light and everything quiet.

—— Miss Jennie Clement of Salisbury, at work in Daniell's paper mill at Franklin, was caught by some machinery on Saturday, and drawn around in such a manner as to crush the thumb of the right hand off, and break the bones of the right fore arm.

—— A tumor weighing ten pounds was recently cut from the back of Gilson Chiles of Stratham, a young man, by Dr. Gordon, late of the 15th Maine regiment. The operation took over three hours for its accomplishment.

—— The Wilton Railroad Company are surveying the route from East Wilton to Peterboro'. Starting from the depot at East Wilton the grade will be nearly eighty feet to the mile for five miles. The remainder of the distance will be very level.

—— The Independent Democrat says: "The second tier of pillars have been raised in front of the State House, and the Corinthian capitals are being placed upon them. The work upon the cupola is progressing well. When completed we shall have one of the finest Capitols in New England."

—— There was a good full Union meeting held in Concord Sunday night, in the South Congregational Church, which was opened with reading the 53th chapter of Isaiah, and prayer by Rev. Mr. Connor of Universalist Church, and closed by a collection of money and pledges of $453 for the Freedmen's Aid Society. Of this sum, Nath'l White, Esq., gives $240, to support a teacher.

— About 530 prisoners are now in confinement at the Dry Tortugas.

— A gentleman in traveling along the coast of Florida and Georgia found a woman who did not know what a newspaper was. She had seven children, and a pipe in her mouth.
